INTRODUCTION.

In venturing to lay before the public a Vocabulary of the colloquial language of the United States, some explanation may be necessary for the broad ground I have been led to occupy.

I began to make a list of such words as appeared to be, or at least such as had generally been called Americanisms, or peculiar to the United States, and, at the same time, made reference to the several authors in whose writings they appeared; not knowing whether, in reality, they were of native growth, or whether they had been introduced from England. When this list had expanded so as to embrace a large number of the words used in familiar conversation, both among the educated as well as among the uneducated and rustic classes, the next object was to examine the dialects and provincialisms of those parts of England from which the early settlers of New England and our other colonies emigrated.

The provincialisms of New England are more familiar to our ears than those of any other section of the United States, as they are not confined within the limits of those States, but have extended to New York, Ohio, Indiana, Illinois and Michigan; which States have been, to a great extent, settled by emigrants from New England.

On comparing these familiar words with the provincial and colloquial language of the northern counties of England, a most striking resemblance appeared, not only in the words commonly regarded as peculiar to New England, but in the dialectical pronunciation of certain words, and in the general tone
and accent. In fact, it may be said, without exaggeration, that nine tenths of the colloquial peculiarities of New England are derived directly from Great Britain; and that they are now provincial in those parts from which the early colonists emigrated, or are to be found in the writings of well accredited authors of the period when that emigration took place. Consequently, it is obvious, that we have the best authority for the use of the words referred to.

It may be insisted, therefore, that the idiom of New England is as pure English, taken as a whole, as was spoken in England at the period when these colonies were settled. In making this assertion, I do not take as a standard the nasal twang, the drawling enunciation, or those perversions of language which the ignorant and uneducated adopt. Nor would I acknowledge the abuse of many of our most useful words. For these perversions I make no other defence or apology, but that they occur in all countries, and in every language.

Having found the case to be as stated, I had next to decide between a vocabulary of words of purely American origin, or one in which should be embraced all those words usually called provincial or vulgar—all the words, whatever be their origin, which are used in familiar conversation, and but seldom employed in composition—all the perversions of language, and abuses of words into which people, in certain sections of the country, have fallen, and some of those remarkable and ludicrous forms of speech which have been adopted in the Western States. The latter plan seemed the most satisfactory, and this I determined to adopt.

With so broad a ground, many words must necessarily be embraced, which are to be found in the dictionaries of Drs. Johnson and Webster, with the remark that they are low, or vulgar, or only to be heard in familiar conversation. Another class, not in the dictionaries referred to, is contained in the provincial glossaries of England. A third class, entirely distinct from the preceding, consists of slang words which are not noticed by lexicographers, yet are so much employed as to deserve a place in a glossary.

Such is the plan which I have thought most advisable to
INTRODUCTION.

adopt, and which I hope will give satisfaction. In carrying out this plan, I have endeavored to give the most accurate definitions, citing the authorities in all cases where I have been enabled to find any. Except as regards words of purely American origin, (e. g. those derived from the Indian languages and from the Dutch,) I have generally kept aloof from etymologies and etymological discussions. These the reader will find in abundance—such as they are—in the works of Johnson, Todd, Webster, and others.

Words of a provincial character, and such as have become obsolete in composition, are often of doubtful signification. Illustrations, from well known authors, wherein such words are employed, are of service in arriving at their true meaning. These have been employed in the present glossary, and serve the double purpose of illustration, and of rendering the book more readable than if confined to a dry collection of definitions. This mode of showing the sense in which words have been employed by authors, was first practised on a comprehensive scale by Dr. Johnson, whose labors are thereby greatly enhanced in value to the philologist; and has since been carried out more completely in Mr. Richardson's dictionary.

The class of words which are purely American in their origin and use, I have also attempted to illustrate, by extracts from American authors, whose writings relate to that class of people among which these words are chiefly found. These books contain descriptions of country life, scenes in the backwoods, popular tales, &c., in which the colloquial or familiar language of particular States predominates. The humorous writings of Judge Haliburton of Nova Scotia, give a tolerably correct though exaggerated specimen of the provincialisms of New England. The letters of Major Downing are of the same character, and portray the dialect of New England with less exaggeration. There are no books in which the Western words and phrases are so fully exhibited; though all the works which aim to illustrate Western life, contain more or less of the idioms peculiar to the people. Judge Hall, Mrs. Kirkland (Mary Clavers), the author of the New Purchase, Charles F. Hoffman, and various tourists, have displayed in their several
INTRODUCTION.

works the peculiarities of the people of the West, and occa-
sionally their language. Mr. Crockett, however, himself a
native of that region, associating from infancy with its woods-
men, hunters, and farmers, whose language is full of quaint
words and figures of speech, has unintentionally made us better
acquainted with the colloquial language of the West than any
other author.

I am also indebted to a series of books published by Messrs.
Cary and Hart, called the "Library of Humorous American
Works," which consist of a series of tales and adventures in the
South-west and West by Wm. T. Porter, editor of the New
York Spirit of the Times; John S. Robb and J. M. Field,
Esquires, of St. Louis, Missouri; the editor of the New Orleans
Picayune, and some anonymous writers. In these several
works, the drolleries and quaint sayings of the West are ad-
mirably incorporated into tales of the settlers, their manners and
customs, vivid descriptions of Western scenery, political and
dramatic scenes, etc. We have no books which present so
graphic an account of Western life, related in the exaggerated
and metaphorical language peculiar to the people of that
region.

In Southern provincialisms I find myself most deficient, hav-
ing seen no books except Major Jones's "Courtship" and
"Sketches," "Georgia Scenes," and "Sherwood's Gazetteer of
Georgia," in which however a considerable number of local
words are to be found.

The newspapers have afforded me many illustrations of the
use of words, which I have not failed to make use of. These
illustrations, it will be seen, are chiefly from the New York
papers, viz. the Commercial Advertiser, the Tribune, and the
Herald, for the simple reason that I have been in the practice of
reading them daily. When I met with a word or phrase pecu-
liarly American, or one which was employed in a sense differing
from the use of the same in England, it was at once noticed and
secured. All our newspapers contain more or less colloquial
words; in fact, there seems no other way of expressing certain
ideas connected with passing events of every day life, with
the requisite force and piquancy. In the English newspapers
INTRODUCTION.

the same thing is observable, and certain of them contain more of the class denominated slang words than our own. The Whig papers throughout the United States employ certain political terms in advocating the principles of their party, and in denouncing those of their opponents. The Democratic papers pursue a similar course. The advocates and opponents of Abolition, Fourierism, etc., invent and employ many words peculiar to themselves. So with the religious sects; each new-fangled notion brings into existence some addition to our language, though that addition is not always an improvement.

The value of this glossary would have been greatly enhanced, if, as is usual in the compilation of similar works, I had been able to avail myself of the assistance of persons residing in various parts of our country. No collection of words, professing to contain the colloquial language of the entire country, can approach any degree of completeness or correctness, without the aid of many hands and heads. None but a native of New England, educated on her soil, and who has mingled with all classes of society, has the requisite familiarity with the words and phrases peculiar to her people. So with the Western and Southern provincialisms. One born and brought up where they are spoken, who has heard and used them when a boy, and grown up in their midst, can portray them in their true sense. The aid of such persons it was impossible to procure, and the words here brought together have been, with very few exceptions, collected by myself. The deficiencies and imperfections are such, therefore, as could not be avoided under the circumstances.

The words of Dutch origin, most if not all of which are used or understood in the city of New York and those portions of its vicinity colonized by natives of Holland, were furnished by Mr. Alexander J. Cotheal, a gentlemen born and educated in New York, whose learning in other branches of philological science is well known to many. A few other words have been given me from time to time by other friends, who knew that I was making this collection. To all of these I am happy to express my acknowledgments.
INTRODUCTION.

When the work had advanced far towards completion, and one half had been put in type, the occurrence of some terms, common in political language, the exact meaning of which was not clear, led me to apply to my friend John Inman, Esq., editor of the New York Commercial Advertiser, for aid. He readily complied with my request, and kindly furnished the definitions of several terms of daily occurrence in the political language of the day. I regret that I did not have his valuable aid in defining and illustrating the use of words and phrases which occur in the early part of this glossary. The contributions of Mr. Inman are acknowledged where they appear.

To my friend Mr. Wm. W. Turner, I am under great obligations for aid rendered me in preparing this work for the press. Mr. Turner’s extensive acquaintance with the European and Oriental languages, together with an unusual sagacity in philological criticism, have peculiarly fitted him to give aid in the preparation of a work like this. I have, therefore, submitted the whole to his supervision, and adopted his views in all my conclusions. At his suggestion, I have struck out many etymologies taken from standard dictionaries, which it was evident were wholly erroneous.

In noticing the words embraced in this glossary, the reader will probably think that many have been admitted which ought not to have a place in a Dictionary of American Provincialisms. From what has already been said, it will be seen that it is very difficult to draw the line between what should be admitted and what excluded; and I have thought it better to err on the side of copiousness, than by too rigid a system of selection to run into the opposite extreme.

A careful perusal of nearly all the English glossaries, has enabled me to select what appeared most desirable to embrace, and what to avoid, in an American book of a similar kind. Cant words, except such as are in general use, the terms used at gaming houses, purely technical words, and those only known to certain trades, obscene and blasphemous words, have been discarded.

For a better understanding of the subject, as well as to show the importance of collecting and preserving the colloquial
INTRODUCTION.

dialects of our country, I have prefixed to the Vocabulary some remarks on language, in which the reader will find that the study of dialects and provincialisms is considered as worthy the attention of philologists, as the investigation of the language of literature.

DIALECTS OF ENGLAND.

The most recent investigations in which the science of philology has been brought to bear on the English language, have shown that it is of purely Gothic origin, descended through languages of which sufficient remains to make grammatical as well as etymological comparisons practicable. It is true that some have regarded it as a perfect mongrel, without any natural parent, compounded of various languages and dialects, Greek, Latin, Saxon, French, Welsh, etc., etc. But although the language is very much mixed, it is a question whether it is not as pure, and as closely allied to the Anglo-Saxon and Meso-Gothic, as the languages in the south of Europe are to the Latin. Or, in other words, it is probable that the English is not more impregnated with words of the Latin stock, than the Italian, French, Spanish, and Portuguese are with words of the Teutonic stock.

The natural tendency of language is to improve; and when a people cannot express in a comprehensive manner a particular idea or shade of meaning, they either form a word to denote it from a root or roots already in the language, or borrow a word from other languages which expresses it already.

With regard to the English language this last mentioned process has been adopted to an extent which, while it has enriched our vocabulary with a vast number of terms, has, it must be confessed, greatly impaired its reproductive power. The original substratum of Anglo-Saxon speech has been overlaid with multitudes of common and conversational words from
INTRODUCTION.

the French, literary and ecclesiastical terms from the Latin, and technicalities from the Greek; and the process is constantly going on. Yet in spite of these immense accessions to its vocabulary, the structure of the English has remained in all essential respects the same from the period when it first became a language. Moreover, the number of foreign importations contained in our dictionaries gives by no means a correct idea of the number of such words which we actually make use of. The greater part of our household, colloquial, and poetical expressions are Saxon, and so are all those important words called particles, on which the whole structure of speech hinges; whereas an immense number of the words derived from other sources belong exclusively to the language of books, and many even to particular sciences.

There is another fact to be observed, which is that these different classes of words are not used in the same proportion by all members of society. Persons without education, and who are consequently not familiar with the language of literature, employ almost exclusively in their conversation the simple and expressive Saxon terms; while persons belonging to the more favored classes of society, supply the place of many of these terms by others derived from the language of books. The old words thus discarded, which are often far more expressive and more consonant to the genius of the language than the apparently more elegant novelties by which they are supplanted, are from that time considered as the exclusive property of the common people, and receive the name of provincial, colloquial, or vulgar.

But notwithstanding all this, the common speech often enters largely into composition, and in some instances constitutes the chief excellence of a writer. In dramatic composition the colloquial language predominates. In Shakspeare we find every variety of idiom of which the English language is susceptible, from the loftiest flights of the statesman and philosopher to the familiar language of the lowest of the people. In Ben Jonson, Beaumont and Fletcher, Shirley, and other dramatic authors, we find the familiar idiom to be the most prevalent.
INTRODUCTION.

If we examine the literature of other countries, we shall find that the colloquial tongue has been employed in written compositions of a similar kind and with equal success. In addition to Aristophanes and Plautus among the ancients, Don Quixote may be mentioned as an example in Spain, and the writings of Rabelais and Molière in France. The colloquial dialect is generally more ancient than the literary language; as the latter is constantly changing, while the former remains nearly stationary.

If any person will take the trouble to examine the early dictionaries of the English language, or the dictionaries of which English forms a part, he will be surprised at the large number of words which have become so completely obsolete as to be undeserving a place in modern compilations. Even the English dictionary of Bailey, which, at the time Dr. Johnson published his, was the standard, abounds in words which are now never used in composition. This class of words was employed by authors from Chaucer’s time, or about the year 1400, to the beginning of the seventeenth century. By the middle of that century they had ceased to be used in books, but were preserved in dictionaries for a century longer. The great mass of them, however, are found in one or more of the numerous provincial dialects of England to the present day.

The dialects of the English language now spoken in England have existed from a very early period. It is not pretended by writers on the subject that any are of recent origin. "In early times," says Dr. Bosworth, "there was clearly a considerable dialectic variety in the writings of men residing in different provinces. The differences observable in the language of the most cultivated classes would be still more marked and apparent in the mass of population, or in the less educated community. These, from their agricultural pursuits, had little communication with the inhabitants of other provinces; and having few opportunities and little inducement to leave their own neighborhood, they intermarried among each other, and, from their limited acquaintance and circumscribed views, they would naturally be much attached to their old manners, customs, and language. The same cause operating from age to age would keep united the greater part of the population, or the families of the middle

stations of life; it may, therefore, be well expected that much of the peculiarity of dialect prevalent in Anglo-Saxon times, is preserved even to the present day in the provincial dialects of the same districts. In these local dialects, then, remnants of the Anglo-Saxon tongue may be found in the least altered, most uncorrupt, and therefore its purest state.**

In an ethnological point of view the English dialects afford important materials for elucidating that portion of English history which relates to the early colonization of Great Britain; for, if history were silent on the subject, a philological test applied to the dialects of the country would show what nations contributed to its colonization.

The Edinburgh Review for April, 1844, in an article on the Provincialisms of the European Languages, gives the following results of an inquiry into the number of provincial words which had then been arrested by local glossaries:

"Admitting that several of the foregoing are synonymous, superfluous, or common to each county, there are nevertheless many of them which, although alike orthographically, are vastly dissimilar in signification. Making these allowances, they amount to a little more than 20,000; or, according to the number of English counties hitherto illustrated, to the average ratio of 1478 to a county. Calculating the twenty-six unpublished in the same ratio (for there are supposed to be as many words collected by persons who have never published them) they will furnish 36,428 additional provincialisms, forming in the aggregate 59,000 words in the colloquial tongue of the lower classes, which can, for the chief part, produce proofs of legitimate origin."

INTRODUCTION.

Since the above was written, a most important contribution to this department of literature has been made in the publication of "A Dictionary of Archaic and Provincial Words, Obsolete Phrases, Proverbs, and Ancient Customs, from the fourteenth Century. By J. O. Halliwell. 2 vols. 8vo., London, 1847." This admirable work actually contains 50,000 words, a great portion of which are illustrated by extracts from manuscripts. It will be found by most persons to amply supply the place of the numerous separate glossaries for studying the dialects of England, while it affords indispensable assistance for the correct understanding of the early writers.

As it does not fall within the scope of these inquiries to discuss the languages with which the English bears a relationship, we shall pass over these, and come at once to the Anglo-Saxon. This forms the basis of the English language, and is to be considered as the mother-tongue, upon which many words and phrases from other languages, at successive periods, during a space of fourteen centuries, have been engrafted.

The Saxons brought their language into Britain in the year 449, when the invasion under Hengist took place. What the language was at this period it is impossible to show, as no writings of the time have come down to us. It probably approached nearer to its immediate progenitor, the Low German and Moeso-Gothic, than the form it assumed several centuries later, when we first find written documents.

The large number of invaders who followed Hengist compelled the ancient inhabitants to retire; and in about a century the whole country was formed into a Saxon kingdom, wherein their language took the place of the Celtic. This language, thus introduced and so firmly established, has been called pure Saxon by the learned Dr. Hickes in his "Thesaurus Veterum Linguarum Septentrionalium."

The languages of the Angles and Saxons were closely allied to each other. In fact, from a comparison of the earliest speci-
mens that have come down to us, it is evident that they were merely dialects of the same tongue, spoken by peoples living contiguous to each other. The other Gothic invaders or colonists of Britain, who have left traces of their language, are the Jutes of Jutland and the Friesians of Friesland.

The Danes made their first descent on the English coast in 787, and were soon repelled. Successive invasions followed, and while Charlemagne compelled them to retreat before his victorious armies, they sought a refuge in Britain, laying waste the country and plundering wherever they came. The Saxons always got rid of them as soon as possible, either by force of arms or contributions of money. Yet, in many instances, they established colonies, and after 230 years of warfare they succeeded in raising a Danish king to the throne of England in the year 1017. His reign, however, was short; for in 24 years the Danish dynasty was extinct, and a Saxon king again succeeded.

This is the period where Dr. Hickes places the second stage of the Anglo-Saxon language, being that in which it was affected by the Danish invasions, receiving new words or dialectical changes. Mr. Forby, in his remarks on the dialect of East Anglia, says that no part of England was more completely overrun or longer occupied than this; but he denies that a number of words sufficiently large was imported to give a new color and character to the Saxon tongue.*

“The French element appeared in our language with the battle of Hastings (A. D. 1066), perhaps in a slight degree during the reign of Edward the Confessor.”† It is the dialect spoken in the northern parts of France and denominated Norman French, which has had the greatest influence upon the English language.

AMERICAN DIALECTS.

Dialects originate in various ways. First, by the proximity of nations speaking different languages, in which case many words and phrases are borrowed from one into the other; witness the Scotch and Irish dialects of the English. Secondly, by migrations. This is the most fruitful and permanent source of dialects. We see its effects in the English language; for the immigration of various nations into Great Britain from the Saxons down to the period of the Norman conquest are yet distinctly marked in the dialects of that country.

In the United States it is easy to point out causes, which, in the course of a few generations, will materially affect the English language in the particular districts of country where those influences are at work. Dialects will spring up as marked as those of Great Britain. A free intercourse may in some cases check the permanency of these dialects; but in those parts of the country aside from the great thoroughfares, where a dialect has once become firmly established, a thousand years will not suffice to eradicate it.

The State of New York was originally settled by the Dutch. The number of their colonists was never large, nor did they extend their settlements beyond the valley of the Mohawk and lands adjacent; yet we find even in this thickly settled State, after a lapse of two hundred years, that they have left evident traces on our spoken language. In the cities of New York and Albany many Dutch words have become incorporated into the common speech. In some of the inland villages of Dutch origin, the inhabitants still use the language of their fathers; and there are even individuals who never spoke any other.

The words so adopted by us embrace geographical names,—a class of words which the first colonists of a country or the primitive inhabitants themselves generally leave to their posterity or to the subsequent occupants. Many of the other words which the Dutch have left us are terms belonging to the kitchen. These have been preserved and handed down by cooks and domes-
tic servants, until from constant use they are become familiar to all. Among these terms are *cooky, crullers, olykoke, spack and applejees, rullichies, kohlsla, pit.*

The terms for various playthings, holidays, &c., preserve among children their original Dutch names; as *scup, hoople, peewee, pile, pinkster, paas.* Other words confined to children are *pinky, terawcky.*

Articles of wearing apparel in some instances retain their Dutch names; as *clochmutch.* Besides these there are terms the use of which is not confined to the districts originally colonized from Holland, but has been extended to New England and several of the Northern States; such as *stoop,* a porch, *boss,* a master-workman.

If a few Dutch colonists mingled with the English have been able to engrat so many words on our language, what may we expect from the hundreds of thousands of Germans in the State of Pennsylvannia? There the German language will doubtless exist for centuries; for, although they are situated in the midst of an English-speaking population far more numerous than themselves, and although the government and laws are conducted through the English language, still the tendency of a people of common origin to cling together,—the publication of newspapers, almanacs, and books in German,—and the cultivation to some extent of German literature, will tend to preserve the idiom and nationality of the people. It is true the language is already much corrupted, and in the course of time it must give way to the English; but it will leave behind it an almost imperishable dialect as a memento of its existence. In the State of Ohio, where there are large settlements of Germans, a similar result must follow.

In the State of Illinois is a colony of Norwegians. These people before coming to America sent out an agent, who selected and purchased for them a large tract of land in one section of that State. They were accompanied by their clergyman and schoolmaster. They are all us kept together, and will for a long time preserve their language and nationality. But it must also eventually give way, after engraving on the English language in that vicinity a Norwegian dialect.
INTRODUCTION.

There are large settlements of Welsh emigrants in the States of Pennsylvania and New York. In the latter, in Oneida county, one may travel for miles and hear nothing but the Welsh language. They have their newspapers and magazines in their native tongue, and support many churches wherein their language alone is preached. The Welsh, however, are not in sufficient numbers, nor are they sufficiently isolated to retain for any length of time their native tongue; neither can they produce any sensible dialectical change in our language, owing to the great difference between it and their own. They will, however, add some words to it.

In the State of Louisiana, which was colonized by the French, and Florida, which was colonized by the Spaniards, there are many words of foreign origin, scarcely known in the Northern States. The geographical divisions, the names of rivers, mountains, bays; the peculiarities of soil and climate; all that relates to the cultivation of the earth, the names of fishes, birds, fruits, vegetables, coins, &c., &c., retain to a great extent the names given them by the first possessors of the country. The same class of words is preserved in Lower Canada, where they were originally given by the French. They are now adopted by the English, and will for ever remain in use. Among the words of French origin are cache, calaboose, bodette, bayou, sault, levee, crevasse, habitan, charivari.

The Spanish colonists in Florida, and our intercourse with Mexico and the Spanish main, have been the means of introducing a few Spanish words. Among these are canyon, cavortin, chaparral, pistareen, rancho, vamos.

The Indian terms in our language, as might be supposed, are numerous. First, as to geographical names. These abound in every State in the Union, though more in some States than in others. In New England, particularly on the coast, Indian names are very common. Nearly all the rivers, bays, and prominent landmarks bear them, as Housatonic, Connecticut, Quinnebaug, Pawcatuck, Merrimack, Kennebec, Penobscot, Narraganset, Passamaquoddy, &c. In other parts of the country too the rivers retain their aboriginal names, as the Mississippi, Ohio,
INTRODUCTION.

Susquehanna, Roanoke, Altamaha, Chattahoochie, Alabama, &c., &c. And the same may be said of the great lakes, nearly all the bays, mountains, and numerous geographical divisions and localities. Many of the aboriginal names, however, have been discarded for others less appropriate. In New England the towns and villages were chiefly named after the towns in England from which the early colonists emigrated. In the State of New York there is a strange anomaly in the names of places. Before the Revolution the people seemed to prefer the aboriginal names; not only the rivers, lakes, hills, &c., but many of the towns received them. After the war, the names of distinguished statesmen and soldiers were applied to the new counties and towns.

The greatest perversions of the English language arise from two opposite causes. One of them is the introduction of vulgarisms by uneducated people, who not having the command of proper words to express their ideas, invent others for the purpose. These words continue among this class, are transmitted by them to their children, and thus become permanent and provincial. They are next seized upon by stump-speakers at political meetings, because they have an influence and are popular with the masses. Next we hear them on the floor of Congress and in our halls of legislation. Quoted by the newspapers, they become familiar to all, and take their place in the colloquial language of the whole people. Lexicographers now secure them and give them a place in their dictionaries; and thus they become firmly engrafted on our language. The study of lexicography will show that this process has long been going on in England, and doubtless other languages are subject to similar influences.

But the greatest injury to our language arises from the perversion of legitimate words and the invention of hybrid and other inadmissible expressions by educated men, and particularly by the clergy. This class is the one, above all others, which ought to be the conservators rather than the pervertors of language. It is nevertheless a fact which cannot be denied, that many strange and barbarous words to which our ears are gradually becoming familiar, owe to them their origin and intro-
INTRODUCTION.

duction; among them may be mentioned such verbs as to 
fellowship, to difficult, to eventuate, to doxologize, to happeify, to 
donate, &c., &c.

Political writers have made and are constantly making large 
additions to our stock of words and phrases. Alex. Hamilton's 
wriftings abound in newly coined expressions; many of which 
have been adopted by Dr. Webster, and have a place in his 
dictionary. But few, however, have come into general use, as 
his writings have not been widely diffused, and there is nothing 
to recommend them for adoption by scholars. Judge Story has 
contributed his share of new words; but as they are confined to 
legal treatises and works on the Constitution, they can never 
seriously affect the language.

Writers of political articles in the newspapers, stump-orators, 
and the members of legislative bodies, have added much to the 
English vocabulary. This class of words, though not remark-
able for their elegance, are often expressive and become more 
widely known than other classes. In many instances, however, 
their existence is but short. They often spring up with a 
party; and as the parties become extinct, or give place to new 
one's, the terms which express their peculiar ideas or doctrines 
likewise fall out of use. In this class may be included such 
terms as Old Hunker, Bucktail, Federalist, Barnburner, Loco-foco, 
Young Democracy, Democratic Republican, Native American, 
Nullifier, Nullification, Coon, Coonery, &c.

There are words, however, in this class, whose origin has 
grown out of our peculiar institutions, and which consequently 
are of a permanent nature. The origin of some of these is in-
volved in obscurity, while that of others is well known. Some-
times a little incident trivial in itself has brought into existence 
words which are extremely expressive, and which will remain 
as long as our institutions exist. In this class we find Caucus, 
Buncombe or Bunkum, Congress, to Lobby, Mileage, Gubernator-
torial, General Court, General Assembly, President's and Gov-
ernor's Messages, Senatorial, &c., &c.

The peculiar physical features of the country—its animals, 
productions, aborigines, forest life, &c.—have been a most 
fruitful source, from which has sprung perhaps the largest
number of new words, as necessary and useful to ourselves as any derived from our Saxon ancestors. These terms are not used in England, for the simple reason that there they are not wanted. Although I cannot agree with Dr. Webster, that "we rarely find a new word introduced into a language which is entirely useless,"—for there are unquestionably thousands of words encumbering our dictionaries which might well be dispensed with,—yet there is no doubt that, in most instances, "the use of new terms is dictated by necessity or utility; sometimes to express shades of difference in signification, for which the language did not supply a suitable term; sometimes to express a combination of ideas by a single word, which otherwise would require a circumlocution. These benefits, which are often perceived, as it were, instinctively by a nation, recommend such words to common use, till the cavils of critics are silenced by the weight of authority."—Letter to J. Pickering, p. 7.

Were we to classify the periods when names were applied to places in the State of New York, for example, we would call that in which the Indian names were applied, the Aboriginal period. This is as far back as it would be safe for ordinary mortals to go, leaving the "ante-diluvian" period to the second sight of such seers as Mr. Rafinesque.*

The Indian names seem to have prevailed till the revolution. Then came a burst of patriotism among the settlers, many of whom doubtless had served in the war, and every new place was christened with the names of the warriors and statesmen of the day. Thus arose Washington county, Washington village, and Washington hollow; Jefferson county, village, lake, &c. The State of New York has thus perpetuated, in her towns and villages, the names of Adams, Jay, La Fayette, Hamilton, Madison, Pinckney, Putnam, Pulaski, Schuyler, De Kalb, Steuben, Sullivan, Gates, Wayne, &c. This may well be styled the Patriotic period. But New York appreciated also the military and naval geniuses of other countries, for we find a Nelson, a Moreau, a Waterloo, &c. within her borders. The names of statesmen and generals did not suffice for the patriotism of our early pioneers, for we find interspersed among

INTRODUCTION.

them the names of Freedom, Freetown, Freeport, Independence, Liberty, Victory, Hopewell, Harmony, Concord, &c.

Next comes the Classical period; for by what other term could we designate a period when towns were christened by the names of such men as Homer, Virgil, Solon, Ovid, Cato, Brutus, Pompey, Tully, Cicero, Aurelius, Scipio, Ulysses, Seneca, Hannibal, Hector, Romulus, Lysander, Manlius, Camillus, and Marcellus; or of such places as Athens, Sparta, Troy, Corinth, Pharsalia, Palmyra, Utica, Smyrna, Rome, and Carthage.

Testimony to the piety (to say nothing of the good taste) of our forefathers is also afforded by the occurrence of such names as Eden, Babylon, Sodom, Jerusalem, Jericho, Hebron, Goshen, Bethany, Bethpage, Bethlehem, Sharon, &c. There are towns named after nearly every country in Europe, as Norway, Sweden, Denmark (with a Copenhagen adjoining), Russia, Greece, Italy, Sardinia, Holland, Wales, as well as after their principal cities. There is a town of Mexico, Canton, Peru, Delhi, Cairo, China, Cuba. Distinguished men in English history, as Milton, Addison, Dryden, Scott, Byron, Chesterfield, Marlborough, Junius, have towns christened with their names. But little fondness is exhibited for dramatic authors, as the name of the greatest of them all has been forgotten. Not even a pond, a hollow, or a swamp has been honored with the name of Shakspeare. If we were to classify all the names of places in the State of New York, we should be puzzled for a place to put the names of Painted Post, Oxbow, Halfmoon, Owl Pond, Oyster Bay, Mud Creek, Cow Neck, Mosquito Cove, and the like. The name of Pennyan is said to have been manufactured by the first settlers, part of whom were from Pennsylvania and the rest from New England, by taking the first syllable from "Pennsylvania," and the last from "Yankee."

Now the Mexican war is over, we shall doubtless have a large fund of names to use in our newly acquired territories, and the new States at the West. The old generals of the revolution will be passed by, and the span-new heroes of this war will be handed down to the admiration of posterity in the metamorphosed shape of cities, towns, and villages, yet to come into
INTRODUCTION.

existence. As the simplicity of the revolutionary period no longer remains, the plain surname will not answer now-a-days; but the love of glory and the love of magniloquence may both be gratified in such euphonious compounds as Quitmanville, Pillowtown, and Polkopolis!

The class of words which owe their origin to circumstances or productions peculiar to the United States, such as back-woods, backwoodsmen, breadstuffs, barrens, bottoms, buffalo robe, cane-brake, cypress-brake, clapboard, corn broom, corn-shucking, clearing, deadening, diggings, dug-out, flat boat, husking, pine barrens, prairie, prairie dog, prairie hen, shingle, sawyer, salt lick, savannah, snag, sleigh, &c., are necessary additions to the language.

The metaphorical and other odd expressions used first at the West, and afterwards in other parts of the country, often originate in some curious anecdote or event, which is transmitted from mouth to mouth, and soon made the property of all. Political writers and stump speakers perform a prominent part in the invention and diffusion of these phrases. Among these may be mentioned, to cave in, to acknowledge the corn, to flash in the pan, to bark up the wrong tree, to pull up stakes, to be a caution, to fizzle out, to flat out, to fix his flint, to be among the missing, to give him Jessy, to see the elephant, to fly around, to tucker out, to use up, to walk into, to mizzle, to absquatulate, to cotton, to hifer, &c., &c.

Our people, particularly those who belong to the West and South, are fond of using intensive and extravagant epithets, both as adjectives and adverbs, as awful, powerful, monstrous, dreadful, mighty, almighty, all-fired, &c.

The words bankable, boatable, mailable, mileage, are well formed and useful terms which have been generally adopted by those who have occasion to make use of them. But the words dubersome, disremember, decedent, docity, cannot be called useful or necessary additions to our language.

The Indian element in our language, or rather the Indian words which have become adopted in it, consist, 1st. Of geographical names. 2d. Of the names of various animals, birds, and fishes. 3d. Of fruits and cereals; particularly the several pre-
parations of the latter for eating. Thus from Indian corn, we have samp, hominy, and supawn; from the manioc plant, man-dioca and tapioca. 4th. Such articles known to and used by the Indians, which the Europeans did not possess, as canoe, hammock, tobacco, moccasin, pemmican; also, barbecue, hurricane, pow-wow.

The Indian names of animals, fishes, and reptiles, are generally local. Thus a fish may be known by different names in Boston, New York, and Delaware Bay, as scup, paugie, and scuppaug.

There is a diversity in the pronunciation of certain words in different parts of the United States, which is so perceptible that a native of these particular districts may be at once recognised by a person who is observant in these matters. Residents of the city of New York are, perhaps, less marked in their pronunciation and use of words, than the residents of any other city or State, the reason of which is obvious. The population is so fluctuating, so many people from every part of the country, as well as from England, Scotland, and Ireland, are congregated here, who are in daily contact with each other, that there is less chance for any idiom or peculiarity of speech to grow up. The large number of educated men in New England, her admirable schools and higher institutions of education, have had a powerful influence in moulding the language of her people. Yet, notwithstanding this fact, in Boston and other towns in Massachusetts, there exist some glaring errors in the vulgar speech. There are peculiarities also to be observed in the literary language of the Bostonians. The great extent to which the scholars of New England have carried the study of the German language and literature for some years back, added to a very general neglect of the old master-pieces of English composition, have had the effect of giving to the writings of many of them an artificial, unidiomatic character, which has an inexpressibly unpleasant effect to those who are not habituated to it.

The agricultural population who live in the interior of New England, have a strongly marked provincial dialect, by which they may be distinguished from the people of every other part of the Union. The chief peculiarity is a drawling pronuncia-
tion, sometimes accompanied by a speaking through the nose, as eend for end, dawg for dog, Gawd for God, &c. Before the sounds ow and oo, they often insert a short i, which we will represent by the letter y; as kyow for cow, vyow for vow, tyoo for too, dyoo for do, &c. &c. The numerous words employed in New England, which are not heard in other parts of the country, are mostly genuine old words still provincial in the North of England; very few are of indigenous origin.

The chief peculiarity in the pronunciation of the Southern and Western people is the giving of a broader sound than is proper to certain vowels; as whar for where, thar for there, bar for bear.

In the following table of words, incorrectly pronounced, such as belong to New England are designated by the letters N. E.; those exclusively Western, by the letter W.; the Southern words, by S.; the rest are common to various parts of the Union. In this attempt at classification there are doubtless errors and imperfections; for an emigrant from Vermont to Illinois would introduce the provincialisms of his native district into his new residence.

Before closing these observations on American provincialisms, I should do injustice to previous writers on the same subject, not to speak of their works. The earliest of these, as far as my knowledge extends, is that of Dr. Witherspoon. In a series of essays, entitled "The Druid," which appeared originally in a periodical publication in 1761, he devotes numbers 5, 6, and 7 of these essays, about 20 pages in all, to Americanisms, per-
versions of language in the United States, cant phrases, &c. They were afterwards published in his collected works, in 4
INTRODUCTION.

vols. 8vo., Philadelphia, 1801, and may be found in the fourth volume.

The most important work of the kind is that of the late Hon. John Pickering. He began with an article in the "Memoirs of the American Academy of Arts and Sciences," Boston. This was soon after enlarged and published in a separate volume entitled "A Vocabulary, or Collection of Words and Phrases which have been supposed to be peculiar to the United States of America. To which is prefixed an Essay on the present state of the English Language in the United States." Boston: 1816. Pp. 206. (Containing about 520 words.) This valuable and interesting work received much attention, and in the following year appeared a pamphlet, entitled "A Letter to the Hon. John Pickering, on the Subject of his Vocabulary, or Collection of Words and Phrases, supposed to be peculiar to the United States." By Noah Webster. Svo. Boston: 1817. Pp. 69.

In the transactions of the Albany Institute, 1830, vol. I., is an article entitled "Notes on Mr. Pickering's Vocabulary, &c., with Preliminary Observations." By T. Romeyn Beck. In Mr. Sherwood's "Gazetteer of Georgia," is a glossary of words provincial in the Southern States. The latest work on provincialisms, but chiefly of errors in grammar, is "A Grammatical Corrector, or Vocabulary of the Common Errors of Speech; Alphabetically Arranged, Corrected, and Explained for the Use of Schools and Private Individuals." By Seth T. Hurd. 12mo. Philadelphia: 1847.*

As the charge has been frequently made against us by English critics of perverting our vernacular tongue, and of adding useless words to it, it will not be out of place to state here, that in the belief of the author, the English language is in no part of

* In preparing this work, I have examined all the English provincial glossaries, and the principal English dictionaries; which it was necessary to do in order to know what words and phrases were still provincial in England. Many of the facts in the introductory essay on dialects, have been drawn from similar essays appended to the several glossaries. But I am chiefly indebted to the enlarged preface in Dr. Bosworth's Anglo-Saxon Dictionary, which presents the best historical analysis extant of the English language; and to the admirable and later work of Professor Latham, "The English Language," London 1841, which is unquestionably the most valuable work on English Philology and Grammar, which has yet appeared.
INTRODUCTION.

the world spoken in greater purity by the great mass of the people than in the United States. In making this assertion he does not depend wholly on his own observation; it has repeatedly been made by intelligent Englishmen who have travelled in the United States, and had an opportunity of judging. On this subject, the author of an English work, entitled the "Backwoods of Canada," has the following judicious remarks:

"With the exception of some few remarkable expressions, and an attempt at introducing fine words, the lower order of Yankees have a decided advantage over our English peasantry in the use of grammatical language; they speak better English than you will hear from persons of the same class in any part of England, Ireland, or Scotland; a fact that we should be unwilling to allow at home."—P. 83.

The Rev. Dr. Witherspoon, President of Princeton College, born and educated in Scotland, made a similar remark in 1784. In an essay on language, he says:

"The vulgar in America speak much better than the vulgar in Great Britain, for a very obvious reason, viz. that being much more unsettled, and moving frequently from place to place, they are not so liable to local peculiarities either in accent or phraseology."—Works, Vol. IV. p. 281.

We cannot say as much, however, in favor of our literary dialect. The ripest scholars among us acknowledge the fact, that in the best authors and public speakers of Great Britain, there is a variety in the choice of expressions, a correctness in the use of the particles, and an idiomatic vigor and freshness of style to which few or none of our writers can attain. The unfortunate tendency to favor the Latin at the expense of the Teutonic element of our language, which social and educational causes have long tended to foster, has in this country received an additional impulse from the great admixture of foreigners in our population. It is not likely that the pure old idiomatic English style can ever be restored in this country; but there is no good reason to doubt, that the fusion of the present rather heterogeneous elements of which our society is composed, will result in the production of a style and a literature which will also have their beauties and merits, although fashioned after a somewhat different model.
ABISSELFAL. A, by itself, A. It will be recollected by many, that in the olden time, the first letter of the alphabet was denominated "abisselfa" when it formed a syllable by itself, as in the word able. The scholar, in spelling the word, was taught to say, "a, by itself, a, (rapidly, abisselfa,) b, l, e, able." We derive this word and the use of it from England, where it is used in Suffolk County.—Moor's Glossary.

ABOVE-BOARD. In open sight; without artifice, or trick. "A figurative expression," says Johnson, "borrowed from gamesters, who, when they put their hands under the table, are exchanging their cards."

It is the part of an honest man to deal above-board, and without tricks.—L'Estrange.

ABOVE ONE'S BEND. Out of one's power; beyond reach. A common expression in the Western States.

I shall not attempt to describe the curiosities at Peale's Museum; it is above my bend.—Crockett, Tour down East, p. 64.

ABSQUATULATE. To run away, to abscond. Used only in familiar language.

W—was surrendered by his bail, who was security for his appearance at court, fearing he was about to absquatulate.—N. Y. Herald, 1847.

ACKNOWLEDGE THE CORN. An expression of recent origin, which has now become very common. It means to confess, or acknowledge a charge or imputation. The following story is told as the origin of the phrase:

Some years ago, a raw customer, from the upper country, determined
to try his fortune at New Orleans. Accordingly he provided himself with two flat-boats—one laden with corn and the other with potatoes—and down the river he went. The night after his arrival he went up town, to a gambling house. Of course he commenced betting, and his luck proving unfortunate, he lost. When his money was gone, he bet his "truck," and the corn and potatoes followed the money. At last, when completely cleaned out, he returned to his boats at the wharf; when the evidences of a new misfortune presented themselves. Through some accident or other, the flat-boat containing the corn was sunk, and a total loss. Consoling himself as well as he could, he went to sleep, dreaming of gamblers, potatoes, and corn.

It was scarcely sunrise, however, when he was disturbed by the "child of chance," who had arrived, to take possession of the two boats as his winnings. Slowly awakening from his sleep, our hero, rubbing his eyes, and looking the man in the face, replied: "Stranger, I acknowledge the corn—take 'em; but the potatoes you can't have, by thunder."—Pittsburgh Com. Advertiser.

The Evening Mirror very naively comes out and acknowledges the corn, admits that a demand was made, &c.—New York Herald, June 27, 1846.

Mr. Tyler, in reply (to certain charges), boldly acknowledges the corn, and says that the cards of invitation were signed by him, &c.—New York Tribune, Jan. 26, 1845.

Enough, said the Captain. I'm hoaxed, I'm gloriously hoaxed. I acknowledge the corn.—Pickings from the Picayune, p. 80.

ACCOUNTABILITY. The state of being liable to answer for one's conduct; liable to give account, and to receive reward or punishment for actions.—Webster. This word, so much used by our divines, is not to be found in any English Dictionary except the recent one of Mr. Knowles. Mr. Todd, in his additions to Johnson's Dictionary, has accountableness, the state of being accountable.

Reason and liberty imply accountableness.—Duncan's Logic.

We would use accountability instead, as in the following example:

The awful idea of accountability.—Robert Hall.

ADAM'S ALE. Water. A colloquial expression, used both in England and America.

To slake his thirst, he took a drink

Of Adam's Ale from river's brink.—Reynard the Fox.

TO ADMIRE. 1. To like very much. This verb is much and very absurdly used in New England in expressions like the following: "I should admire to see the President."
TO ADMIRE. 2. To wonder at; to be affected with slight surprise.—Ray. In New England, particularly in Maine, this word is used in this sense. Some of the old English writers so employed it.

I perceive these lords
At this rencontre do so much admire
That they devour their reason.—Shakspeare.

ADOBIES. (Sp. adobes.) Sun-baked brick used for building houses, fortifications, and making inclosures on the Western frontier of the United States.

TO ADVOCATE. (Lat. advoco. Fr. avocasser.) To plead, to support, to defend.—Todd. To plead in favor of; to defend by argument before a tribunal; to support or vindicate.—Webster.

This word has been particularly noticed by recent Lexicographers; as it is one of that class which has fallen into disuse in England, and, by English and American critics not familiar with its history, has been set down as an Americanism. It is a useful word, and has long been employed by our best writers.

In speaking of this word, Mr. Boucher observes in his Glossary, “that it has been said that it is an improvement of the English language, which has been discovered by the people of the United States of North America, since their separation from Great Britain;” but that it can be shown to be a very common Scottish word. Mr. Todd, the learned editor of Johnson’s Dictionary, is also unwilling to allow this concession to us, and says, “It is an old English word, employed by one of our finest and most manly writers; and if the Americans affect to plume themselves on this pretended improvement of our language, let them, as well as their abettors, withdraw the unfounded claim to discovery, in turning to the prose writings of Milton. In the Dictionaries of the sixteenth and seventeenth centuries, however, as in the Latin of Thomas, the Spanish of Minshew, the Italian of Florio, and the French of Cotgrave, advoco, advogar, avocare, and avocasser, are rendered, not to advocate, but “to play the advocate.”

This is the only thing distinct and sensible that has been advocated.—Burke, Speech on the Reform of Representatives.
"Though this verb is found in Milton," says Mr. Pickering, "yet it does not appear to have been in common use in England, either at the time he wrote, or since that period. It has very recently been adopted by a few other writers, and seems now to be getting into use in England." Dr. Webster makes no remarks as to the legitimacy of the word, but gives several examples of its use. From the vocabulary of Mr. Pickering, the Glossary of Mr. Boucher, and the Dictionary of Dr. Webster, the following illustrations have been selected.

The members of the College of Justice have this privilege, that they cannot be pursued before any inferior judge; and if they be, the lords will advocate the cause to themselves.—Sir Geo. Mackenzie, Institutes of Law.

How little claim, persons who advocate this sentiment, really possess to be considered Calvinists, will appear from the following quotation.—Mackenzie's Life of Calvin.

The most eminent orators were engaged to advocate his cause.—Mitford.

But from his want of sobermindedness, we cannot always prove his earnestness in the cause he advocated.—D'Israeli, Quarrels of Authors.

From American writers are the following examples:

Some are taking unwearyed pains to disparage the motive of those Federalists who advocate the equal support of, &c.—Alex. Hamilton.

I shall on a future occasion examine impartially, and endeavor to ascertain precisely the true value of this opinion, which is so warmly advocated by all the great orators of antiquity.—J. Q. Adams, Rhetoric.

The idea of a legislature consisting of a single branch, though advocated by some, was generally reprobated.—Ramsey, Hist. of S. Carolina.

This seems to be a foreign and local dialect, and cannot be advocated by any person who understands correct English.—Webster, Diss. on the English Language, p. 111.

AFEARD. (Ang. Saxon afered.) Afraid; frightened; terrified.—Todd's Johnson.

This is a good old English word, though now considered a vulgarism; and as common in ancient times, as afraid is at present. It is provincial in various parts of England, and among uneducated persons in the United States.

A gret ok he coolede breide a doun, as it a smal gerde were,
And here forth in his honde, that folke forte afer.—Robt. of Gloucester.

With scalled browes blake, and pilled hend;
Of his visage children were sore aferd?—Chaucer, Cant. Tales.
AMERICANISMS.

Hal! art thou not horribly afeard?—Shakspeare, Henry IV.
Chin as woolly as the peach,
And his lips should kissing teach,
Till he cherished too much beard,
And made love or me afeard.—Ben Jonson, Her Man described.

It has been supposed, that in Chaucer’s time, there was a difference between the significations of afeard and afraid, as in one instance he employs both in the same verse.

His wife was neither afeard nor afraid.—Canterbury Tales.

The following are examples of the use of the word by American writers:

I an’t afeared of the old Harry himself, but I vum! I never dare speak to Rhody.—Margaret, p. 87.
I promised when I caught him, to give him a licking, and I was afeard I’d have to break the peace.—J. C. Neal, Sketches.

AFORE. (Sax. afforan.) Before; sooner in time; in front; rather than.—Todd’s Johnson.

This old word is gone entirely out of use in elegant language. It is now provincial in England, and in the United States is used only by the illiterate.

If your diligence be not speedy, I shall be there afore you.—Shakspeare K. Lear.

Approaching nigh, he reared high afore
His body monstrous, horrible, and vast.—Spenser, F. Queen.

Keep. Afore I’ll
Endure the tyranny of such a tongue
And such a pride—
Pol. What will you do?
Keep. Tell truth.—Ben Jonson.

AFOREHAND. (Old English.) Beforehand. Aforehand in business, i. e. successful.

Once good English, now a provincialism.

For it will be said, that in the former times, whereof we have spoken, Spain was not so mighty as now it is; and England, on the otherside, was more aforehand in all matters of power.—Bacon, War with Spain.

AFTERCLAPS. Unexpected events happening after an affair is supposed to be at an end.—Todd’s Johnson.

Although this is a genuine old English word, it is now seldom heard except in familiar conversation.
For the next morrow's meed they closely went,
For fear of afterclaps to prevent.—Spenser, Hub. Tale.
Let that man, who can be so far taken and transported with the present pleasing offers of a temptation, as to overlook those dreadful afterclaps which usually bring up the rear of it.—South, Sermons, VI.
She wyll thee grant it liberally perhappes;
But for all that, beware of afterclaps.—Sir Thomas More.

AFTER NIGHT. After nightfall; in the evening; as, “A meeting will be held in the court-house after night.” This expression is said to be peculiar to Pennsylvania.—Hurd’s Grammatical Corrector.

AGY, for ague; fever-nagy, for ‘fever and ague;’ common among the uneducated, wherever this distressing disease is known.

AHEAD. Originally a sea-term. Farther onward than another.

AGY, for ague; fever-nagy, for ‘fever and ague;’ common among the uneducated, wherever this distressing disease is known.

AHEAD. Originally a sea-term. Farther onward than another.

This word has now become very common, and signifies forward, in advance.

Our banks, being anxious to make money for their stockholders, are probably right to drive ahead, regardless of consequences, &c.—N. Y. Com. Adv. Nov. 29, 1845.

ALBANY BEEF. Sturgeon; a fish which abounds in the Hudson river; so called by the people in the State of New York.

ALEWIFE, plur. alewives. (Indian, aloof. Alosa vernalis, Storer, Massachusetts Rep’t.) A fish of the herring kind, abounding in the waters of New England.

The name appears to be an Indian one, though it is somewhat changed, as appears by the earliest account we have of it. In former times, the Indians made use of these fish to manure their lands, as the menhaden are now used. Mr. Winthrop says, “Where the ground is bad or worn out, they put two or three of the fishes called aloofes under or adjacent to each corn-hill; whereby they had many times a double crop to what the ground would otherwise have produced. The English have learned the like husbandry, where these aloofes come up in great plenty.”—Philosophical Trans. 1678.

ALIENAGE. The state of being an alien.—Webster.

Neither this nor the following word is to be found in the
AMERICANISMs.

English dictionaries, except the recent one of Mr. Knowles. They are common, however, in professional books.

Where he sues an executor, &c., the plaintiff's alienage is no plea.—Laires' Pleading on Assumpsit, p. 687.

To restore estates, forfeitable on account of alienage.—Judge Story.

ALIEnISM. The state of being an alien.—Webster, Knowles.

The prisoner was convicted of murder; on his arraignment he suggested his alienism, which was admitted.—2 Johnson's Reports, 381.

The law was very gentle in the construction of the disability of alienism.

—Chancellor Kent.

ALLEY. (Lat. albus, white.) An ornamented marble, used by boys for shooting in the ring, &c.; also called in England, a taw. It is often made of white marble or of painted clay.

ALL-FIRED. Very, in a great degree. A low American word.

The first thing I know'd, my trowsers were plastered all over with hot molasses, which burnt all-fired bad.—Maj. Jones's Courtship, p. 87.

Old Haines sweating like a pitcher with ice-water in it, and looking all-fired tired.—Porter's Tales of the Southwest, p. 50.

I was woked up by a noise in the street; so I jumps up in an all-fired hurry, ups with the window, and outs with my head.—Sam Slick.

You see the fact is, Squire (said the Hooshier), they had a mighty deal to say up in our parts about Orleans, and how all-fired easy it is to make money in it; but it's no ham and all hominy, I reckon.—Pickings from the Picayune, p. 67.

I'm dying—I know I am! My mouth tastes like a rusty cent. The doctor will charge an all-fired price to cure me.—Knickerbocker Mag. 1845.

ALL OVER. Bearing a resemblance to some particular object. The word is common in familiar language.

The Southern Standard, in noticing Dombey and Son, says: "We have read this work so far with great interest; it is Dickens all over." Meaning that it partakes fully of the character of Dickens's writings.

By the following example it appears that English writers use the word in the same sense. Sir George Simpson, in speaking of the indolence of the Californians, and of the deficiencies in all the comforts of life, says:

The only articles on the bare floor, were some gaudy chairs from the Sandwich Islands. This was California all over; the richest and most influential individual in a professedly civilized country, obliged to borrow the means of sitting from savages.—Journey round the World, Vol. I. p. 173.
ALL-OVERISH. Neither sick nor well. A low word, used both in England and America.

TO ALLOT UPON. To intend, to form a purpose; as, I allot upon going to Boston. Used by uneducated people in the interior of New England.

TO ALLOW. To acknowledge, to think. Used in a very loose manner like the word guess.

The lady of the cabin seemed kind, and allowed we had better stop where we were.—Carlton, The New Purchase.

ALL SORTS OF. A Southern expression, synonymous with expert, acute, excellent, capital. It answers to the English slang term bang-up. It is a prevalent idiom of low life, and often heard in the colloquial language of the better informed. A man who in New England would be called a curious or a smart fellow, would in the South be called all sorts of a fellow. Sometimes one hears the expression "all sorts of a horse," or, "all sorts of a road."

She was all sorts of a gal—there warn't a sprinklin' too much of her—she had an eye that would make a fellow's heart try to get out of his bosom;—her step was light as a panther's, and her breath sweet as a prairie flower.—Robb, Squatter Life.

ALL-STANDING. Without preparation, suddenly.

This, like many other common expressions, seems to be borrowed from the sea. Thus, a ship in full career, whose course is suddenly checked by striking against a rock, or by a squall of wind, is said to be brought to all-standing, i.e. with all her sails set and unprepared for stopping. And hence we say, for instance, of a horseman or an orator whose course is suddenly checked, that he is brought up all-standing.

It was no stumble, no pitching head first over a steep precipice; but on the contrary, I walked directly off the giddy height—to use a common expression, went over all-standing.—Kendall's Santa Fé Expedition.

ALL-TO-SMASH. Smashed to pieces. This expression is often heard in low and familiar language. It is an English provincialism. Mr. Halliwell says, that a Lancashire man, telling his master the mill-dam had burst, exclaimed, "Maister, maister, dam's brossen, and aw's-to-smash.—Archaic and Prov. Dictionary.
ALL-WINSOME. Winsome is a word used in the north of England, (Ang. Sax. winsum, pleasant,) sweet, pleasant. I have never heard the word, although an American writer thus uses it:

What absence of that anagogical, all-prevailent, all-winsome Brahminism in Christ!—Margaret, p. 258.

ALONE. Sole. The German allein is used in like manner; thus, alleinbesitz, sole, exclusive possession; alleinhandel, sole trade, monopoly. Mr. Todd says, the English word was formerly written all-one, and was used in this sense by old writers. Mr. Pickering says, "It is often heard from our pulpits in expressions like the following: The alone God ; the alone motive," &c. It is now rarely used, although I heard it in a prayer during the present year (1848). The following examples from English writers cited by Johnson and Pickering show its use:

God, by whose alone power and conversation we all live, and move, and have our being.—Bentley.

The Legislature never pretended to omnipotence; that is the alone attribute of the people.—British Critic, Vol. IX. p. 234.

TO AMALGAMATE. This word, which properly denotes the compounding or mixing of metals, is universally applied in the United States to the mixing of the black and white races.

AMALGAMATION. The mixing or union of the black and white races.

AMAZING. Wonderfully; very, in a great degree. A vulgarism.

Everything in New York on a May-day looks amazin' different, and smells amazin' different, I can tell you.—Maj. Downing, p. 43.

AMAZINGLY. Exceedingly, very much. Used only in colloquial language and applied to trifling things.

Major, I like this 'ere churn amazingly.—Ibid. p. 58.

AMBITION. In North Carolina this word is used instead of the word grudge, as, "I had an ambition against that man." I am credibly informed that it is even used in this manner by educated men.

TO AMBITION. (Fr. ambitionner.) Ambitiously to seek after.

—Webster.

This is what I ambition for my own country.—Jefferson's Writings.
This word is not common. It is not in the English Dictionaries; yet examples may be found of its use by late English writers.

On dress occasions, the ladies of the upper ranks despise the mantilla, ambitioning nothing so much as a fashionable French bonnet.—London Spectator, June 7, 1845.

AMENABILITY. State of being amenable or answerable.—Judge Story. Webster.

Not in the English Dictionaries.

AMERICANISM. A way of speaking peculiar to this country. —Witherspoon.

"By Americanism," says Dr. Witherspoon, "I understand a use of phrases or terms, or a construction of sentences, even among persons of rank and education, different from the use of the same terms or phrases, or the construction of similar sentences, in Great Britain. In this sense it is exactly similar in its formation and signification to the word Scotticism."—Works, Vol. IV. p. 82.

TO AMERICANIZE. To render American; to naturalize in America.—Webster.

AMONG, for between. This word is often used when reference is made only to two persons. Ex. "The money was divided among us two."

AMPERSAND. The character &, representing the conjunction and. It is a corruption of "and, per se, and" (and, by itself, and). This expression was formerly very common in this country, but seems now to have gone out of use. It may, however, be retained in the interior, where the modern system of education has not reached. Mr. Halliwell, who notices this word in his Archaic and Prov. Dict'y, says, that it is or was common in England. In Hampshire it is pronounced amperzed, and very often amperze-and. Strutt, in his Sports and Pastimes, mentions an ancient alphabet of the fourteenth century, now in the Harleian Library, at the end of which is "X Y wyth esed and per se—Amen."
AMERICANISMS.

ANGELOLOGY. A discourse on angels; or the doctrine of angelic beings.—Webster.

These questions may easily be answered, by a proper survey of the angelology of the Scripture.—Stuart on the Apocalypse, Vol. II. p. 397.

ANNULMENT. (Fr. annullement.) The act of annulling.—Pickering's Vocab.

This word was not in any English Dictionary before Todd's edition of Johnson.

The annulment of the belligerent edicts.—Cor. of Sec'y of State to Mr. Pinckney, 1810.

AN'T, or AINT. A common abbreviation in colloquial language for am not and are not. It is often improperly used for is not. It is equally common in England.

ANTAGONIZING. Conflicting, opposing.—Pickering's Vocabulary.

This word, says Mr. Pickering, has been censured by an American critic, in the following passage:

Nor can I forbear to remark the tendency of antagonizing appeals.—John Q. Adams's Letter to H. G. Otis.

The verb is given by Johnson, but not the participle, nor is it noticed by Webster. Prof. Goodrich has inserted it in his new edition (1848) of Webster's Dictionary.

ANTI-FEDERALIST. "This word was formed about the year 1788, to denote a person of the political party that opposed the adoption of the Constitution of the United States, which was then always spoken of by the name of the Federal Constitution. The word is not now much used; having been superseded by various other names, which have been successively given to the same party."—Pickering's Vocabulary.

ANTI-SLAVERY. Hostile to slavery.

ANTI-MASON. One hostile to masonry or free-masonry.—Worcester.

ANTI-MASONIC. Hostile to masonry.

ANY HOW. At any rate, on any account, in any way.

We have no confidence in cobble-stone pavement for Broadway any how.—New York Tribune, October 25, 1845.

This expression is not peculiar to this country.

All Nelson wanted was to go to Copenhagen; and he said, "Let it be by the Sound, or by the Belt, or any how."—Nelson's Despatches, Vol. IV.
ANY HOW YOU CAN FIX IT. At any rate whatever.
ANY MANNER OF MEANS. An expression much used instead of any means.

TO APE ONE’S BETTERS. To imitate one’s superiors.

The negroes are good singers; they are an imitative race, and it is not to be wondered at that in this, as in other things, they ape their betters.—Newspaper.

APPELLATE. Relating to appeals.

In all cases affecting ambassadors, &c. the supreme court shall have original jurisdiction: In all other cases before mentioned, the supreme court shall have appellate jurisdiction.—Constitut. of the U. States, Art. 3.

The king of France is not the fountain of justice; the judges neither the original nor the appellate are of his nomination.—Burke, Revolution.

For a fuller account of this word, about which there has been much discussion by lexicographers, see Mr. Pickering’s Vocabulary, where many authorities are cited. It was first given by Mason in his supplement to Johnson’s Dictionary, and was afterwards adopted by Todd.

APPLE BUTTER. A sauce made of apples stewed down in cider. This is generally made in quantity, and kept for use during the winter.

APPLE BRANDY; cider brandy. A liquor distilled from cider; also called APPLE JACK.

APPLE-PIE ORDER. An expression used in familiar conversation, denoting perfect order. It is used alike in England and America.—Halliwell’s Dict’y.

As the period for the assembling of Congress approaches, an air of bustling activity is noticeable in everything, from the preparation of the “Message” down to the scrubbling of door-plates. The landladies are putting their lodgings in apple-pie order for the members, &c.—Newspaper.

The ferry-boats are kept running in apple-pie order under the vigilant superintendence of Capt. Woolsey.—New York Tribune.

APPLICANT. A diligent student.—Pickering’s Vocab. One who applies himself closely to his studies. A sense of the word common in New England. The English appear to use the word only in the sense of “one who applies for anything,” in which sense it is most commonly employed by us.

APPOINTABLE. That may be appointed or constituted; as officers are appointed by the Executive.—Federalist, Webster.
TO APPRECIATE.  v. a. To raise the value of.—Webster.
This sense of the word is not in any English dictionary except Knowles's, which is quite a recent work.

Lest a sudden peace should appreciate the money.—Ramsay.

The common use of this verb, however, is, as in England, to set a just value on. Also, v. n. to rise in value; as, "the currency of the country appreciates."—Webster.

APPRECIATION. A rising in value; increase of worth or value.—Webster.

This noun, like the verb from which it is derived, is commonly used by us in its appropriate meaning of a just valuation; and this will hereafter be understood of all similar words where a peculiar meaning is assigned to them, unless an express statement is made to the contrary.

TO APPROBATE. (Lat. approbo, to approve.) To express approbation of; to manifest a liking, or degree of satisfaction; to express approbation officially, as of one's fitness for a public trust.—Webster.

Dr. Webster observes that this is a modern word, but in common use in America. Mr. Todd introduces it in his edition of Johnson, from Cockeram's old vocabulary, the definition of which is, to allow, to like. Mr. Todd says it is obsolete.

All things contained in Scripture is approbate by the whole consent of all the clergie of Christendom.—Sir T. Elyot's Governor, fol. 226.

"This word," says Mr. Pickering, "was formerly much used at our colleges, instead of the old English word approve. The students used to speak of having their performances approbated by their instructors. It is now in common use with our clergy as a sort of technical term, to denote a person who is licensed to preach: they would say, such a one is approbated, that is, licensed to preach. It is also common in New England to say of a person, who is licensed by the County Courts to sell spirituous liquors, or to keep a public house, that he is approbated; and the term is adopted in the law of Massachusetts on this subject."—Pickering's Vocabulary.

TO ARGUFY. To import, to have weight as an argument; to argue.
This vile word has a place in several of the English glossaries. In this country it is only heard among the most illiterate.

ARK. The common abbreviation for "Arkansas."

ARK. A large boat, used on some of the Western rivers, to transport merchandise. Before the use of steamboats, they were employed on the Ohio and Mississippi rivers. Dr. Harris thus describes them: "They are made with plank, fastened upon ribs or knees, by wooden bolts. They are from twelve to fifteen feet wide, and from forty to sixty long; carrying, commonly, sixty or eighty tons burden. They float down the stream with the current, and are not worked with oars, except to direct and propel them to the shore. These boats go down the river to New Orleans; and after discharging their cargoes, they are taken apart, and sold for lumber with very little loss."—Tour in Ohio in 1803.

ARY, either. A vulgarism used by the illiterate.

AS GOOD AS GO. In the phrase, I'd as good's go to New York, instead of, "I might as well go to New York." "I'd as good's do this," for, I may as well do this. Only heard among the illiterate.

ASH-HOPPER. A lie cask, or an inverted pyramidal box to contain ashes, resembling a hopper in a mill. They are common in the country, where people make their own soap.

ASSOCIATION. In ecclesiastical affairs, a society of the clergy, consisting of a number of pastors of neighboring churches, united for promoting the interests of religion and the harmony of the churches.—Webster.

ASSOCIATION. In civil affairs, this word is much used at the present day, to denote the principle of uniting the producing classes in societies, for the purpose of obtaining for themselves a larger share of the fruits of their labor.

The citizens of Illinois are well prepared for Association. They are, to a great extent, freed from the prejudices and bigotry which pervade every nook and corner of the older States. There is here a feeling of liberality—a spirit of inquiry, before which spurious Civilization cannot long make headway. We say to all friends of Association, come West. But we
say, at the same time, don’t come, until you are convinced it is for your interest and the interest of the cause of Association that you should come.—New York Tribune.

We do not claim that our Rules are perfect, but we wish to make them so; being firmly convinced that the Science taught by Fourier will ultimately lead us into true Association, if we follow it as a science, and that we must have some correct rules of progress to govern us during the transition period from Civilization to Association.—Ibid.

ASSOCIATIONAL. Pertaining to an association of clergymen.—Webster.

In order to obtain a license, and afterwards to be admitted to ordination, they (the students in divinity) must, in each case, pass through the Associational or Presbyterian examination.—Quarterly Rev., 1815.

ASSOCIATIONIST. One who advocates the Fourier doctrine of association.

AT, for by. Used in this expression, “Sales at auction.”

The English say—“Sales by auction,” and this is in analogy with the expressions—Sales by inch of candle; sales by private contract.—Pickering’s Vocab.

Sometimes English writers use the word as we do.

Those execrable wretches, who could become purchasers at the auction of their fellow-creatures.—Burke’s Reflections.

ATHENÆUM. A building or an apartment, where a library, periodicals, and newspapers are kept for public use, or for a reading room.—Webster.

ATOP. On or at the top, upon. Atop of a horse. A vulgarism common in England and America.

ATTACKTED, for attacked. This corruption is only heard among the most illiterate.

It is common also in the dialect of the lower classes in London.—Pegge’s Anecdotes.

ATTITUDINIZE. To assume affected attitudes.—Worcester.

AUSPICATE. (Lat. auspicio.) To foreshow or foretell the event.—Richardson. This old word, though unnoticed by Johnson, may be found in Holland’s translations, Ben Jonson and other early writers. It is but rarely used at the present day.

King Edward therefore presented himself before the strong towne of Berwick, with a mighty haste, there to auspicate his entrance to a conquest of England.—Speed, History of Great Britain.

Would to God I could auspicate good influences.—Webster’s Speech.
AUTHORESS. A female writer who has printed her compositions.—Jodrell's Philology.

The use of this word has been questioned in England. It is not in Johnson's Dictionary, and as he says, it is not much used. This was sixty years ago. The British Critic, in the year 1793, says of it, "We do not acknowledge the word." Since that time Mr. Todd has inserted it in his edition of Johnson's Dictionary, from Cotgrave, (French, authrice, or autrix, authoress, or actress,) and defines it, "a female efficient." This sense of the word is different from that in which we use it.

O Amarillis, authoress of my flame!—Fanshawe, Past. Fido.

Albeit, his (Adam's) loss, without God's mercy, was absolutely irrecoverable; yet we never find he twitted her as authoress of his fall.—Feltham.

Mrs. Montagu, the justly celebrated authoress of the Essay on the Genius and Writings of our Author.—Steeven's Notes, Hamlet.

AUTHORITY. In Connecticut the justices of the peace are denominated the civil authority.—Webster.

Mr. Pickering says, "This word is also used in some of the States in speaking collectively of the professors, &c. of our colleges, to whom the government of those institutions is intrusted."

"The authority required him to give bonds for his good behavior."—Miss H. Adams's Hist. of New England, p. 64.

AVAILED. Dr. Witherspoon notices this word as used in the following example:—"The members of a popular government should be continually availed of the situation and condition of every part."—Works, Vol. IV. p. 296.

The newspapers sometimes say "an offer" (for instance) "was made but not availed of."

AVAILS. Profits, or proceeds. It is used in New England for the proceeds of goods sold, or for rents, issues, or profits.—Webster.

Expecting to subsist on the bounty of government, rather than on the avails of their own industry.—Stoddard's Louisiana.

It is used in other parts of the country in like manner.

AVERSE. On the use of this word, Mr. Pickering has the following remarks: "American writers, till within some years
past, generally employed the preposition to instead of from with this adjective. Dr. Witherspoon thinks, that "as averse properly signifies turned away, it seems an evident improvement to say averse from;" and the Scottish writers generally seem to have preferred this. Dr. Campbell, however, observes, that "the words averse and aversion are more properly construed with to, than with from. The examples in favor of the latter preposition, are, beyond comparison, outnumbered by those in favor of the former. The argument from etymology is here of no value, being taken from the use of another language. If, by the same rule, we were to regulate all nouns and verbs of Latin original, our present syntax would be overturned."—Campbell's Rhetoric. Dr. Webster remarks to the same effect. Mr. Todd says many examples may be brought to show the prevalent use of the word from in connection with averse, before Clarendon; but now the usage of to prevails.

AWFUL, adj. 1. Disagreeable, detestable, ugly.

A word much used among the common people in New England, and not unfrequently among those who are educated. The expression, "an awful-looking woman," is as often heard as "an ugly woman."

The country people of the New England States make use of many quaint expressions in their conversation. Everything that creates surprise is awful with them: "what an awful wind! awful hole! awful hill! awful mouth! awful nose!" &c.—Lambert's Travels in Canada and the U. S.

The practice of moving on the first day of May, with one-half the New Yorkers, is an awful custom.—Major Downing, May-day in N. Y.

AWFUL. Very great, excessive. This sense of the word is peculiar to the West.

Pot-pie is the favorite dish, and woodsmen, sharp set, are awful eaters.—Carlton, The New Purchase, vol. I. p. 182.

It is even used in this sense adverbially, and with still greater impropriety, like many other adjectives. Thus we not unfrequently hear such expressions as "an awful cold day."

AWFULLY. Exceedingly, excessively.

The chimneys were awfully given to smoking.—Carlton, New Purchase.
We give an example of the same use of this word by a popular English writer.

The Ottoman horseman, raised by his saddle to a great height above the humble level of the back which he bestrides, and using an awfully sharp bit, is able to lift the crest of his nag, &c.—Eöthen, p. 13.

TO AXE. (Ang. Sax. acsimian, axian.) To ask.

This word is now considered a vulgarism; though, like many others under the same censure, it is as old as the English language. Among the early writers it was used the same as ask is now. In England it still exists in the colloquial dialect of Norfolk and other counties. A true born Londoner, says Pegge, in his Anecdotes of the English Language, always axes questions, axes pardon, and at quadrilles, axes leave. In the United States it is somewhat used by the vulgar.—Forby's Vocabulary. Richardson's Dic.

And Pilate axide him, art thou Kyng of Jewis? And Jhesus answeride and seido to him, thou seist.—Wiclit, Trans. of the Bible.

A poor lazor, upon a tide,

Came to the gate, and axed meate.—Gower, Con. Anc.

Margaret, Countess of Richmond and Derby, in a letter to her son, Henry VII., concludes with—

As herty blessings as ye can axe of God.—Lord Howard.

In the next reign, Dr. John Clarke writes to Cardinal Wolsey, and tells him that—

The King axed after your Grace's welfare.—Pegge's Anecdote.

Day before yesterday, I went down to the Post Office, and ax'd the Postmaster if there was anything for me.—Maj. Jones's Courtship, p. 172.

I have often axed myself what sort of a gall that splendiferous Lady of the Lake of Scott's was.—Sam Slick in Eng., ch. 30.

B.

TO KNOW b FROM A bull's foot. It is a common phrase to say, "He does not know B from a bull's foot," meaning that a person is very illiterate, or very ignorant. The term bull's foot is chosen merely for the sake of the alliteration; as in the similar phrases, "He does not know B from a broomstick," or "B from a battledoor." It is a very old saying; Mr. Halliwell finds it in one of the Digby MSS.
AMERICANISMS.

I know not an A from the wynd mylne, 
Ne a B from a bole-foot, I trowe, ni thiself nother.

Archaic and Provincial Glossary.

BAA-LAMB. A pet term for a lamb in England and America.

BACHELOR'S BUTTON. (Lychnis sylvestris.) The common name of a flower, supposed by country people to have some magical effect upon the fortunes of love. It seems to have grown into a phrase for being unmarried, "to wear bachelor's buttons," in which, probably, a quibble was intended.—Nare’s Glossary.

He wears Bachelor’s Button, does he not?—Heywood, Fair Maid.

BACK, is often used for ago; as in the phrase, "a little while back," i.e. "a short time ago."

BACK AND FORTH. Backwards and forwards, applied to a person in walking, as, "He was walking back and forth." A common expression in the familiar language of New England.

BACKWOODS. The partially cleared forest region on the western frontier of the United States, called also the back settlements. This part of the country is regarded as the back part or rear of Anglo-American civilization, which fronts on the Atlantic. It is rather curious that the English word back has thus acquired the meaning of western, which it has in several Oriental languages, and also in Irish.

BACKWOODSMAN. In the United States, an inhabitant of the forest on the Western frontier.—Webster.

The project of transmuting the classes of American citizens and converting sailors into backwoodsmen, is not too monstrous for speculators to conceive and desire.—Fisher Ames's Works, p. 144.

I presume, ladies and gentlemen, it is your curiosity to hear the plain, uneducated backwoodsmen in his home style.—Crockett's Tour, p. 126.

TO BACK OUT. To retreat from a difficulty, to refuse to fulfil a promise or engagement. A metaphor borrowed from the stables.

Mr. Bedinger, in his remarks in the House of Representatives on the Mexican war, Jan. 25, 1848, said:

He regretted the bloodshed in Mexico, and wished it would stop. But, he asked, would gentlemen be willing to back out, and forsake our rights? No, no. No turning back. This great country must go ahead.
The Whigs undertook to cut down the price of printing to a fair rate, but at last backed out, and voted to pay the old prices.—N. Y. Tribune.

To all appearance, we are on the eve of a bloody contest, if not a revolution. What will be the consequence? One or the other party must back out, or no one can tell what will be the result.—Nat. Intelligencer.

BACK. Behind the Back. When a person is slandered in his absence, it is said to be done behind his back; that is, in secret, or when his back is turned. It is the same as backbiting.

Where behind a man's back
For though he praised, he faint some lacke.—Gower's Conf. A. 62.

BAD, for Ill, as, I feel very bad to-day; also, for much.

BAD BOX. To be in a bad box, is to be in a bad predicament.

I began to be afraid now I'd got into rather a bad box.—Maj. Downing.

BACON. To save one’s bacon. A vulgar expression, meaning to save one's flesh from injury, to preserve one's flesh from harm or from punishment. We say also, to escape with a whole skin. A very old phrase.

What frightens you thus, my good son? says the priest;
You murder'd, are sorry, and have been confess.
Oh, father! my sorrow will scarce save my bacon;
For 'twas not that I murder'd, but that I was taken.—Prior’s Poems.

BAGGAGE. Literally, what is contained in a bag or bags. The clothing or conveniences which a traveller carries with him on a journey. This word is applied by us to the trunks, clothing, &c. of a traveller. The English now use the less appropriate term luggage. Baggage was formerly used by them.

Having dispatched my baggage by water to Altdorf.—Coxe.

This is sometimes called more fully bag and baggage.

Seventeen members of Congress arrived to-day with their bag and baggage.—Washington Paper.

BAGGING. A coarse linen cloth, chiefly manufactured in Kentucky, for packing cotton in.

BAIL. (Fr. baille.) The handle of a pail, bucket, or kettle.—Forby's Glossary. A common word throughout New England.

TO BAIL, OR BAILE. Literally, to lade out with a bail or bucket. A sailor's term, applied to lading water from a boat.
BALANCE. A mercantile word originally introduced into the ordinary language of life by the southern people, but now common throughout the United States, signifying the *remainder* of anything. The *balance* of money, or the *balance* of an account, are terms well authorized and proper; but we also frequently hear such expressions as the "*balance* of a speech;" "the *balance* of the day was idly spent;" "a great many people assembled at the church: a part got in, the *balance* remained without."

The yawl returned to the wreck, took ten or eleven persons and landed them, and then went and got the *balance* from the floating cabin.—*Albany Journal*, Jan. 7, 1846.

Most of the respectable inhabitants held commissions in the army or government offices; the *balance* of the people kept little shops, cultivated the ground, &c.—*Williams’s Florida*, p. 115.

BALDERDASH. Empty babble, nonsensical talk. The etymology of this word is doubtful, for in no word do writers more widely differ. It seems to be connected with the Icelandic *bulldir*, "the prating of fools" (Jamieson); and the Welsh *ball dardd* or *ball dordd*, "to babble, prate, or talk idly" (Boucher). It is chiefly used in conversation.

They would no more live under the yoke of the sea, or have their heads washed with his bubbly spurm or barber’s *balderdash*.—*Nashe*.

Mine is such a drench of *balderdash*.—*Beaumont and Fletcher*.

*Enough* (the king) all *balderdash*!

I’ll none of it! so cease the trash!—*Reynard the Fox*, p. 24

BALLYHACK—Go to Ballyhack; a common expression in New England. I know not its origin. It savors in sound, however, of the Emerald Isle.

You and Obed are here too.

Let Obed go to Ballyhack. Come along out.—*Margaret*, p. 55

TO BAMBOOZLE. To deceive; to impose upon; to confound.—*Todd’s Johnson*. To make a fool of any one; to humbug or impose upon him.—*Grose*, *Prov. Dic*.

Mr. Todd calls it a cant word from *bam*, a cheat. It is provincial in England, and is seldom heard here except at political meetings or in familiar conversation.

After Nick had *bamboozled* about the money, John called for counters.—*Arbuthnot*. 
All the people upon earth, excepting those two or three worthy gentlemen, are imposed upon, cheated, babbled, abused, bamboozled! —Addison.

The New Yorkers have appointed Van Buren men as delegates to the Baltimore convention. If the Calhoun men can abide such dictation without a wry face, they deserve to be thus babbled and bamboozled. —Boston Atlas.

The fact is—we reiterate it with increased corroboration from accumulating evidences—the fact is, the South are to be bamboozled upon this subject of the tariff. Yes, sir, in the language of Col. Benton, which in the Senate, on Clay's bank bill, he proved to be legitimate English from Richardson's quarto Dictionary, "they are to be bamboozled, sir—they are to be bamboozled!" —Congressional Debates.

BANG. To beat, i.e. excel, to surpass. "This bangs all things." —Ohio.

BANKER. A vessel employed in fishing on the banks of Newfoundland. "There were employed in the fisheries 1232 vessels, viz. 584 to the Banks, 648 to the Bay and Labrador; the Bankers may be put down at 36,540 tons."

The vessels that fish at the Labrador and Bay are not so valuable as the bankers, more particularly those from Maine, Connecticut and Rhode Island.—J. Q. Adams on the Fisheries, p. 219.

BANKABLE. Receivable at a bank, as bills; or discountable as notes. —Webster.

Among the great variety of bank notes which constitute our circulating medium, many are below par, and consequently are not received at the Banks. Those only, which are redeemed with specie or its equivalent, are received at the Banks, and are of the class called bankable.

In New York, at auction sales, the auctioneer, in stating the conditions of the sale, if for cash, invariably states, that the money must be bankable; otherwise the purchaser would be likely to pay him in bank notes below par.

BANK-BILL. A bank-note.

Neither Johnson nor the other lexicographers have the term bank-note, though they all have bank-bill, which Johnson defines, "a note for money laid up in a bank, at the sight of which the money is paid."

In the United States these are invariably called bank-bills; while in England this term is obsolete, and bank-notes universally used.
BANNOCK. (Gaelic, bonnach. Irish, boinneag.) In Scotland, a cake of oatmeal baked on an iron plate.

Behind the door a bag of meal;
And in the kist was plenty
Of good hard cakes his mither bakes;
And bannocks were nae scanty.—Scotch Songs, II. 71.

In New England, cakes of Indian meal, fried in lard, are called bannocks.

BAR, for bear. The common pronunciation in certain parts of the Southern and Western States.

BANQUETTE. The name for the side-walk in some of our Southern cities.

BARBECUE. A term used in the Southern States and in the West Indies, for dressing a hog whole; which being split to the back-bone, is laid flat upon a large gridiron, and roasted over a charcoal fire.—Johnson. Webster.

Formerly it was customary to make a fire in a large hole in the ground, lined with stones, and then to put the hog in whole and cover it up until cooked.

Oldfield, with more than harpy throat endu’d,
Cries, “Lend me, gods, a whole hog barbecued.—Pope.

TO BARK ONE’S SHINS. To knock the skin off the shins by stumbling or striking against something.

Mr. Hartshorne calls this a very old metaphor, and says it is found in the ancient popular poetry of Scotland.—Shropshire Glossary.

Berding her selfe to hym apace
She cryed him mercy then,
And yulled the barke even of his face
With her commaundments ten.

Neist Sanderson fratch’d wid a hay-stack,
And Deavison fught wi’ the whins;
Smith Leytle fell out wi’ the cobbles,
And peed’d aw the bark off his shins.—Cumberland Ballads.

TO BARK OFF SQUIRRELS. A common way of killing squirrels among those who are expert with the rifle, in the Western States, is to strike with the ball the bark of the tree immediately beneath the squirrel; the concussion produced
by which, kills the animal instantly without mutilating it.—Audubon, Ornithology, Vol. I. p. 294.

**TO BARK UP THE WRONG TREE.** A common expression at the West, denoting that a person has mistaken his object, or is pursuing the wrong course to obtain it. A metaphor of Western origin. In hunting, a dog drives a squirrel or other game into a tree, where, by a constant barking, he attracts its attention, until the hunter arrives. Sometimes the game escapes, or the dog is deceived and *barks up the wrong tree.*

When people try to hunt (office) for themselves, . . . . . and seem to be *barking up the wrong sapling,* I want to put them on the right trail.—Crockett's Tour, p. 205.

**BARRA CLADE.** (Dutch *barre kledeeren,* cloths undressed or without a nap.) A home-made woolen blanket without nap. This word is peculiar to New York city, and those parts of the State settled by the Dutch.

**BARN-DOOR FOWL.** The common fowl; also so called in Scotland.—Jamieson.

Never had there been such slaughtering of capons, and fat geese, and *barn-door fowls.*—Bride of Lammermoor.

**BARRENS.** Elevated lands, or plains upon which grow small trees, but never timber. Pine *barrens* are common throughout the United States.

**BASE.** A game of hand-ball.

**TO BASE.** To lay the foundation of an argument. This word is not in the English Dictionaries in this sense. We say, for example, "He bases his arguments on these facts." It is used in good language both in England and America.

The Washington correspondent of the N. Y. Journal of Commerce, in speaking of a rumor that Mr. Pakenham had made overtures to our Government, says:

The rumor is *based* upon a very general belief that Mr. P. has instructions of a discretionary kind to resume the negotiation.

We learn, that the revolution (in Mexico) is *based* upon the disavowal by the late Mexican Congress of the treaties made with the Yucatecos by Santa Anna.—New Orleans Picayune.

**BAYOU.** (French, *boyau,* a gulf.) In Louisiana, the outlet of a lake; a channel for water.
BARNBURNERS. The nickname of one of the present divisions of the great Democratic party, otherwise called the Young Democracy; the other is called the Old Hunker.

The following editorial of the Ohio Union, a Democratic paper in Cincinnati, will define the political sentiments of these parties:

There is one class of the Democratic party which seeks the retention of power in the hands of a few—the direction of the disposition of offices—would if possible restrain the impulses of the Democracy—would check its progressive tendency—is unfavorable to, or fearful of, the extension of the "area of freedom," and in fine, in the language of Alexander Hamilton, would restrain "the amazing violence of the popular or democratic spirit." Who would likewise prescribe a fixed rule for present and future, by which the Democracy of every man should be judged, leaving no margin for honest differences on minor points, and would proscribe all who do not fit the dimensions of their intellect, feelings, and opinions, to the Procrustes bed which they have made for them. This is the class which we denominate "Old Hunkers."

There is another class, who would divide power among the many; would leave it entirely where it belongs, with the masses of the people—who would have offices filled by men, taken from among the people, and not confined to those who live by office and make politics a trade—who have sympathies with the people, understand their interests and feelings, and will seek to have both satisfied, while they honestly and faithfully discharge the duties of their offices—who care less about the disposition of offices than they do about the principles of Democracy and the measures and policy of the Government—who desire always and continually the "extension of the area of freedom"—who believe that the Democratic impulses are right and should be obeyed, and not thwarted—who would admit to the ranks of Democracy all who agree with us, upon the great cardinal principles of Democracy and upon the great national policy, now acted upon by the General Government—who believe in and favor progress, and would not prescribe a fixed rule in all minor matters for all time, but would adapt action to the circumstances and exigencies which arise in the progression of events, and to the rights and interests which accompany or result from that progression and its changes. And finally, who have in their hearts "sworn eternal hostility against every form of tyranny over the mind of man." These we denominate "the young Democracy." This is progressive "Young Democracy."

"Old Hunkers." We have been requested to give a definition of this term. Party nicknames are not often logically justified; and we can only say that that section of the late dominant party in this State (the democratic) which claims to be the more radical, progressive, reformatory, &c.
bestowed the appellation “Old Hunker” on the other section to indicate that it was distinguished by opposite qualities from those claimed for itself. We believe the title was also intended to indicate that those on whom it was conferred had an appetite for a large hunk of “the spoils”—though we never could discover that they were peculiar in that. On the other hand, the opposite school was termed Barnburners, in allusion to the story of an old Dutchman who relieved himself of rats by burning his barns which they infested—just like exterminating all Banks and Corporations to root out the abuses connected therewith. The fitness or unfitness of these family terms of endearment is none of our business.—N. Y. Tribune.

They have gone into such depths of Barnburning Radicalism, that a large portion of the rank and file are determined not to follow.—Ibid.

BE (Ang. Sax. beo, 1st person sing. and 1st, 2d, and 3d plur. See Rask’s Gram. p. 84), instead of am and are. Ex. Be you cold? Where be you going? This use of this word is confined to uneducated people. It is common in several of the provincial dialects of England. In the Bible it often occurs instead of are.

Let them shew the former things what they be, that we may consider them.—Isaiah xli. 22.

BEAD. The bubbles which rise on a glass of wine or spirits, by which the strength and quality of the article is known.

Deacon Penrose. Will the Parson taste a little of our New England rum? We call it a prime article, and think it the very best we ever made.

Abel Wilcox. It has as handsome a bead as I ever saw; and we think it possesses a flavor like the West Indies.

Parson Welles. Truly in the words of Scripture, we must say, “Give strong drink to him that is ready to perish.” We need something to make our faces shine these dark times.—Margaret, p. 310.

Mr. Bagley broke three slim glasses in the attempt to raise a bead.—Drama at Pokerville.

BEAKER. (Germ. becher, Dutch beker.) A tumbler. “This word,” says Mr. Pickering, “not many years ago was in common use in New England, as well as in some other parts of the United States; but it is now seldom heard except among old people.” We derive it from our ancestors from Norfolk and Suffolk counties, where it is still provincial. It is also used in the north of England and in Scotland.—Jamieson. Forby.

And into pikes and musketeers, 
Stamp’d beakers, cups, and porringers.—Butler’s Hudibras.
AMERICANISMS.

TO BE AMONG THE MISSING. To be absent, to leave, to run away.

There comes old David for my militia fine; I don't want to see him, and think I will be among the missing.

BEAR, for bar. Connecticut and Virginia.

BEAR. A word to denote a certain description of stock-jobbers.—Johnson.

The same term is used among the brokers and stock-jobbers of Wall street, New York. Their plans of operation are as accurately described in the annexed extract from Warton, as they can be at the present moment:

He who sells that of which he is not possessed, is proverbially said to sell the skin before he has caught the bear. It was the practice of stock-jobbers, in the year 1720, to enter into a contract for transferring South Sea stock at a future time for a certain price; but he who contracted to sell, had frequently no stock to transfer, nor did he who bought intend to receive any in consequence of his bargain; the seller was therefore called a bear, in allusion to the proverb, and the buyer a bull, perhaps only as a similar distinction. The contract was merely a wager, to be determined by the rise or fall of stock; if it rose, the seller paid the difference to the buyer, proportioned to the sum determined by the same computation to the seller.—Dr. Warton on Pope.

The stock speculators of Wall street are denominated Bull-backers or Bear-traps, according to the nature of their operations. The first signifies that they have bought stock largely and hold it; and the second, that they have sold stock which they have not got, and trust to circumstances to be able to supply it. The brokers themselves in these cases are called Bulls and Bears.—A Walk in Wall Street, p. 80.

There has been a very important revolution made in the tactics of a certain extensive operator in Wall street. The largest bull in the street has become a bear, and the rank and file have been thrown into the greatest confusion and left without a leader.—N. Y. Herald.

Some of the operators (in Wall street, owing to the rise in stocks), who were the strongest bears last week, are now roaring bulls.—Ibid.

An attack has recently been made upon the Reading Road in one of the city papers, evidently suggested by the bears.—N. Y. Tribune, 1848.
DICTIONARY OF

TO BEAR A HAND. A seaman’s phrase. To be ready; to go to work; to assist.

BEAST. A common name for a horse in the Southern States.

TO BEAT. To excel, surpass in a contest. Thus we say, one racer or steamer beats another.

Also, to overcome with astonishment, to surprise. We sometimes hear, especially from the mouths of old people, such expressions as “I felt beat,” “I was quite beat,” i.e. utterly astonished.

TO BEAT ALL HOLLOW. To surpass or overcome completely; thus, “Eclipse beat Sir Henry all hollow.” Also, to take wholly by surprise.

The number of ships in New York beat me all hollow, and looked for all the world like a big clearing in the West, with the dead trees all standing. —Crockett, Tour down East, p. 27.

This phrase seems to be common in England. There, however, they do not use the word all, which invariably forms a part of it here.

The author of “The Diary of a Physician” beats Walter Scott hollow, in the attempt which he describes his martyr-philosopher as making to correct La Place.—London Athenæum, Dec. 6, 1845.

A late English traveller under the assumed name of Rubio, says:

I used to think the English might defy all creation for bad coffee; but the Americans beat us hollow.—Travels in the United States.

BECASE, for because. A common vulgarism.

BED-SPREAD. In the interior parts of the country, the common name for a bed-quilt, or coverlet.

BEE. An assemblage of people, generally neighbors, to unite their labors for the benefit of one individual or family. The quilting-bees in the interior of New England and New York, are attended by young women, who assemble around the frame of a bed-quilt, and in one afternoon accomplish more than one person could in weeks. Refreshments and beaux help to render the meeting agreeable. Husking-bees, for husking corn, are held in barns, which are made the occasion of much frolicking. In new countries, when a settler arrives, the neighboring farmers unite with their
teams, cut the timber and build him a log-house in a single day; these are termed raising-bees. Apple-bees are occasions when the neighbors assemble to gather apples, or to cut them up for drying.

BEE-LINE. To take a bee-line, is to take the most direct or straight way from one point to another. Bees in returning to their hives after having loaded themselves with honey always fly back to the hive in a direct line. For a further explanation see the phrase lining bees.

This road is one of nature’s laying. It goes determinedly straight up and straight down the hills, and in a "bee line" as we say.—Mrs. Clavers

I acknowledge the corn, boys, that when I started my track warn’t anything like a bee-line;—the sweeten’d whiskey had made me powerful thick-legged.—Robb, Squatter Life.

BEECH-LE-MAR. (Fr. biche de mer.) A kind of slug taken on the coast of some of the South sea islands, where it is cured for the China trade.—See Morell’s Voyage.

BEING. (Also pronounced bein, been.) Pres. part. of the verb to be, equivalent to because.

This word is noticed by Boucher, as much in use in the Middle States of America, and as an idiom of the Western counties of England. It is also heard among the illiterate in New England.

“I sent you no more peasen, been the rest would not have suited you.”—Boucher’s Glossary.

The mug cost 15d. when ’twas new, but been it had an old crack in it, I told her she needn’t pay but a shilling for it.—Maj. Downing.

Bein’ ye’ll help Obed, I’ll give ye the honey.—Margaret, p. 20.

BELITTLE. To make smaller; to lower in character.—Webster.

This word is but little used, either in conversation or in composition. President Jefferson is the only writer of authority who has used it.—Notes on Virginia.

I won’t stand that, said Mr. Slick, I won’t stay here and see you belittle Uncle Sam for nothin’. He ain’t worse than John Bull, arter all.—Sam Slick in England, ch. 19.

BELLWORT. The popular name of plants of the genus Uvularia.
BENDER. In New York, a spree; a frolic. To go on a bender, is, to go on a spree.

BENT GRASS. (Genus, *agrostis.*) The popular name in the Northern States for a common grass, sometimes called red-top.

BERATE. To revile; to abuse in vile language.—Worcester.

This is a common word in New England, and is not in the English glossaries. Mr. Worcester quotes Holland for his authority.

BESTOWMENT. 1. The act of giving gratuitously; a conferring.—Webster.

This word, which is much used by our theological writers, is not in the English dictionaries.

2. That which is conferred or given.—Webster.

They strengthened his hands by their liberal bestowments on him and his family.—Christian Magazine, iii. 665.

The free and munificent bestowment of the Sovereign Judge.—Thodey.

Mr. Todd has bestowal in his edition of Johnson, but cites no authority for its use. Dr. Webster thinks bestowment preferable on account of the concurrence of the two vowels in bestowal.

BEFTER, for more; as, "It is better than a year since we met."

BEFTERMENTS. (Generally used in the plural number.)

The improvements made on new lands, by cultivation and the erection of buildings.—Pickering's Vocabulary.

"This word," adds Mr. Pickering, "was first used in the State of Vermont, but it has for a long time been common in the State of New Hampshire; and it has been getting into use in some parts of Massachusetts, since the passing of the late law, similar to the Betterment Acts (as they are called) of the States above mentioned. It is not to be found in Mr. Webster's, nor in any of the English dictionaries that I have seen except Ash's; and there it is called 'a bad word.' It is thus noticed by an English traveller in this country, in speak-
ing of those people who enter upon new lands without any
right and proceed to cultivate them:

These men demand either to be left owners of the soil or paid for their
betterments, that is, for what they have done towards clearing the ground.—

men of the lower ranks of society in the city of New York.

The New York Commercial Advertiser, April 12, 1847, in
speaking of the approaching election, uses the following
language:

All the b'hoys will vote, aye, more than all. Let every Whig do his
duty. Another year with a Democratic Mayor—and such a Mayor as the
b'hoys would force upon the city! Who can tell what the taxes will be?

BIDDY. A domestic fowl; a chicken. A term generally used
in calling fowls to eat.

BIBLE CHRISTIANS. The Philadelphia Mercury thus gives a
summary of the creed of this new sect: "This denomination
abstain from all animal food and spirituous liquors, and live on
vegetables and fruits. They maintain the unity of God, the
divinity of Jesus, and the salvation of man, attainable only by a
life of obedience to the light manifested to his mind and a grate-
ful acknowledgment of his indebtedness to the great Giver
of all. The congregation numbers about seventy members."

BIG-BUGS. People of consequence.

Then we'll go to the Lords' house—I don't mean to the meetin' house,
but where the nobles meet, pick out the big-bugs, and see what sort o' stuff
they're made of.—Sam Slick in England, ch. 24.

These preachers dress like big-bugs, and go ridin' about on hundred-

Demagogues and place-hunters make the people stare by telling them
how big they talked and what great things they did to the big-wigs to

So kept the diamond, and the rogue was bit.—Pope.

pression for a bruise, here and in England.

Culloden Papers, p. 108.

BLACK-BOOK. A book was kept in the English monasteries,

during the reign of Henry VIII., in which details of the scan-
dalous enormities practised in religious houses were entered

you down in my black-book.''

BLACK-LEG. The common term here and in England for a

gambler.

It is used both in England and in the United States, chiefly in New England.

I wasn’t goin’ to let Dean know; because he’d have thought himself so *blam’d* cunning.—*Mrs. Claver’s Western Clearings*, p. 70.

BLARNEY. Marvellous stories, flattery. Ex. He deals in the wonderful, he is full of *blarney*. Grose derives this word from the *Blarney* stone, a triangular stone on the very top of an ancient castle of that name in the county of Cork, in Ireland, extremely difficult of access; so that to have ascended it, was a proof of perseverance, courage, and agility, whereof many are supposed to claim the honor who never achieved the adventure. Hence, in England, they say, “He has licked the Blarney stone,” i. e. he deals in the wonderful.—*Dictionary of the Vulgar Tongue*.

Dr. Jamieson doubts the Irish origin of this word, and adopts the French etymon *balivére*, a lie, a fib, gull; also, a babbling, idle discourse.—*Cotgrave, Dictionary*.

BLATHER. Impudence. “None of your blather.”—*Western*.

BLATHERSKITE. A blustering, noisy, talkative fellow.—*Western*.

piece out of the side of trees at a sufficient distance from each other to enable the traveller readily to discover them and thus follow the direct path or road. Such a mark is called a blaze, and trees thus marked are said to be blazed.

Three blazes in a perpendicular line on the same tree indicating a legislative road, the single blaze, a settlement or neighborhood road.—Carlton, The New Purchase.

After traversing a broad marsh, however, where my horse seemed loth to venture, I struck a burr-oak opening, and soon found my way by the blazed trees back to the mail trail.—Hoffman, Winter in the West.

TO BLAZE AWAY. To keep up a discharge of fire-arms. A good English phrase.

As they cut away, the company
Stil kep upon the glare;
An’ when comin’ in, the hossees ded
Along like blazes tear.—Poem in Essex Dialect, p. 21.

This expression is common in low language with us. At the South it seems to be used as a euphemism for devil, etc.

I’ve been servying my country like a patriot, goin’ to town-meetings, hurraing my daylights out, and getting as blue as blazes.—J. C. Neal.

All the hair was off his head, and his face was as black as the very old blazes.—Chron. of Pineville, p. 49.

TO BLINK. To shut the eyes, to wink. Hence, to shun, to avoid, shy at, as some animals avoid an alarming object, at the same time shutting their eyes so as not to see it. The leathern flaps on a horse’s bridle, over the eyes, are called blinkers. We use the verb in a metaphorical sense of avoiding or flinching from delicate topics. Thus we say, “He blinks
the question," that is, he shuns the true point of the argument.

It's no use to blink matters. The skunk has been abroad, and he must have a blunt nose that can't wind him.—Crockett's Tour, p. 107.

BLIZZARD. A poser. This word is not known in the Eastern States.

A gentleman at dinner asked me for a toast, and supposing he meant to have some fun at my expense, I concluded to go ahead, and give him and his likes a blizzard.—Crockett's Tour, p. 16.

BLOW OUT. A feast; also called a tuck out. Both expressions are English as well as American.

TO BLOW OVER. Said properly of a storm; and hence generally, to pass away without effect. This metaphor is very common. We say, there is a great excitement about a certain matter; but it will blow over, i.e. pass away.

Storms, though they blow over at divers times, may yet fall at last.—Bacon's Essays.

A storm is brewing in the political horizon, which may defeat our candidate; but it will soon blow over.—Newspapers of the day.

BLOW-UP. A quarrel; a dispute. A common expression, used in familiar conversation.

writing. A vulgar expression borrowed from sailor's language.

I thought I could stand a blowing up pretty well—I have had some experience in that way, as the old woman's tongue can testify.—Pickings from the Picayune, p. 121.

He was ravin' about the disputed territory, a blowin' up the governor of New Brunswick sky-high.—Sam Slick, 3d ser. chap. vii.

**BLUE.** Gloomy, severe; extreme, ultra.

In the former sense it is applied especially to the Presbyterians, to denote their severe and mortified appearance. Thus, beneath an old portrait of the seventeenth century, in the Woodburn Gallery, is the following inscription:

A true blue Priest, a Lincey Woolsey Brother,
Onelegg a pulpit, holds a tub the other;
An Orthodox grave, moderate Presbyterian,
Half surplice cloake, half Priest, half Puritan.
Made up of all these halifes, hee cannot pass
For anything entirely but an ass.

In the latter sense it is used particularly in politics.

The bluest description of old Van Rensselaer Federalists have followed Col. Prentiss (in Otsego county).—N. Y. Tribune.

**BLUE.** A synonym in the tippler's vocabulary for drunk.

**BLUE-BERRY.** (Vaccinium tenellum.) A fruit resembling the whortleberry in appearance and taste.

**TO LOOK BLUE AT ONE,** is to look at one with a countenance expressive of displeasure or dissatisfaction.

The Bishop would not cease to rate,
Were I to give the church's blessing
To any fold of her transgressing:
Besides, the provost would look blue.—Reynard the Fox, p. 124.

**BLUE-BOOK.** A printed book containing the names of all the persons holding office under the Government of the United States, with the amount of their pay. It answers to the Red-Book of England.

**BLUE DEVILS.** To have the blue devils is to be dispirited.

**BLUE LAWS.** "Where, and how, the story of the New Haven Blue Laws originated, is a matter of some curiosity. Accord-
ing to Dr. Peters, the epithet *blue* was applied to the laws of New Haven, by the neighboring colonies, because these laws were thought peculiarly sanguinary: and he says, that *blue* is equivalent to *bloody*. It is a sufficient refutation of this account of the matter, to say, that if there was any distinction between the colony of New Haven, and the other united Colonies of New England, in the severity of their punishments, New Haven was the last of the number to gain this bad pre-eminence. Others have said, that certain laws of New Haven, of a more private and domestic kind, were bound in a blue cover; and hence the name. This explanation has as little probability as the preceding, for its support. It is well known, that on the restoration of Charles II. the Puritans became the subject of every kind of reproach and contumely. Not only what was deserving of censure in their deportment, but their morality was especially held up to scorn. The epithet *blue* was applied to any one, who looked with disapprobation on the licentiousness of the times. The Presbyterians, under which name all dissenters were often included, as they still dared to be the advocates of decency, were more particularly designated by this term; their religion and their morality being marked by it as mean and contemptible. Thus Butler:

For his religion, it was fit
To match his learning and his wit;
'Twas Presbyterian true *blue*—*Hudib*. Canto I.

"That this epithet of derision should find its way to the colonies was a matter of course. It was here applied not only to persons, but to customs, institutions, and laws of the Puritans, by those who wished to render the prevailing system ridiculous. Hence probably a belief with some, that a distinct system of laws, known as the 'blue laws,' must have somewhere a local habitation."—Prof. Kingsley's *Hist. Disc.*

BLUE-NOSE. The slang name for a native of Nova Scotia.

"Pray, sir," said one of my fellow passengers, "can you tell me why the Nova Scotians are called 'Blue Noses?'"

"It is the name of a potatoe," said I, "which they produce in great perfection, and boast to be the best in the world. The Americans have, in consequence, given them the nick-name of *Blue-noses*."—*Sam Slick.*
After a run (in the steamer) of fourteen days, we entered the harbor of Halifax, amid the hearty cheers of a large number of blue-noses.—Sir George Simpson’s Overland Journey, Vol. I. p. 19.

THE BLUES. A euphemism for blue devils. To have a fit of the blues, is to have a fit of the blue devils, to be low-spirited.

BLUE-SKINS. A nickname applied to the Presbyterians, from their alleged grave deportment.

BLUE STOCKING. A ridiculous epithet applied here as well as in England to literary ladies, and borrowed from that gallant nation the French. Called also simply a blue.

BLUFF. A high bank, almost perpendicular, projecting into the sea.—Falconer’s Marine Dic.

In America it is applied to a high bank, presenting a steep front, in the interior of the country.

Here you have the advantage of mountain, bluff, interval, to set off the view.—Margaret, p. 282.

(This matter) is only fit to be talked on over a cigar alone. It don’t answer a good purpose to blurt everything out.—Sam Slick in England.

BLUSTERATION. The noise of a braggart.—Brockett’s North County Words. Used among us only in low colloquial language.
BOATABLE. Navigable for boats, or small river-craft.—Webster.

This useful word has only recently been adopted in the English dictionaries.

The Seneca Indians say, they can walk four times a day from the boatable waters of the Allegany, to those of the Tiogs.—Morse's Geography.

This word, says Dr. Webster, though of modern origin, is well formed according to the English analogies, like fordable, creditable, &c. The advantage of using it is obvious, as it expresses an important distinction in the capacity of water to bear vessels. Navigable is a generic term of which boatable is the species; and as the use of it saves a circumlocution, instead of being proscribed, it should be received as a real improvement.—Letter to J. Pickering on his Vocabulary, p. 6.

The objection to this word is, that it is a hybrid, composed of a Saxon noun and a Latin ending. It is like fordable, but not like creditable, which is all Latin. We would hardly use the word trustable.

BOATING. Transporting in boats.—Webster.

BOB. A knot of worms on a string used in fishing for eels.—Webster.

TO BOB. To fish for eels with a bob. This word is common in New England, and is used in the same sense in England.

That woke up the confounded rooks from their first nap, and kick'd up such a bobbery.—Sam Stick in England, ch. 2.

I've been writing to Aunt Keziah, about the bobbery you New Yorkers always get into about the first of May.—Maj. Downing.

BOBOLINK. The popular name of the rice-bunting (icterus), a bird which frequents the wild rice and marshes; on Long Island it is called the rice bird. In other places it is called the skunk-blackbird.

It sticks to me like a bobolink on a saplin, in a wood.—Margaret, p. 87.

BOB-SLED. A sled prepared for the transportation of large timber from the forest to a river or public road.—Maine.

BODY.—A person. A colloquial expression used both in England and America.

BOG-TROTTER. One that lives in a boggy country. A derisive epithet applied to Irishmen.

BOGUS. A liquor made of rum and molasses.

TO BOLT. To start off suddenly in any direction. It is said in the first place of a horse starting from his course; and is then transferred to persons. Thus:

In she come, bolting into our room.—Maj. Downing, p. 54.

It is also applied especially to politicians who suddenly desert their party.
Mr. Poindexter has bolted from the Whigs, and united with the Democratic party for the war and the whole of Mexico.—Newspaper.

As I stood bolt-upright upon one end, one of the two ladies burst out.—Addison.

In the mean time, Shadrach stood bolt-upright, with his hands crossed before him, his nose elevated to the ceiling, and his eyes shot.—Paulding's Koningsmarke, ch. v.

I dare not, for the honor of our house,
Say boh to any Grecian goose.—Homer Travestied.

The little woman boo-hoo'd right out, threw herself incontinently full on his breast, hung around his neck, and went on in a surprising way for such a mere artificial as an actress.—Field, Drama in Pokercille.
AMERICANISMS. 43

TO BOOSE. To tipple.

BOOSY. Fuddled; a little intoxicated. A low word, only used colloquially, and alike common to England and America.

BOOSILY. Lazily, in a state of intoxication.

In the sun before the house, lay Mr. Tapley, boosily sleeping with his bare head pillowed on a scythe-snathe.—Margaret, p. 214.

TO BOOST. To lift or raise by pushing.—Webster.

Chiefly used by boys, who apply it to the act of pushing one another up a tree or over a fence. "Boost me up this tree, and I'll hook you some apples."

DICTIONARY OF

BORN DAYS. One's life-time ever since one was born; a vulgar expression used in various parts of the country. It is also used in the same sense in England.—Craven Glossary.

In a' my born days, I never saw sic a rascal.—Carr's Craven.

An expression nearly similar is used by Froissart:

I know not in all my lyfe days how to deserve it.

Odswinge! this is brave! canny Cumberland, oh!

In aw my born days sec a sight I ne'er saw.—Westm. and Cum. Poems.

I never seed such a sight in all my born days. Heaven and earth! thinks I, where could they come from?—Maj. Jones's Courtship, p. 39.

Where have you been all your born days, not to know better than that? Sam. Slick in England, ch. ii.

Bime-by the General begun to let off steam, and such a whizzin' you never heard in your born days.—Maj. Downing's Letters, p. 200.

The schoolmaster read the advertisement, the more he was astonished at the rashest act of temerity he had ever witnessed in his born days.—Knickerbocker Mag. vol. xvii. p. 33.

BORN WITH A SILVER SPOON IN HIS MOUTH. To inherit a fortune by birth.

Mr. Hood, in his History of Miss Kilmansegg, says:

She was one of those, by Fortune's boon, who

Are born, as they say, with a silver spoon

In her mouth, not a wooden ladle;

BOSS. (Dutch, baas. Danish, bas, a master.) A master, an employer of mechanics or laborers. It probably originated in New York, and is now used in many parts of the United States. The blacks often employ it in addressing white men in the Northern States, as they do massa (master) in the Southern States.

BOSS. (Lat. bos.) Among the hunters of the prairies, a name for the buffalo.

BOSSY. A familiar name applied to a calf.

BOTHER. Trouble, confusion.
BOTTOM. Low land with a rich soil formed by alluvial deposits, and formerly the bottom or bed of a stream or lake. This is an old use of the word. Dr. Johnson defines it, a dale; a valley; a low ground.

He stood among the myrtle-trees that were in the bottom.—Zech. i. 8.

In the purleins stands a sheep-cote, west of this place, down in the neighboring bottom.—Shakspeare.

On both shores of that fruitful bottom, are still to be seen the marks of ancient edifices.—Addison on Italy.

Both the bottoms and the high grounds are alternately divided into wood lands and prairies.—Stoddard's Louisiana, p. 213.

BOTTOM-LANDS. In the Western States, this name is given to the rich flat land on the banks of rivers, which in New England is generally called interval land, or simply interval.

—Pickering's Vocab. Webster.

Our sleigh, after winding for some time among this broken ground, and passing over one or two small but beautiful pieces of bottom land among the ravines, reached at last the top of the bluff.—Hoffman.

BOUGHTEN. Which is bought. This is a common word in the interior of New England and New York. It is applied to articles purchased from the shops, to distinguish them from similar articles of home manufacture. Many farmers make their own sugar from the maple-tree, and their coffee from barley or rye. West India sugar or coffee are then called boughten sugar, etc. This is a home-made carpet; that a boughten one, or one of foreign manufacture, bought at a shop.

BOUNCING. Large, heavy. Often applied, in familiar language, as in the phrase, “a bouncing girl.”

TO BOUGE. (Old Fr. bouge, swelling.—Cotgrave). To swell out, to bulge. This old word is noticed by Dr. Johnson. It is nearly obsolete in England, but is preserved in the interior of New England.

When the sun gets in one inch, it is ten o'clock; when it reaches the stone that bouges out there, it is dinner time.—Margaret, p. 6.

BOWIE-KNIFE. (Pron. boo-ee). A knife from ten to fifteen inches long and about two inches broad, so named after its inventor, Colonel Bowie. They are worn as weapons by persons in the South-western States only, and concealed in
the back part of the coat. No gentleman at the North thinks it necessary to wear such a weapon.

BOW-DARK TREE. (Fr. bois d'arc.) A western tree, the wood of which is used to make bows with.

BRACK. (Goth. braka. Ang. Sax. bracan, to break.) A breach, a broken part.—Johnson.

Mr. Pickering says, "This old English word is still used in some parts of New England, where it is applied to a break or flaw in a piece of cloth." It is to be found in old authors and is still provincial in England.

Let not a brack i' th' stuff, or here and there
The fading gloss, a general loss appear.—Beaumont and Fletcher.

BRAKE. The common name for fern. In Sweden the female fern is called bracken. In the north of England it is called brackens.—Brockett's North County Words.

It is a common saying in the Northern States, on the opening of spring, If you break the first brake, and kill the first snake, you will go through all you undertake.

BRAKE. A lever used for stopping cars on railways.

BRAKEMAN. The man whose business it is to stop cars on railways, by pressing a lever against the wheels.

BRAND-NEW. (Tent. brand new.) Quite new.

BRAN-NEW. This word is provincial in the North of England, and is used in colloquial language in other parts, as well as in the United States. Mr. Todd suggests whether the expression may not have been originally brent-new, or bren-new, from the Saxon brennan, to burn, equivalent in meaning to fire-new, i. e., anything new from the forge; hence the secondary sense, just finished, quite new. The Dutch expression is explained by Kilian by vier-new.—Forby—Brockett.

Dr. Jamieson calls this a Scottish word.

—— Waes me, I hae forgot,
With hast of coming off, to fetch my coat.
What shall I do? It was almaist brand new;
'Tis bat a hellier sinc'at came off the clew.—Ross's Helenore, p. 53.

BRASH. Brittle. In New England this word is used in spea-
ing of wood or timber that is brittle. In New York it is often heard in the markets, applied to vegetables. Ex. "These radishes are brash," i.e. brittle. In many parts of England, twigs are called brash.

Although this word is not used in the same sense in England, it seems to be properly derived from the Dutch braash, brittle. Brashy, in the north of England, means, delicate in constitution.—Brockett's Glossary.

BRAVELY. Excellently. The adjective brave was formerly used in the sense of excellent; as it still is, for instance, in German and French. It has now lost this meaning; but we continue to use the adverb in such phrases as "Templeton sang bravely," "The sick man is now doing bravely."

BREACHY. A term applied to unruly oxen in New England, particularly to such as break down fences or through inclosures. It is provincial in the south of England in the same sense.—Halliwell's Arch. and Prov. Dict.

BREAD-STUFF. Bread-corn, meal, or flour; bread.—Webster. Pickering.

This very useful word is American. Mr. Pickering says, "It was first used in some of the official papers of our government, soon after the adoption of the present Constitution. . . . . . It has probably been more readily allowed among us, because we do not, like the English, use the word corn as a general name for all sorts of grain, but apply it almost exclusively to Indian corn or maize." He cites the following authorities:

The articles of exports . . . . . are bread-stuffs, that is to say, bread-grains, meals, and bread. Report of the Secretary of State (Mr. Jefferson) on Commercial Restrictions, Dec. 16, 1793.

One great objection to the conduct of Britain, was her prohibitory duty on the importation of bread-stuff, &c.—Marshall, Life of Washington, Vol. V. p. 519.

In Jamaica, the term bread-kind is applied to esculent roots, &c. substituted for bread.

BREAD-ROOT. (Psoralea esculenta.) A plant resembling the beet in form, which is found near the Rocky mountains, sometimes growing from twenty to thirty inches in circumfer-
ence. It contains a white pulpy substance, sweet and palatable.—*Scenes in the Rocky Mountains*, p. 50.

TO BREAK UP LAND. To plough up land that has lain long as a meadow, is the sense as understood in the United States. In England, according to Grose, land that has long lain fallow or in sheep-walks, is so called during the first year after the alteration.

Where peascn ye had, and a fallow thereon,
Sow wheat ye may well, without dung thereupon:
New broken up land, or with water opprest,
Or overmuch dunged, for wheat is not best.—*Tasser, Husbandry*.

BRICKLEY, for brittle. Used in Georgia.—*Sherwood's Gazetteer*.

TO BRIDGE. To build a bridge, or bridges; as, 'to bridge a river.'—*Webster*.

Mr. Todd, in his edition of Johnson's Dictionary, says this unusual word was thought to be peculiar to Milton, who some supposed coined it; but that he has found it in Sherwood's Dictionary of 1632, with the explanation, "that hath a bridge over it."

Xerxes, the liberty of Greece to yoke,
From Susa, like Memnonian palace high,
Came to the sea; and, over Hellespont
*Bridging* his way, Europe with Asia joined.—*Milton, Par. Lost*.

Here a road is formed by causeys of logs; or, in the language of the country, it is bridged.—*Kendall's Travels in the United States*.

BRIEF. Rife; common; prevalent. This word is much used by the uneducated in the interior of New England, when speaking of epidemic diseases. Mr. Halliwell, in his Provincial Dictionary, says, it is used in the same sense in England, and denotes the quickness with which the contagion spreads. *Brief* is also used when speaking of diseases in Virginia. It is not in any English dictionary except Bailey's, in which it is defined as 'common, rife.'

BRIGHT. Ingenious; possessing an active mind.—*Webster*.

This is a common use of the word in the United States. Neither Johnson nor Todd gives this definition of it. Two of their definitions are, "illuminated with science; sparkling
with wit." We say, a bright child, but would not say that Newton or Bacon was bright, for the term does not express enough to be applied to those great minds. In poetry, however, it does well enough, even when applied to one of these great philosophers.

If parts allure thee, think how Bacon shin'd, The wisest, brightest, meanest of mankind.—Pope.

TO BRISK UP. To come up with life and speed; to take an erect or bold attitude.—Webster. An Americanism.

BROADBILL. (Anas marila.) The common name of a wild duck, which appears on our coast in large numbers in October. On the Chesapeake it is called Black-head; and in Virginia, Raft-duck.—Nat. History of New York.

BROGANS, BROGUES. The first word is used in the United States, to distinguish a heavy, coarse shoe, between a boot and a shoe. In England coarse or wooden shoes are called brogues. When filled with nails they are called clouted brogues.—Nares's Glossary.

I thought he slept, And put my clouted brogues from off my feet, whose rudeness Answer'd my steps too loud.—Cymbeline, IV. 2.

BROOM-CORN. (Sorghum saccharatum.) A species of corn which grows from six to eight feet high, from the tufts of which brooms are made.

BROTHER-CHIP. A fellow-carpenter; in a more general sense, a person of the same trade.

BROTHER JONATHAN.—The origin of this term, as applied to the United States, is given in a recent number of the Norwich Courier. The Editor says it was communicated by a gentleman now upwards of eighty years of age, who was an active participator in the scenes of the Revolution. The story is as follows:

When General Washington, after being appointed commander of the army of the Revolutionary war, came to Massachusetts to organize it and make preparations for the defence of the country, he found a great want of ammunition and other means necessary to meet the powerful foe he had to contend with, and great difficulty to obtain them. If attacked in such con-
dition, the cause at once might be hopeless. On one occasion at that anxious period, a consultation of the officers and others was had, when it seemed no way could be devised to make such preparation as was necessary. His Excellency, Jonathan Trumbull, the elder, was then Governor of the State of Connecticut, on whose judgment and aid the General placed the greatest reliance, and remarked, "We must consult 'Brother Jonathan' on the subject." The General did so, and the Governor was successful in supplying many of the wants of the army. When difficulties afterwards arose, and the army was spread over the country, it became a by-word, "We must consult Brother Jonathan." The term Yankee is still applied to a portion, but "Brother Jonathan" has now become a designation of the whole country, as John Bull has for England.

**BROWN STUDY.** Deep thought; absence of mind. "He is in a brown study," i.e. in deep thought, or intent upon his book.

The adjective is here used in a metaphorical sense; brown being considered a dull, sober color. Comp. art. Blue.

Why, how now, sister, in a motley mouse?
* * * * * * * *

Faith, this brown study suits not with your black,
Your habit and your thoughts are of two colors.—Ben Jonson.

They live retired, and they doze away their time in drowsiness and brown studies; or, if brisk and active, they lay themselves out wholly in making common-places.—Norris.

**BROWN THRASHER.** (Ferruginous thrush. Audubon Ornith.) The popular name of the brown thrush. It is also called the ground mocking-bird.—*Nat. History of New York.*

I love the city as dearly as a brown thrasher loves the green tree that sheltered its young.—C. Mathews, *Works*, p. 125.

**BRUSH.** A skirmish, or fight.—Johnson. Grose.

It could not be possible, that, upon so little a brush as Waller had sustained, he could not be able to follow and disturb the king.—Clarendon.

**TO BRUSH UP.** To prepare oneself; to take courage.

When Miss Mary came, I brushed up, and was determined to have a rite serious talk with her, not knowin but she mought be captivated by some of them Macon fellers.—Major Jones's Courtship.

**BUDDLER.** A fish found in all the waters of the Ohio. Its name is derived from the singular grunting noise which it makes, a noise which is familiar to every one who has been much on the Ohio.—*Flint's Mississippi Valley.*
BUCK-EYE. In the Western States, the people of each are known by certain nicknames. The natives of Ohio are called Buck-eyes.

TO BUCKLE-TO. To set about any task with energy and a determination to effect the object. It probably comes from harnessing or buckling to a carriage, the horses, before starting. In Scotland, buckle to means to join in marriage.—Jamieson.

I have no objections, said the schoolmaster, to sing you a psalm tune, since you're anxious to hear it; but after that you must buckle-to, and stick to the elements.—Knickerbocker Mag. Vol. XVII. p. 87.

BUCKRA. A white man. A term universally applied to white men by the blacks of the African coast, the West Indies and the Southern States. In the language of the Calabar coast, buckra means devil; not, however, in the sense we apply to it, but that of a demon, a powerful and superior being. The term swanga buckra, often used by the blacks, means, an elegantly dressed white man, or dandy. I am indebted to the Rev. J. L. Wilson, who is familiar with the African language alluded to, for the etymology of this word.

BUCKTAIL. The name of a political party in the State of New York, which sprung up about the year 1815. Its origin is thus described by Mr. Hammond: “There was an order of the Tammany Society who wore in their hats as an insignia, on certain occasions, a portion of the tail of the deer. They were a leading order, and from this circumstance the friends of De Witt Clinton gave those who adopted the views of the members of the Tammany Society, in relation to him, the name of Bucktails; which name was eventually applied to their friends and supporters in the country. Hence the party opposed to the administration of Mr. Clinton, were for a long time called the “Bucktail Party.”—Polit. Hist. of New York, Vol. I. p. 450.
DICTIONARY OF

BUCKWHEAT. A species of grain (genus *polygonor*), the flour of which is much used in the United States.

An etymology of this word has been suggested to me by a friend, which, as it is new, deserves mention. The Saxon for beech is *boc*, Dutch, *bock*. The mast or nut of the beech is of the same form and color as the grain of the *buckwheat*; hence we have the Dutch *bock weyt*, beech-wheat, and English *buckwheat*, or wheat resembling the *buck* or *beech* nut.

BUFFALO. A sort of fresh-water fish, resembling the sheep's head, found in the Mississippi.

BUFFALO CHIPS. The dry dung of the buffalo, used for fuel on the prairies.

Wood is now very scarce, but "*buffalo chips*" are excellent—they kindle quick and retain heat surprisingly. We have this evening buffalo steaks broiled upon them that had the same flavor they would have had on hickory coals.—Letter from a California Emigrant.

BUFFALO GRASS. A species of short grass from two to four inches high, covering the boundless prairies on which the buffaloes feed. A remarkable characteristic of some varieties of this grass, is that "the blade, killed by the frost of winter, is resuscitated in the spring, and gradually becomes green from the root up, without casting its stubble or emitting new shoots."—*Scenes in the Rocky Mountains*, p. 287.

BUFFALO-ROBE. The skin of the buffalo, dressed for use.

BUG. In the United States coleopterous insects are invariably called *bugs*; thus May bug, June bug, golden bug, &c. In England they are called *beetles*, and the word *bug* is restricted to the species found in bedding.

BUGGY. A light waggon for one horse.

Lend me a hundred and buy yourself a buggy,—why don't you get a buggy, to begin with?—J. C. Neal's Sketches.

BUGLE-WEED. (*Lycopus Virginicus.*) A plant which has much reputation for its medicinal properties. It is also known as the *Virginian Water-horehound*.

BULGER. Large.—*A Western term*.

We soon came in sight of New York; and a bulger of a place it is.—Crockett, p. 37.
BUILD UP. To erect; and metaphorically to establish, to found.

In this manner it was thought we should sooner "build up a settlement;" as the phrase goes. In America, the reader should know, everything is built. The priest builds up a flock; the speculator, a fortune; the lawyer, a reputation; and the landlord, a settlement.—Cooper, Satanstoe.

Mr. R. has never done anything to the Courier and Enquirer to make them hunt him down or cast ridicule on him, while endeavoring to build up for himself, an unsullied character among his fellow-men.—N. Y. Tribune, 1848.

BULL. A stock exchange term for one who buys stock on speculation for time, i.e. agrees with the seller, called a bear, to take a certain sum of stock at a future day, at a stated price; if at that day stock fetches more than the price agreed on, he receives the difference; if it falls or is cheaper, he either pays it, or becomes a "lame duck." This description of a bull from Grose's Slang Dictionary, corresponds precisely with the bulls of Wall street, who speculate in stocks in the same manner. See Lame Duck and Bear, the names of other classes who figure in the stock exchange.

There was a sauve qui peut movement to-day in the Stock Market, and the clique of bulls finding it impossible to stem the rush, gave up the attempt to sustain the market and let things go down with a run. . . . Such a state of the market as is now exhibited, is nearly as bad for the bears as the bulls.—N. Y. Tribune, Dec. 10, 1845.

There is something of a panic in Wall street, and the bulls fare hard.—N. Y. Journal of Commerce, Dec. 10, 1845.

It is usual for the brokers to collect in Wall street, sometimes in such numbers as to obstruct the way. This led to a petition to the board of aldermen complaining of

"An encumbrance upon the sidewalks, for that every week-day morning, between 9 and 11, certain bulls and bears do congregate upon the sidewalk, on the northerly side of Wall street nearly opposite Hanover street, in such numbers as entirely to obstruct the way of foot passengers, so that they are compelled to take the middle of the street, or cross over to the walk on the opposite side." The prayer is, "that the nuisance may be jabated." Ald. Dod moved to lay the memorial on the table. Ald. McElrath said that the petition was very respectfully signed, and trusted it would receive a respectful consideration: the petitioners were serious, asked the removal of an obstruction, and used the terms well known.—N. Y. Tribune, 1847.

BULL'S EYES, n. A coarse sweetmeat mixed with flour, and
streaked various colors, greedily devoured by children.—
*Hartshorne's Shropshire Glossary.*

The same word is used here.

**BUMBLE-BEE.** The wild bee; also called the humble bee. In Yorkshire, England, *to bumble* means to make a humming noise.—*Dr. Willan, in Archaeologia,* Vol. XVII.

Chaucer uses the verb *bumble* to describe the noise made by the bittern.

**BUNCOME; BUNKUM.** Judge Halliburton of Nova Scotia, thus explains this very useful and expressive word, which is now as well understood as any word in our language:

"———All over America, every place likes to hear of its members of Congress, and see their speeches; and if they don't, they send a piece to the paper, enquirin' if their member died a natural death, or was skivered with a bowie knife, for they hante seen his speeches lately, and his friends are anxious to know his fate. Our free and enlightened citizens don't approbate silent members; it don't seem to them as if Squashville, or Punkinsville, or Lumbertown was right represented, unless Squashville, or Punkinsville, or Lumbertown makes itself heard and known, ay, and feared too. So every feller in bounden duty, talks, and talks big too, and the smaller the State, the louder, bigger, and fiercer its members talk.

"Well, when a critter talks for talk sake, jist to have a speech in the paper to send to home, and not for any other airthly puppus but electioneering, our folks call it *Bunkum.* Now the State of Maine is a great place for *Bunkum*—its members for years threatened to run foul of England, with all steam on, and sink her about the boundary line; voted a million of dollers, payable in pine logs and spruce boards, up to Bangor mills; and called out a hundred thousand militia (only they never come), to captur a saw mill to New Brunswick. That's *Bunkum*—all that flourish about Right o' Search was *Bunkum*—all that brag about hangin' your Canada sheriff was *Bunkum*—all the speeches about the Caroline, and Creole, and Right of Sarch, was *Bunkum.* In short,
almost all that's said in Congress, in the Colonies, (for we set the fashions to them, as Paris gals do to our milliners,) and all over America, is Bunkum.

"Well, they talk Bunkum here, too, as well as there. Slavery speeches are all Bunkum; so are reform speeches, too," etc.

The origin of the phrase, as I have read it, is somehow so:

A tedious speaker in Congress being interrupted and told it was no use to go on, for the members were all leaving the house, replied, "Never mind; I'm talking to Buncombe." Buncombe, in North Carolina, was the place he represented.

Washington is the theatre of the worst passions in our nature: chicanery lurks within the cabinet, distrust and envy without, while fawning sycophancy environs it round about. To sum it up, it is a little of government—a great deal of bunkum, sprinkled with a high seasoning of political juggling, with but one end and aim—the spoils of Uncle Sam.—Robb, Squatter Life, p. 17.

BUNK. (Ang. Sax. benc. Germ. bank. Danish, baenk, a bench, a form.) A wooden case used in country taverns and in offices which serves alike for a seat during the day and for a bed at night. They are common throughout the Northern States.

Dr. Jamieson has the word bunker, a bench, or sort of low chests that serve for seats—also, a seat in a window, which serves for a chest, opening with a hinged lid.—Etym. Dict. Scottish Language.

Ithers frae off the bunkers sank, We e'en like the collops scord.—Ramsay's Poems, Vol. I. p. 280.

In some parts of Scotland a bunker or bunkart, which Dr. Jamieson thinks to be the same word, means an earthen seat in the fields. In the North of England, a seat in front of a house, made of stones or sods, is called a bink.

BUNK. A piece of wood placed on a lumberman's sled to enable it to sustain the end of heavy pieces of timber.—Maine.

BUNGTOWN-COPPER. The old English half-penny, or copper. So called in various parts of New England.

These flowers wouldn't fetch a bungtown copper.—Margaret, p. 19.

TO BUNDLE. Mr. Grose thus describes this custom:
"A man and woman lying on the same bed with their clothes on; an expedient practised in America on a scarcity of beds, where, on such occasions, husbands and parents frequently permitted travellers to bundle with their wives and daughters."—Dictionary of the Vulgar Tongue.

Bundling is said to be practised in Wales. Whatever may have been the custom in former times, I do not think bundling is now practised in the United States.

Mr. Masson describes a similar custom in Central Asia:

"Many of the Afghan tribes have a custom in wooing, similar to what in Wales is known as bundling-up, and which they term namzat bazé. The lover presents himself at the house of his betrothed with a suitable gift, and in return is allowed to pass the night with her, on the understanding that innocent endearments are not to be exceeded."—Journeys in Balochistan, Afghanistan, &c. Vol. III. p. 287.

TO BUNT. To push with horns; to butt. This word is given by Webster, but is not in the English dictionaries. Mr. Hartshorne notices this word in his Shropshire Glossary.

BURGALOO. A kind of pear.

BURGOO. A seafaring dish made with oat meal and water, seasoned with salt, butter, and sugar.—Falconer's Marine Dict.

BURNT HIS FINGERS. When a person has suffered loss by a speculation, he is said to have burnt his fingers. It is used in the same sense in England.

We were sick of speculating in cotton. We had burnt our fingers once with the article, and would not try it again.—Perils of Pearl Street, p. 165.

BURR-STONE. A species of silex or quartz occurring in morphous masses, partly compact, but containing many irregular cavities. It is used for mill-stones.—Cleveland's Mineralogy.

BUSHWHACKER. A raw countryman, a green-horn.

Do you think all our eastern dignitaries combined could have compelled young bushwhackers to wear coats and shoes in recitation rooms.—Carlton's New Purchase, Vol. II. p. 87.

BUSS. A kiss. This word, once of sufficient dignity to be
used by our dramatic authors, has now become so obsolete as to be heard only from the vulgar.

Come, grin on me; and I will think thou smil'st,
And buss thee as my wife.—Shakspeare, K. John, iii. 4.

Kissing and bussing differ both in this,
We buss our wantons, but our wives we kiss.—Herrick's Works, p. 219.

TO BUST. To burst; to fail in business.

Simple persons who have been smarter or earlier in the field of fortune will burst up some fine morning, and leave the road open to others.—Blackwood's Mag. April, 1847, p. 498.

I was soon fetch'd up in the victualling line—and I busted for the benefit of my creditors.—J. C. Neal, Dolly Jones.

BUSTER. Anything large in size; a man of great strength.

A common vulgarism, which appears to be of foreign origin.

Dr. Jamieson, in his Scottish Dictionary, has the word bustuous, busteous, huge, large in size; also, strong, powerful; which is the same meaning usually understood by our vulgar word buster.

— The same time sendis sche
Down to the folkis at the cost of the se,
Twenty fed oxin, large, grete, and fyne,
And one hundreth busteous boukes of swyne.—Douglas, Virgil, 33, 8.

We sometimes hear this word applied to a gale of wind, as, "This is a buster," i.e. a powerful or heavy wind. In the old Scottish poems there are examples of a similar use of the word.

That terrible trumpet, I hear tel,
Beis hard in heavin, in eirth and hel;
Those that were drownit in the sey,
That busteous blast they sal obey.—Lindsay's Works, 1592, p. 167.

The Icelandic bostra, great noise, seems to be analagous to the word.

BUSTER, or bust. A frolic, a spree. "They were on a buster, and were taken up by the police."

BUSTLE. A pad stuffed with cotton, feathers, bran, &c., worn by ladies for the double purpose of giving a greater rotundity or prominence to the hips, and setting off the smallness of the waist.

Some of the ladies had bustles on that would have literally throwed the
whiskers, and the thing that wore them, entirely in the shade. I never knew what a bustle was before. Would you believe it, Mr. Thompson, that I saw bustles up to Athens, that, if they'd been made out of real flesh and blood, would broke the back of any gall in Georgia to carry 'em? It's a fact. Why, some of them looked jist as much out of proportion as a bundle of fodder does tied to the handle of a pitchfork. If anything would make me sue for a divorce, it would be to see my wife toting about such a monstrous pack on her back as some of them I saw up to Athens.—Maj. Jones's Courtship, p. 168.

BUTTE. (French.) This word is of frequent occurrence in books that relate to the Rocky Mountain and Oregon regions, "where," says Col. Frémont, "it is naturalized, and if desireable to render into English, there is no word which would be its precise equivalent. It is applied to the detached hills and ridges which rise abruptly, and reach too high to be called hills or ridges, and not high enough to be called mountains. Knob, as applied in the Western States, is their most descriptive term in English; but no translation or paraphrase would preserve the identity of these picturesque land-marks."—Exped. to the Rocky Mountains, p. 145.

Sir Geo. Simpson in his "Overland Journey round the World," when traversing the Red River country, west of Hudson's Bay, speaks of a conspicuous land-mark in the sea of plains, known as the Butte aux Chiens, . . . tower ing with a height of about four hundred feet over a boundless prairie as level and smooth as a pond.—Vol. I, p. 54.

BUTTER-CUP. The flower of the ranunculus ficarius. It seems to have obtained its name from a vulgar error, that butter is improved in flavor and color by cows eating this plant; though it is well known that they avoid it, on account of its acrid taste.—Craven Glossary.

BUTTERNUT. (Lat. Juglans cinerea.) Also called the oil-nut. The tree resembles the black walnut.

BUTTONING UP. A Wall street phrase. When a broker has bought stock on speculation and it falls suddenly on his hands, whereby he is a loser, he keeps the matter to himself and is reluctant to confess the ownership of a share. This is called buttoning up.—A Walk in Wall Street, p. 47.

BUTTON BUSH. (Cephalanthus occidentalis.) A shrub which
AMERICANISMS.

grows along the water side, its insulated thicket furnishing a safe retreat for the nests of the black-bird. Its flowers appear at a distance like the balls of the sycamore tree; hence its name.—Bigelow's Flora Bostoniensis.

BUTTON WOOD. (Platanus occidentalis.) The popular name in New England of the sycamore tree; so called from the balls it bears, the receptacle of the seeds, which remain on the trees during the winter.—Michaux's Sylva.

BY THE BYE. To Mr. Richardson we are indebted for a fuller examination of this phrase, than other lexicographers have given it. In this expression the latter bye seems to be the same bye as in by-law, &c., and of course to admit a similar explanation. In Lord Bacon; "there is upon the by to be noted," that is, upon the way, in passing, indirectly, this being a collateral and not the main object of pursuit. In Ben Jonson; "those who have saluted poetry on the by;" on their way, in passing; poetry being the collateral and not the direct or main object of their pursuit. By the bye then is by the way, in passing, such being a collateral and not a main object.—Richardson, Dictionary.

BY THE SKIN OF ONE'S TEETH. When a man has made a narrow escape from any dilemma, it is a common remark to say, that he has saved himself 'by the skin of his teeth.'

BY-BIDDER. A person employed at public auctions to bid on articles put up for sale, in order to obtain higher prices. In New York city also called Peter Funks, which see.

BY GOSH! An inoffensive oath, used mostly in New England. Negroes often say, By Golly!

BY GUM! The same as the preceding. It is also noticed by Moor in his Suffolk Glossary.

BY GOOD RIGHTS. By right, by strict justice; as, "By good rights Mr. Clay ought to be President of the United States," meaning that he is entitled to it by right, or by justice, and for the services he has rendered his country.
CAB. A small one horse carriage, lately introduced into our principal cities from England.

CABBAGE. A cant word for shreds and patches made by tailors in cutting out clothes.—Todd. From this comes to cabbage, to steal in a small way.

CABOOSE. The common pronunciation for camboose (Dutch kombuis), a ship’s cooking-range or kitchen.

CACHE. (French.) A hole in the ground for hiding and preserving provisions which it is inconvenient to carry; used by settlers in the West.—Webster.

CADDY. A small box generally made of laquered ware, and lined with sheet lead, for keeping tea in.

CAHOOT. Probably from cohort, Spanish and French, defined in the old French and English Dictionary of Holly-band, 1593, as “a company, a band.” It is used at the South and West to denote a company or union of men for a predatory excursion, and sometimes for a partnership in business.

If I could only get the township and range, I'd make a cahoot business with the old man.—Simon Suggs, p. 37.

Pete Hopkins aint no better than he should be, and I wouldn’t swar he wasn’t in cahoot with the devil.—Chronicles of Pineville, p. 74.

I'd have no objection to go in cahoot with a decent fellow for a character, but have no funds to purchase on my own account.—New Orleans Picayune, p. 136.

The hoosier took him aside, told him there was a smart chance of a pile on one of the (card) tables, and that if he liked, he would go in with him—in cahoot.—Field, Western Tales, p. 198.

CALASH. (Fr. calèche.) A two-wheeled carriage, resembling a chaise, used in Canada.

CALASH. A covering for the head, usually worn by ladies to protect their head-dresses when going to evening parties, the theatre, etc.

TO CALCULATE. This word, which properly means to compute, to estimate, has been erroneously transferred from the language of the counting-house to that of common life, where it is used for the words, to esteem; to suppose; to
believe; to think; to expect; intend, &c. It is employed in a similar way to the word guess, though not to so great an extent. Its use is confined to the illiterate of New England.

Mr. Cram requested those persons who calculated to join the singin’ school to come forward.—Knickerbocker Mag. Vol. xvii.

CALABOOSE. (Fr. calabouse. Span. calabozo.) In New Orleans, the common jail or prison.

CALIBOGUS. Rum and spruce-beer. An American beverage.—Grose.

CALICO. Supposed to be derived from Calicut in India. The word was originally applied to white cottons from India. In England, white cotton goods are still called calicoes. In the United States the term is applied exclusively to printed cotton cloth. Dr. Webster says, to printed cotton cloth having but two colors. This is a mistake. Calicoes may have two or ten colors in them. The number of colors does not change the name.

TO CALK. In some parts of America, to set upon a horse or ox shoes armed with sharp points of iron, to prevent their slipping on ice.—Webster.

CALLITHUMPPIANS. It is a common practice in New York, as well as other parts of the country, on New-Year’s eve, for persons to assemble with tin horns, bells, rattles, and similar euphonious instruments, and parade the streets making all the noise and discord possible. This party is called the Callithumpians, or the Callithumpian Band. On wedding nights the happy couple are sometimes saluted with this discord by those who choose to consider the marriage an improper one, instead of a serenade. See chiravari.

CALUMET. (Old Fr.) Among the aboriginals of America, a pipe, used for smoking tobacco, whose bowl is usually of soft red marble, and the tube a long reed, ornamented with feathers. The calumet is used as a symbol or instrument of peace and war. To accept the calumet, is to agree to the terms of peace; and to refuse it, is to reject them. The calumet of peace is used to seal or ratify contracts and alliances, to receive strangers kindly, and to travel with safety. The calumet of war, differently made, is used to proclaim war.—Webster, Dic.
CAMP OUT. To encamp out of doors for the night.

The surveying party did not always return to the hut at night, but it camped out, as they called it, whenever the work led them to a distance.—Cooper, Satanstoe, Vol. II. p. 88.

CANADA RICE. (Zizania aquatica.) A plant which grows in deep water along the edges of ponds and sluggish streams, in the Northern States and Canada. It is called in some places wild rice and water oats.

CANDLE. Hold a candle. To hold a candle to one, is to wait on him. Hence, 'you are not fit to hold a candle to him,' is equivalent to, you are not fit to be even his servant; or not to be compared to him.

I have heard in my time a good many men speak French, but I never see the man yet who could hold a candle to the Prince de Joinville. It was like lightnin'; jist one long-endurin' streak. It was beautiful, but I couldn't understand it, it was so everlastin' fast.—Sam Slick in England, ch. 22.

Talking about the popularity and glory of his administration—"Why," says the General, "nothing can hold a candle to it."—Maj. Downing's Letters, p. 233.

CANE-BRAKE. A thicket of canes. They abound in the low lands of Louisiana and Mississippi.

CANOE. (Canóa, West Indies.) An Indian boat made of bark or skins.

TO CANT. To turn about; to turn over; a common use of the word, not mentioned by Johnson or Todd. It is, however, in Ash's Dictionary, who defines it, a sudden kind of turn in moving a piece of timber.

The cart reeled and rattled. It jolted over stones, canted on knolls, sidled into gutters.—Margaret, p. 17.

CANT-HOOK. A wooden lever, with an iron hook at one end, with which heavy articles of merchandise or timber are canted over.

CAN'T COME IT, is a vulgar expression for cannot do it. "You can't come it over me so," i. e. you cannot effect your purpose. Mr. Hamilton notices this expression among the provincialisms of Yorkshire.—Nuga Litterarie, p. 353.

CANTELOPE. A species of muskmelon.

CANTICOY, or Cantica. An Indian word, denoting a dancing
assembly, still used by aged people in New York and on Long Island. Also, a noisy conversation.

At their cantus or dancing matches, where all persons that come are freely entertained, it being a festival time.—Denton's Description of New York, 1670.

CANYON. (Span. cañon.) A narrow, tunnel-like passage between high and precipitous banks, formed by mountains or table-lands, with a river running beneath. These occur in the great western prairies.

The Platte forces its way through a barrier of table lands, forming one of those striking peculiarities incident to mountain streams, called a cañon.

—Scenes in the Rocky Mountains, p. 111.

TO CAP. To excel; to surpass. Ex. To cap all. Used in familiar language in New England. Mr. Hartshorne, in his Shropshire Glossary, has the expression, to cob all, meaning the same.

TO CAP THE CLIMAX, is to surpass everything. A letter from Mexico, in speaking of the excesses of the American soldiers, says:

Several robberies were committed by them at Jalapa, but at Cautepiec they robbed almost every house, and, to cap the climax, robbed the church.

—Alexandria Gazette.

The western hunter, when he wishes to cap the climax of bragadocio with respect to his own prowess, says, "he can whip his weight in wild-cats."—Thorpe's Backwoods.

TO SET HER CAP FOR HIM. To direct her attentions to him; to endeavor to win his affections. Dr. Johnson notices the phrase, which he says belongs to modern times. It is common in the United States, and may be heard in the best society, in familiar conversation.

CAPSHEAF. A small sheaf of straw forming the top of a stack.—Dorset Glossary. Figuratively used in the United States to denote the highest degree, the summit.

Of all the days that I ever did see in this 'ere world, moving-day in New York is the capsheaf.—Maj. Downing, May-day in N. Y., p. 43.

TO CAPSIZE. To upset or overturn.—Webster. Originally a seaman's word; but now often heard among landsmen.

TO CAPTIVATE, v. a. (Lat. captivo, from capto, to take; Fr. captiver.) To take prisoner; to bring into bondage.—Johnson. To seize by force; as an enemy in war.—Webster.
How ill-becoming is it in thy sex,
To triumph like an Amazonian trull
Upon their woes whom fortune captivates.—Shakspeare.

They stand firm, keep out the enemy, truth, that would captivate or disturb them.—Locke.

The unnatural brethren who sold their brother into captivity, are now about to be captivated themselves, and the binder himself to be bound in his turn.—Dr. Adam Clarke, Reflec. 4th Genesis.

The Edinburgh Review, in its notice of the American Mineralogical Journal, published in New York in 1810, after speaking of other words, says, "Other examples, proving the alteration to which our language has been exposed, chiefly by the introduction of gallicisms, may be noticed in the rest of this Journal, resembling expressions found in American newspapers, where for a "ship taken," we read of "a ship captivated."

In his remarks on this word, Mr. Pickering says it was new to him, and that he had never seen it in the newspapers. Subsequently, however, he discovered it in two or three of our authors. It cannot be said to be in use among writers at the present day. It is well known that Congress, in adopting the Declaration of Independence prepared by Mr. Jefferson, omitted certain passages contained in the original draft. Among these was the omission of the paragraph relating to the slave trade:

He has waged cruel war against human nature itself, violating its most sacred rights of life and liberty in the persons of a distant people, who never offended him, captivating and carrying them into slavery in another hemisphere, or to more miserable death in transportation thither.

In noticing the above passage, Lord Brougham says, The word "captivating" will be reckoned an Americanism (as the Greeks used to say of their colonists a Solæcism). But it has undoubted English authority—Locke among others.—Statesmen of George III.

Twenty-three people were killed in this surprisal, and twenty-nine were captivated.—Belknap, Hist. New Hampshire, Vol. I. ch. 10.

The singularly interesting event of captivating a second Royal army (Lord Cornwallis's) produced strong emotions.—Ramsay, History American Revolution, Vol. II. p. 274.
CARDINAL. The name of a woman’s cloak; from the red or scarlet habit worn by cardinals.—*Todd’s Johnson*. The cardinal worn by ladies at the present day is a short cloak usually made of velvet, satin, or other rich material.

But we’ve no time, my dear, to waste,
Come, where’s your cardinal, make haste.—*Lloyd, Chat-chat*.

CAROLINA POTATO. The sweet potato (*convolvulus batata*), so called in the Eastern States.

CARPET WEED. A small spreading plant, common in cultivated ground (*mollugo*).—*Bigelow’s Plants of Boston*.

CARROTY. *Carroty-hair*, red hair. A term common alike to England and America.

While “Tall-and-thin,” with his hair all carroty,
Looks thrice as red, with fright, as his head,
And his face bounds plump, at a single jump,
Into horror, and out of hilarity!—*New Tale of a Tub*.

Seth’s short, bow-legged figure was thatched with the most obstinate bunch of carroty hair that ever bid defiance to bear’s oil.—*Robb, Squatter Life*.

CARRYALL. A four-wheeled pleasure carriage, capable of holding several persons, or a family; hence the term, carryall. The name is common in the Northern States. In Canada it is applied to a sleigh.

TO CARRY A HORSE TO WATER, instead of lead or ride him to water. A Southern expression.—*Sherwood, Georgia*.

TO CARRY ON. To riot; to frolic.

We notice some young scategraces, who get up their wild freaks at night and continue them till morning. Sometimes they carry on even longer than this.—*N. Y. Tribune*.

CARRYINGS-ON. Riotings, frolickings.

Everybody tuck Christmas, especially the niggers, and sich carryings-on—sich dancin’ and singin’—and shootin’ poppers and sky-rackets—you never did see.—*Maj. Jones’s Courtship*.

She had better not come about me with any of her cantankerous carryings-on this mornin’.—*Chron. of Pineville*.

When he reflected that wherever there were singin’ schools, there would be carryings-on, he thought the cheapest plan would be to let them have their fun out.—*Peter Cram in Knickerbocker Mag*.

TO CASCADE. To vomit—from the resemblance to a waterfall. It is a common word in England.
CASSAVA, or CASSADA. (Cassabi, W. Ind.) The native name of a shrub of Central and South America, from the root of which the tapioca and mandioca are extracted.

CATAMARAN. In the State of Maine, a raft for crossing rivers.

CATAMOUNT. Although this animal is peculiar to North America, a similar name, that of catamountain, for the wild cat, is common in the old authors, from which we probably borrowed it. The catamount of North America is a larger and very different animal from the wild cat of Europe.

As cattes of the mountayn, they are spotted with diverse fykle fantasyes. —Bale on the Revel. (1550), p. 2.

Would any man of discretion venture such a gristle, To the rude claws of such a cat-a-mountain?—Beaumont and Fletcher.

CATAWAMPTIOUSLY CHAWED UP. Completely demolished, utterly defeated. One of the ludicrous monstrosities in which the vulgar language of the Southern and Western States abounds.

In this debate Mr. B. was 'catawamptiously chawed up;' his arguments were not only met, but his sarcasm returned upon himself with great effect.—Charleston Mercury.

TO CATCH A TARTAR. To attack one of superior strength or abilities. This saying originated from the story of an Irish soldier in the Imperial service, who, in a battle against the Turks, called out to his comrade that he had caught a Tartar. "Bring him along then," said he. "He won't come," answered Paddy. "Then come along yourself," replied his comrade. "Arrah," cried he, "but he won't let me."—Grose.

In this defeat they lost about 5000 men, besides those that were taken prisoners; so that, instead of catching the Tartar, they were caught themselves.—Life of the Duke of Tyrconnel, 1689.

TO CATCH A WEASEL ASLEEP. It is a common belief that this little animal is never caught napping, for the obvious reason that he sleeps in his hole beyond the reach of man. The expression is applied to persons who are watchful and always on the alert, or who cannot be surprised; as, "You cannot deceive me, any sooner than you can catch a weasel
asleep," or, "You can't catch a weasel asleep." The expressions are common.

CATERWAUL. The wailing of cats in the night-time; and hence, any ludicrous, disagreeable noise that resembles it.

What a caterwauling you do keep here! If my lady has not called up her steward Malvolio, and bid him turn you out of doors, never trust me.—Shakspeare, Twelfth Night.

It indeed appeared a little odd to me, to see so many persons of quality of both sexes, assembled together at a kind of caterwauling; for I cannot look upon the performance to have been anything better, whatever the musicians themselves might think of it.—Spectator, No. 361.

Yes, gentlemen, as the eagle is the proud representative of this great nation, so is Mr. Van Buren the proud representative of the Democracy. (Cheers, greans, and caterwaulings.)—Report of Speech, N. Y. Herald.

CATFISH. (Genus Prinelodus. Cuvier.) This fish in several varieties is common throughout the Atlantic States under different popular names. It is also called by the name of Horned-pout, Bull-head, Mud-pout, and Minister. There is a very large species called the channel cat-fish, which is noticed by Dr. Kirtland in his Report on the Geology of Ohio.

CATMINT, or CATNIP. (Nepeta cataria.) A well known medicinal herb.

CATS-PAW. To be made a cats-paw of. To be made a tool or instrument to accomplish the purpose of another; an allusion to the story of a monkey, who made use of a cat's paw to scratch a roasted chestnut out of the fire.—Grose.

CATSTICK. A bat or cudgel used by boys in a game at ball. It is known by the same name in England, though used for a different play. I have never heard the word here except in Rhode Island.

When the cat is laid upon the ground, the player with his cudgel or catstick strikes it smartly, it matters not at which end, and it will rise high enough for him to beat it away as it falls in the same manner as he would a ball.—Strutt, Sports and Pastimes.

Your petitioner most earnestly implores your immediate protection from the insolence of the rabble, the batteries of catsticks, and a painful lingering death.—Tattler, No. 134.

CAT-TAILS. Hares-tail rush (eriophorum vaginatum). So called from its resemblance to a cat's tail. This name is
common alike to England and America. It is used as a material for stuffing bed-ticks.

The cat-tails whiten through the verdant bog;
All vivifying Nature does her work.—Davidson's Poems, p. 10.

CAT-TAIL GRASS. Herds grass, or timothy.

CATTLE-RANGE. In Kentucky, a park.

CATTY-CORNERED. Diagonally. In his Craven Glossary, Mr. Carr gives the word cater corner'd.

CAUCUS. A private meeting of the leading politicians of a party to agree upon the plans to be pursued in an approaching election.

Gordon's History of the American Revolution, 1788, contains the earliest account of this word.

"The word caucus, and its derivative caucusing, are often used in Boston. All my repeated applications to different gentlemen have not furnished me with a satisfactory account of its origin. . . . . More than fifty years ago, Mr. Samuel Adams's father, and twenty others, one or two from the north end of the town, where all ship-business is carried on, used to meet, make a caucus, and lay their plan for introducing certain persons into places of trust and power. When they had settled it, they separated, and used each their particular influence within his own circle," &c. Vol. I. p. 240.

"From the above remarks of Dr. Gordon on this word," says Mr. Pickering, "it would seem that these meetings were in some measure under the direction of men concerned in the 'ship business;' and I had therefore thought it not improbable that caucus might be a corruption of cavilkers', the word meetings being understood. I was afterwards informed that several gentlemen in Salem and Boston believed this to be the origin of the word."

I'll be a voter, and this is a big character, able to shoulder a steamboat, and carry any candidate that the caucus at Baltimore may set up against the people. What's the people to a caucus? Nothing but a dead ague to an earthquake.—Crockett's Tour, p. 206.

On the whole, this may be called a very useful word, the sense being so well understood in every part of the Union.

CAUSEY. A causeway, or way raised above the natural level
of the ground, by logs, stones, earth, etc., serving as a dry passage over wet ground. This word is seldom used now.

TO BE A CAUTION. To be a warning. A common expression used in familiar language.

A large portion of Capt. Marryatt's "Travels of Mons. Violet," is stolen from the New Orleans Picayune; and it will not be surprising if Kendall [the author] lets his sting into this trans-Atlantic robber. He can do it in a way that will be a caution.—Providence Journal.

The way Mr. Van Buren is a democrat, is a caution, all over. He is dyed in the wool, through and through.—Crockett's Tour, p. 297.

He was a sneezer that; and when he flourished his long whip-stick, that looked like a fishin'-rod, and yelled like all-possessed, he was a caution, that's a fact.—Sam Slick in England.

Our route was along the shore of the lake in a northerly direction, and the way the icy blast would come down the bleak shore was a caution.—Hoffman, Winter in the West, p. 234.

Moses wound up his description of the piano, by saying that the way the dear creeters could pull music out of it, was a caution to hoarse owls.—Thorpe's Mysteries of the Backwoods, p. 24.

TO CAVE IN. Said of the earth which falls down when digging into a bank. Figuratively, to break down; to give up.

At the late dinner, Mr. W—— arose to make a speech, but soon caved in.—Washington Paper.

The South-western and Western Locos, it is thought, will cave in, and finally go for the Treaty [of peace with Mexico], though they talk loud against it now.—New York Tribune, March 4, 1848.

The Northern Democrats are caving in on the "three million bill;" they
have determined to sacrifice the proviso against slavery; their temporary firmness, though mostly affected, has already failed.—N. Y. Tribune.

CAVESON. (French caveçon.) A muzzle for a horse.—New England.

There, Chilion, it is just as I told you. The rake-shame put a caveson on him.—Margaret, p. 304.

CAVORTIN. (Span. cavar, to paw, applied to horses.) A word chiefly used in the Southern States. The following illustrations will show the sense in which it is used:

There’s some monstrous fractious characters down in our beat, and they musn’t come a cavortin’ about me when I give orders.—Major Jones’s Courtship, p. 20.

A whole gang of fellers, and a heap more of young ladies, came ridin’ up and reinin’ in, and prancin’ and cavortin’.—Ibid. p. 41.

CENT. A copper coin of the United States, whose value is the hundredth part of a dollar.—Webster.

CHAIR. In the Southern States, this name is given to that kind of one-horse pleasure carriage, which, in the Northern States, is generally called by the old English name, chaise.—Pickering. The same word, in England, is applied to a vehicle drawn by one horse.

E’en kings might quit their state, to share Contentment and a one-horse chair.—T. Warton.

TO CHALK OUT. To mark or trace out as with chalk.—Johnson. To chalk out a plan or proceeding, is to devise or lay out a plan.
His own mind *chalked out* to him the just proportions and measures of behaviour to his fellow creatures.—*South.*

The time falls within the compass here *chalked out* by nature very punctually.—*Woodward, Nat. Hist.*

The Liverpool Times, when speaking of Sir Robert Peel’s Tariff, says:

The United States cannot long be insensible to the enlightened views in commercial matters, which English philosophers have *chalked out*, and which English statesmen have carried.—*June 19, 1846.*

**CHALK.** Not by a long chalk. When a person attempts to effect a particular object, in which he fails, we say, “He can’t do it by a long chalk.”

**CHAP.** A boy, lad; a fellow.

For you are to consider these critical chaps
Do not like to be snubb’d; you may venture, perhaps,
An amendment, where they can see somewhat amiss;
But may raise their ill blood, if you circulate this.—*Byron, Critical Remarks.*

**CHAPARRAL.** In Spain, a *chaparral* is a bush of a species of oak. The termination *al* signifies a place abounding in; as, chaparral, a place of oak-bushes; almendral, an almond orchard; parral, a vineyard; cafetal, a coffee-plantation, &c. &c.

This word having recently become quite common in our newspapers in consequence of the lamentable war with Mexico, the following description of a *chaparral* was given last year by a correspondent of the New Orleans Picayune, then at Matamoros: It is a series of thickets of various sizes, from one hundred yards to a mile through, with bushes and briars, all covered with thorns, and so closely entwined together as to prevent the passage of anything through larger than a wolf or hare. When they are in the course of a traveller, he must travel around them, sometimes four or five miles before he can make half a mile on his route. In the middle of most of them you will find a small prairie, with numerous beds of prickly pears, the fruit of which is often ventured for by those who are accustomed to its use, and “know the ropes.”

**CHATTER-BOX.** One whose tongue runs incessantly.—*Todd.*
DIGONARY OF

TO CHAW. (Saxon, ceowan; German, kawen.) To champ between the teeth; to masticate; to chew.—Johnson. Webster. This, according to all lexicographers, is the legitimate word, and should be so written and pronounced. Custom and fashion, however, have changed it to chew, which is now invariably used among educated people.

I home returning, fraught with foul despite,
And chawing vengeance all the way I went.—Spenser, F. Queen.
The man who laughed but once, to see an ass
Mumbling to make the cross-grained thistles pass,
Might laugh again, to see a jury chaw

Whereupon Cash fell into a chair, as he afterwards observed, chawed-up.—Thorpe's Backwoods, p. 28.

CHAY. A chaise. Common in New England, where these vehicles are chiefly used.

CHEBACCO BOAT. Probably the same as the xebec of the Mediterranean. A description of fishing vessel employed in the Newfoundland fisheries. They are also called Pinksterns. The word may be a corruption of chedabucto, the name of a bay in Nova Scotia, from which vessels are fitted out for fishing.—Adams on the Fisheries, p. 220.

CHECKERS, or chequers. The common name for the game which is called draughts in England. Mr. Todd, in his edition of Johnson's Dictionary, has the word checker, a chess-board, or draught-board.

The checkers, at this time a common sign of a public house, was originally intended, I should suppose, for a kind of draught-board, called tables, and showed that there the game might be played.—Brand, Popular Antiquities.

CHEQUER BERRY. (Mitchella.) A handsome little creeping plant, the only species of its genus.—Bigelow's Flora Bostoniensis.
AMERICANISMS.

CHEWINK. The ground robin; so called from its peculiar note. On Long Island it is called the towhee goldfinch; and in Louisiana, from its plumpness, grasset.—Natural History of New York.

The remainder of the breakfast table [in New York], was filled up with some warmed-up old hen, called chicken-fixings.—Rubio, Travels in the U. S.

CHICKWEED. (Stellaria media.) A very common plant, growing in every situation, even between the bricks in the side-walks.—Bigelow's Flora.

CHIGRES (commonly called jiggers). Sand-fleas, which penetrate under the skin of the feet, but particularly the toes. As soon as they accomplish this, an itching sensation is felt; when the chigre ought to be removed by means of a needle breaking the skin. No uneasiness follows; but should this precaution be neglected, the insect breeds in the toe, and produces sometimes dreadful sores. These insects are found in the West Indies, and the adjacent shores of the Gulf of Mexico.—Carmichael's West Indies, Vol. I. p. 188.

TO CHINK. To rattle, jingle; to cause to rattle or jingle. Used especially of the noise of coin shaken in a purse or bag.

At length the busy time begins,
"Come, neighbours, we must wag."—

The money chinks, down drop the chins,
Each lugging out his bag.—Cowper, Yearly Distress.

The interstices of the log wall were “chinked”—the chinking being large chips and small slabs, dipping like strata of rocks in geology; and the daubing, yellow clay ferociously splashed in soft by the hand of the architect.—Carlton, The New Purchase, Vol. I. p. 61.

CHINQUIPIN. (Castanea pumila.) A species of chestnut. The water chinquipin of the United States, is the ‘sacred bean’ of the Egyptians (nelumbo nucifera).

I was introduced to about one hundred young gentlemen, true chips of the old block, ready to be rocked in the old cradle of liberty [Faneuil Hall].—Crockett, Tour, p. 66.

Hosses and galls, Sam, are all you think of (says father). You’re a chip of the old block, my boy. There ain’t nothin’ like ’em, is there?—Sam Slick in England, ch. 19.

CHARIVARI. (Commonly pronounced shevaree.) A custom
which prevails in those parts of the United States which were originally colonized by the French, as Louisiana, some parts of Florida, Missouri and Michigan. It is also common in Canada. When an unequal match takes place, when an old bachelor marries, or a widow or widower soon after the death of his or her partner, their friends assemble on the night of the marriage, with tin horns, bells, pans, kettles, and everything that will make a discordant noise. This “serenade” is continued night after night until the party is invited in and handsomely entertained.—See Callithumpian.

TO CHIRK. To make a peculiar noise by placing the tongue against the roof of the mouth, to urge horses on.

He painted a horse-rider cheering and *chirking* his horse, yet reining him hard as he champed upon his bit.—*Holland, Pliny*, B. 35, ch. 10.

CHIRK. Lively; cheerful; in good spirits; in a comfortable state; as when one enquires about a sick person, it is said, he is *chirk*. The word is wholly lost except in New England.—*Webster*. It is doubtless derived from the old verb *to chirk* (Ang. Sax. *cercian*), i. e. to chirp, which is found in old English writers.

Afore I had mixed a second glass of switchel, up they came, and the General looked as *chirk* and lively as a skipper.—*Maj. Downing’s Letters*.

TO CHIRRUP. To cheer up; to quicken or animate a horse by a peculiar sound or chuck, or by chirping. It is not noticed by Johnson, though it is common in England.

When the bells ring, the wood-work thereof shaketh and gapeth, and exactly *chocketh* into the joynts again.—*Fuller’s Worthies*. 
DICTIONARY OF

CHOCK-FULL. Entirely full; see also Chuck-full.

I'm chock-full of genius and running over, said Pigwiggin.—Neal.

By this time we got into a shabby looking street, chock-full of hogs and boys.—Maj. Downing, May-day in N. York.

CHOKE-CRERRY. The popular name of the prunus Virginiana, so called from its astringent properties.

TO CHOKÉ OFF. A figurative expression, borrowed from the act of choking a dog to make him loosen his hold. To arrest or stop a public speaker when addressing an audience, is called choking him off. This is done by shuffling the feet, applauding where applause is uncalled for, by putting questions of order, or in any way impeding or arresting the speaker. It is sometimes resorted to when a tedious man occupies the floor, and when vacant seats do not satisfy him that no one will listen to him.

I spent a couple of hours in the House, amused by watching the dignified proceedings of our Representatives. The operation of "choking off" a speaker was very funny, and reminded me of the lawless conduct of fighting school-boys.—New York Express, Feb. 21, 1848.

TO CHOMP. To champ; to chew loudly and greedily. Champ is an old word, but not often used now, except in connection with a horse.—Forby’s Vocab. Chomp is quite common in New England, and is applied to persons who eat fast or greedily.

A tobacco-pipe happened to break in my mouth; and the pieces left such a delicious roughness on my tongue, that I champed up the remaining part.—Spectator.

CHOO! interj. (Old Fr. chou.) Used to drive away pigs and set dogs upon them. Cotgrave says, "Chou is a voice wherewith we drive away pullein." And why not pigs?—Forby’s Vocab.

CHOP. A Chinese word signifying quality; first introduced by mariners in the China trade, but which has now become common in all our sea-ports. Originally the word was only applied to silks, teas, or other goods from China; now it is applied to everything, for we hear of first chop teas, first chop tobacco, and first chop potatoes.

A smart little boss, says I, you are a cleaning of; he looks like a first chop article.—Sam Slick in England, ch. 2.
I went to board at a famous establishment in Broadway, where sundry young merchants of the first chop were wont to board.—Perils of Pearl St.

TO CHOP. "To chop and change," is an old expression which we still make use of, meaning to change often, to shift about. It is also applied particularly to the wind, so that a 'chopping wind or sea' is one that is constantly changing its direction.

For we are not as many are, which choppe and chaunge with the worde of God; but even onte of purenesse, and by the power of God, and in the syghte of God, so spake we of Chryste.—Bible, 1551. 2 Cor. ch. 2.

Long time you fought, redoubl'd battery bore,
But after all, against yourself you swore—

Is chopp'd and chang'd, like winds before a storm.—Dryden.

The wind was at south-east, south-south-east, and south; which brought in a short chopping sea.—Cook's Voyages.

CHORE, or CHAR. The word chore, which has been thought peculiar to America, is without doubt the same as the word char, which, both as a verb and a noun; may be found in the English dictionaries. "In America," says Mr. Webster, "this word denotes small work of a domestic kind, as distinguished from the principal work of the day. It is generally used in the plural, chores, which includes the daily or occasional business of feeding cattle and other animals, preparing fuel, sweeping the house, cleaning furniture," &c.

According to the English dictionaries, char means work done by the day, a single job or task; from which has arisen the words char-man and char-woman. In Jenning's Glossary of Somersetshire, is the word choor, a job, or any dirty household work; choor-woman, a woman who goes out to do any kind of odd or dirty work. In Wiltshire, it is pronounced cheare. This as well as the Somerset word is very near the American word in pronunciation.

That char is charr'd, as the good woman said when she had hang'd her husband (i.e. The business is done).—Ray's Proverbs.

His hands to well, and arras worke, and woman's chares he laide.—Warner's Albion's England, ii. 11.

A woman, and commanded
By such poor passion as the maid that milkes
And does the meanest chares.—Shakspeare, Ant. & Cleop.

Your counsel, and will practise it; bazi los manos;
Here's two cheares chear'd.—Beaum. and Fletch. Love's Cure.

I'm looking for a place where I can board and do chores myself.—Mrs. Clavers, A New Home, p. 87.

Radney comes down, and milks the cow, and does some of my other little chores.—Margaret, p. 388.

Girl hunting is certainly among our most formidable chores.—Mrs Kirkland, Western Clearings.

The editor of the Boston Daily Star, in relinquishing his editorial charge, gives the following notice:

Any one wishing corn hoed, gardens weeded, wood sawed, coal pitched in, paragraphs written, or small 'chores' done with dispatch and on reasonable terms, will please make immediate application to the retiring editor.

TO CHOUSE. The origin of this word has been referred by Etymologists to the Swed. kiusa, the old French joucher, and the Dutch kosen, to cozen. Skinner, and Gifford in his notes to Ben Jonson, think the word is of Turkish origin, from chiaous, a messenger of the Turkish emperor. A messenger, or chiaous, from the Grand Senior, in 1609, committed a gross fraud upon the Turkish and Persian merchants resident in England, by cheating them out of £4,000. Hence from the notoriety of the circumstance, to chiaous, chause, or chouse, was to do as this man did, i.e. to cheat, or defraud. This origin of the word seems quite probable; for the name of a notorious defaulter in New York has recently been used in a similar manner.

Dap. And I will tell, then? By this hand of flesh,
Would it might never write good court-hand more,
If I discover. What do you think of me,
That I am a chiause?
AMERICANISMS.

Fac. What's that? The Turk was here,
As one would say, do you think that I'm a Turk?—Ben Jonson.

Freedom and zeal have chous'd you o'er and o'er;
Pray give us leave to bubble you once more.—Dryden.

For which reason, however they may pretend to chouse one another, they make but very awkward rogues; and their dislike to each other is seldom so well dissembled but it is suspected.—Tattler, No. 213.

CHOWDER. A favorite dish in New England, made of fish, pork, onions, and biscuit, stewed together. Picnic parties to the sea-shore generally have a dish of chowder, prepared by themselves in some grove near the beach, from fish caught at the same time. Grose describes the same as a sea dish.

CHRISTIANIZATION. This substantive is to be found occasionally in our religious publications. The verb to christianize, which is in the dictionaries, is in use among the English writers; but the substantive is never employed by them.—Pickering, Vocab.

CHUCK-FULL. Entirely full. Common in familiar language as well as chock-full, which see for other examples.

[At dinner] the sole labor of the attendants was to keep the plates chuck-full of something.—Carlton, The New Purchase, Vol. I. p. 131.

I'll throw that in, to make chuck-full the "measure of the country's glory."—Crockett, Tour, p. 86.

CHUCK-WILL'S-WIDOW. The common name of a bird of the whippoorwill family (caprimulgus Caroniensis). Mr. Audubon says, "About the middle of March, the forests of Louisiana are heard to echo with the well-known notes of this interesting bird. No sooner has the sun disappeared, and the nocturnal insects emerge from their burrows, than the sound 'Chuck-Will's-widow,' repeated with great clearness and power, six or seven times in as many seconds, strike the ear."—Ornithology, Vol. I. p. 273.

TO CHUCK. To throw, by a quick and dexterous motion, a short distance.—Dorsetshire Glossary. Todd. This word is noticed by Dr. Webster as a vulgarism.

To chuck under the chin, is a common expression here as in England.

Who loves no hurries, routs, or din;
But gently chuck her husband's chin.—Fawkes, The Vicar's Reply.
CHUCKLEHEAD. A fool. Not peculiar to America.

CHUFFY. Blunt; surly; clownish.—*Todd's Johnson.*

In New England, says Mr. Webster, this word expresses that displeasure which causes a swelling or surly look and grumbling, rather than heat and violent expressions of anger.

The etymology of this word is uncertain. Shakspeare applied the term *fat chuffs* to rich and avaricious people, as a term of contempt. In old French, *joffu* has a similar meaning to our *chuffy*.

The goddess drank; a *chuffy* lad was by,
Who saw the liquor with a grudging eye,
And grinning, cries, She's greedy more than dry.—*Ovid. Met.* b. v.

CHUK. A noise made in calling swine. Always repeated at least three times.

CHUM. A chamber-mate; a term used in colleges.—*Junius Etymologicicon.* We sometimes use it in the more extended meaning of companion, fellow.

A young student laid a wager with his *chum*, that the Dean was at that instant smoking his pipe.—*Philips's Life and Poems,* p. 13.

I am again your petitioner in behalf of that great *chum* of literature, Samuel Johnson.—*Smollett, in Boswell.*

CHUNK. A short, thick piece of wood.—*Webster.* This word is provincial in the South of England.—*Ray. Grose.*

It is sometimes called a *junk* in this country, as well as in England. The English dictionaries have the word *chump*, which is used in the same sense as *chunk*. This word is also applied to other things beside wood. I have often heard the butchers in market say, a ' *chunk* of beef.'

CHUNKY. Short and thick. This word, formed from *chunk*, is only used when speaking of the stature of a person, as ' a *chunky* little fellow.'

CHURCH. Mr. Pickering has the following remarks on this word: "A church, as *a body of persons*, is distinguished in New England, from a *congregation*, by the privileges which the former in general reserve to themselves of receiving exclusively in that church the sacrament and baptism, in consequence of their having publicly declared their assent to the creed which that church maintains. Marriage, burial,
and public worship, are open to the members of the congregation at large, according to the forms and methods employed in each church; as are also catechizing for children and visits to the sick." — Vocabulary.

CIRCUMBENDIBUS. A circuitous, roundabout way, either of getting to a spot, or of telling a story. — Holloway's Dic. of Prov.

CISCO. The popular name of a fish of the herring kind which abounds in Lake Ontario, particularly in Chaumont Bay at the east end, where thousands of barrels are annually caught and salted. I do not find this name mentioned by Dr. DeKay, in his work on the fishes of New York, in the Natural History of the State.

TO CITIZENIZE. To make a citizen; to admit to the rank and privileges of a citizen. — Webster. Rarely used.

Talleyrand was citizenized in Pennsylvania, when there in the form of an emigrant. — T. Pickering.

CITESS. This word, Mr. Pickering says, as well as citizenship, was used during the first years of the French Revolution, as a translation of the revolutionary title, citoyenne; but it has for several years been wholly disused. — Pickering's Vocabulary.

It is unnecessary to recite the discussions on this word by the British critics, the Quarterly Review, &c. as it was never adopted into our language. Dr. Webster and the English lexicographers have the word citess in their dictionaries, but only in the sense of "a city woman."

CIVISM. Love of country; patriotism. — Webster. This, like the preceding word, is one of the productions of the French Revolution; and, though frequently used several years ago, is now obsolete here as well as in France. — Pickering's Vocabulary.

CIVILIZEE. A civilized man; one advanced in civilization.

The barbarian likes his seraglio; the civilizee admires the institution of marriage. The barbarian likes a roving, wandering life; the civilizee likes his home and fireside. — New York Observer.

CLAM. The popular name of a very common shell-fish. "As happy as a clam at high water," is a very common expression
in those parts of the coast of New England where clams are found.

Many sorts of fishes are caught on the coast; lobsters, crabs, clams, limpets, and periwinkles.—Fordyce, Statistics of Scotland.

Tak thee a fiddle or a flute to jest,—
Thy clouted cloak, thy scrip and clam-schells,—
Cleik on thy cross, and fair on into France.—Kennedy, Evergreen, p. 74.

CLAM-BAKE. The baking of clams on those parts of the seacoast where they abound, particularly in Massachusetts and Rhode Island, furnishes one of the most popular dishes as well as most favorite amusements of which the people partake. The method of baking is as follows: A cavity is dug in the earth, about eighteen inches deep, which is lined with round stones. On this a fire is made; and when the stones are sufficiently heated, a bushel or more of clams (according to the number of the persons who are to partake of the feast) is thrown upon them. On this is put a layer of rock-weed gathered from the beach, and over this a second layer of sea-weed. This prevents the escape of the steam, and preserves the sweetness of the clams. Clams baked in this manner, are preferred to those cooked in the usual way in the kitchen.

Parties of ten or twenty persons, of both sexes, are the most common. Often they extend to a hundred, when other amusements are added; and on one occasion, that of a grand political mass-meeting in favor of Gen. Harrison on the 4th of July, 1840, nearly 10,000 persons assembled in Rhode Island, for whom a clambake and chowder were prepared. This was probably the greatest feast of the kind that ever took place in New England.

CLAM-SHELL. The lips, or mouth. There is a common though vulgar expression in New England, of "Shut your clam-shell," that is, Shut your mouth, hold your tongue.

TO CLAP, or CLAP DOWN. To set down; charge to one's account.

If a man be highly commended, we think him sufficiently lessened, if we clap one sin, or folly, or infirmity, into his account.—Jeremy Taylor, Holy Living.

CLAPBOARD. A thin narrow board, used to cover the sides of houses, and placed so as to overlap the one below it. In
England, according to Bailey’s Dictionary, a *clapboard* is a thin board formed ready for the cooper’s use, in order to make casks or vessels.

**CLAPE.** The common name of the golden-winged woodpecker in the State of New York. Dr. DeKay thinks it “a provincial word, introduced by the early English colonists.” It is elsewhere called High-hole, Yucker, Flicker, Wake-up, and Pigeon woodpecker; in Louisiana, *Pique bois jaune.*—*Nat. Hist. of New York.*

**CLAP-TRAP.** An artifice for attracting applause. Used chiefly in theatrical or political language.

The managers have resorted to all sorts of mummary and *clap-trap,* for the purpose, forsooth, of promoting American manufactures.—*Newspaper.*

There are those in both parties in Congress, who will vote down the *clap-traps* of such men as A— in the Senate.—*N. Y. Tribune.*

**CLEAN, adv.** (Ang. Sax. *clæne*) Quite; perfectly; fully; completely. This sense is now little used.—*Johnson.* In the United States it is common among the illiterate, but rarely seen in composition.

Spenser labored to restore such good and natural English words as have been a long time out of use, and almost *cleane* disherited.—*Obs. on Spenser’s Fairy Queen,* by E. K.

The people passed *clean* over Jordan.—*Joshua,* iii. 17.

Is his mercy *clean* gone for ever?—*Psalm* lxxvii. 8.

Let’s hew his limbs till they be *clean* consum’d.—*Shakespeare,* *Titus And.*

Since the prelates were made lords and nobles, there is no work done. They hawk, they hunt, they dice, they pastime with gallant gentlemen. And by their lording and loitering, preaching and ploughing is *clean* gone. —*Bp. Latimer’s Sermon of the Plough.*

He gave him a kick that sent him *clean* over the fence, into the Deacon’s potato-patch.—*Maj. Downing’s Letters,* p. 23.

**THE CLEAN THING.** A low expression denoting propriety, or what is honorable.

It is admitted, that sending out ships to plunder your neighbor or adversary, is as much as mere words in making war. I don’t like it. It isn’t the *clean thing.*—*Crockett,* *Tour,* p. 193.

**CLEARING.** A place or tract of land cleared of wood for cultivation; a common use of the word in America.—*Webster.*

After we reached the boundaries of the *clearing* and plunged into the
timbered land, this heat was exchanged for a grotto-like coolness.—Mrs. Cleavers's Forest Life, Vol. I. p. 64.

TO CLEAR OUT. To take oneself off; to depart, decamp. A vulgar expression.

This thing of man-worship I am a stranger to; I don't like it; it taints every action of life; it is like a skunk getting into a house—long after he has cleared out, you smell him in every room and closet, from the cellar to the garret.—Crockett's Speech, Tour, p. 74.

I turned round and was going to clear out. But says he, Stop Mister!—Maj. Downing's May-day in N. Y.

CLEAVAGE. The state of being cleft.

The color of the stone is darker than appears to be natural in a fresh cleavage.—Schoolcraft in Amer. Ethnolog. Trans. Vol. I.

CLEVER. Good-natured, obliging. In Great Britain, a clever man is a dextrous man, one who performs an act with skill or address. Mr. Pickering says, that "in speaking of anything but man, we use the word much as the English do. We say a clever horse, &c.; and it is common to see in the London newspapers advertisements in this form—"To be sold, a clever gray gelding," &c.

A choice of ministers and diplomatic agents constitutes one of the most important duties of a wise and clever monarch.—Millingen, Mind and Matter, 1847.

The landlord of the hotel was a very clever man, and made me feel quite at home in his house.—Crockett's Tour down East, p. 22.

CLEVERLY. "This is much used in some parts of New England instead of well or very well. In answer to the common salutation, How do you do? we often hear, I am cleverly. It is also applied to other things, as well as to health, and means either adroitly or exactly; according to the case."—Pickering. It is also used in the sense of fairly, completely. Dr. Johnson's definition is dextrously, fitly, handsomely.

The landlord comes to me, as soon as I was cleverly up this morning, looking full of importance.—Sam Slick in England, ch. 8.

CLEVERNESS. Mildness or agreeableness of disposition; obligingness; good nature. Used in New England.—Webster.

CLEVIS, or CLEVY. An iron bent to the form of an ox-bow, with the two ends perforated to receive a pin, used on the end of a cart-neap, to hold the chain of the forward horse or
oxen; or, a draft-iron on a plow. Provincial in New England.—Webster.

CLINCHER. A smart reply.—Bailey's Dictionary. This word is used in a figurative sense. To clinch a nail, renders it immovable and impossible to draw out. So a clincher in conversation is an argument or opinion which cannot be controverted.

That was supposed to be a clincher, even in New England [that Gen. Jackson was in favor of a judicious tariff], until after power lifted him above the opposition of the supporters of a tariff.—Crocket's Speech.

CLING. CLING-STONE. A variety of the peach in which the flesh adheres, or clings, firmly to the stone. When the stone readily separates from the peach, they are called free-stones. The word peach frequently designates the free-stone, while the others are called clings.

CLINKER. A vitrified substance found in grates and stoves where anthracite coal has been burnt.

CLIP. A blow or stroke with the hand; as, He hit him a clip.—Webster. Provincial in New England and the Northern States.

TO CLIP. To cut, to run. Probably from the motion of a bird's wings, which strike or beat the air as it flies or runs.

Some falcon stoops at what her eye designed,
And, with her eagerness the quarry missed,
Straight flies at check, and clips it down the wind.—Dryden.

I hadn't much time left, . . . so I ran all the way, right down as hard as I could clip.—Sam Slick in England, ch. 8.

CLIPPER. A cutter; a small schooner with raking masts, built and rigged with a view to fast sailing. Larger vessels are sometimes built after their model, when they are called clipper-built.

CLITCHY. Clammy, sticky, glutinous.—Pickering's Vocab. Mr. Pickering says, he has "heard this word used in a few instances by old people in New England; but it is rarely heard." In Devonshire, in England, the word clatchy, meaning the same, is provincial. In Holloway's Dictionary of Provincialisms is clot, clayey, stiff, applied to the soil.
CLOCMUTCH. (Dutch, klapmuts, a night-cap.) A woman's cap composed of three pieces,—a straight centre one, from the forehead to the neck, with two side pieces. A New York term.

CLODHOPPER. A rustic; a clown.

Jack, are ye turned clodhopper at last?—St. Ronan's Well.

She was not much concerned to do justice to one whom she had known as a clodhopper.—Mrs. Claver's Forest Life.

Ibycus is a carking, griping, close-fisted fellow.—Bp. Berkeley's Maxims.

CLOSE. A shutting up; a closing.—Pickering.

Very soon after the closure of imports, I did submit to the consideration of the Senate a proposition.—J. Q. Adams, 1808.

Mr. Pickering observes that he has never seen this word, except in the extract quoted, in any American publication. Dr. Johnson gives the word in the same sense from the French closure, and cites several authorities for its use.

And must so break with men on such occasions, as to leave room and to prepare the way for a closure.—Atterbury, Sermons, IV. 330.

CLOTHES-HORSE. A frame-work for hanging clothes on to dry after they have been washed and ironed, in the form of an opening screen.

CLOTHIER. A man whose occupation is to full and dress cloth.—Webster. In England, a clothier is one who makes clothes, which seems to have been the meaning of the word in the time of Shakspeare. Mr. Pickering observes, that "although we use clothier for fuller, yet the place where the cloth is cleansed and dressed, is called a fulling-mill."

CLOUT. A blow or stroke, most properly with the fist. This word is found in several old English authors, and in the Shropshire and Dorset glossaries of the present day. With us it is a vulgar expression frequently heard.

The kynges sone, kene and proud,
Gaf king Richard swylke a ner clout
That the fyr of his heyen sprung.—Richard Cœur de Lyon, v. 768.

The late queene of Spaine took off one of her chapines, and clouted Olivarez about the noodle with it.—Howell, Familiar Letters.
CLOUT-NAILS. Short nails with large heads for the soles of strong shoes.—Hartshorne's Shropshire.

CLUB-TAIL. (Genus alosa.) The common shad, the fatter portion of which have the tail swollen, and on the coast of Carolina where they are taken, are called club-tails.—Nat. Hist. N. Y.

COAL-HOD. A kettle for carrying coals to the fire. More frequently called, as in England, a coal-scuttle. Mr. Halliwell in his Dic. of Prov. has coal-hood, which is used in the eastern part of England.

CONCERN. In mercantile usage, an establishment or firm for the transaction of business. It is provincial in England, and denotes a small estate; from whence our use of the word is derived.

TO CONDUCT, instead of 'to conduct oneself;' leaving out the reflexive pronoun. This offensive barbarism is happily confined to New England, where it is common both in speech and writing. Like many other expressions in the same predicament, it has received the tacit sanction of Dr. Webster, himself a New England man.

CONGRESS. This term is applied by us especially to three differently constituted bodies of representatives of the people that have succeeded each other in the government of the country. The first is the Continental Congress, assembled in 1774, and which conducted the national affairs until near the close of the Revolution. The second is the Federal Congress, which met under the Articles of Confederation, adopted March, 1781, and ruled the country till 1789. The third is the Congress of the United States, which first met under the Constitution, on the 4th of March, 1789.

Mr. Pickering remarks, that English writers, in speaking of American affairs, generally say, "the Congress," using the article. Such was formerly our own practice; but in the course of time it has acquired with us the force of a proper name, so that we now speak of Congress, as the English do of Parliament. When the present Constitution was adopted, the usage was still fluctuating, as the following examples will show:

*The Congress shall assemble at least once in every year; and such
meeting shall be on the first Monday in December, unless they shall by law appoint a different day.—Art. I. Sec. 4.

Neither House, during the session of Congress, shall, without the consent of the other, adjourn for more than three days, nor to any other place than that in which the two Houses shall be sitting.—Art. I. Sec. 5.

CONGRESSIONAL. Pertaining to a congress, or to the Congress of the United States; as, Congressional debates.—Webster.

The congressional institution of Amphictyons, in Greece.—Barton.

The conflict between Congressional and State authority, originated with the creation of those authorities.—Marshall, Life of Washington.

CONSCIENCE. Reason, reasonableness. A common use of the word in familiar language, even in the best society; as, "What in conscience are you doing that for?" "That's enough, in all conscience."

Half a dozen fools are, in all conscience, as many as you should require. —Swift.

CONSIDERABLE, used adverbially for very, is a common vulgarity.

A body has to stir about considerable smart in this country, to make a livin', I tell you.—Sam Slick in England, ch. 6.

CONSIDERABLE. This word is frequently used in the following manner in the Northern States, "He is considerable of a surveyor;" "Considerable of it may be found in the country." —Pickering.

CONSOCIATION. Fellowship or union of churches by their pastors and delegates; a meeting of the pastors and delegates of a number of congregational churches, for aiding a supporting each other, and forming an advisory council in ecclesiastical affairs.—Webster. Consociation of churches, is their mutual and solemn agreement to exercise communio in such acts as aforesaid, amongst themselves, with specia reference to those churches, &c.—Result of the Synod, 1662.

TO CONSOCIATE. To unite in an assembly or convention, as pastors and messengers or delegates of churches.—Webster.

CONSTABLE. Mr. Webster notices the following distinction between the application of this word in England and in the
United States: “In England there are high constables, petty constables and constables of London. In the United States constables are town or city officers of the peace, with powers similar to those possessed by the constables in Great Britain.” Mr. Pickering says that “in many of the cities, boroughs, and other local jurisdictions in England, they have peace officers called constables, whose powers are not materially, if at all, different from those of our constables.”

CONSTANTS. Quantities or data that are constant, not subject to variation or change.

The perceptions of a public are as subtle-sighted, as its passions are blind. . . . . These involuntary opinions of people at large explain themselves and are vindicated by events, and form at last the constants of human understanding.—Washington and the Generals of the Amer. Rev.

CONSTITUTED AUTHORITIES. The officers of government collectively, in a kingdom, city, town, &c. This expression has been adopted by some of our writers from the vocabulary of the French Revolution.—Pickering.

Neither could he perceive danger to liberty except from the constituted authorities, and especially from the executive.—Marshall's Washington.

CONSTITUTIONALITY. Used chiefly in political language, to signify the state of being agreeable to the constitution of a State or of the United States.

The argument upon this question has naturally divided itself into two parts, the one of expediency, the other of constitutionality.—Debates in Congress in 1802.

The judges of the supreme court of the United States have the power of determining the constitutionality of laws.—Webster.

CONTEMPLATION. The phrase, “I have it in contemplation to do so and so,” instead of “I intend,” &c., has been transferred by us, like many other Latinisms of a like kind, from the language of books to that of common conversation.

TO CONVENE. This is used in some parts of New England in a very strange sense; that is, to be convenient, fit, or suitable.

Ex. This road will convene the public; i.e. will be convenient for the public. The word, however, is used only by the illiterate.—Pickering. I have never heard the phrase.

COODIES. The name of a political sect in the State of New
York, which originated in the year 1814. At that time a series of well written articles appeared in a New York paper signed Abimelech Coody. He professed to be a mechanic. "He was a federalist, and addressed himself principally to the party to which he belonged. He endeavored to show the impropriety of opposing the war, and urged them to come forward in defense of their country. He also attacked De Witt Clinton with great severity." The writer was ascertained to be Mr. Guilian C. Verplanck, then as now distinguished for his talents. He was replied to by a writer under the signature of "A Traveller," said to be De Witt Clinton, who thus speaks of this party: "The political sect called the Coodies, of hybrid nature, is composed of the combined spawn of federalism and Jacobinism, and generated in the venomous passions of disappointment and revenge, without any definite character; neither fish, nor flesh, nor bird, nor beast, but a non-descript made up of 'all monstrous, all prodigious things.'"—Hammond's Political Hist. of N. Y.

COOKEY. A cake. A Dutch word used in New York.

Mrs. Child thinks it best to let the little dears have their own way in everything, and not to give them more cookies than they, the dear children, deem requisite.—Sunday Mercury, N. Y.

COLD AS PRESBYTERIAN CHARITY. I know not the origin of this saying, and am not aware that there is less charity in this sect than in any other.

They are as cold as Presbyterian charity, and mean enough to put the sun in eclipse, are the English.—Sam Slick in England, ch. 7.

Why, Colonel, the river is pretty considerable for a run; but the water is cool as Presbyterian charity.—Crockett's Tour, p. 145.

COOL-WORT. (Tiarella cordifolia.) The popular name of an herb, the properties of which are diuretic and tonic. It is prepared by the Shakers.

COOL. Used in familiar language, in England and in the United States, in the sense of impudent. Punch gives a dialogue between the years 1845 and 1846, which is a good illustration of this word.

1846. "Come, answer me, answer me, old Forty-Five,
As an old man a young should answer;
I've much to learn; so, while you're alive,
Just resolve me this point if you can, sir:
What's the coolest thing that you've seen, Forty-Five?

1845. "Why, Peel, when he said to Commons and Peers
That the Income Tax should end in three years—
That was, p'raps, the coolest thing."

1846. "What else have you seen that was cool, Forty-Five?"

1845. "Why, Jonathan threatening that he'd annex us,
If we grumbled about his annexing Texas—
That struck me as rather cool."

COON. A popular contraction of the word raccoon. A nickname applied to those who belong to the Whig party.

COONERY. Whiggery. See preceding article.

Democrats of the old Bay State, one charge more and the work is thoroughly done. "Once more to the breach," and you will hear the shouts of Democratic victory, and the lamentations of the vanquished.

We must achieve a victory—the people must be free—coonery must fall with all its corruptions and abominations, never more to rise. Democrats—freemen!—keep your council-fires burning brightly. Let no one remain listless, or doubt, or hesitate; "push on your columns," rout the 'coons, beat them, overwhelm them, and let the welkin ring with the soul-stirring tidings that Massachusetts is safe—is free from the curse of whiggery.—Boston Post.

COPPER. A copper coin, especially a British halfpenny or American cent.

My friends filled my pockets with coppers.—Franklin.

COOT. The name of a small water-fowl. It is often applied by us to a stupid person, as, "He is a poor coot." Mr. Halliwell notices the old proverbial saying, "As stupid as a coot."

Little coot! don't you know the Bible is the best book in the world?—Margaret, p. 134.

CORDUROY ROAD. A road or causeway constructed with logs laid together over swamps or marshy places. When properly finished, earth is thrown between them, by which the road is made smooth; but in newly settled parts of the United States, they are left uncovered, and thereby are extremely rough and bad to pass over with a carriage. Sometimes they extend many miles. They derive their name from their resemblance to a species of ribbed velvet, called corduroy.
CORK. The steel points fixed under the shoes of horses, in the winter, to prevent them from falling on the ice. It is the same thing that in Johnson's and other Dictionaries is called frost-nails.—Pickering. In Ash's Dictionary, the word corking is defined, "turning up the heels of a horse's shoes."

CORN. Maize, throughout the United States, is called Indian corn, or simply corn. What is called corn in England, is here called grain; or rather corn is considered in England a general term, and is applied to grain used for bread.

CORN-BLADE. The leaf of the maize. Corn-blades are collected and used as fodder in some of the Southern States.—Webster.

CORN-BROOM. Brooms made from the tops of a species of corn, called broom-corn.

CORN COCKLE. The popular name of a purple-flowering plant (genus agrostemma).—Bigelow's Flora Bostoniensis.

CORN-CRACKER. The nickname for a native of Kentucky.

CORN-DODGER. A kind of cake made of Indian corn, and baked very hard.

The Sucker State, the country of vast projected rail-roads, good corn-dodgers, splendid banking-houses, and poor currency.—Robb, Squatter Life, p. 28.

CORNED. Drunk. Used in the same sense in England.

CORN-JUICE. Whisky. A western term:

I informed the old fellow that Tom wanted a fight; and as he was too full of corn-juice to cut carefully, I didn't want to take advantage of him.—Robb, Squatter Life.

CORN-STALK. A stalk of corn, particularly the stalk of the maize.—Webster. Mr. Pickering says, "the farmers of New England use this term, and more frequently the simple term stalks, to denote the upper part of the stalks of Indian corn (above the ear), which is cut off while green, and then dried to make fodder for their cattle."—Vocabulary.

CORN-SHUCKING. An occasion on which a farmer invites the young people of the neighborhood to his house or barn, to aid him in stripping the shucks from his corn.—See Husking.
The young people were all gibberin', and talkin', and laughin', as if they'd been to a corn-shuckin', more'n to a meetin' house.—Major Jones.

TO CORNER. To corner a person, is to get the advantage of him in an argument, as though he were physically placed in a corner from which he could not escape.

TO CORNER. A Wall street word, which means to take advantage of a person in a peculiar manner.

"There is a large class of brokers in Wall street, who sometimes control a good deal of money, and who make speculation their business. These generally unite in squads, for the purpose of cornering— which means, that they first get the control of some particular stock, and then, by making a great many contracts on time, compel the parties to pay whatever difference they choose, or rather what they can get; for they sometimes overrate the purse of those they contract with."—A Week in Wall Street, p. 81.

The remarkable fluctuations in the Stock market, are chiefly the result of a successful cornering operation.—N. Y. Journal of Com.

The Erie Rail-road cornering has been a very unfortunate affair for many members of the board.—N. Y. Herald.

COSEY. Snug, comfortable. Dr. Jamieson calls it a Scottish word.

Then cannie in some cozie place
    They close the day.—Burns.

To keep you cosie in a hoord,
This hunger I with ease endur'd.—Allan Ramsay.

All observers of primitive life, know that animals, quadruped and biped too, have from time immemorial indulged in the cozey habits of burrowing in the earth, huddling close together, &c.—London Athenæum.

Mid comforts abounding, well clothed and well fed,
The bright fire surrounding, or cosy in bed.—N. Y. Tribune, 1845.

COSSET. A lamb brought up without the aid of the dam.—Bailey. This word is used in New England in this sense, and also to signify a favorite or darling.

And if thou wilt bewayle my woful teene,
I shall give thee yond cosset for thy Payne.—Spenser.

TO COTTON TO. "To cotton to one," is to take a liking to him; to fancy him; literally to stick to him, as cotton would.
The term is very common at the South and West.
There were divers queer characters on board the steamer, with whom Tom was a great favorite; but none of them cotton’d to him more kindly than an elderly hoosier, from the innermost depths of Indiana.—Field.

COTTONOCRACY. A term applied to the Boston manufacturers, especially by the 'Boston Whig' newspaper.

COUNTERACTION. Mr. Pickering has noticed this word in his Vocabulary, and observes that it is sometimes, though rarely, used by American writers in the following manner: "He prevailed over his enemies by the counteraction (counteracting) of their designs."

No English lexicographer had then noticed the word. The dictionaries of Mr. Todd and Dr. Webster now contain it. The definition of the latter is, "Action in opposition; hindrance."

The beauties of writing are . . . . wholly subject to the imagination, and do not force their effects upon a mind pre-occupied by unfavorable sentiments, nor overcome the counteraction of a false principle or of stubborn partiality.—Johnson, Rambler, No. 93.

All the eloquence and fire of Demosthenes could not rouse the Athenian people to a timely dread or steady counteraction of the formidable plans of Philip.—British Critic, Vol. I. p. 51.

COUNTRIFIED. Rustic, rude. A word of recent formation in our language, and in no dictionary, but now much used.—Todd. It is in the last edition of Webster.

The inhabitants of Herefordshire, though near the metropolis, are as likely to be countrified as persons living at a greater distance from town.—Grose's Local Proverbs.

This man pretty soon espied a countrified looking fellow whom he approached.—Perils of Pearl Street.

Mr. Seymour Bullitt brought the message to Caroline; and such a splendid fellow—but then, old recollections, and such a countrified name.—Mrs. Claver's Forest Life.

COUNTY. "In speaking of counties," says Mr. Pickering, "the names of which are composed of the word shire, we say the county of Hampshire, the county of Berkshire, &c. In England they would say, either Hampshire or Berkshire simply, without the word county; or, the county of Hants, the county of Berks, &c. The word shire of itself, as everybody knows, means county; and in one instance (in Massachusetts), this latter word is used instead of shire, as a part of
the name—‘The county of Duke's County.'”—Pickering's Vocabulary.

COUPON. A financial term, which, together with the practice, is borrowed from France. In the United States, the certificates of State stocks drawing interest are accompanied by coupons, which are small tickets attached to the certificates. At each term when the interest falls due, one of these coupons is cut off (whence the name); and this being presented to the State treasurer, or to a bank designated by him, entitles the holder to receive the interest. The coupons attached to the bonds of some of the Western States have not been cut off for several years.

COURT. In New England this word is applied to a legislative body composed of a House of Representatives and a Senate; as, the General Court of Massachusetts.

COVERCLIP. (Genus achirus. Lacipede.) The popular name of the sole, a fish common in the waters of New York. Calico is another name for it.—Nat. Hist. of New York.

COVERLID. A bed-quilt, counterpane.

Her bed consisted of a mattress of beech-leaves spread on the floor, with tow and wool coverlids.—Margaret, p. 12.

TO COW. To depress with fear.—Webster.

By reason of their frequent revolts, they have drawn upon them the pressure of war so often, that it seems to have somewhat cowed their spirits.—Howell, Vocal Forest.

For when men by their wives are cow'd,
Their horns of course are understood.—Hudibras.

The Spaniards ought to defend the Despena Perros; but they go to the plains to be beaten, and thus cow the troops, who would otherwise defend themselves in the mountains.—Wellington's Despatches, No. 346.

They were in a terrible sweat all the time, for fear I'd get cowed, and wouldn't succeed in my oration.—Maj. Jones's Courtship, p. 154.

COWBERRY. (Vaccinium vitis idea.) A plant resembling the common cranberry, but larger. It is found on certain mountains in Massachusetts.—Bigelow's Flora Bostoniensis.

COWHIDE. A particular kind of whip made of raw hide; it is also called a raw-hide.

TO COWHIDE. To flog with a cowhide.
DICTIONARY OF

To be out of office and in for a cowhiding, is not a pleasant change from eight dollars a day and all sorts of nice pickings. [Alluding to an ex-member of Congress.]-N. Y. Tribune.

COW-LICK. A twist, or wreathing in the hair, which, in a calf, might be supposed to have been licked by the cow out of its natural position.—Forby's Vocabulary. In some parts of England it is called a calf-lick.

COW PARSNIP. (Heracleum lanatum.) The popular name of a plant classed among the herbs prepared by the 'Shakers,' as containing properties carminative and diuretic.

CRACK. This word is used by us as in England to signify most famous, best. Thus we speak of "a crack ship," "a crack officer," &c.

CRACKED. Crazy.

To such an extent may these discrepancies be carried, that a man of genius is considered cracked;—an expression which led Dr. Parr to say, "that such men were decidedly cracked, but that the crack let in the light."—Millenian, Mind and Matter, 1847.

CRACKER, or FIRE-CRACKER. A little paper cylinder filled with powder or combustible matter, imported from China. It receives its name from the noise it produces in exploding. In England it is called a squib.

CRACKER. A small hard biscuit; probably so called from the noise it emits when broken. The word seems to be peculiar to the United States.

The following anecdote was related to me by the Hon. Albert Gallatin. When travelling in England with his family in 1818, he stopped at an inn and ordered a servant to bring them some "crackers and cheese" for their lunch. But what was his surprise to see the servant return with a plate of cheese and half a dozen nut-crackers!

CRACKER. A nick-name applied to the backwoodsmen of Georgia.

CRACKLINGS. Cinders, the remains of a wood fire. A word used in the Southern States.

When it lightened so, she said t'other end of the world was afire, and we'd all be burnt to cracklin's before morning.—Maj. Jones's Courtship.

TO CRACK UP. To crack; i. e. to brag or boast, is a verb
common in old authors, from Chaucer downwards, and still provincial in the north of England. We use it only in the phrase to crack up. Thus we say, "A Yankee is sure to crack up his own country;" "That is not what it is cracked up to be."

CRADLE-SCYTHE. Called also simply cradle. It consists of a common scythe with a light frame-work attached, corresponding in form with the scythe. It is used for cutting grain instead of the sickle; and by the regular manner in which it lays the grain, it enables the farmer to perform treble the work that could be accomplished with the latter implement.

TO CRADLE. 'To cradle grain,' is to cut it in the same manner that grass is cut or mowed, with the implement above described.

The operation of cradling is worth a journey to see. The sickle may be more classical; but it cannot compare in beauty with the swaying, regular motion of the cradle.—Mrs. Claver's Western Clearings.

CRAMBO. A diversion in which one gives a word, to which another finds a rhyme. If the same word is repeated, a forfeit is demanded. It was also a term in drinking, as appears from Dekker.—Halliwell's Arch. and Prov. Dictionary.

This amusement is practised in New York, where it is also called, "What is my thought like?"
mon use among farmers as a general term for horses, oxen, &c. Ex. The creatures will be put into the pasture to-day.—Pickering.

The owners or claimers of any such creatures [i.e. "swine, neat cattle, horses, or sheep"], impounded as aforesaid, shall pay the fees, &c.—Provincial Laws of Mass.—Statute 10, Wm. III.

CREEK. A small river or brook. In New York, the Western States, and in Canada, a small stream is called a creek; in New England it is called a brook. The term is incorrectly applied; as its original signification, according to the dictionaries, is a small port, a bay or cove; from which it has gradually been extended to small rivers. In New England, the old English sense of the word is retained.

CREEPMOUSE. A familiar word in the nursery. Mr. Halliwell calls it a term of endearment still in use in England. He refers to Palsgrave's Acolastus, 1540.—Archaic and Prov. Dic.

CREOLE. In the West Indies and Spanish America, a native of those countries descended from European ancestors.—Webster. But this is not its only acceptation.

"The word Creole," says Mrs. Carmichael, "means a native of a West India colony, whether he be black, white, or of the colored population."—West Indies, p. 17.

In the United States, we generally understand a Creole to have a portion of black blood in him; which may be explained by the following extract:

"Children born in the West Indies from Spaniards," says an anonymous author, "are called creollos, which signifies, one born in that country; which word was made by the negroes, for so they call their own children, born in those parts, and thereby distinguish them from those born in Guinea."—History of Peru, p. 397.

CREVASSE. (French, a disruption.) The breaking away of the embankments or levees on the lower Mississippi, by a pressure of the water. See Levee.

CRIMANY. Interj. of sudden surprise.—Forby's Vocabulary. Used in low language in the United States.
CRISS-CROSS. A mark in the shape of a cross; especially that of those who cannot sign their own names. Mr. Harts-horne, in his interesting work on British Antiquities, has the following account of this custom: "From the earliest period since the introduction of Christianity, it has been customary for those who were unable to sign their names, to affix the mark of a cross instead. Witred, king of Kent, decreed, anno 694, that no deed was valid unless it bore this stamp. It is constantly observable in the charters of the Anglo-Saxon and Spanish kings, and in all those documents which recite property bequeathed for ecclesiastical purposes. Numerous proofs still remain, which testify that royal and noble person-ages were not ashamed to confess their ignorance of letters. Witred acknowledges, in a charter printed in Spelman's Concilia, p. 193, that on account of his ignorance of letters, he had confirmed what he had dictated by the signature of a cross.—Salopia Antiqua, p. 379.

CRISS-CROSS. A game played on slates by children, at school.

CROCK. (Ang. Sax. crocca,) An earthen vessel, a pot or pitcher, a cup.—Webster.

Whose roof of copper shineth so,
It excels Saint Peter's cupello.—Political Ballads, 1660.

CURMUDGEON. An avaricious, churlish fellow; a miser. In explaining this word, Dr. Ash made a ludicrous mistake, from his ignorance of the French language. He took the word from Johnson, who derives it from cœur-méchant, and who gives as his authority an "unknown correspondent." As these words immediately followed the French, Dr. Ash supposed them to be the English of cœur-méchant, and accordingly says, "Curmudgeon, from the French cœur, unknown, and méchant, correspondent."

CUT. A quantity of yarn, twelve of which make what is called a hank or skein. Common in England and America.

TO CUT. This word is in general use in conversation in the United States, and is employed precisely in the same way as defined by Grose in the following passage:

"To renounce acquaintance with any one, is to cut him. There are several species of the cut; such as the cut direct, the cut indirect, the cut sublime, the cut infernal, &c. The cut direct is to start across the street, at the approach of the obnoxious person, in order to avoid him. The cut indirect is to look another way, and pass without appearing to observe him. The cut sublime is to admire the top of King’s College Chapel, or the beauty of the passing clouds, till he is out of sight. The cut infernal is to analyze the arrangement of your shoe-strings, for the same purpose."—Class. Dict. Vulgar Tongue.

In Scotland, according to Dr. Jamieson, the phrase to cast a dash, to make a great figure or a splendid appearance, is used.

Bowden wi’ pride o’ simmer gloss,
To cast a dash at Reikie’s cross?—Fergusson’s Poems, 2. 32.
I saw the curl of his waving lash
And the glance of his knowing eye,
And I knew that he thought he was cutting a dash,
As his steed went thundering by.—O. W. Holmes’s Poems, p. 105.

TO CUT A CAPER. (Italian, tagliar le capriole.) The act of dancing in a frolicksome manner.—Todd. We use it also in a more general sense. Thus, of a person who conducts himself in a strange or ridiculous manner, we would say, “He cuts strange capers.”

Flimmnap, the treasurer, is allowed to cut a caper on the straight rope, at least an inch higher than any other lord in the whole empire.—Gulliver’s Travels.

Few match'd him nigh or far.—*Essex Dialect Poems*. 
DADDOCKS. The heart or body of a tree thoroughly rotten. —Ash.

DANDER. Scurf; dandruff.

DANDER. To get one's dander up, is to get into a passion.

This word is noticed in Barnes's Dorset Glossary. Halliwell says it is common in various English dialects.

The Department of State did not keep back the letters of Mr. Rives, in which he boasts that he had outwitted the French. Well, this sort of put up the dander of the French.—Crockett, Tour, p. 198.

This gude advise you'll call;
For sich warmin's gripe—or I'll be darned
'Twood soon make ye sing small.—Essex Dialect, Noakes and Styles.

oaths, his puritan education ever allowed him to use.—Cooper, Satanstoe, Vol. I. p. 68.

DEADENING. In newly settled parts of the West, where it is designed to make a "clearing," some of the trees are cut down; the others are girdled, or deadened, as they say. If the majority of trees are thus girdled, the field is called a deadening,—otherwise it is a clearing.—Carlton, The New Purchase, Vol I. p. 240.

DEAD. This word is vulgarly used in the sense of utter, complete. Ex. "A dead beat," i.e. a complete beating; "a dead shave, or a dead suck," i.e. an utter swindle; "dead ripe," fully ripe.

DEAD-ALIVE. Dull, inactive, moping.—Barnes's Dorset Glossary. We often hear the expression, "He is a dead-alive sort of a man."

DEAD AS A DOOR NAIL. Utterly, completely dead. The figure is that of a nail driven into wood, and, therefore, perfectly immovable; the word door is used for the sake of the alliteration. It is sometimes changed with us into the less appropriate phrase, "As dead as a hammer."

For James, the gentil, suggeth in his bokes,
That faith without fact ys febelere than nouht,
And dead as a door nayle.—Piers Ploughman, p. 22.

If I do not leave you all as dead as a door nail, I pray God I may never eat grass more.—Shakspeare, Henry VI. p. 2.

We learn that the situation of the inhabitants was distressing to a degree.

DEL. The common abbreviation for Delaware.

DEMIJOHN. A glass vessel or bottle, with a large body and small neck, protected and strengthened by a covering of wicker-work. Mr. Webster derives it from the French dame-jeanne, but gives no further explanation. I met the word in Niebuhr's Travels in Arabia:

But we imprudently put our wine into great flasks, called in the East damasajnes, and large enough each of them to contain twenty ordinary bottles.—Vol. I. p. 169.

This induced the belief that the word was Arabic; but, on referring to the Arabic dictionary, no such word could be found. I made inquiry of several philologists, none of whom could give its origin. One day I asked a Frenchman who dealt in wines, why the French called them dame-jeannes? He replied at once, that they were invented in France at a time when large hoop-dresses were worn at court, and from the resemblance of those large bottles to the small waists and
AMERICANISMS. 111

full dresses of the ladies, they were called *dame-jeannes*, i. e. *Lady Janes*.

DEMORALIZATION. The act of subverting or corrupting morals; destruction of moral principles.—*Webster*. A word of modern origin, but of very extensive use, which, says Mr. D'Israeli, "was the invention of horrid Capuchin Chabot."

*Demoralization* is a long, hard word, which has lately been a good deal intruded upon us, as expressive of the change that has taken place lately, not only in the actual morals or manners of the lower orders of people, but in their feelings.—*Arch. Nares, Heraldic Anomalies*, p. 218.

The cause [of the crimes of the Creoles] is to be found in the existence of Slavery; and the inevitable demoralization which this accursed practice produces, is not checked by any system of religious instruction.—*London Quarterly Rev.* Nov. 1810.

TO DEMORALIZE. To corrupt and undermine the morals of; to destroy or lessen the effect of moral principles on.—*Webster*. Like the preceding, this word has a place in Todd's Johnson, where it is noticed as a word of late introduction into our language. Professor Lyell, who visited Dr. Webster, says, "When the Dr. was asked how many words he had coined for his dictionary, he replied, only one, 'to demoralize,' and that not for his dictionary, but in a pamphlet published in the last century."—*Travels in the U. States*, p. 53. Mr. Jodrell, in his "Philology of the English Language," gives the word a place, and cites as an example, a passage from a speech by Lord Liverpool, in the House of Lords, March 11, 1817:

They had endeavored to guard and protect the people against the attempts which were made to corrupt and demoralize them.

The native vigor of the soul must wholly disappear, under the steady influence and the demoralizing example of profligate power and prosperous crime.—*Walsh, Letters on France*.

DEPARTMENTAL. Pertaining to a department, or division.—*Webster*.

The game played by the revolutionists in 1789 was now played against the departmental guards, called together for the protection of revolutionists.—*Burke, Pref. to Brissot's Address*.

Which it required all the exertion of the departmental force to suppress.—*H. M. Williams, Letters on France*. 

**TO DEPUTIZE.** To depute; to appoint a deputy; to empower to act for another, as a sheriff.—*Webster.*

This word is not in any of the English dictionaries except one of the early editions of Bailey, where it appears in the preface among words in modern authors, collected after the dictionary was printed. Mr. Pickering remarks, that "the word is sometimes heard in *conversation*, but rarely occurs in *writing*, . . . and that it has always been considered as a mere vulgarism." Since the publication of Mr. P.'s Vocabulary, this word has been adopted in general use, and cannot now by any means be considered a vulgarism.

They seldom think it necessary to *deputize* more than one person to attend to their interests at the seat of government.—*Port Folio*, Jan. 1811.

**TO DERANGE.** To turn out of the proper place; to disorder, to put out of order.—*Todd’s Johnson. Webster.*

"About twenty years ago," says Mr. Todd, "this word was condemned as a Gallicism." The following are among the earliest instances of its use:

> That Robespierre might fall without *deranging* the general system.—*British Critic*, Vol. 5. p. 77.

> The republic of regicides has actually conquered the finest parts of Europe; has distressed, disunited, *deranged*, and broke to pieces all the rest.—*Burke on a Regicide Peace.*

**DESK.** The pulpit in a church, and figuratively, the clerical profession. The man appears well at the desk. He intends one son for the bar, and another for the desk.—*Pickering.*

This New England word is not generally used in other parts of the country.

The pulpit, or as it is here [in Connecticut] called, the *desk*, was filled by three if not four clergymen; a number which, by its form and dimensions, it was able to accommodate.—*Kendall’s Travels*, Vol. I. p. 4.

They are common to every species of oratory, though of rarer use in the *desk*, &c.—*Adams’s Lecture on Rhetoric.*

**DESPERATE,** commonly pronounced *desput*, and used to denote exceedingly; as "I’m *desput* glad to see you." Bad as this use and pronunciation of this word are, they are both to be found in England. Mr. Hamilton notices this word among the provincialisms of Yorkshire; as, "Thou’s *desperate* hopeful!"—*Nuga Literaria*, p. 353.
Waes me! what's this that lugs sae at my heart,
And fills my breast with such a despairt smart? — Poems in Westmoreland and Cumberland Dialect, p. 117.

DEUCE. A euphemism for devil; as, 'The deuce is in it;' 'Deuce take it.' Common both in England and America.

DEVIL. A kind of expletive, expressing wonder or vexation; a ludicrous negative, in an adverbial sense; a term for mischief. — Johnson. In these several senses the word is used in the United States.

The things, we know, are neither rich nor rare;
But wonder how the devil they got there? — Pope.
The devil was well, the devil a monk was he! — A Proverb.
A war of profit mitigates the evil;
But to be tax'd and beaten, is the devil. — Granville.

It is also, says Johnson, a ludicrous expletive of elder times, coupled with all; implying, after an enumeration of some things, several understood. Bale was very fond of applying it, in his zeal against popery. It is yet absurdly retained in low language.

Baptysed bells, bedes, organs, songs, wax-lyghts, pycteres, reliques, banners, crosses, altars, holye-water, and the devyl and all of soche idola-trouse beggary. — Bale, Yet a Course at the Romishe Foxe (1543).

DEVILISH. Atrocious, enormous; excessively, exceedingly. Of the latter or adverbial use of the word Grose says, "It is an epithet, which, in the English vulgar language, is made to agree with every quality or thing; as, devilish bad, devilish good; devilish sick, devilish well; devilish sweet, devilish sour; devilish hot, devilish cold, &c." — Slang Dictionary.

A devilish knave! besides, the knave is handsome, young, and blithe; all those requisites are in him that delight. — Shakspeare.

Thy hair and beard are of a different die,
Short of one foot, distorted of one eye;
With all these tokens of a knave complete,
If thou art honest, thou'rt a devilish cheat. — Addison.

DEVIL'S DARNING NEEDLE. A common name for the Dragon-fly.

an indignant people, when they come to find out their deviltry.—Crockett’s 
Speech, Tour, p. 106.

Peter Funk is ready to be employed in all manner of deceit and devilry.
He cares not who his employers are.—Perils of Pearl Street, p. 51.

DICKENS. A euphemism for devil; used in the same manner as deuce. ‘What the dickens are you about?’

Whence had you this pretty weather-cock?
—I cannot tell what the dickens his name is my husband had him of.
—Shakspeare, Merry Wives of Windsor.

TO DICKER. To barter. Used in the State of New York.

DICK’S HATBAND. This very singular expression I have often heard in Rhode Island. Mr. Hartshorne calls it “one of those phrases which set philologists and antiquarians at defiance.” It is in general use throughout Shropshire, where it is applied as a comparison for what is obstinate and perverse. Ex. “As curst as Dick’s hatband, which will come nineteen times round and wont tie at last;” “As contrary as Dick’s hatband;” “As false as Dick’s hatband;” “As cruikit as Dick’s hatband;” “As twisted as Dick’s hatband;” “All across, like Dick’s hatband;” “As queer as Dick’s hatband."

DIFFICULTED. Perplexed. This is not a common word. Mr. Sherwood has it among the words peculiar to Georgia, and there are examples of its use to be found in some of our well-known authors. It is in common use at the Bar: ‘The gentleman, I think, will be difficulted to find a parallel case.’

There is no break in the chain of vital operation; and consequently we are not difficulted at all on the score of the relation which the new plant bears to the old.—Bush on the Resurrection, p. 57.

Dr. Jamieson has the verb to difficult in his Scottish Dictionary.

DIGGING. Dear or costly; as, ‘a mighty digging price.’ A Southern word.—Sherwood’s Georgia.
AMERICANISMS.

DIG. A poke, punch; and metaphorically, a reproof.

A sly dig like the above in "The Sun" [newspaper] is worth having any day, when it is a dig on the right side.—N. Y. Tribune.

DIGGINGS. A word first used at the Western lead mines, to denote places where the ore was dug. Instead of saying this or that mine, it is these diggings, or those diggings. The phrase these diggings is now provincial in the Western States, and is occasionally heard in the Eastern, to denote a neighborhood, or particular section of country.

Mr. Charles F. Hoffman visited the Galena lead mines, and while there was shown about to the various estates, where the people were digging for ore. The person who accompanied him said:

Mr. ________, from your State, has lately struck a lead, and a few years will make him independent. We are now, you observe, among his diggings.—Winter in the West, Let. 25.

Boys, fellars, and candidates, I am the first white man ever seed in these diggins. I killed the first bear [bear] ever a white skinned in the county, and am the first manufacturer of whisky, and a powerful mixture it is too.—Robb, Squatter Life.

He can shoot the closest of any chap, young or old, in these 'are diggins. I killed the first bar [bear] ever a white skinned in the county, and am the first manufacturer of whisky, and a powerful mixture it is too.—Robb, Squatter Life.

I ain't a vain man, and never was. I hante a morsel of it in my composition. I don't think any of us Yankees is vain people; it's a thing don't grow in our diggins.—Sam Slick in England, ch. 24.

Guess they don't often see such an apostle in these diggins.—Ibid.

TO DILL. (Probably the same as to dull.) To soothe. The word is used in the north of England.

TO DILLY-DALLY. To delay. A colloquial expression common in the United States.

The note this verra morning shall be writ, And gien on Sunday to the parish clerk; There ne'er comes luck of dilly-dallying work.—Glossary and Poems.

DIME. (Fr. dixme or dime, tenth.) A silver coin of the United States, in value the tenth of a dollar, or ten cents.

This term, peculiar to our decimal currency, is now in common use at the South and West; but in the Eastern and
Northern States, where the Spanish real and half-real have long formed a large portion of the circulation, and where the dime is only now beginning to be common, it is usually called a ten-cent piece, and the half-dime a five-cent piece.

Small articles are sold in the New Orleans markets by the picayune or dime's worth. If you ask for a pound of figs you will not be understood; but for a dime's worth, and they are in your hands in a trice.—Sketches of New Orleans. N. Y. Tribune.

TO DING. To beat, to bang. Used metaphorically to denote tedious repetition; as, 'Why do you keep dinging that in my ears?'

DING. Excessively. A Southern word.

It was ding hot; so I sat down to rest a bit under the trees.—Chron. of Pineville.

She's dish'd us, too, said the officer. How shall we find out where she's gone to?—Maj. Downing.

TO DIP SNUFF. A mode of taking tobacco, practised by women in some parts of the United States, and particularly at the South, may be thus described: A little pine stick or bit of rattan about three inches long, split up like a brush at one end, is first wetted and then dipped into snuff; with this the teeth are rubbed sometimes by the hour together. Some tie the snuff in a little bag, and chew it. These filthy practices, which originate in the use of snuff for cleansing the teeth, seem to be rapidly going out of use, at least at the North.

DIPPER. A small aquatic bird common throughout the United States; also called the Water-witch and Hell-diver. (Horned grebe. Nuttall, Ornith.)—Nat. Hist. of New York.

TO DISREMEMBER. To forget; also, to choose to forget. Used chiefly in the Southern States.

DOCITY. A low word, used in some parts of the United States to signify quick comprehension. It is only used in conversation, and generally with a negative, thus: He has no docity.—
AMERICANISMS.

Pickering. This word is provincial in England, where it means docility, quick comprehension. — Ash.

DOCTOR. The cook on board a ship; so called by seamen.

DOGS. To go to the dogs. To go to destruction; to be ruined, destroyed, or devoured. — Johnson.

Had whole Culpepper's wealth been hops and hogs,
Could he himself have sent it to the dogs? — Pope.

TO DOG. To hunt as a dog, insidiously and indefatigably. — Johnson.

I have been pursued, dogged, and way-laid through several nations, and even now scarce think myself secure. — Pope.

The landlord gets his rents by looking after 'em; he fairly dogs it out of his tenants. He's as keen as a blood-hound, and will follow them day and night till he gets it. — Maj. Downing, May-day in N. Y.

Good store of harlots, say you, and dog cheap? — Dryden.

I bought fifty green sprigs of the morus multicaulis at a dollar a-piece, which was dog cheap to what they had been selling. — Knickerbocker Mag.

DOGWOOD. (Rhus vernix.) The popular name of the poison sumac. It grows in swamps, and from the beauty of its leaves has the appearance of a tropical plant. It is a violent poison to many when it is handled or even approached. To others it is harmless. The Dogwood-tree (Cornus Florida) is a different plant, and is used in medicine. — Bigelow's Flora.

DOLLAR MARK ($). The origin of this sign to represent the dollar has been the cause of much discussion of late in the newspapers. One writer says it comes from the letters U. S. (United States) which, after the adoption of the Federal Constitution, were prefixed to the Federal currency, and which
afterwards, in the hurry of writing, were run into one another; the U being made first and the S over it. Another, that it is derived from the contraction of the Spanish word *pesos*, dollars, or *pesos fuertes*, hard dollars. A third, that it is a contraction of the Spanish *fuertes*, hard, to distinguish silver or hard dollars from paper money. The more probable explanation is, that it is a modification of the figure 8, and denotes a piece of eight reals, or, as a dollar was formerly called, a *piece of eight*. It was then designated by the figures $\frac{8}{8}$.

As to my boat, it was a very good one; and that he saw, and told me he would buy it of me for the ship's use; and asked me what I would have for it? I told him that I could not offer to make any price of the boat, but left it entirely to him; upon which he told me he would give me a note of hand to pay me eighty *pieces of eight* for it in Brazil. He offered me also sixty *pieces of eight* more for my boy Xury, which I was loath to take; not that I was not willing to let the Captain have him, but I was loath to sell the poor boy's liberty, who had assisted me so faithfully in procuring my own.—*Robinson Crusoe*, sec. 4.

DONATE. To give as a donation; to contribute. This word is not in the dictionaries, but has only reached the newspapers and reviews.

There have been received from the Foreign Bible Society $7000, not including $1000 recently donated.—*Baptist Missionary Herald*. Rep. 1846.

The display of articles exhibited [at the Fair in Albany] was very tasteful and attractive; and the friends of the cause in Massachusetts, and other places, *donated* liberally.—*N. Y. Tribune*, Nov. 6, 1846.

DONATION PARTY. A party, consisting of the friends and parishioners of a country clergyman, assembled together, each individual bringing some article of food or clothing as a present to him. Where the salary of a clergyman is small, the contributions at a *donation party* are very acceptable. It is also called a *giving party*.

DONE, instead of *did*; as, 'They *done* the business.' A common vulgarism in the State of New York.

DONE BROWN. Thoroughly, effectually cheated, bamboozled. Of recent origin.

DO DON'T, for *do not* or *don't*, is a common expression in Georgia, and not by any means confined to the uneducated classes.
DONE FOR. Cheated; taken advantage of.

Wall street, it appears, is infested with mock-auction shops,—a country-man was done for at No. 15, to the tune of twenty-four dollars.—New York Tribune, Nov. 1, 1845.

DONE DID IT, for has done it, or performed it.—Sherwood's Georgia.

DONE COME. Come. A vulgarism peculiar to the South.

DONE GONE. Ruined; destroyed; rendered useless; entirely gone. A Southern vulgarism.

I look'd for my canoe, and it's done gone away.—Porter's Tales of the Southwest, p. 133.

DONE UP. Ruined by gaming and extravagance.—Grose.
We use it colloquially, where a person is ruined in any way, whether by gaming or by trade.

DON'T. The proper colloquial contraction for do not; and which should therefore be used only in the first person singular and the plural. Yet we very often hear it used instead of doesn't for does not; as, 'He don't tell the truth.'

I DON'T KNOW AS I SHAN'T, for I don't know but I shall.
This uncouth expression, Mr. Hurd says, is very common in the eastern towns of Massachusetts, near Cape Cod.—Grammatical Corrector.

DOREE. A fish commonly called John Dory with us as in England. This last name is a corruption of the French jaune dorée, golden yellow, which is the color of this fish.

DO TELL! A vulgar exclamation common in New England, and synonymous with really! indeed! is it possible!

A bright-eyed little demoiselle from Virginia came running into the dairy of a country house in New Hampshire, at which her mother was spending the summer, with a long story about a most beautiful butterfly she had been chasing; and the dairy maid, after hearing the story through, exclaimed, "Do tell!" The child immediately repeated the story, and the good-natured maid, after hearing it through a second time, exclaimed again, in a tone of still greater wonder, "Do tell!" A third time the story was told, and the third time came the exclamation of wonder, "Do tell!" The child's spirits were dashed, and she went to her mother with a sad tale
about Ruth's teasing her; while poor Ruth said that "those down country gals were so strange; keep telling me the same thing over and over,—I never see anything like!"—N. Y. Com. Adv.

DOMESTICS. Used only in the plural. Cotton goods of American manufacture.

TO DOOM. To tax at discretion. A New England term.

When a person neglects to make a return of his taxable property to the assessors of a town, those officers doom him; that is, judge upon, and fix his tax according to their discretion.—Pickering.

The estates of all merchants, shop-keepers, and factors, shall be assessed by the rule of common estimation, according to the will and doom of the assessors.—Massachusetts Colony Laws, p. 14, ed. 1660.

DOOMAGE. A penalty or fine for neglect. Laws of New Hampshire.—Webster.

DORMAR-WINDOW. A window made in the roof of a house.—Worcester. The word seems formerly to have been dormant, as in the following:

Here and there was a house with gambled roof and dormar windows.—Margaret, p. 33.

DOUCHE. A term lately introduced into the language from the French by the followers of Priessnitz. It technically denotes a jet of water employed as a remedy.

DOUGH-FACES. A contemptuous nickname, applied to the northern favorers and abettors of negro slavery.

The Wilmot proviso was lost, and the dough-faces of New York did the deed.—N. Y. Express, March, 1847.

There is one very probable result, to wit: that there will be "dough-faces" enough among the Northern Democrats to sustain the policy of extending the area of African slavery to the shores of the Pacific.—N. Y. Com. Adv. Jan. 8, 1848.

The truth is, that while the Southerners need and are willing to pay for the services of the dough-faces, they dislike their persons and despise their discourse.—N. Y. Tribune, April, 1848.

DOUGH-NUT. A small roundish cake, made of flour, eggs, and sugar, moistened with milk, and boiled in lard.—Webster. Halliwell has donnut in his Provincial Dictionary, which is no doubt the same word.

DOWN IN THE MOUTH. Dispirited, dejected, disheartened. —Brockett's Glossary.

DOWN UPON. To be down upon, is to seize with avidity, as a bird of prey would pounce down upon its victim. Alluding to the state of the poultry market, the New York Tribune says:

The boarding-house keepers are down upon geese.

This phrase is also used to express disapprobation, dislike, or enmity; as, "I'll be down upon you," i.e. I'll come up with you, or pay you off for some injury or insult, &c. A common expression at the West is, "I'll be down upon you like a thousand of brick."

TO DOXOLOGIZE. To give glory to God, as in doxology.—*Webster.*

No instance is to be found in which primitive Christians doxologized the spirit of God as a person.—*Christian Disciple,* Vol. II. p. 295.

Mr. Pickering says he "never met with the word in any other American work, nor in any English publication; but that it may possibly be a part of the professional language of divines." Mr. P. farther observes, that he found it in the early editions of the dictionaries of Ash and Bailey, from which it was afterwards discarded. Mr. Worcester has inserted the word in his new dictionary.

TO DRABBLE. To draggle; to make dirty by drawing in dirt and water; to wet and befoul; as, to drabble a gown or cloak. A word common in New England.—*Webster.*

Dr. Jamieson calls drabble a Scottish word. The sense here is the same as in Scotland.

DRAGGED OUT. Fatigued; exhausted; worn out with labor.

DRAT. A good-humored sort of half oath, as Moor calls it in his *Suffolk Words.* It is probably an abbreviation of od rot,
and originally God rot. The expression is only heard at the South.

If he escape us this time, 'drat him!"—Reynard the Fox, p. 69.

I never was so dratted mad; for the fellows were coming in in gangs, and beginnin' to call for me to come out and take the command.—Maj. Jones's Courtship, p. 22.

It was about eleven o'clock before the dratted thing came along.—Ibid.

You may thank me that you have got eyes left in yer dratted head to look for yer blind horse.—Chronicles of Pineville, p. 108.

DREADFUL. Very, exceedingly. This and the words awful, terrible, monstrous, &c., are indiscriminately used by uneducated people for the purpose of giving emphasis to an expression.

There was a swod of fine folks at Saratoga, and dreadful nice galls.—Maj. Downing's Letters, p. 35.

It's a fact, Major, the public has a dreadful cravin' appetite for books.—Ibid. May-day in N. Y., p. 4.

DRIVER. An overseer of slaves.

DRIVER. He or that which drives; a coachman, a carman. —Worcester. The English always call a driver of a carriage a coachman.
TO BE DRIVING AT. 'What are you driving at?' that is, what are you about? what object have you in view? A colloquial expression, in very common use.

We confess that we are exceedingly puzzled to know exactly what our long-cherished friend is driving at, in his repeated discussions of the question above involved.—N. Y. Com. Advertiser.

People ridicule my situation, and say they don't know what the deuce I'm driving at.—Neal's Charcoal Sketches.

I have heard enough now, said the Recorder, to know what you and he would be driving at.—Pickings from the Picayune, p. 135.

TO DRIVE WELL. A Southern phrase, thus explained by Mr. Davis: This gentleman applied for a situation as teacher in a college in South Carolina, when the following dialogue took place:

Planter. Can you drive well, Sir.
Tutor. Drive, Sir, did you say? I really do not comprehend you.
Planter. I mean, Sir, can you keep your scholars in order?

Then rising up he cried amain,
Helpe, helpe! or else I am drownded.—Baffled Knight.

DRUMMING, in mercantile phrase, means the soliciting of customers. It is chiefly used in reference to country merchants, or those supposed to be such. Instead of patiently waiting for these persons to come and purchase, the merchant or his
clerk goes to them and solicits their custom. In this manner the sale of goods is often expedited; and though the practice of drumming is held by some to be neither very modest nor very dignified, still it must be owned to add very largely, in certain cases, to the amount of goods sold. Indeed, without drumming, it is suspected that sundry houses, which make a remarkable show and noise, would do very little business.

The expenses of drumming amount to no small sum. Besides employing extra clerks and paying the extra price for their board at the hotels, the merchant has to be very liberal with his money in paying for wine, oyster-suppers, theatre tickets, and such other means of conciliating the favor of the country merchant, as are usually resorted to by drummers.

Another part of the system of mercantile drumming is to "become all things to all men." Drummers are apt to be exceedingly flexible in matters of religion, and of morals too—being orthodox with the orthodox, and heterodox with the heterodox; going to church with those who incline churchward, and to the theatre with those who prefer the theatre; taking cold water with those who are opposed to brandy, and drinking brandy with those who eschew cold water.—Perils of Pearl Street, ch. 9.

I have been studyin' Tattersall's considerable, to see whether it is a safe shop to trade in or no. But I'm dubersone; I don't like the cut of the sporting folks here.—Sam Stick in England, ch. 28.

A LAME DUCK. A Wall-street phrase for a Broker or Stock Jobber, who is unable to pay his losses or differences. He is short in his payments; he is a lame duck. It is among the rules of the Stock Exchange, that a broker ceases to be a member when he cannot or will not meet his engagements.

The same phrase is employed at Exchange Alley in London, where the delinquent is said to "waddle out of the Alley, not to appear again till his debts are paid; should he attempt it, he would be hustled out by the fraternity."—Grose, Slang Dictionary.

DUDS. (Gaelic, dud.) Rags; old clothes. A common word,
which is used in the same sense in various parts of England and the United States.

Sae I pack'd up my duds when my quarter was out,
And wi' weage i' my pocket, I saunter'd about.—Westmoreland and Cumb. Dialect, p. 226.

Give a man time to take off his duds, and then lick him if you can.—Crockett's Tour, p. 193.

DUG-OUT. The name in the Western States for a canoe or boat, hewn or dug out of a large log. They are common in all the rivers and creeks of the United States and Canada. In the latter country they are called log canoes.

After a fashion I got to my dug-out, with no weapon along but the paddle. Snags were plenty. I felt strong as a hoss, too; and the dug-out hadn't leaped more'n six lengths afore—co-souse I went—the front cend jest lifted 'itself agin a sawyer and emptied me into the element.—Robb, Squatter Life.

TO DUMP. To unload wood, coal, &c. from a cart by tilting it up. A word very common in New York, and probably of Dutch origin.

At the Isles of Shoals, off Portsmouth, in New Hampshire, the cod are taken in deep water, split and slack-salted; then laid in a pile for two or three months, in a dark store, covered, for the greatest part of the time, with salt hay or eel-grass, and pressed with some weight. In April or May they are opened and piled as close as possible in the same dark store, till July or August, when they are fit for use.—J. Haven.

DUST. 'To kick up a dust,' is to make a row, to cause a great disturbance. A phrase common in England and the United States.

DUTIABLE. Subject to the imposition of duties or customs.—Webster. This is a very convenient word, and is in common
use, both by the officers of the customs, and by merchants having transactions with them. Instead of saying that certain articles of merchandise are subject to duty, the common terms are *dutiable* and *free*.

**DYED IN THE WOOL.** Ingrained; thorough.

The Democrats, on the authority of Mr. Cameron's letter, are beginning to claim General Taylor as a democrat *dyed in the wool*, as a democrat of the Jeffersonian order of 1798.—*N. Y. Com. Adv.* May 24, 1847.

**EDUCATIONAL.** Pertaining to education; derived from education; as, *educational habits*.—*Webster*. The authority cited by Webster for the use of this word is "*Smith"—a rather
indefinite one. Mr. Pickering says the word was new to him until he saw it in the following extract:

It is believed that there is not an individual of the college who would, if questioned, complain that he has, in any instance, felt himself pressed with opinions which interfered with his educational creed.—Dr. Grant's Report to the College of New Jersey, 1815.

In pursuance of the joint resolution of Congress, "for annexing Texas to the United States," my predecessor, on the third day of March, 1845, elected to submit the first and second sections of that resolution to the Republic of Texas, as an overture, on the part of the United States, for her admission as a State into our Union. This election I approved.—Message to Congress, Dec. 1, 1845.

TO ENERGIZE. To give strength or force to; to give active vigor to.—Webster. To excite action.—Todd. This word is not found in Johnson's Dictionary, and is of modern origin. Mr. Pickering says, the use of it in the British Spy, published
in Virginia, was censured in the Monthly Anthology, as unauthorized.

As all energies are attributes, they have reference, of course, to certain energizing substances.—Harris, Hermes, i. 9.

ENLIGHTENMENT. Act of enlightening; state of being enlightened or instructed.—Webster. Used by the Quarterly Review, Oct. 1837.

ESQUIRE. In England this title is given to the younger sons of noblemen, to officers of the king's courts and of the household, to counsellors at law, justices of the peace while in commission, sheriffs, and other gentlemen. In the United States, the title is given to public officers of all degrees, from governors down to justices and attorneys. Indeed, the title, in addressing letters, is bestowed on any person at pleasure, and contains no definite description. It is merely an expression of respect.—Webster.

The New York Commercial Advertiser, in an article on the subject of titles, had the following remarks on esquire: "In our own dear title-bearing, democratic land, the title of esquire, officially and by courtesy, has come to include pretty much everybody. Of course everybody in office is an esquire, and all who have been in office enjoy and glory in the title. And what with a standing army of legislators, an elective and ever-changing magistracy, and almost a whole population of militia officers, present and past, all named as esquires in their commissions, the title is nearly universal."

EULOGIUM. On this word Mr. Pickering has the following remarks: "A writer in the Monthly Anthology (Vol. I. p. 609) observes that 'eulogium is not an English word.' But the writer is certainly mistaken. It is in common use with all the English and Scottish reviewers; and occurs much oftener, I think, than the Anglicized term eulogy."—Pickering's Vocabulary.

It is singular that this word is not to be found in either edition of Johnson's Dictionary, nor in the additions of Mr. Todd, or Mason. Walker did not insert it until his fourth
edition in 1806. Mr. Jodrell has inserted the word in his Philology on the English Language, and gives examples of its use; it may also be found in the 9th edition (1840) of Knowles's English Dictionary.

The epitaph on Cragg's monument, in Westminster Abbey, is an eulogium on that statesman, taken from Pope's Epistle to Addison.—Sir John Hawkins, Life of Johnson, p. 538.

I cannot make a higher eulogium of Mrs. Stanley, than to say that she is every way worthy of the husband whose happiness she makes.—Cælebs, Vol. I. p. 142.

To prevent posterity being deceived by the pompous eulogiums bestowed on this bridge, which has been styled the wonder of the world, &c.—London and Environs, Vol. IV. p. 143. (1761).

TO EVENTUATE. To issue; to come to an end; to close; to terminate.—Webster. This word is not in any of the English dictionaries, except Knowles's 9th edition, London, 1840; and Mr. Pickering says, "it is rarely, if ever, used by English authors."

EVERLASTING. Very; exceedingly.

New York is an everlasting great concern.—Maj. Downing, May-day in New York.

EVERY-DAY. Common; usual.

Men of genius forget things of common concern, which make no slight impression on every-day minds.—Shenstone.

EVERY NOW AND THEN. Repeatedly, at intervals. This phrase is common with us, and is used also in England.

[The young woman] looks demurely on the ground, a smile playing on her lips, every now and then turning on her swain such sparkling glances from her bright eyes.—Kingston, Lusitanian Sketches.

EVERY ONCE IN A WHILE. A singular though very common expression, signifying the same as every now and then.

EVIDENTIAL. Affecting evidence; clearly proving.—Webster.

Dr. Webster cites Scott as his authority, but gives no example. Mr. Pickering has the following example from an English work:

Equivalent to that belief itself, and evidential of it.—Christian Observer, Vol. XIII. p. 765.
TO EVOKE. To call forth.—Todd. Webster. Several newspapers criticised the use of this word by the Hon. J. Q. Adams in a letter to the Hon. H. G. Otis:

Every phantom of jealousy and fear is evoked.

The following examples will show that it has been used by English writers. Mr. Todd says, it is in Cockeram's old Vocabulary, but that he has not found it in use till near a century later.

I had no sooner evoked the name of Shakspeare from the rotten monument of his former editions, &c.—Bp. Warburton to Hurd (1749), Let. 6.

The only business and use of this character, is to open the subject in a long prologue, to evoke the devil, and summons the court.—Warton, Hist. of Eng. Poetry.

He was so subjugated by them, as frequently to pass many hours of the night in churchyards, engaged in evoking and attempting to raise apparitions.—Wraxall, Hist. Memoirs, Vol. I. p. 178.

EXCHANGEABILITY. The quality or state of being exchangeable.—Webster.

Though the law ought not to be contravened by an express article admitting the exchangeability of such persons.—Washington.

THE EXECUTIVE. The officer, whether king, president, or other chief magistrate, who superintends the execution of the laws; the person who administers the government; executive power or authority in government.—Webster.

TO EXPECT, instead of suspect. To suppose, think, imagine. A very common corruption.

In most parts of the world people expect things that are to come. But in Pennsylvania, more particularly in the metropolis, we expect things that are past. One man tells another, he expects he had a very pleasant ride, &c. . . . . . I have heard a wise man in Gotham say, he expected Alexander, the Macedonian, was the greatest conqueror of antiquity.—Port Folio, 1809.

Nor is it confined to ourselves. It is not only provincial in England, but we are even startled at meeting with it in the London Athenæum. In an article on the Penny Cyclopaedia, a writer says:

The most sustained departments are those of mathematics, classical literature, astronomy, geography, topography, geology, materia medica, and agriculture. In the articles on these subjects we expect that one hand has written or one head has guided the whole series, and thus completeness has been obtained.—Athen. No. 858.
FACTORY. (Contracted from manufactory.) This word is not in Johnson's Dictionary or in any other before his time. It is now common both in England and the United States, and is applied to a place where anything is made.

FAGGED OUT. Fatigued; worn out.

FAIR SHAKE. A fair trade; a satisfactory bargain or exchange. A New England vulgarism.

FALL. The fall of the leaf; autumn; the time when the leaves drop from the trees.—Todd's Johnson. Webster.

This beautifully picturesque expression, which corresponds so well to its opposite spring, has been said to be peculiar to the United States. Mr. Pickering notices the following remark in Rees's Cyclopedia: "In North America the season in which the fall of the leaf takes place, derives its name from that circumstance, and instead of autumn is universally called the fall."—Art. Deciduous Leaves. It is used, however, in England in the same sense, though autumn is as generally employed there, as fall is in the United States.

What crowds of patients the town doctor kills,
Or how last fall he raised the weekly bills.—Dryden's Juvenal.

Hash worked the farm, burnt coal in the fall, made sugar in the spring, drank, smoked, &c.—Margaret, p. 13.

TO FALL. To fell, to cut down; as, 'to fall a tree.'—Webster. This use of the word is now common in America, although it has been condemned as a barbarism. It is found in the English dictionaries of Ash, Sheridan, Walker, and Knowles; but many others leave it out. Besides the dictionaries, there are other authorities for the use of this word, sufficient to elevate it above the rank of a barbarism. For a fuller account of it, see Mr. Pickering's Vocabulary.

FANCY STOCKS. A species of stocks which are bought and sold to a great extent in New York. Unlike articles of merchandise, which may be seen and examined by the dealer, and which always have an intrinsic value in every fluctuation
of the market, these stocks are wholly wrapped in mystery; no one knows anything about them, except the officers and directors of the companies, who, from their position, are not the most likely men to tell you the truth. They serve no other purpose, therefore, than as the representative of value in stock gambling. Nearly all the fluctuations in their prices are artificial. A small fluctuation is more easily produced than a large one; and as the calculations are made on the par value, a fluctuation of one per cent. on stock worth $20 a share, is just five times as much on the amount of money invested, as it would be on a par stock. Consequently, if a "Flunkie" can be drawn in, he may be fleeced five times as quick in these, as in good stocks.—A Week in Wall St. p. 83.

FARZINER. A vulgar contraction of far-as-I-know, extensively used through New England and New York, including Long Island.

FEAST. (A corruption of the Dutch vies, nice, fastidious.) 'I am feast of it,' is a literal translation of the Dutch Ik ben 'er vies van, i. e. I am disgusted with, I loathe it. A New York phrase, mostly confined to the descendants of the Dutch.

FEAT. Ready, skilful.—Johnson. This word is now only known as a provincialism in England and America.

Never master had a page so kind, so diligent;
So feat, so nurse-like.—Shakspeare, Cymbeline.

The following will illustrate its use in New England:
She was so feat and spry, and knowing, and good-natured, she said she could be of some use to somebody.—Margaret, p. 21.

TO FEATHER ONE'S NEST. To collect riches together; alluding to birds which collect feathers, among other materials, for making their nests.—Johnson.

Tradition says he feathered his nest
Through an agricultural interest,
In the Golden Age of Farming.—Hood's Miss Killmansegg.

FEDERAL CURRENCY. The legal currency of the United States. Its coins are the gold eagle of ten dollars, half and quarter eagles of proportionate value. The silver dollar of one hundred cents, its half, quarter, tenth, and twentieth parts. The coin of ten cents value is called a dime, that of five cents, a half-dime. The lowest coin in common use is the
copper cent. Half-cent coins have been made, but none of late years. In the commercial cities and along the sea-board, Spanish coins of a dollar and the fractional parts of a dollar are very common, and pass currently for their original value, except at the Custom Houses and Post Offices, where, by a recent ordinance, the quarter dollar and its parts are only received at twenty-five per cent. discount.

Previous to the adoption of our Federal currency, pounds, shillings, and pence were used. But this currency became unstable, in consequence of the great depreciation which took place in the paper money issued by the colonies.

In the year 1702, exchange on England was 33 1/3 per cent. above par; and silver and gold bore the same relative value to paper money. The depreciation in the latter continued to increase until, in the year 1749, £1100 currency was only equal to £100 sterling, or eleven for one. In 1750, a stop was put to the farther depreciation of the money of the province of Massachusetts by a remittance from England of £183,000 sterling, in Spanish dollars, to reimburse the expense the province had been at in the reduction of Cape Breton in the old French war. The depreciated money was then called in, and paid off at the rate of a Spanish dollar for 45 shillings of the paper currency. At the same time a law was made fixing the par of exchange between England and Massachusetts at £133 1/3 currency for £100 sterling, and 6 shillings to the Spanish dollar.

The difference of exchange, or depreciation of the paper money, regulated in the same manner the currencies of the other colonies. Throughout New England, as has been before stated, it was 6s. to the dollar of 4s. 6d. sterling. In New York, 8s., or about 75 per cent. depreciation. Pennsylvania, 7s. 6d., or about 66 per cent. depreciation. In some of the Southern States it was 4s. 6d. to the dollar, and accordingly no depreciation. In Halifax currency, including the present British provinces, it was 5s. to the dollar, or about 11 per cent., etc. etc. The old system of reckoning by shillings and pence is continued by retail dealers generally; and will continue, as long as the Spanish coins remain in circulation.
In consequence of the abovenamed diversity in the colonial currencies, in New England the Spanish real of \( \frac{1}{4} \) of a dollar or 12\( \frac{1}{2} \) cents is called *ninepence*; in New York, *one shilling*; in Pennsylvania, *elevenpence* or a *levy*; and in many of the Southern States, a *bit*. The half real of \( \frac{1}{10} \) of a dollar is called in New York a *sixpence*; in New England, *halfpenny*, or simply *halfpence*; in Pennsylvania, a *fip*; and at the South, a *picayune*.

**FEDERALIST.** An appellation in America given to the friends of the Constitution of the United States, at its formation and adoption; and to the political party which favored the administration of President Washington.—*Webster*.

**TO FEDERALIZE.** To unite in compact, as different States; to confederate for political purposes.—*Webster*.

**FEEZE.** 'To be in a *feeze*,' is to be in a state of excitement.

When a man's in a *feeze*, there's no more sleep that hitch.—*Sam Sticke* in *England*, ch. 2.

**FELLOW-COUNTRYMEN.** This word is often used by public speakers. It is improper, as the last word expresses the meaning of both. Mr. Pickering however mentions an example of the use of the word by *Southey* in his *Life of Nelson*.

**FELLOWSHIP.** Companionship; consort; society.—*Johnson*. With us it is often used in religious writings and discourses instead of the word *communion*, to denote "mutual intercourse or union in religious worship, or in doctrine and discipline."

**TO FELLOWSHIP.** A verb formed from the preceding noun. *To fellowship with,* is to hold communion with; to unite with in doctrine and discipline. This barbarism now appears with disgusting frequency in the reports of ecclesiastical conventions, &c., and in the religious newspapers generally. Mr. Pickering, in the Supplement to his Vocabulary, says he had just become acquainted with the word. The following is the first example which he gives:

We considered him heretical, essentially unsound in the faith; and on this ground refused to fellowship with him.—*Address to the Christian Public*, Greenfield, 1813.

If the Christian Alliance could not *fellowship* with the Southern slaveholders for gain, they ought to say so outright.—*Speech at the Christian Alliance Conference*, May 8, 1847.
ON THE FENCE. In politics, to be on the fence, is to be neutral, or to be ready to join the strongest party, whenever it can be ascertained which is so. A man sitting on the top of a fence, can jump down on either side with equal facility. So with a politician who is on the fence; selfish motives govern him, and he is prepared at any moment to declare for either party.

FETCH. (Ang. Sax. facen, fraud, trick, deceit.) A trick, or invention to deceive.—Grose. This word is in several of the English glossaries. In the United States it is never heard except colloquially.

An envious neighbor is easy to find,
His cumbersome fetches are seldom behind;
His fetch is to flatter, to get what he can;
His purpose once gotten, a pin for thee then.—Tusser, Husb.

It is a fetch of wit;
You laying these slight sullies on my son,
As 'twere a thing a little soil'd i' th' working.—Shakspeare.

FETTICUS. } Vulg. Fáttikows. (Bot. Valerianella; Fedia olitoria.) Fr. Doucette, mache.) Corn-salad, or lamb’s-lettuce. A word used in New York.

TO FETCH UP. To stop suddenly. This sense of the word is not noticed in the English dictionaries, nor by Webster. We often hear the phrase ‘He fetched up all standing,’ that is, he made a sudden halt. It is a nautical vulgarism, the figure being that of a ship which is suddenly brought to, while at full speed and with all her sails set.

FEVER BUSH. (Laurus benzoin.) An aromatic shrub with a flavor resembling Benzoin.—Bigelow’s Flora Bostoniensis.

FID OF TOBACCO. A chew, or quid of tobacco. A word only used by those who make use of the weed. It is also used in England, according to Grose.

TO HANG UP ONE’S FIDDLE, is to desist from any labor or project; a metaphor derived from a musician, who, when he ceases playing, is supposed to hang up his fiddle.

FIDDLER FADDLE. Trifling discourse; nonsense.—Grose. Johnson. Also used adjectively and as a verb.
AMERICANISMS.

She said that her grandfather had a horse shot at Edgehill, and their uncle was at the siege of Buda; with abundance of fiddle faddle of the same nature.—Spectator.

She was a troublesome fiddle faddle old woman, and so ceremonious that there was no bearing of her.—Arbuthnot.

—— Ye may as easily Outrun a cloud, driven by a northern blast, As fiddle faddle so.—Ford, The Broken Heart, Act I. Scene 3.

FIDDLER. A kind of small crab, with one large claw and a very small one. It lives on the salt meadows, where it makes its burrows. Used in New York and New Jersey.

TO PLAY SECOND FIDDLE, is to take an inferior part in any project or undertaking. A metaphor borrowed from a musical performer who plays the second or counter to the one who plays the first or the "air."

On the question of removing the seat of government from Kingston to Montreal, the population of which is chiefly French, a paper in the former city observes that—

We had rather become a portion of the United States, much as we detest that government, and rank with the Western States of Michigan and Iowa, than play second fiddle to the French.

FIDGET. Restless agitation. 'He has the fidgets,' is said of one who cannot sit long in a place.—Todd. Grose.

Why, who can the Viscountess mean? Cried the square hoods in woeful fidget; The times are altered quite and clean.—Gray, Long Story.

But sedentary weavers of long tales Give me the fidgets, and my patience fails.—Cowper, Con.

I was in a fidget to know where we could possibly sleep.—Mrs. Clavers, A New Home, p. 13.

FIDGETING, or FIDGETY. Restless; impatient. A low word.—Todd.

Fungus is one of those fidgeting, meddling quidnuncs with which this unhappy city is pestered.—Paulding, Salmagundi, Vol. I. p. 40.

Peter seemed monstrous fidgety, and bimeby he allowed it was time to go.—Maj. Jones's Courtship, p. 191.

TO FIDGET. To be restlessly active.—Richardson.

It was evident that there was something on his mind, as he fidgetted before the glass.—J. C. Neal, P. Ploody, p. 21.
FIGURE. Amount of a reckoning. 'What's the figure?' a flash expression for, What is to pay?—Grose.

BIG FIGURE. See Big.

FILLIPEEN or PHILLIPINA. (Germ. Vielliebchen.) There is a custom common in the Northern States at dinner or evening parties when almonds or other nuts are eaten, to reserve such as are double or contain two kernels, which are called fillipeens. If found by a lady, she give some of the kernels to a gentleman, when both eat their respective kernels. When the parties again meet, each strives to be the first to exclaim, Fillipeen! for by so doing he or she is entitled to a present from the other. Oftentimes the most ingenious methods are resorted to by both ladies and gentlemen to surprise each other with the sudden exclamation of this mysterious word, which is to bring forth a forfeit.

In a recent book on German life and manners, entitled "A Bout with the Burschens, or, Heidelberg in 1844," is an account of the existence of this custom in Germany, which at the same time furnishes us with the etymology of the word:

Amongst the queer customs and habits of Germany, there is one which struck me as being particularly original, and which I should recommend to the consideration of turf-men in England; who might, perhaps, find it nearly as good a way of getting rid of their spare cash as backing horses that have been made safe to lose, and prize fighters who have never intended to fight. It is a species of betting, and is accomplished thus: Each of two persons eats one of the kernels of a nut or almond which is double. The first of the two who, after so doing, takes anything from the hand of the other, without saying Ich denke, 'I think,' has to make the other a present, of a value which is sometimes previously determined, and sometimes left to the generosity of the loser. The presents are called Vielliebchen, and are usually trifles of a few florins' value; a pipe, riding-whip, or such like.

FILLS. A common pronunciation for thills, the shafts of a waggon or chaise.

FINDINGS. The tools and materials which a journeyman shoemaker is to furnish in his employment.—Webster.

TO FIND ONE'S SELF. To provide for one's self. When a laborer engages to provide himself with victuals, he is said to find himself, or to receive day wages.—Craven Glossary.
AMERICANISMS.

In the advertisements of our steamboats and ships, it is stated that passengers are taken for so much and found, that is, provided with their meals.

The singing master's proposals were to keep twenty evenings for twenty dollars and found, or for thirty and find himself.—Maj. Downing, p. 109.

FINEFIED. Made fine; dandified.

If this new judge is the slicked up, fined sort on a character they pictur' him, I don't want to see him.—Robb, Squatter Life, p. 73.

FINICAL. Nice; foppish; pretending to superfluous elegance.—Johnson.

Be not too finical, but yet be clean;
And wear well-fashioned clothes like other men.—Dryd. Or. Art of Love.

At nineteen he painted his own portrait, in the finical manner of Denner, and executed the heads of an old man and woman in the same style afterwards.—Walpole, Anecdotes of Painting, Vol. IV.

FIPPENNY BIT, or contracted, FIP. Fivepence. In the State of Pennsylvania, the vulgar name for the Spanish half-real. (See Federal Currency.) Fippence, for fivepence, is also provincial in England.

TO FIRE. To fling with the hand, as a stone or other missile.

TO HAVE ONE'S FAT IN THE FIRE, is to have one's plans frustrated. A vulgar expression borrowed from the vocabulary of the kitchen.

But take care that you don't, like the Paddy, touch off your machine at the wrong end; for the consequence, being unlooked for, might be bad, perhaps fatal, and then the fat would all be in the fire, and you would be where the devil could give more reliable information about you than any other of your near relations.—N. Y. Herald.

TO FIRE AWAY. To begin; to go on. An expression borrowed from the language of soldiers and sailors.

A well-known auctioneer in Pearl street, when putting up an article, says: "Come gentlemen, give us a bid, fire away;" that is, go on.

The Chairman rose and said: "We are not ready yet, we must go on in order." Calls for Mr. H——. Mr. H—— from the midst of the audience said, "Gentlemen, I beg to be excused, I came here to listen, not to speak." (Loud cries of "Go ahead," "Out with it," "Fire away.") Whereupon he commenced.—N. Y. Herald, Sketch of a Political Meeting.

TO FIRE INTO THE WRONG FLOCK, is a metaphorical
expression used at the West, denoting that one has mistaken his object, as when a sportsman fires at a different flock from what he intended.

I said, when General J—— cocked his gun and began his war upon the Senate, he would find he had fired into the wrong flock.—Crockett's
Speech, Tour, p. 81.

FIRE-NEW. New from the forge; brand-new.—Johnson. This old and nearly obsolete expression is sometimes used by us.

You should then have accosted her; and with some excellent jests, fire-
new from the mint, you should have banged the youth into darkness.
—Shakspeare, Twelfth Night, III. 2.

The Democracy of Washington, both in and out of Congress, huzzaed;
sang, flaunted torches, held mass-meetings, to exult over the liberation of
the French; they virtually insisted that this was all their thunder, and that
Whigs had no business to participate in their rejoicings; but when the
liberation of Americans from a much severer and more abject bondage
came under consideration, they were and are ferocious for the punishment,
by law or violence, not of the enslavers, but of the liberators! Instantly
they are seized with a fire-new reverence for the Constitution and laws!—
as if the French Revolution had not been effected in defiance of the consti-
tuted authorities—as if the serfs of Metternich and Esterhazy were not as
rightfully and truly theirs as those of Calhoun, Hope Slatter, and Mrs.
M——.—N. Y. Tribune, April 25th, 1848.

FIRST RATE. Of the first class or order; superior; superex-
cellent. An expression now in very common use, applied,
as most superlatives are in the United States, with very little
discrimination. It was formerly said of large and important
things, as 'a first rate ship.' Now we hear of 'first rate
pigs,' 'first rate liquors,' 'first rate lawyers.' It is also used
adverbially; thus if we ask a person how he is, he replies,
'I am first rate,' i. e. in excellent health, very well.

The first rate importance of the subject, and the real merits of the work,
are deserving of a portion of our space.—Westminster Rev. July, 1847.

A young woman wants a situation as a chambermaid. She is a first
rate washer and ironer, and plain sewer.—Adv. in N. Y. Tribune.

Well, there's some men whose natural smartness helps them along first
rate.—Major Jones's Courtship, p. 31.

Mary liked all the speakers first rate, except one feller who gin the galls
all sorts of a shakin.—Ibid. p. 168.
FIRSTLY. Mr. Pickering remarks that this adverb is frequently used by American writers. It is not noticed by Dr. Webster or any of the English lexicographers. The following is the only instance where Mr. P. found it in an English work:

They will in some measure be enabled to determine, firstly, &c.—British Critic, Vol. XLIV. p. 577.

FIRST-SWATHE. First quality; first chop. A New York word.

Nothing 'll serve you but a first-swathe mug, about twenty-three years old.—C. Mathews, Puffer Hopkins.

FISH. 'To have other fish to fry,' is a common colloquial expression denoting that a person has other occupations, or other objects which require his attention.

But as it seems they were more wary,
They'd other fish to fry than tarry.—Maro, p. 62.

FISH FLAKE. A frame covered with faggots for the purpose of drying fish.—New England.

FIT. Any short return after intermission; a turn; a period or interval.—Webster.

The houses in many parts of Italy are unprepared for winter; so that when a fit of cold weather comes, the dismayed inhabitant presents an awkward image of insufficiency and perplexity.—Hunt's Indicator, ch. 3.

BY FITS AND STARTS. At short and sudden intervals; interruptedly.

As prayer is a duty of daily occurrence, the injunction implies that it is ready to be imparted to Christians, not by fits and starts, or at distant intervals, but in a stated regular course.—Robert Hall, Works, Vol. I. p. 445.

FIX. A condition; predicament; dilemma.

Some feller jest come and tack my bundle and the jug of spirits, and left me in this here fix.—Chron. of Pineville, p. 47.

The gentleman must be stronger in the faith than ourselves, if he does not find himself in an awkward fix.—N. Y. Com. Adv. Oct. 18, 1845.

Are you drunk too? Well, I never did see you in that fix in all my live-long born days.—Georgia Scenes, p. 163.

TO FIX. In popular use, to put in order; to prepare; to adjust; to set or place in the manner desired or most suitable.—Webster.
Mr. Lyell, in his late book of Travels in North America, chap. iii. has the following remarks on this word: "At one of the stations where the train stopped, we heard one young woman from Ohio exclaim, 'Well, we are in a pretty fix!' and found their dilemma to be characteristic of the financial crisis of these times, for none of their dollar notes of the Ohio banks would pass here. The substantive 'fix' is an acknowledged vulgarism; but the verb is used in New England by well-educated people, in the sense of the French 'arrange,' or the English 'do.' To fix the hair, the table, the fire, means to dress the hair, lay the table, and make up the fire; and this application is, I presume, of Hibernian origin, as the Irish gentleman, King Corney, in Miss Edgeworth's tale of Ormond, says, 'I'll fix him and his wounds.'"

In Upper Canada this word is equally common, where it was probably introduced by the American settlers:

One of their most remarkable terms is to fix. Whatever work requires to be done must be fixed. 'Fix the room,' is to set it in order. 'Fix the table,' 'Fix the fire,' says the mistress to her servants; and the things are fixed accordingly.—Backwoods of Canada, p. 82.

**FIX IT.** A vulgarism of recent origin, but now very common. It is heard in such phrases as, 'I will not do so and so any how you can fix it,' or still worse, 'no how you can fix it,' i. e. not in any way that you can arrange it; not by any means.

A wet day is considerable tiresome, any way you can fix it.—*Sam Slick in England*, ch. 2.

If I was an engineer, I'd clap on steam—I'd fire up, I tell you; you wouldn't get me to stop the engine, no way you could fix it.—*Pickings from the Picayune*.

The master called them up, and axed them the hardest questions he could find in the book, but he couldn't stump 'em no how he could fix it.—*Maj. Jones's Courtship*, p. 36.

Workin' aint gented nor independent, no how you can fix it.—*Pickings from the Picayune*, p. 74.

**TO FIX ONE'S FLINT**, is a phrase taken from backwoods life, and means the same as to settle; to do for; to dish.

"Take it easy, Sam," says I, "your flint is fixed; you are wet through;" and I settled down to a careless walk quite desperate.—*Sam Slick in England*, ch. 2.
The Bluenose hante the tools; and if he had, he couldn’t use them. That’s the reason any one a’most can “fix his fnt for him.” — Ibid.

FIXED FACT. A positive or well established fact.

The Boston Post, in speaking of the trial of Capt. Stetson for piratically running away with a ship and cargo, says:

That he did dispose of a large quantity of oil, and afterwards desert from the vessel, are fixed facts.— June, 1847.

FIXINGS. A word used with absurd laxity, especially in the South and West, to signify arrangements, embellishments, trimmings, garnishings of any kind.

A man who goes into the woods, as one of these veteran settlers observed to me, has a heap of little fixin’s to study out, and a great deal of projecting to do.— Judge Hall, Letters from the West, Let. 18.

The theatre was better filled, and the fixings looked nicer than in Philadelphia.— Crockett, Tour down East, p. 38.

All the fellows fell to getting grapes for the ladies; but they all had their Sunday fixins on, and were afraid to go into the brush.— Maj. Jones’s Courtship, p. 42.

“Ah!” exclaimed the teamster [to a gentleman who had a good deal of luggage], “what anybody on earth can want with such lots of fixins, I’m sure’s dark to me.” — Mrs. Clavers, Forest Life, Vol. I. p. 97.

One half of the country is overflowed in the winter, and t’other half, which is a darned sight the biggest, is covered with cane, pimento, and other fixins.— Porter’s South-western Tales, p. 123.

The following advice was given to the editor of a new Western paper:

Advertise our doins in general, such as we got to sell, and throw yourself wide on the literary fixins and poetry for the galls; and, Mister, if you do this with spirit, the whole town will take your paper.— Robb, Squatter Life, p. 31.

For a use of the term as applied to food, see Chicken Fixings.

TO FIZZLE OUT. To be quenched, extinguished; to prove a failure. A favorite expression in Ohio.

The factious and revolutionary action of the fifteen has interrupted the regular business of the Senate, disgraced the actors, and fizzled out! — Cincinnati Gazette.

Hist. of New York.

And bore his lamp away.—Halleck's Poems, Domestic Happiness.
FRESHER. A flood or overflowing of a river, by means of heavy rains or melted snow; an inundation.—Webster.

This word is used in the Northern and Eastern States. That it is an old English word is evinced by the following extract from the Description of New England, written and published in England, in 1658:

"Between Salem and Charlestown is situated the town of Lynn, near to a river, whose strong freshet at the end of the winter filleth all her banks, and with a violent torrent vents itself into the sea."—p. 29.

This word appears to be now confined to America; but the word fresh is still used in the north of England and in Scotland in precisely the same sense.

The shingle-maker stands with froe in one hand and mallet in the other, endeavoring to rive a billet of hemlock on a block.—Margaret, p. 159.

The gentry say death and distress are all gammon,
And shut up their hearts to the lab’rer’s appeal.—Punch, pl. 54.

**GANDER-PULLING.** A brutal species of amusement practised in Nova Scotia. We quote Judge Halliburton’s account of it from the Sayings and Doings of Sam Slick:

“‘But describe this gander-pulling!’

“‘Well, I’ll tell you how it is,’ says I. ‘First and foremost, a ring-road is formed, like a small race-course; then two great long posts is fixed
into the ground, one on each side of the road, and a rope made fast by the
eends to each post, leavin' the middle of the rope to hang loose in a curve.
Well, then they take a gander and pick his breast as clean as a baby's,
and then grease it most beautiful all the way from the breast to the head,
till it becomes as slippery as a soaped eel. Then they tie both his legs
together with a strong piece of cord, of the size of a ballyard, and hang
him by the feet to the middle of the swingin' rope, with his head down-
ward. All the youngsters, all round the country, come to see the sport.
mounted a horseback.

"Well, the owner of the goose goes round with his hat, and gets so
much a-piece in it from every one that enters for the "Pullin'," and when
all have entered, they bring their horses in a line, one arter another, and
at the words "Go a-head!" off they set, as hard as they can split; and
as they pass under the goose, make a grab at him, and whoever carries
off the head wins.

"Well, the goose dodges his head and flaps his wings, and swings
about so, it aint no easy matter to clutch his neck; and when you do, it's
so greasy, it slips right through the fingers like nothin'. Sometimes it
takes so long, that the horses are fairly beat out, and can't scarcely raise
a gallop; and then a man stands by the post, with a heavy loaded whip, to
lash 'em on, so that they mayn't stand under the goose, which aint fair.
The whoopin', and hollerin', and scrammin', and bettin', and excitement,
beats all; there aint hardly no sport equal to it. It is great fun to all
except the poor goosey-gander.'"

GAP. This pure English word is used properly of any breach
of continuity, as of the line of a saw's edge, or of the line
of a mountain, as projected on the horizon. Hence it is
applied to such openings in a mountain as are made by a
river, or even a high road. Thus the Water-Gap; and, in

Dorothy gave her the better half of a *geniton apple.—Margaret,* p. 314.

GERRYMANDERING. To arrange the political divisions of a State, so that in an election, one party may obtain an advantage over its opponent, even though the latter may possess a majority of the votes in the State. This term came into use in the year 1811 in Massachusetts, where, for several years previous, the Federal and Democratic parties stood nearly equal. In that year the Democratic party, having a majority in the Legislature, determined so to district the State anew, that those sections which gave a large number of Federal votes might be brought into one district. The result was that the Democratic party carried everything before them at the following election, and filled every office in the State, although it appeared by the votes returned that nearly two-thirds of the voters were Federalists. Elbridge Gerry, a distinguished politician of that period, was the instigator of this plan, which was called *gerrymandering* after him.
TO GET THE WRONG PIG BY THE TAIL, is to make a mistake in selecting a person for any object. If a charge is made against a man, who on inquiry proves to be the wrong one, it is said they have the wrong pig by the tail. This is also called getting the wrong sow by the ear.

At the late election in Massachusetts, a Mr. C. C. Bell was elected by the Whigs, but was afterwards induced by the opposite party to give them his vote. Soon after, for fear of being forgotten, he wrote to a high official, presenting his claims for reward, closing as follows:

"If you can assist me now in your official capacity, you will command my everlasting gratitude. I have lived in obscurity and am not ambitious for office, but if my Democratic friends will not support me now, and help me out of my dilemma, why then I must make the best of it I can.

"I did not seek the office I have now; and was not at the meeting when I was elected, but the Whigs supposed they could by some means make me a traitor to my party. But, sir, as the old saying is, they got the wrong pig by the tail."

TO GIRDLE A TREE. In America, to make a circular incision, like a belt, through the bark and alburnum of a tree to kill it.—Webster. Settlers in new countries often adopt this method to clear their land; for when the trees are dead they set them on fire, and thus save themselves the trouble of chopping them down with the axe.

The emigrants purchase a lot or two of government land, build a log house, fence a dozen acres or so, plough half of them, girdle the trees, and then sell out to a new comer.—Mrs. Clavers, Forest Life, Vol. I.

GIST. The main point of a question or action; that on which it lies or turns.—Jamieson. A word introduced from the language of law into very common use.

TO GIVE HIM JESSY, is to give him a flogging. A vulgarism of recent origin.

Well, hoss, you've slashed the hide off'er that feller, touched his raw, and rumpled his feathers—that's the way to give him jessy.—Robb, Squatter Life, p. 33.

TO GIVE HIM THE MITTEN. This phrase is used of a girl who discards her sweetheart. She gave him the mitten means that she gave her lover his dismissal or discarded him. In England the phrase to give him the sack or give him the bag, denotes the same thing.
TO GIVE IT TO ONE is to rate, scold, or beat him severely. —*Holloway, Prov. Dict.* Used in the same sense in America.

GIVEN NAME. The Christian name, or name that is *given* to a person, to distinguish it from the *surname*, which is not given but inherited.

THE GO. The mode; the fashion. ‘This is all the go.’

What! Ben, my old hero, is this your renown?
Is this the new go?—kick a man when he's down!
When the foe has knocked under—to tread on him then:
By the fist of my father, I blush for thee, Ben!—*Tom Crib.*

GO AHEAD. To proceed; to go forward. A seaman’s phrase which has got into very common use.

I was tired out and wanted a day to rest; but my face being turned towards Washington, I thought I had better go ahead.—*Crockett, Tour down East,* p. 101.

We slip on a pair of India rubber boots, genuine and impenetrable, and go ahead without fear.—*N. Y. Com. Adv.*

The specific instructions to conquer and hold California were issued to Commodore Sloat, by Mr. Bancroft, on the 12th of July, 1846. Previous to this, however, he had been officially notified that war existed, and briefly instructed to “go ahead.”—*Ibid.* June 13.

TO GO BY. To call; to stop at. Used in the Southern States.—*Sherwood’s Georgia.* Mr. Pickering says this singular expression is often used at the South. “Will you go by and dine with me?” i. e. in passing my house will you stop and dine? “Its origin,” observes Mr. Pickering, “is very natural. When a gentleman is about riding a great distance through that country, where there are few great roads, and the houses or plantations are often two or three miles from them, a friend living near his route asks him to go by his plantation, and dine or lodge with him.”—*Vocab.*

THE GO BY. To give one the go by is to deceive him; to leave him in the lurch.—*Craven Glossary.*
TO GO FOR. To be in favor of. Thus, 'I go for peace with Mexico,' means I am in favor of peace with Mexico, or, as an Englishman would say, I am for peace with Mexico. This vulgar idiom is a recent one, and is greatly affected by political and other public speakers, who ought to be the guardians of the purity of the language instead of its most indefatigable corruptors. In the following extract from a religious paper, the reader of correct taste and feeling will hardly know which to admire most, the sentiment or the language:

Will Mr. Greeley say that he or any other citizen has the right to oppose "the Country"—that is, its laws—whenever he or they shall choose to pronounce them "wrong?" We say, go for your country—right, as she may be in some things—wrong, as she is, perhaps, in others; but whether right or wrong, or right and wrong (which is always nearer the truth in all her proceedings,) still, go for your country. —Gospel Banner.

To decide in favor of, is another acceptation in which this phrase is often used, especially in stating for which man or measure any particular section of the country has decided, as, 'Ohio has gone for Clay,' 'Louisiana has gone for the annexation of Mexico.' Or still worse, 'Ohio has gone Whig,' 'Louisiana has gone Loco-foco.' Other variations of the expression follow.

TO GO IT BLIND. To accede to any object without due consideration. Mr. Greeley, in speaking of General Taylor's claims for the presidency, says:

The Whig candidate must be fair and square on all the great questions before the country. He would speak not of his own course, but the Whig people could not go it blind.—N. Y. Tribune.

Meaning that the Whigs could not vote or go for General Taylor without a knowledge of his principles.

TO GO IT STRONG. To perform an act with vigor or without scruple.

President Polk in his message goes it strong for the Sub-treasury.—N. Y. Tribune.

The Evening Post goes it good and strong for the establishment of free public baths.—Newspaper.

The Senate has of late years refused to take any part of the book plunder, but they have gone it strong on the mileage.—Letters from Washington, N. Y. Com. Advertiser.
AMERICANISMS.

TO GO THE WHOLE FIGURE. To go to the fullest extent in the attainment of any object.

*Go the whole figure* for religious liberty; it has no meanin' here, where all are free, but it's a cant word and sounds well.—*Sam Slick.*

One half of you don't know what you are talking about; and t'other half are *goin' the whole figure* for patriotism.—*Ibid.*

TO GO THE BIG FIGURE. To do things on a large scale.

Why, our senators *go the big figure* on fried oysters and whisky punch.—*Burton, Waggeries.*

TO GO THE WHOLE HOG. A Western vulgarism, meaning to be out and out in favor of anything. A softened form of the phrase is *to go the entire animal.*

Of the Congressional and State tickets we can only form a conjecture; but the probability is that the Democrats have carried the whole, for they generally *go the whole hog*—they never scratch or split differences.—*Newspaper.*

The phrase has been caught up by some English writers.

The Tiger has leapt up heart and soul,

It's clear that he means *to go the whole Hog,* in his hungry efforts to seize

The two defianceful Bengalese.—*New Tale of a Tub.*

TO GO THROUGH THE MILL. A metaphor alluding to grain which has been *through the mill.* A Western editor observed that the mail papers looked as if they had been *through the mill,* so much worn were they by being shaken over the rough roads. It is often said of a person who has experienced anything, and especially difficulties, losses, &c.

GODSEND. An unexpected acquisition.

GOING. The state of the roads; the travelling. Ex. *'The going is bad, owing to the deep snow or mud in the roads;'' The going is good since the road was repaired.'*

GOINGS ON. Behavior; actions; conduct. Used by us as in England mostly in a bad sense. See *Carryings on.*

Pretty place it must be where they don't admit women. Nice *goings on,* I dare say, Mr. Caudle.—*London Punch.*

GOLD-THREAD. (*Coptis trifolia.*) A plant well known in medicine, valued for its stomachic and tonic properties.
GOMBO. The Southern name for what is called at the North Okra, the pod of the *hibiscus esculentis*.

GOMBO. In the Southern States, a soup in which this plant enters largely as an ingredient.

GONDOLA. A flat-bottomed boat or scow used in New England.—*Pickering*.

GONE GOOSE. 'It's a gone goose with him,' means that he is past recovery. The phrase is a vulgarism in New England. In New York it is said 'He's a gone gander,' i.e. a lost man; and in the West 'He's a gone coon.'

If a bear comes after you, Sam, you must be up and doin', or it's a gone goose with you.—*Sam Slick in England*, ch. 18.

It may be the doctor can do something for her, though she looks to me as though it was a gone goose with her.—*Major Downing*, p. 87.

GONE WITH, for *become of*. 'What is gone with it' 'or with him,' for What has become of it or him?—*Sherwood's Georgia*.

GONEY. A stupid fellow.—*New England*.

"How the goney swallowed it all, didn't he?" said Mr. Slick, with great glee.—*Slick in England*, ch. 21.

Some on 'em were fools enough to believe the goney; that's a fact.—*ib*.

GOODNESS. This inoffensive word is much used in a variety of ways by people of all classes. Sometimes we hear from old ladies the exclamation, 'Oh, my goodness!' denoting surprise. 'Goodness me,' 'goodness gracious,' and 'goodness sake,' are also common. It is not peculiar to the Americans; for we find a distinguished personage using it:

Now don't sleep, Cudde; do listen to me for five minutes; 'tisn't often I speak, goodness knows.—*Punch*.

"The devil 's in the cat, I swear!"
(Cried cooky): *goodness gracious! there!"
 Whilst Molly shrieked "Ah, wo is me!"—*Reynard the Fox*, 57.

 My father's beams are made of wood,
But never, never half so good
As those that now I see.—*Wordsworth, Rejected Addresses*.

Mr. Johnson says the Railroad company charges more than he thinks himself authorized to pay; if he yields, other companies will enlarge their demands, and *goodness knows* where he will find himself landed.—*N. Y. Com. Advertiser*. 
AMERICANISMS.

Well, goodness me! it's mighty strange I can't call you to mind.—Georgia Scenes, p. 22.

GOOSE. A tailor's smoothing-iron. It is a jocular saying that 'A tailor, be he ever so poor, is always sure to have his goose at the fire.'—Grose, Dictionary.

Come in, tailor, here you may roast your goose.—Shakspeare.

HAVE GOT. There are several corrupt or vulgar forms of speaking which have arisen from a desire to distinguish between different uses of the same word. Thus the verb to have is used in the sense of to hold, to possess (Sp. tener), and also as an auxiliary (Sp. haber). In order to distinguish the former use from the latter, many persons, both in England and America, are accustomed to use the expressions 'I've got,' 'he's got,' &c., instead of simply I have, he has, &c.

Then forcing thee, by fire he made thee bright;
Nay, thou hast got the face of man.—Herbert.

I have got a good mind to go to the play.—Pegge's Glossary.

GOUGE. Imposition; cheat; fraud.

R—and H—will probably receive from Mr. Polk's administration $100,000 more than respectable printers would have done the work for. There is a clean plain gouge of this sum out of the people's strong box.—N. Y. Tribune, Dec. 10, 1845.

TO GOUGE. To chouse; to cheat.

Very well, gentlemen! gouge Mr. Crosby out of the seat, if you think it wholesome to do it.—N. Y. Tribune, Nov. 26, 1845.

TO GOUGE. "Gouging is performed by twisting the forefinger in a lock of hair, near the temple, and turning the eye out of the socket with the thumb-nail, which is suffered to grow long for that purpose."—Lambert's Travels, Vol. II. p. 300.

This practice is known only by hearsay at the North and East, and appears to have existed at no time except among the lower class of people in the interior of some of the Southern States. An instance has not been heard of for years. Grose has the word in his Dictionary of the Vulgar Tongue, and defines it as "a cruel custom practised by the Bostonians in America!"
GOVERNMENTAL. Pertaining to government; made by government.—Webster.

TO GRAB. To seize; to gripe suddenly.—Grose. Webster.

GRADE. (French.) 1. A degree or rank in order or dignity, civil, military, or ecclesiastical. 2. A step or degree in any ascending series; as, 'crimes of every grade.'—Webster.

This word is of comparatively modern use. It is not in the English dictionaries previous to Todd's edition of Johnson in 1818. Mr. Todd calls it "a word brought forward in some modern pamphlets," and says "it will hardly be adopted." Mr. Richardson says the word "has crept into frequent use." Mr. Knowles in the ninth edition of his dictionary introduces the word as once belonging to the language, without comment. The British Critic and other reviews have criticised the word as an unauthorized Americanism; but, as we have seen, it has been adopted at last by the English themselves.

While questions, periods, and grades and privileges are never once formally discussed.—S. Miller.

To talents of the highest grade be [Hamilton] united a patient industry not always the companion of genius.—Marshall's Life of Washington, Vol. V. p. 213.

TO GRADE. To reduce to a certain degree of ascent or descent, as a road or way.—Webster.

This use of the verb is not noticed by any English lexicographer.

TO GRADUATE. To take a degree at a university. "This verb," says Mr. Pickering, "was till lately used by us as a verb neuter or intransitive. Ex. 'He graduated at the University of Cambridge;' but many persons now say, 'he was graduated.'" This is merely a return to former practice, the verb being originally active transitive. Examples of both uses are found in English writers.

This freshman college lived not to be matriculated, much less graduated, God in his wisdom seeing the contrary fitter.—Fuller, Worthies.

We think dissenters, merely as such, should not be deprived of the privilege of studying and graduating at the English Universities.—Elec. Review, April, 1811.
GRAHAM BREAD. Bread made of unbolted wheat. It is easier to digest than common wheaten bread, and is in consequence much used by invalids.

GRAHAMITES. People who rigidly follow the system of Graham in their regimen.

A glance at his round, ruddy face would shame a Grahmite or tetotaller out of his abstinence principles.—*Pickings from the Picayune*, p. 130.

GRAHAM SYSTEM. A system of dietetics recommended by Sylvester Graham, a lecturer of some celebrity on temperance and dietetics, which excludes the use of all animal food and stimulating drinks, including tea, coffee, etc.

GRAIL. (Fr. grêle, hail.) Small particles of any kind.—*Johnson*.

Margaret curvetted about the mounds, she leaped the hollows (in the snow), the fine grail glancing before her and fuzzing her face and neck.—*Margaret*, p. 175.

GRAIN. A particle; a bit. Ex. 'I don't care a grain;' 'Push the candle a grain further from you.'

GRAIN. The universal name in the United States for what is called corn in England; that is, wheat, rye, oats, barley, &c.

GRAND. Very good; excellent; pleasant. This is one of the words so much abused among us by its too frequent use and application in senses differing from its proper one. Ex. 'This is a grand day;' 'the sleighing is grand;' 'what a grand time we had at the ball;' 'grand weather,' &c. Mr. Hamilton in his remarks on the Yorkshire dialect, in England (*Nugæ Literariae*, p. 318), notices this word as common there in the same sense.

GRASS. A vulgar contraction of sparrow-grass, i.e. asparagus. Further than this the force of corruption can hardly go.

GRAVY. Used in New England instead of juice, as the gravy of a pie.

GREAT. This word is used variously. A great Christian, for a pious man; great horse is applied to a small pony, meaning a horse of good qualities and bottom; great plantation, a fertile one.—*Sherwood's Georgia*.

GREAT. Distinguished, excellent, admirable. As, 'he is great at running;' 'she is great on the piano.'
GREAT BIG. Very large. Often used by children.

GREATLE. A great while. Used on Long Island.

GREAT WITH. Intimate with; high in favor with.—Craven Glossary. Dr. Webster notices this word in the same sense as a vulgarism.

Tho' he was great with the king, he always doubted the king's uncles.—Froissart's Chronicles.

Those that would not censure or speak ill of a man immediately, will talk more boldly of those that are great with him, and thereby wound their honor.—Bacon.

GREEK. A soubriquet often applied to Irishmen, in jocular allusion to their Milesian (!) origin.

GREEN. Uncouth, raw, inexperienced, applied to persons, a metaphor derived from green or unripe fruit; vegetables or fruit that are growing. It answers to the English use of the word verdant.

A little sassy rascal come up before me and stood and put his thumb to the side of his nose, and looked up with an awful sassy look at me and hollered out, "Ain't ye green?"—Maj. Downing, May-day, p. 45.

GREENHORN. A raw youth, easily imposed upon, unacquainted with the world.—Todd.

If by mistake, at Washington, an old-fashioned man should speak of patriotism or the welfare of his country, he would be stared at as a greenhorn just from the bush.—Hon. J. Whipple on R. Island Insurrection.

GREENS. Leaves and green vegetables used for food.—Ash.

GRIT. Sand; rough, hard particles.—Johnson. With us it is often vulgarly used to mean courage, spirit.

The command of a battalion was given to Mr. Jones, a pretty decided Whig in politics, and like many other men of Zacchean stature, all grit and spirit.—N. Y. Com. Adv., Letter from Washington, June 24.

Honor and fame from no condition rise. It's the grit of a fellow that makes the man.—Crockett, Tour, p. 44.

If he hadn't a had the clear grit in him, and showed his teeth and claws, they'd a nullified him so, you wouldn't see a grease spot of him no more. —Sam Slick in England, ch. 17.

GRITTY. Courageous; spirited.

My decided opinion is, that there never was a grittier crowd congregated on that stream; and such dancin' and drinkin', and eatin' bar steaks and corn dodgers, and huggin' the gals, don't happen but once in a fellow's lifetime.—Robb, Squatter Life, p. 106.
GROCERY. A grocer’s shop. This word is not in the English dictionaries except in the sense of grocer’s ware, such as tea, sugar, spice, etc.; in which sense we also use it in the plural.

GROG. In the language of seamen, gin and water, or any spirit and water, usually without sugar.—Todd.

We stopped serving grog, except on Saturday nights.—Cook and King’s Voyages.

Grog, says Grose, was first introduced into the British navy about the year 1740, by Admiral Vernon, to prevent the sailors intoxicating themselves with their allowance of rum or spirit.

GROGGERY. A place where grog and other liquors are drunk.—Webster.

GRUB. Food; victuals.—Grose.

In other words, they have tossed the grub
Out of their great provision tub.—New Tale of a Tub.

GRUNTER. (Genus, pogonias. Cuvier.) One of the popular names of the fish called by naturalists the Banded Drum. It is common to the Atlantic coast south of New York. Grunts and Young Sheepskin are other names of the same fish.—Nat. Hist. of New York.

GRUNTER. A hog.—Craven Dialect.

GUBERNATORIAL. Pertaining to government or to a governor.—Webster.

TO GUESS. 1. To conjecture; to judge without any certain principles of judgment. 2. To conjecture rightly, or upon some just reason.—Johnson.

Ineapable and shallow innocents!
You cannot guess who caused your father’s death.—Shakespeare.

One may guess by Plato’s writings, that his meaning as to the inferior deities was, that they who would have them might, and they who would not might let them alone; but that himself had a right opinion concerning the true God.—Stillingfleet.

We thus see that the legitimate, English sense of this word is to conjecture; but with us, and especially in New England, it is constantly used in common conversation instead of to
believe, to suppose, to think, to imagine, to fancy. From such examples as the words to fix and to guess, it will be seen that while on the one hand we have a passion for coining new and unnecessary words and often in a manner opposed to the analogies of the language, there is on the other hand a tendency to banish from common use a number of the most useful and classical English expressions, by forcing one word to do duty for a host of others of somewhat similar meaning. This latter practice is by far the more dangerous of the two; because, if not checked and guarded against in time, it will corrode the very texture and substance of the language, and rob posterity of the power of appreciating and enjoying those master-pieces of literature bequeathed to us by our forefathers, which form the richest inheritance of all that speak the English tongue.

GUFFAW. A hearty, boisterous laugh; a horse laugh.

"You didn't let the Judge stray away from the swamp road?" inquired Hoss.

"Well, I predicate I didn't, for by this time he's travellin' into the diggins most amazin' innocently;" and then the pair enjoyed a regular guffaw!—Robb, Squatter Life, p. 75.

GUINEA CORN. (Holcus sorghum.) Egyptian millet, durrah of the Arabs, a plant with a stalk of the size and appearance of maize. The grain grows in a single pendant bunch at the top.

GUINEA GRASS. A species of grass cultivated in the West Indies, used as fodder for horses.—Carmichael's W. Indies.

TO GULCH. To swallow voraciously.—Todd. Webster. In low language this word is still heard in New England.

GULL. 1. A cheat; a fraud; a trick. 2. A stupid animal; one easily cheated.—Johnson.

I should think this a gull, but that the white-bearded fellow speaks it.—Shakspeare.

That paltry story is untrue,
And forged to cheat such gulls as you.—Hudibras.

The author of the "Perils of Pearl Street," in describing one of the swindling auction stores in New York, says:

The auctioneer and Peter Funk were ready to burst with laughter at the prodigious gull they had made of the poor countryman.—P. 53.
TO GULL. To trick; to cheat; to deceive.—*Johnson*. Seldom employed except in familiar conversation.

Yet love these sorcery's did remove, and move
Thee to gull thine own mother for my love.—*Dame*.

The Roman people were grossly gulled twice or thrice over, and as often enslaved in one century, and under the same pretence of reformation.—*Dryden*.

You colony chaps are gulled from year to year.—*Sam Slick*.

There is no people like unto this people [the Americans], so great yet so little, so shrewd yet so easily gulled, so Christian yet so easily led away from the old standards of truth.—*Y. Y. Com. Adv. Feb. 24, 1848*.

GULLIBILITY. Credulity. A low expression.—*Todd*.

A silly hoax has been for some time going the rounds of the newspapers, swallowed by all with eager avidity. Verily, the gullibility of the age is marked and peculiar.—*New York paper*.

GULLY. A channel or hollow worn in the earth by a current of water.—*Webster*. This word is much used in the United States. It is from the French goulet, and in old English authors is written gullet.

The violent rain which had fallen in the night had suddenly brought down such torrents of water through the hollow or gully, where they were in the utmost danger of being swept away before it.—*Hawkesworth's Voyages*.

TO GULLY. To wear a hollow channel in the earth.—*Webster*. This conversion of the noun into a verb is an Americanism. 'The roads are much gullied,' is a common expression.

GUMMY! An exclamation, used in New England.

"Gummy!" retorted the woman. "He has been a talkin' about me, and a runnin' of me down."—*Margaret*, p. 137.

GUMP. A foolish person; a dolt.—*Webster*. It is provincial in England, and may be found in most of the glossaries.

GUMPTION. Understanding; skill.—*Todd*. This vulgar word is provincial in most parts of England, and is noticed in the glossaries of Pegge, Brockett, Forby, Jennings, and Halliwell. With us it is frequently heard.

What tho' young empty airy sparks
May have their critical remarks;—
'Tis sma' presumption,  
To say they're but unlearned clarks,  
And want the gumption.—*Hamilton, Ramsay's Poems*, II.  
He's a clever man, and aint wantin' in gumption. He's no fool, that's a fact.—*Sam Slick in England*, ch. 26.  

**GUNNING.** A colloquial word from *gun*. The act of going out with a gun in order to shoot game.—*Ash's Dictionary*. This word is commonly used by sportsmen in the Northern States in the sense given by Ash. At the South they use the word *hunting*.  

The Americans were, however, mostly marksmen, having been accustomed to *gunning* from their youth.—*Hannah Adams, Hist. of N. Eng.*  

**SON OF A GUN.** This phrase is heard in low language with us as in England.  

**H.**  

**HABITAN.** (French.) The lower class of Canadians of French origin.  

My coachman was a *Habitan*, and I had a fine opportunity of studying the conflicting traits of character which distinguish the race.—*Lanman's Tour to the Saguenay*.  

**HACK.** A hackney coach. The term *hack* is also frequently applied by women to any article of dress, as a bonnet, shawl, &c., which is kept for every day use.  

**TO HAIL FROM.** A phrase probably originating with seamen or boatmen, and meaning to come from, to belong to; as, 'He hails from Kentucky,' i. e. he is a native of Kentucky.  

**HAINT, for have not.** A contraction much used in common conversation in New England.  

**HALF COCK.** 'To go off at half cock,' is a metaphorical expression borrowed from the language of sportsmen, and is applied to a person who attempts a thing in a hurry without due preparation, and consequently fails.  

Mr. Clayton of Georgia is a fine speaker; he is always ready, and never goes off *half cock*.—*Crockett, Tour down East*.  

**HALF SEAS OVER.** Intoxicated; drunk. A sailor's expression.
HALVES. An exclamation entitling the person making it to the half of anything found by his companion. In the Craven Dialect, says Mr. Carr, on such occasions, if the finder be quick he exclaims, ‘No halves—finder keeper, loser seeker,’ to destroy the right of the claim.

And he who sees you stoop to th' ground,
Cries halves! to ev'rything you've found.—Savage, Hor. to Scxva.

HAMMER AND TONGS. In a noisy, furious manner. Thus, ‘They went at it hammer and tongs,’ is said of persons quarrelling. ‘To live hammer and tongs,’ is said of married people who seldom agree.—Holloway.

Jonathan and the Spaniard will be at hammer and tongs.—Montreal Courier.

HAMMOCK. (Carib amáca.) A swinging-bed. This word, now in such general use, especially among seamen, and the etymology of which has been so much disputed, is undeniably of West Indian origin.

Cotton for the making of hamaccas, which are Indian beds.—Raleigh, Disc. of Guiana, 1596.

The Brazilians call their beds hamacas; they are a sheet laced at both ends, and so they sit rocking themselves in them.—Sir R. Hawkins, Voy. to South Sea.

HANDS OFF. A vulgar phrase for keep off; forbear.—Johnson.

They cut a stag into parts; but as they were entering upon the dividend, “Hands off!” says the lion.—L’Estrange.

HANDSOME. In familiar language this word is used among us with great latitude, and, like some other words mentioned in this Glossary, is difficult to define. “In general,” says Dr. Webster, “when applied to things, it imports that the form is agreeable to the eye, or to the taste; and when
applied to manner, it conveys the idea of suitableness or propriety with grace."

HAND TO MOUTH. 'To live from hand to mouth,' is said of a person who spends his money as fast as he gets it, who earns just enough to live on from day to day.

In matter of learning many of us are fain to be day-laborers, and to live from hand to mouth, being not able to lay up anything.—Bishop Reynolds on the Passions, ch. 37.

I can get bread from hand to mouth, and make even at the year's end.—L'Estrange.

HANG. 'To get the hang of a thing,' is to get the knack, or habitual facility of doing it well. A low expression frequently heard among us. In the Craven Dialect of England is the word hank, a habit; from which this word hang may perhaps be derived.

If ever you must have an indifferent teacher for your children, let it be after they have got a fair start and have acquired the hang of the tools for themselves.—Prime, Hist. of Long Island, p. 82.

He had been in pursuit of the science of money-making all his life, but could never get the hang of it.—Pickings from the Picayune.

When a man loses his temper and ain't cool, he might as well hang up his fiddle.—Sam Slick.
AMERICANISMS.

The shepherd would be a merchant, and the merchant hankers after something else.—L'Estrange.

HANKERING. Strong desire; longing.—Todd.

We shall be able to part both with the body and its delights, without any great regret or reluctancy; and to live from them for ever, without any disquieting longings or hankerings after them.—Scott, Christian Life.

I took an awful hankerin' after Sofy M—, and set in to looking anxious for matrimony, and begin to go reg'lar to meetin', to see if I could win her good opinion.—Robb, Squatter Life.

HARD PUSHED. To be hard pressed; to be in a difficulty; and especially, as a mercantile phrase, to be hard pressed for money; to be short of cash.

As I said, at the end of six months we began to be hard pushed. Our credit, however, was still fair.—Perils of Pearl Street, p. 123.

A HARD ROW TO HOE. A metaphor derived from hoeing corn, meaning a difficult matter or job to accomplish.

HARD RUN. To be hard pressed; and especially to be in want of money. The same as hard pushed.

HARUM-SCARUM. A low but frequent expression applied to flighty persons; persons always in a hurry, as if they were hared or frightened themselves, or haring others by their precipitancy; as, he is a harum-scarum fellow.—Johnson.

HASTY-PUDDING. Indian meal stirred in boiling water into a thick batter or pudding, and eaten with milk, butter, and sugar or molasses. Joel Barlow wrote a poem on the subject, in which he thus accounts for its name:

Thy name is Hasty-Pudding! thus our sires
Were wont to greet thee fuming from their fires;
And while they argued in thy just defence
With logic clear, they thus explain'd the sense:—
"In haste the boiling cauldron o'er the blaze,
Receives and cooks the ready-powder'd maize;
In haste 'tis serv'd, and then in equal haste,
With cooling milk, we make the sweet repast."
Such is thy name, significant and clear,
A name, a sound to every Yankee dear.—Canto I.

Hasty-pudding is a favorite dish in every part of the United States. In Pennsylvania and some other States it is called mush; in New York, suppawn. Hasty-pudding in England is made of milk and flour.

Sure hasty-pudding is thy chiefest dish,
With bullock's liver or some stinking fish.—Dorset Poems.

HEAD-CHEESE. The ears and feet of swine cut up fine, and, after being boiled, pressed into the form of a cheese.

TO HEAD OFF. To get before; to intercept. Ex. 'The thief ran fast, but the officer managed to head him off.'

HEAP. A crowd; a throng; a rabble.—Johnson. This very old sense of the word is now provincial both in England and in this country. The expressions, 'a heap of men,' 'a heap of horses,' are given by Holloway in his Dictionary of Provincialisms. In the Western States it is in very common use; as, 'A heap of people were present at the election,' etc.
Now is that of God a full fayre grace
That awhiche a lewd man's wit shall pace
The wisdom of an heap of lored men?—Chaucer, The Prologue.

HEAP. A great deal; much. So used at the South and West.

A correspondent in the Commercial Advertiser thus notices the various uses of this word at the South:

*Heap* is a most prolific word in the Carolinas and Georgia among the common people, and, with children at least, in the best regulated families. "How do you like Mr. Smith?" I asked. "Oh! I liked him a heap," will be the answer, if affirmative, in five cases out of six. It is synonymous with a majority, or a great many; as, "We should have plenty of peaches, but a heap of them were killed by the frost." It is synonymous even with *very*, as, "I heard him preach a heap often;" "Oh! I'm lazy a heap."

I was not idle, for I had a *heap* of talk with the folks in the house.—Crockett, Tour, p. 87.

Now this was the very first piano that was ever *heard tell* of, in the Purchase.—*Carlton's New Purchase*, Vol. II. p. 8.

TO HEAVE IN SIGHT. To come in sight; to appear. This nautical phrase appears to have originated in the fact that an approaching vessel appears to raise or heave itself above the horizon.

A Carolina waggoner had just crossed the rail-road, when the engine hove in sight with the cars attached.—Crockett, Tour down East, p. 16.

HEFT. Weight; ponderousness. A colloquial term common to England and America.

Mr. Pickering says: "This noun is also used colloquially in America to signify the greater part or bulk of anything, in expressions of this kind: 'A part of the crop was good, but the heft of it was bad.'"

Hobson kept a stable of forty good cattle, always ready and fit for travelling; but when a man came for a horse, he was led into the stable, where there was a great choice, but he obliged him to take the horse next to the stable door; so that every customer was alike well served according to his chance, and every horse ridden with the same justice. From whence it became a proverb, when what ought to be your choice was forced upon you, to say, *Hobson's choice.*—*Spectator*, No. 509.

**HOE-CAKE.** A cake of Indian meal, baked before the fire. In the interior parts of the country, where kitchen utensils do not abound, they are baked on a *hoe*; hence the name.

HOLPE, or HOLP. The old preterite and past part. of *Help.*

"This antiquated inflection of the verb *to help* is still used in Virginia, where it is corrupted into *holped.*"—Pickering. Johnson and Webster notice the word; and Bishop Lowth observes in his Grammar, that it was used in conversation in his day.

HOLT, for *hold.* Ex. 'Death has got *holt* of him.'

Roger Williams, in his Key to the Indian Language, has the word aupuminea, parched corn—which, with the accent on the second syllable, has much the sound of hominy.

The Indians sift the flour out of their meal, which they call samp; the remainder they call homminy. This is mixt with flour and made into puddings.—Josselyn's New England Rarities, 1672, p. 63.

HONEY-FOGLE. To swindle; to cheat; to lay plans to deceive. This singular word, I am told, is used in Louisiana. Coney-fogle, to lay plots, a Lancashire word, noticed by Mr. Halliwell in his Dictionary of Archaic and Prov. Words, may be the origin of it.

HONOR BRIGHT! A protestation of honor among the vulgar; originating with, and still retained in commemoration of, a late well-known Newcastle worthy.—Brockett, North Country Words.

We have every reason to believe that the time is fast approaching when we shall have our American Pope, our American Catholic Cardinals, and American Catholic everything on our own hook.—N. Y. Herald, Oct. 1845.

I went to the opera in London, where I kept lookin' round; and when any body laughed, I laughed too, and when they 'plauded, I 'plauded too; and sometimes, jest to make 'em think I was a reglar Frenchy, I'd laugh right out on my own hook, and 'plaud—then the fellers and gals would look at me, much as to say, He's got some gumption.—N. Y. Fam. Companion.

HOOKEY. To play hookey, is to play truant. A term used among schoolboys.

HOOPLE: (Dutch, hoepel.) The boys in the city of New York still retain the Dutch name hoople for a hoop.

HOOSIER. A nickname given at the West to a native of Indiana.

A correspondent of the Providence Journal, writing from Indiana, gives the following account of the origin of this term: "Throughout all the early Western settlements were men who rejoiced in their physical strength, and on numerous occasions, at log-rollings and house-raisings, demonstrated this to their entire satisfaction. They were styled by their fellow citizens, 'hushers,' from their primary capacity to still their opponents. It was a common term for a bully throughout the West. The boatmen of Indiana were formerly as rude and as primitive a set as could well belong to a civilized country, and they were often in the habit of displaying their pugilistic accomplishments upon the Levee at New Orleans. Upon a certain occasion there, one of these rustic professors of the 'noble art' very adroitly and successfully practised the 'fancy' upon several individuals at one time. Being himself not a native of this Western world, in the exuberance of his exultation he sprang up, exclaiming, in foreign accent, 'I'm a hoosier, I'm a hoosier.' Some of the New Orleans papers reported the case, and afterwards transferred the corruption of the epithet 'husher' (hoosier) to all the boatmen from Indiana, and from thence to all her citizens.

There was a long-haired hoosier from Indiana, a couple of smart-looking suckers from Illinois, a keen-eyed, leather-belted badger from Wisconsin;
and who could refuse to drink with such a company?—Hoffman, Winter in the West, p. 210.

The *hoosier* has all the attributes peculiar to the backwoodsmen of the West. . . . One of them visited the city [New Orleans] last week. As he jumped from his flat-boat on to the Levee, he was heard to remark that he "didn't see the reason of folks livin' in a heap this way, where they grew no corn and had no bars to kill."—Pickings from the Picayune.

HOP. A dance.—Johnson. This word has always been used here as in England as a familiar term for dance; but of late years it has been employed among us in a technical sense, to denote a dance where there is less display and ceremony than at regular balls. At Saratoga Springs, where a large majority of the people are strangers to each other, it is customary to have a dance or *hop* at the fashionable hotels three times a week, during the season when the waters are most resorted to.

HOPED. Used among the illiterate in North Carolina as the past part. of *to help*. Ex. 'It can't be *hoped*.'—See *Holp*.

HOPSCOTCH. A game well known to our boys. A figure is drawn upon the ground in the form of a parallelogram, which is subdivided in several parts. A small stone is thrown successively into each, and is knocked out by a boy hopping on one leg, without resting, until he has thrown and knocked it from every division of the figure. HORSE-FOOT. (Genus, *polyphemus*. Lamarck.) The common name of a crustacea, found in our waters from Massachusetts to Virginia. In form it much resembles a horse’s hoof. Also called Horse-shoe.

HOSS. (A corruption of the word *horse.*) A man remarkable for his strength, courage, etc. A vulgarism peculiar to the West.

"Well, old fellow, you’re a hoss!" is a Western expression, which has grown into a truism as regards Judge Allen, and a finer specimen of a Western judge “ain’t no whar,” for besides being a sound jurist, he is a great wag; etc.

*Hoss* Allen is powerful popular, and the “bar” hunters admire his free and easy manners, and consider him one of the people—none of your stuck-up imported chaps from the dandy States, but a genuine Westerner—in short, a *hoss!*—Robb, *Squatter Life*, p. 70.

HOUSEN, as the plural of *house*. This old form is still used by the illiterate in the interior of New England, as also in the State of New York. It is provincial in various parts of England.

That day at *housen* so she stopped
She was behind for dinner.—*Essex Dialect*, p. 14.

It is enacted by the court and authoritie thereof, that henceforth no person or persons shall permit any meetings of the Quakers to bee in his house or *housing*.—*Plymouth Colony Laws*, 1661.

HOUSEN-STUFF. Household furniture.

On the first day of May, at 12 o’clock, if the tenant isn’t out, an officer goes and puts him into the street, neck and heels, with his wife and children and all his *housen-stuff*.—Maj. Downing, *May-day in N. Y.*, p. 30.

HOUSE-WARMING. A feast, or merry-making, upon going into a new house.—*Johnson*.

HOW-COME? Rapidly pronounced *hue-cum*, in Virginia. Doubtless an English phrase, brought over by the original
settlers, and propagated even among the negro slaves. The meaning is, How did what you tell me happen? How came it?

HOWSOMEVER, for Howsoever. Not peculiar to America.

HUB. The nave of a wheel; a solid piece of timber in which the spokes are inserted.—Webster. The word is also provincial in England.

HUBBUB. A shout; a tumult; a riot.—Grose. Todd’s Johnson.

An universal hubbub wild
Of stunning sounds, and voices all confus’d,
Borne through the hollow dark, assaults his ear
With loudest vehemence.—Milton, Paradise Lost.

People pursued the business with all contempt of the government; and in the hubbub of the first day there appeared nobody of name or reckoning, but the actors were really of the dregs of the people.—Clarendon.

Agreed for all the whole inhabitants to combine to assist any man in the pursuit of any party delinquent; but if any man raise a hubbub, and there be no just cause for the same, then for the party that raised the hubbub to satisfy men for their time lost in it.—Staples, Annals of Providence, R. I.

HUMBLE PIE. To make one eat humble pie, is to make him lower his tone, and be submissive. Forby notices this among the proverbs of Norfolk, England.

HUMBUG. An imposition; a hoax. And as a verb, to impose upon; to deceive. A low word.—Worcester.

"There is a word very much in vogue with the people of taste and fashion, which, though it has not even the 'penumbra' of a meaning, yet makes up the sum total of the wit, sense, and judgment of the aforesaid people of taste and fashion! 'This piece will prove a confounded humbug upon the nation; These theatrical managers humbug the town damnably!' Humbug is neither an English word, nor a derivative from any other language. It is indeed a blackguard sound, made use of by most people of distinction! It is a fine make-weight in conversation, and some great men deceive themselves so egregiously as to think they mean something by it!"—Student, Vol. II. (1751.)

Of all trades and arts in repute or oppression, Humbugging is held the most ancient profession.
'Twixt nations and parties, and state politicians, 
Prim shop-keepers, jobbers, smooth lawyers, physicians;

Is—mark ye, my friends!—who shall humbug the best.—Brookes.

HUMPTY-DUMPTY. Short and broad; as, He's a humpty-dumpty fellow.—Craven Glossary.

HUMS AND HAHS. A familiar expression applied to one who hesitates in speaking. 'None of your hums and hahs!' that is, be decisive, do not hesitate. The expression is common in England.

HURRA'S NEST. A state of confusion.

"There now! Just look at the hurra's nest you have made! What do you want, Mr. Jones?"—Arthur's Ladies' Magazine.

HURRICANE. (W. Ind. urican.) This word does not appear in any English dictionary before 1720, when Phillips notices it, as a word denoting "a violent storm of wind, which often happens in Jamaica, and other parts of the W. Indies, making very great havoc and overthrow of trees, houses, etc." Other dictionaries of a later period describe it as a violent wind in the W. Indies. It is the Carib name for a high wind, such as is described by Phillips, and was, doubtless, carried by seamen to Europe, whence it became introduced into various languages.

I shall next speak of hurricanes. These are violent storms, raging chiefly among the Caribee Islands; though by relation Jamaica has of late years been much annoyed by them. They are expected in July, August, or September.—Dampier, Voyages, Vol. II. ch. 6.
HURRYMENT. Hurry. Used in the Southern States.

Somehow in my hurryment I drapt my pan, jest like I did when I heard Old Blaze squeel.—Chron. of Pineville, p. 174.

HURRY UP THE CAKES, i. e. Be quick; look alive. This phrase, which has lately got into vogue, originated in the common New York eating-houses, where it is the custom for the waiters to bawl out the name of each dish as fast as ordered, that the person who serves up may get it ready without delay, and where the order, 'Hurry up them cakes,' &c., is frequently heard.

HUSKING. The act of stripping off husks from Indian corn. In New England it is the custom for farmers to invite their friends to assist them in this task. The ceremonies on these occasions are well described by Joel Barlow, in his poem on Hasty Pudding:

For now, the cow-house fill'd, the harvest home,
Th' invited neighbors to the Husking come;
A frolic scene, where work, and mirth, and play,
Unite their charms, to chase the hours away.

The laws of husking every wight can tell;
And sure no laws he ever keeps so well:
For each red ear a gen'ral kiss he gains,
With each smut ear, she smuts the luckless swains;
But when to some sweet maid a prize is cast,
Red as her lips, and taper as her waist,
She walks around, and culls one favor'd beau,
Who leaps, the luscious tribute to bestow.
Various the sport, as are the wits and brains
Of well-pleas'd lasses and contending swains;
Till the vast mound of corn is swept away,
And he that gains the last ear, wins the day.—Canto 3.

He talked of a turkey-hunt, a husking-bee, thanksgiving ball, racing, and a variety of things.—Margaret, p. 48.

HYST. (Corruption of hoist.) A violent fall. Ex. 'His foot slipped, and he got a hyst.' Mr. J. C. Neal thus discourses on this word: A fall, for instance, is indeterminate. It may be an easy slip down—a gentle visitation of mother earth; but a hyst is a rapid, forcible performance, which may be done either backward or forward, but of necessity
with such violence as to knock the breath out of the body, or it is unworthy of the noble appellation of hyst. It is an apt, but figurative mode of expression, and it is often carried still further; for people sometimes say, "Lower him up, and hyst him down."—Charcoal Sketches.

I can't see the ground, and every dark night am sure to get a hyst—either a forrer’d hyst or a backerd hyst, or some sort of a hyst, but more backerds than forrerds.—J. C. Neal, Sketches.

I DAD! An exclamation used in the Western States.

"I dad! if I didn't snatch up Ruff and kiss him." Here the emotion of the old man made a pause.—Carlton, The New Purchase, Vol. I. p. 179.

ILLY. A word occasionally used by writers of an inferior class, who do not seem to perceive that ill is itself an adverb, without the termination ly.

TO IMPROVE. To occupy; to make use of, employ.—Pickering’s Vocab. “This word,” says Mr. Pickering, “in the first sense, is in constant use in all parts of New England; but in the second sense (when applied to persons, as in the following example,) it is not so common.”

In action of trespass against several defendants, the plaintiffs may, after issue is closed, strike out any of them for the purpose of improving them as witnesses.—Swift's System of the Colony Laws of Connecticut, Vol. II.

Dr. Franklin, in a letter to Dr. Webster, dated Dec. 26th, 1789, has the following remarks: "When I left New England in the year 1723, this word had never been used among us, as far as I know, but in the sense of ameliorated or made better, except once, in a very old book of Dr. Mather’s, entitled Remarkable Providences."

Ann Cole, a person of serious piety, living in Hartford, in 1662, was taken with very strange fits, whereon her tongue was improved by a demon, to express things unknown to herself.—Cotton Mather, Magnalia, Book VI.
IMPROVEMENT. The part of a discourse intended to enforce and apply the doctrines, is called the improvement.—Webster.

The conclusion is termed, somewhat inaccurately, making an improvement of the whole. The author, we presume, means, deducing from the whole what may contribute to the general improvement.—British Critic, Vol. I. p. 379.

IMPROVEMENTS. Valuable additions or meliorations; as buildings, clearings, drains, fences on a farm.—Webster.

IMMEDIATELY, for as soon as. Ex. 'The deer fell dead immediately they shot him.'

IMMIGRATION. (Lat. immigratio.) The passing or removing into a country for the purpose of a permanent residence. —Webster. An entering or passing into a place.—Todd. Knowles. Richardson.

The immigrations of the Arabians into Europe, and the Crusades, produced numberless accounts, partly true and partly fabulous, of the wonders seen in Eastern countries.—Warton's Hist. Eng. Poetry, Vol. I.

Immigration has doubtless been a prolific source of multiplying words. —Hamilton, Nugæ Literaria, p. 381.

Mr. Pickering, in his Vocabulary, observes that this word, as well as immigrant, and the verb to immigrate, were first used in this country by Dr. Belknap, in his History of New Hampshire, who gives his reasons for their use. Immigrant is original with Dr. B.; but the others have long been used by good English authors, though of course less frequently than by American writers, who have more need of them.

IND. The common abbreviation for Indiana.

INDIAN BED. An Indian bed of clams is made by setting a number of clams together on the ground with the hinge uppermost, and then kindling over them a fire of brushwood, which is kept burning till they are thoroughly roasted. This is the best way of roasting clams, and is often practised by picnic parties.

INDIAN FILE. Single file; the usual way in which the Indians traverse the woods or march to battle, one following after and treading in the footsteps of the other.
INDIAN GIVER. When an Indian gives anything, he expects an equivalent in return, or that the same thing may be given back to him. This term is applied by children in New York and the vicinity to a child who, after having given away a thing, wishes to have it back again.

INDIAN MEAL. Meal made from Indian corn.

INFLUENTIAL. Having influence.—Pickering, Vocabulary.

Persons who are strangers to the influential motives of the day.—Marshall, Life of Washington, Vol. V. p. 380.

This word has been called an Americanism; but such is not the case. "I once," said Canning to Mr. Rush, "had a skirmish about language with him, (Mr. Pinckney, of Maryland, our ambassador,) but he worsted me. I said there was no such word as influential, except in America; but he convinced me that it was originally carried over from England." Lord Stafford has remarked, that it was so good a word, they ought to bring it back. "Yes," said Mr. Canning, "it is a very good word, and I know no reason why it should have remained in America, but that we lost the thing."

I take the following examples from Richardson:

And now our overshadow'd souls (to whose beauties stars were foils) may be exactly emblem'd by those crusted globes, whose influential emissions are intercepted by the interposals of the benighting element, while the purer essence is imprisoned within the narrow compass of a centre.—Glanville.

Thy influential vigor reinspires
This feeble frame, dispels the shade of death,
And bids me throw myself on God in prayer.—Thomson, Sickness.

IN FOR IT. Engaged in a thing from which there is no retreating.

You may twitch at your collar and wrinkle your brow;
But you're up on your legs, and you're in for it now.—O. W. Holmes, Poems, p. 144.

TO INHEAVEN. A word invented by the Boston transcendentalists.

The one circumflows and inheavens us. The infinite Father bears us in his bosom, shepherd and flock.—Margaret, p. 412.
TO JAB. To strike or thrust with a knife; as, 'he jabbed a knife into me.'

JACKASSABLE. At a call for a meeting of citizens to repair a corduroy road in Michigan, the Niles Advertiser winds up with the following stanza:

Those who would travel it
Should turn out and gravel it;
For now it's not passable,
Nor even jackassable.

Compare Boatable.

JAG. A small load.—Forby. Webster.

As there was very little money in the country, the bank bought a good jag on't in Europe.—Maj. Downing's Letters, p. 168.

JAIL BIRD. A prisoner; one who has been confined in prison.—Webster.

JAW. In low language, gross abuse.—Johnson.

TO JAW. To scold; to clamor; to abuse grossly.—Todd.

He never heard freedom of speech afore, that feller, I guess, unless it was somebody a jawin' of him.—Sam Slick in England, ch. 20.

TO JEOPARDIZE. To expose to loss or injury.—Webster.

This verb is often seen in the debates of Congress, as they are reported in the newspapers. It is, doubtless, a corruption of the ancient verb to jeopard, as deputize is of depute.—Pickering. This word is much used in the United States, and less frequently in England.

The profound respect for the cause of truth which led Mr. Tooke not to jeopardize its interests by any hasty assumption of its name and pretensions for a discovery yet incomplete, constitutes one of his surest holds upon posterity.—London Athenæum, March 18, 1848.

JERKED MEAT. Beef and other kinds of fresh meat dried in the open air without salt. In Lower Canada and Newfoundland, fish are dried in the same manner.

In genuine Western style they welcomed me with their dough biscuits and jerked venison.—Carlton's New Purchase, Vol. II. p. 238.
THE JIG IS UP, i.e. the game is up; it is all over with me.
The time was when I could cut pigeon wings, and perform the double shuffle with precision and activity; but those days are over now—the jig is up.—Kendall's Santa Fé Expedition, Vol. I. p. 62.

JIMINY. By Jiminy! An exclamation. Originally, gemini, or the Castor and Pollux of ancient mythology; names by which the old Romans used to swear.

JIMSON. (Stramonium datura.) The popular name of a poisonous weed which grows at the West and South. It bears beautiful flowers, but has a nauseous smell. In the villages on the margins of the Western rivers it is a great annoyance. Its name Jimson is supposed to be a corruption of Jamestown, the place whence it is said to have been brought. It is used in medicine in spasmodic asthma.—Flinn's Mississippi Valley.

JOBBER. In the United States this word is applied to wholesale merchants, who operate between the importer and retailer. Importers usually sell only by the package. The jobber buys by the package and sells by the piece. The retailer buys of the jobber, and sells in smaller quantities. In England the word is used in an analogous sense, as of one who buys and sells stocks.

There have been at times a good deal of jealousy and dissension between the jobbers and auctioneers. They are in some measure rivals. Both sell to the retail dealer; and the jobbers complain that the auctioneer injures their business by selling as low to the country and retail merchant as to them.—Perils of Pearl Street, p. 102.

JOLLIFICATION. A scene of festivity or merriment. Used only in familiar language.

Mr. Tolfrey's narrative of salmon and trout fishing, and otter shooting, with private theatricals, and endless jollifications, come before us in a startling contrast to the received ideas of colonial service.—Lond. Spectator.

I have been already twice to the top of Vesuvius: the first time we had a jollification near the crater—our dinner being entirely cooked in one of the fumaroli.—Letter from Naples. London Athenæum, Dec. 6, 1745.

It was determined to commemorate our safe deliverance by a special jollification.—Carlton, The New Purchase, Vol. I. p. 224.

Olivia was drawn as an Amazon, sitting upon a bank of flowers, dressed in a green Joseph.—Goldsmith, Vicar of Wakefield.

NOT BY A JUGFULL, i.e. on no consideration; on no account.

Downingville is as sweet as a rose. But 'taint so in New York, not by a jug full.—Maj. Downing, May-day in New York.

TO JUMP AT. To embrace with eagerness; as, 'I made him an offer, and he jumped at it.'

JUMPER. A couple of hickory poles so bent that the runners and shafts are of the same piece, with a crate placed on four props, complete this primitive species of sledge; and when the crate is filled with hay, and the driver well wrapped in a buffalo robe, the "turn out" is about as comfortable a one as a man could wish.—Hoffman, Winter in the West, p. 200.

JUNK-BOTTLE. The ordinary black glass porter-bottle.

JUST NOW. Lately; now; presently; immediately. This very common phrase is, perhaps, most generally used in the western counties.—Halliwell. The word is used in the same senses among ourselves. Thus, many persons say, 'I was there just now,' i.e. a short time ago; and also, 'I will be there just now,' i.e. presently. This last use, however, is not regarded as correct.

K.

KATYDID. (Platypylillum concavum.) The popular name of a species of grasshopper; so called from its peculiar note.

KEDGE. Brisk; in good health and spirits. Ex. 'How do you do to-day?' I am pretty kedge. It is used only in a few of the country towns of New England.—Pickering. Provincial in England.

TO KEEL OVER. A nautical term; to capsize or upset, and metaphorically applied to a sudden prostration.

As it seems pretty evident that the sovereigns of Europe, instead of oc-
cupying or sharing thrones, are predestined to the walks of private life, it would be highly proper to cultivate in them a spirit of self-abnegation and humility. If the royal parents wish to see their offspring "let down easy" from their high estate, they will adopt this course. Keep over they must, and a gradual careen would be much better than a sudden capsize. Now that the people are assuming the rights and privileges of sovereignty, we trust that they will have some consideration for princes in distress.—New York Sunday Dispatch.

KEEP. Food; subsistence; keeping. In a letter to his brother, Bishop Heber, speaking of Bishops' College costing so much, says:

Besides it has turned out so expensive in the monthly bills and necessary keep of its inmates, that my resources, &c.—Vol. II. p. 319.

The cottager either purchased hay for the keep [of the cow], or paid for her run in the straw-yard.—Edinburgh Review, Vol. LXI. p. 245.

TO KEEP. The phrase to keep shop is often shortened into to keep; as, 'Where do you keep now?' i. e. where is your place of business. Also, in the sense of dwelling, which use of the word is provincial in the eastern counties of England.

TO KEEP A STIFF UPPER LIP, is to continue firm, unmoved.

My friend, said he, don't cry for spilt milk; keep a stiff upper lip; all will come out right enough yet.—Knickerbocker Magazine, Vol. XXV.

Tut, tut, Major; keep a stiff upper lip, and you'll bring him this time.—Chron. of Pineville, p. 150.

TO KEEP COMPANY. To court. A common term in the interior parts of New England, applied to a man whose visits to a lady are frequent, with the intention of gaining her hand. 'He keeps company with her,' i. e. he is courting her, or 'They are keeping company,' i. e. are courting.

A young tailorless got a verdict against Mr. B——, a steady farmer who "kept company" with her some months, and appointed a day for the wedding. [But subsequently changed his mind.]—N. Y. Com. Adv.

KEEPING-ROOM. A common sitting-room; the parlor in New England. The term is chiefly used in the interior, although it may sometimes be heard in the sea-port towns. The same
expression is used in Norfolk, England, for the "general sitting-
room of the family, or common parlor."—Forby's Norf. Glos.
KEEP THE POT A BOILING, i.e. Don't let the game flag.
A common expression among young people, when they are
anxious to carry on their gambols with spirit.—Brockett's
North County Words.
KETTLE OF FISH. When a person has been perplexed in
his affairs in general, or in any particular business, he is said
to have made a pretty kettle of fish of it.—Grose, Slang Dict.
The same phrase is used in America in colloquial language.
What a pretty kettle of fish we shall have to fry some of these days a
looking after Uncle Sam's fortune.—Crockett.
KIBLINGS. Parts of small fish used by fishermen for bait on
the banks of Newfoundland.
KICK. To kick up a row. To create a disturbance; the

TO KICK. To jilt. Ex. 'Miss A has kicked the Hon. Mr.
B, and sent him off with a flea in his ear.' Confined to the

There was a pleasant, playful breeze that sported with the well curled
locks of first-water dandies [on New Years Day], and gave them a certain
négligé appearance, which must have been really killing 'in my lady's
chamber or drawing-room.'—N. Y. Commercial Advertiser, Jan. 2, 1844.
The dandies forgot to oil their moustaches, or waste killing looks on unthinking shop girls whom they met, &c.—Boston Times, Nov. 13, 1845.

KILTER. (Danish kilter, to gird.) ‘To be not in kilter,’ or, ‘to be out of kilter,’ is to be out of order; not ready; not in good condition.

If the organs of prayer are out of kilter, how can we pray?—Barrow’s Sermons, Vol. I. p. 71.

KIND OF, KIND O’, KINDER. In a manner, as it were. A sort of qualifying expression; as, ‘She made game on it kind o’.—Forby.

KITE FLYING. An expression well known to mercantile men of limited means, or who are short of cash. It is a combination between two persons, neither of whom has any funds in bank, to exchange each other’s checks, which may be deposited in lieu of money, taking good care to make their bank accounts good before their checks are presented for payment. Kite flying is also practised by mercantile houses or persons in different cities. A house in Boston draws on a house in New York at 60 days or more, and gets its bill.
discounted. The New York house, in return, meets its acceptance by re-drawing on the Boston house. Immense sums of money are often raised in this manner—in fact, furnishing a capital for both houses to transact their business with.

_Flying the kite_ is rather a perilous adventure, and subjects a man to a risk of detection. One who values his credit as a sound and fair dealer would by no means hazard it.—_Perils of Pearl Street_, p. 82.

**KNOB.** In Kentucky, round hills or knolls are called _knobs._

Approaching Galena, the country becomes still more broken and rocky, until at last a few short hills, here called _knobs_, indicate our approach to Fever River.—_Hoffman, Winter in the West_, p. 303.

**KNOCKED INTO A COCKED HAT.** Knocked out of shape; spoiled; ruined. The allusion or metaphor seems to be that of the hat of some unlucky wight, which, by a violent blow, has been knocked into a sort of flattened, three-cornered shape, resembling an old-fashioned cocked hat.

In consequence of a severe storm of rain and a freshet that followed, some time during the winter of 1842, the mails were behind several days and no news was received. In speaking of the storm, the New York Commercial Advertiser stated that they were unable to give any news, for, owing to the storm and freshet, the mails were all _knocked into a cocked hat_.

A London paper, in quoting news from America, observed that a singular occurrence had taken place, which had kept back the usual supply of news from New York, as it appeared that the mails were _knocked into a cocked hat_—a most extraordinary circumstance, the meaning of which it was wholly out of their power to define.

A tall, slatternly looking woman, wearing a dingy, old silk bonnet, which was _knocked into a cocked hat_, appeared yesterday before the Recorder.—_New Orleans Picayune._

At a Repeal meeting in New York, Mr. Locke was proceeding to speak of the influence this party would have, when he was interrupted by a gang of rowdies, who, with the design of disturbing the meeting, cried out, “Three cheers for O'Connell—three cheers for Repeal—and three groans for Slavery.” The six cheers for O'Connell and Repeal were given, but by the time they came to the groans for Slavery, they found themselves all _knocked into a cocked hat_.—_New York Paper._

Between three and four thousand persons were assembled at the Broad-
TO KNOCK DOWN. A word used at auctions. 'This article is knocked down to you, sir;' meaning, that you are the purchaser. The phrase, 'A knock-down argument,' is an argument that completely overthrows one's adversary.

TO KNOCK ROUND. To go about.

I'm going to New York and Boston, and all about thar, and spend the summer until pickin' time, knockin' round in them big cities, 'mong them people what's so monstrous smart, and religious, and refined, and see if I can't pick up some ideas worth rememberin'.—Maj. Jones's Sketches.

TO KNOCK UNDER. A common expression to denote that one yields or submits.—Johnson.

For ten times ten, and that's a hunder,
I ha'e been made to gaze and wonder,
> When frae Parnassus thou did'st thunder,
Wi' wit and skill,
Wherefore I'll soberly knock under,
And quit my quill.—Allan Ramsay, Poems.

Says General J———, 'Major, I reckon I can drink more Saratoga water than you.' 'I'll bet a York shillin' of that,' says I. 'Done,' says he; and down he went to the spring with a pitcher. I got a bucket, and down I went to the spring. As soon as he saw me, he smashed his pitcher in a minit. Says he, 'Major, I knock under.'—Maj. Downing's Letters, p. 36.

TO KNOCK UP. To wear out with fatigue.—Halliwell.

It is the constant labour, unvaried by the least relaxation, which knocks me up, and prevents me getting back my strength.—Lord Sydneyham, Mem.

We care not for anything but shelter and food for our horses, which are nearly knocked up.—Hoffman, Winter in the West, Let. 36.

nothing creature,' i.e. one exceedingly ignorant.—Norfolk Glossary. This word is common in New England.

KONCKS or CONKS. Wreckers are so called, familiarly, at Key West, and the place they inhabit, Koncktown.

LAKE LAWYER. (Genus, amia. Linnaeus.) The Western Mud-fish. It is found in Lakes Erie and Ontario, where it is known by the name of Dog-fish. Dr. Kirtland says, it is also called the lake lawyer, from its "ferocious looks and voracious habits."

TO MILL. If Millwood were here, dash my wig, Quoth he, I would beat her and lam her weel.—Rejected Addresses.

LAMPER-EEL. The lamprey. A common name for lampreys in New England. It is provincial in England and Scotland.—Forby.

LAMB'S QUARTER. (Chenopodium authelminticum.) The popular name of an herb at the South.—Williams's Florida.

LAND-LOPER. (Dutch, landlooper.) A vagrant; one who strolls about the country.—Bailey's Dict. Applied by sailors to landsmen by way of ridicule.

Such travellers as these may be termed land-lopers, as the Dutchman saith, rather than travellers.—Hoccleve's Foreign Travel, (1612.)

He never thought how much easier it was for one of these land-lopers to make a city in the woods on paper, than to be at the trouble of cutting the timber all down.—A Week in Wall Street, p. 119.
LANDSLIDE. A portion of a hill or mountain, which slips or slides down; or the sliding down of a considerable tract of land from a mountain. They are common in Switzerland.—Webster. Johnson does not give either of these words; which with us convey the same meaning. A remarkable landslip took place in the city of Troy a few years since, which swept away many houses and caused the death of some ten or fifteen persons.

There is not an appearance in all nature, that so much astonished our ancestors, as these landslips.—Goldsmith, Hist. of the Earth.

LAY. Terms or conditions of a bargain; price. Ex. ‘I bought the articles at a good lay;’ ‘He bought his goods on the same lay that I did mine.’ A low word, used in New England.—Pickering. Probably a contraction for outlay, i. e. expenditure.

LAY. A word used colloquially in New York and New England in relation to labor or contracts performed upon shares; as, when a man ships for a whaling voyage, he agrees for a certain lay, i. e. a share of the proceeds of the voyage.
TO LAY. To make a bet, or wager. Mr. Davis notices this word as of frequent occurrence.

I'll lay you, he has got drunk again and has lost himself in the woods.—Travels in the United States in 1797.

TO LAY, for to lie. A vulgar error equally common in England and in the United States.

LAY-OVERS FOR MEDDLERS. A reply to a troublesome question on the part of a child, in answer to 'What's that?' A turn-over is a little pie made of one round cake of dough, doubled and joined at the edges, in which stewed apples are inclosed. Similar cakes were sold in England; and Grose suggests that they may also have been filled with medlars, a fruit resembling the apple; and that hence may have arisen the reply. The expression is noticed in Moor's Suffolk Glossary. I have never heard it except in New York.

TO LAZE. To live idly; to be idle.—Todd.

TO LAZY. The hands and feet mutinied against the belly; they knew no reason why the one should be lazing, and pampering itself with the fruit of the others' labor.—L'Estrange.

Dr. Webster calls this a vulgar word. It is common in the familiar language of New England.

I have work on hand that must be done. What do you do lazing about here like a mud turtle nine days after it is killed?—Margaret, p. 30.

LEAN-TO. A pent-house. An addition made to a house behind, or at the end of it, chiefly for domestic offices, of one story or more, lower than the main building, and the roof of it leaning against the wall of the house.—Forby's Norfolk Glossary. The word is used in New England, where it is commonly pronounced linter.—Pickering.

TO LEGISLATE. To make laws for a community.—Todd. This now common and very useful word is of recent adoption by English lexicographers. It is not in the dictionaries of Johnson or Sheridan, or in Mason's supplement to Johnson.
ENTICK'S Dictionary, of 1795, is the earliest one in which it is to be found.

LEG BAIL. To give leg bail, is to run away.—Grose.

Sac weel's he'd fley the student's a',
When they were skelpin at the ba';
They took leg bail and ran awa'
Wi' pith an' speed.—Fergusson's Poems, 2. 10.

LEGGINGS. (Commonly written and pronounced leggins.)
Indian gaiters; also worn by the white hunters and trappers of the West.

How piquantly do these trim and beaded leggings peep from under that simple dress of black, as its tall nut-brown wearer moves through the graceful mazes of the dance.—Hoffman, Winter in the West, p. 239.

LENGTHY. Having length; long; not brief; tiresomely long. Applied often to dissertations or discourses; as, 'a lengthy oration,' 'a lengthy speech.'—Worcester.

This word was once very common among us, both in writing and in the language of conversation; but it has been so much ridiculed by Americans as well as Englishmen, that in writing it is now generally avoided. Mr. Webster has admitted it into his dictionary; but (as need hardly be remarked) it is not in any of the English ones. It is applied by us, as Mr. Webster justly observes, chiefly to writings or discourses. Thus we say, a lengthy pamphlet, a lengthy sermon, &c. The English would say, a long or (in the more familiar style) a longish sermon. It may be here remarked, by the way, that they make much more use of the termination ish than we do; but this is only in the language of conversation.—Pickering.

Mr. Pickering has many other interesting remarks on this word, for which I refer the reader to his work. The word has been gradually forcing its way into general use since the time in which he wrote; and that too in England as well as in America. Thus Mr. Rush, in relating a conversation which he had in London, observes: "Lord Harrowby spoke of words that had obtained a sanction in the United States, in the condemnation of which he could not join; as, for example, lengthy, which imported, he said, what was tedious as well as long—an idea that no other English word
seemed to convey as well.—Residence in London, p. 294. The Penny Cyclopedia remarks on it to the same effect, and even disputes its American origin.

A writer in the Boston Daily Advertiser, under the signature of W. X., says, that he has met with the word lengthy in the London Times, and the Liverpool Chronicle, in Blackwood's Magazine, and the Saturday Magazine, in the British Critic, Quarterly Review, Monthly Review, Eclectic Review, Westminster and Foreign Quarterly Reviews; in the writings of Dr. Dibdin, Bishop Jebb, Lord Byron, Coleridge, &c. &c. If the English are indebted to American genius for the invention of this precious word, they have made some improvements upon it, which they may boast of, for ought that is known to the contrary, as their own. Granby, an English author, uses the word lengthiness, which is a regularly formed noun from lengthy. Campbell uses the word lengthily. In his "Letters from the South," he says:

I could discourse lengthily on the names of Jugurtha, Juba, Syphax, &c. and again:

The hair of the head is bound lengthily behind.

Here follow a few examples from English and American writers, out of the many that present themselves:

Murray has sent or will send a double copy of the Bride and Giaour; in the last one some lengthy additions; pray accept them according to the old custom.—Lord Byron's Letter to Dr. Clarke, Dec. 13, 1813.

All this excitement was created by two lengthy paragraphs in the Times. —London Athenæum, July 12, 1844, p. 697.

Chalmers's Political Annals, in treating of South Carolina—is by no means as lengthy as Mr. Hewitt's History.—Drayton's South Carolina.

I did not mean to have been so lengthy when I began.—Jefferson, Writ. I forget whether Mr. Sibthorpe has mentioned, in any of his numerous and lengthy epistles, this circumstance.—Mrs. Claver's Forest Life.

TO LET ON. To mention; to disclose; to betray a knowledge or consciousness of anything. 'He never let on,' i. e. he never told me. This expression is often heard among the illiterate, and is not confined to any particular section of the United States. It is also used in the North of England and in Scotland.
'Tis like I may,—but let na on what's past
'Tween you and me, else fear a kittle cast.—Ramsay, The Gentle Shep.

The tears were runnin' out of my eyes, but I didn't want to let on for fear it would make her feel bad.—Maj. Jones's Courtship, p. 84.

TO LET DRIVE; to let fly; to let slip. To discharge; let loose a blow with the fist, a stone, a bullet from a gun, &c. Also in a metaphorical sense; as, 'He let fly at him a volley of abuse.'

With dreadful strokes let drive at him so sore.—Spenser.

[My gun] was already loaded, and ready to let slip at them.—Sam Slick.

TO LET OUT. To begin a story or narrative. A Western expression.

Tom squared himself for a yarn, wet his lips with a little corn juice, took a small strip of Missouri weed, and let out.—Robb, Squatter Life.

There was no let up in the stock market to day, and the differences paid on the maturing contracts were very large.—N. Y. Tribune.

DEAD LETTER. A writing or precept without any authority or force; a letter left in a post office and not called for.—Worcester.

LEVEE. (French.) The time of rising; the concourse of persons who visit a prince or great personage in the morning.—Johnson.

Such as are troubled with the disease of levee-hunting, and are forced to seek their bread every morning at the chamber-doors of great men.—Addison, Spectator, No. 517.

This word has been curiously perverted by us from its original signification, so as to mean an evening (!) party or assembly at the house of a great or wealthy person; as, 'the President's levee.'

LEVEE. (French.) An embankment on the side of a river, to confine it within its natural channel. The lower part of Louisiana, which has been formed by encroachments from the sea, is subject to be inundated by the Mississippi and its various branches, for a distance of more than 300 miles. In order to protect the rich lands on these rivers, mounds are thrown up, of clay, cypress logs, and green turf, sometimes to the
height of 15 feet, with a breadth of 30 feet at the base. These, in the language of that part of the country, are called levees. They extend for hundreds of miles; and when the rivers are full, cultivated fields covered with rich crops, and studded with villages, are seen lying far below the river courses.— *Encyclopedia Americana.*

The great feature of New Orleans is the Levee. Extending for about five miles in length, and an average of two hundred feet in width, on the west bank of this river, which here runs to the north-east, it is made the great dépôt not only for the products of the vast country bordering on the Mississippi, and its navigable tributaries, but also of every foreign port, by means of about five hundred steamboats on the one hand, and every variety of sea-craft on the other, which are at all times to be seen in great numbers along the entire length, discharging and receiving their cargoes. To the business man it is one of the most interesting scenes in the world, and for the “calculating” man here are found the “items” from which an estimate may be formed of the rapid growth and vast resources of the “Great West.” Who but a “native” can see the approach of a steamer laden with forty-six hundred and odd bales of cotton, and witness casks of sugar, molasses, and tobacco by the thousand, together with the boxes and bales of merchandise from every clime which here accumulate, and not wonder whence all this is received and whither it is to go?—*Cor. of N. Y. Tribune.*

LEVY. Elevenpence. In the State of Pennsylvania, the eighth part of a dollar, or twelve and a half cents. Sometimes called an elevenpenny bit.—See *Federal Currency.*

LICIT. Lawful.—*Todd, Webster.* This word was criticised in the Monthly Anthology, (1804, p. 54,) in a review of the “Miscellaneous Works of David Humphreys, Esq.” The reviewers say, “There is no such word as licit, and we cannot allow the author, respectable as he is, to coin language.”—*Pickering.* It is now found in all the later English dictionaries.

He turned upon me as round as a chafed boar, and gave me a lick across the face.—*Dryden.*

When he committed all these tricks
For which he well deserved his licks,
With red-coats he did intermix.—*Forbes’s Domini Despos’d,* p. 28.

My head was a singin’ with the licks, when she told me how he had

done me, and if it hadn't been for her I'd gin him such a lickin', &c.—Maj. Jones's Courtship, p. 113.

We have had the first lick at him; and that, the General says, is the best part of the battle.—Jack Downing's Letters, p. 103.

Tom Sellers was cavorin' round Molly like a young buffalo—he was puttin' in the biggest kind a licks in the way of courtin'.—Robb, Squat. Life.

LICK, or SALT LICK. In America, a place where the beasts of the forest lick for salt at salt springs.—Webster. "A salt spring is called a lick, from the earth about them being furrowed out in a most curious manner, by the buffalo and deer, which lick the earth on account of the saline particles with which it is impregnated."—Inlay's Topog. Description of the Western Territory of N. America.

TO LICK. To beat. Common, as a colloquial expression, in many parts of England.—Todd. To lick, a lick, a licking, are common words in speech, though not in writing.—Richardson. These remarks apply with perfect accuracy to this country.

How nimbly forward each one pricks,
While their thin sides the rider licks.—Maro, p. 24.

What side are you on? "Well, I am for Jackson," says I. "Mister, what makes you for Jackson?" "Why," says I, "he licked the British at New Orleans, and paid off the national debt."—Crockett, Tour, p. 141.

"Don't put Spriggins in," said a ragged youth, "he's a high flyer! he licked Kneeland last winter, 'cause he said he warn't no gentleman."—Mrs. Clavers's Forest Life, Vol. II. p. 39.

Boys! behave! or if you must fight, don't let those who have offices lick those who haven't.—N. Y. Tribune to Evening Post.

LICKING. A flogging; a beating.

Come over here, you rascal, swim over the mill dam, and if I don't give you the biggest lickin' you ever had.—Crockett, Tour, p. 195.

I promised when I caught him to give him a licking, and I was very much afraid I'd have to break the peace.—Neal, Charcoal Sketches.

TO PUT THE LICKS IN, is to run very fast. A Northern phrase. Also in speaking of a ship sailing, we hear the phrase, 'She is going a pretty good lick,' that is, sailing at a rapid rate.

LICKSPITTLE. A mean parasite; one who will stoop to any dirty work.—Grose.
We saw men that had grown gray in the service of their country, hurled from their station, to make way for lickspittles and yelpers.—Crockett.

LIE. A lie out of whole cloth, is an utter falsehood.

In the second place, we are authorized by these gentlemen to say that the statement is in itself utterly false—"a lie," as one of the commissioners wished us to say, "out of whole cloth."—N. Y. Commercial Advertiser.

LIEF, or LIEVE. (Sax. leof, past part. of luftan, to love.) Willingly; gladly.—Johnson. This word was formerly in good repute, and was used by well-known writers. It is now a common word, but only used in familiar speech, either in England or America.

And swere that he would lodge with them yfere,
Or them dislodge, all were they lief or loth.—Spenser, Fairy Queen.

I would as lief the town crier spoke my lines.—Shakspeare, Hamlet.

She, good soul, had as lief see a toad, a very toad, as see him.—Ibid. Romeo and Juliet, II. 5.

LIFE PRESERVER. An air-tight apparatus made of India rubber cloth for preserving the lives of persons in case of shipwreck.

LIFT. Used by the farmers in some parts of New England to signify a sort of gate without hinges.—Pickering's Vocabu-

lary. This word is also used in Norfolk, England. Mr. Forby calls it "a sort of coarse rough gate of sawn wood, not hung, but driven into the ground by pointed stakes, like a hurdle, used for the same purposes of sub-dividing lands, stopping gaps in fences, &c. and deriving its name from the necessity of lifting it up for the purpose of passing through. In Suffolk, a lift differs from a gate, in having the projecting ends of the back and lower bar let into mortice holes in the posts, into and out of which it must be lifted."—Norfolk Glossary.

LIG. A fish hook with lead cast around its upper part in order to sink it. Maine.

LIGHT, adj. To make light of; to treat as of little consequence; to disregard.—Webster.

LIGHT, n. To stand in one's own light. To be the means of preventing one's own good, or frustrating one's own purposes.—Webster.
AMERICANISMS.

TO LIGHT ON. To fall on; to come to by chance; to happen to find.—Webster.

As in the tides of people once up, there want not stirring winds to make them more rough; so this people did light upon two ringleaders.—Bacon.

As wily reynard walked the streets at night,
On a tragedian's mask he chanced to light.
Turning it o'er, he muttered with disdain,
How vast a head is here without a brain!—Addison.

LIKE, for as. As in the phrase, 'like I do,' for as I do. Not peculiar to America.

Each Indian carried a great square piece of whale's blubber, with a hole in the middle, through which they put their heads, like the Guachos do through their cloaks.—Darwin's Journal of a Naturalist, ch. 10.

As soon as the post office was open, I looked over the miscellany like I always do, afore I let anybody take it.—Maj. Jones's Courtship.

LIKELY. That may be liked; that may please; handsome. In the United States, as a colloquial term, respectable; worthy of esteem; sensible.—Worcester.

Mr. Webster has the following remarks on this word: "The use of likely (for such as may be liked; pleasing; as, a likely man,) is not obsolete, nor is it vulgar. But the English and their descendants differ in the application. The English apply the word to external appearance, and with them likely is equivalent to handsome, well-formed; as, a likely man, a likely horse. In America, the word is usually applied to the endowments of the mind, or to pleasing accomplishments. With us, a likely man, is a man of good character and talents, or of good disposition or accomplishments, that render him pleasing or respectable."

LIMITS. The extent of the liberties of a prison.—Webster.

Called, also, jail liberties.

LIMSY. Weak; flexible. New England.—Webster.

LINER. The ships belonging to the regular lines of London, Liverpool, or Havre packets, are called liners, to distinguish them from transient ships sailing to the same ports.

TO LINE BEES, is to track wild bees to their homes in the woods. One who follows this occupation is called a bee hunter.
At killing every wild animal of the woods or prairies, at fishing, or at lining bees, the best hunters acknowledged his supremacy.—Kendall.

LINGO. (Portuguese.) Language; tongue; speech. A low cant word.—Johnson.

LINKS. Sausages. Used in the interior of New England. It is now common in the sea-port towns to say, "links of sausages," meaning the links into which they are tied up. In some parts of England, sausages are called links, and a number of them a "latch of links."—Forby's Norf. Glossary.

LINSEY WOOLSEY. (A corruption of linen and wool.) Stuff made of linen and wool mixed; light or coarse stuff.—Todd's Johnson. This article is now extensively manufactured in New England; and, among merchants, it is called linseys. The word appears to be a very old one.

He gave them coats of linsey woolsey; for, said he, that is good and warm for winter, and good and light for summer.—Bp. of Chichester, Ser.

LIQUOR. Many and very singular names have been given to the various compounds or mixtures of spirituous liquors and wines, served up in fashionable bar-rooms in the United States. The following list is taken from one advertisement:

IN LIQUOR. Intoxicated; drunk.
TO LIQUOR, or TO LIQUOR UP. To take a dram; or, as we more frequently say, to take a drink.

He was the first to break silence, and jumping up, asked all to liquor before going to bed.—Porter's Tales of the South-west, p. 31.

Arter lickerin and cussin a spell, we took a bee line for Skylake. Going along we lickered freely.—Ibid. p. 131.

"The child must be named Margaret." "No! Mary," replied the father, "in honor of my esteemed wife. Besides, that's a Bible name, and we can't liquor up on Margaret."—Margaret, p. 89.

LISTER. One who makes a list or roll.—Webster. This word is used in Connecticut, and is applied to those who make out lists or returns of cattle or other property. I have never heard the word used elsewhere.

LIT, past tense and part, of to light. Often used by the illiterate.

LOAFER. A vagabond; an idle lounging. This peculiarly American word has been gradually growing into extensive use during the last twenty years. It was applied in the first place to the vagrants of our large towns, in which sense it is equivalent to the lazzarone of Naples or the lepero of Mexico. It is now, however, frequently applied in conversation and in the newspapers to idlers in general; and seems to have lost somewhat of its original vulgarity. The Philadelphia Vade Mecum has the following remarks upon it:

"This is a new word, and, as yet, being but a colt, or a chrysalis, is regarded as a slang epithet. It is, however, a good word, one much needed in the language, and will, in time, establish itself in the most refined dictionaries. It will mount into good society, and be uttered by aristocratic lips; for it is the only word designating the most important species of the genus idler—the most important, because the most annoying branch of that family.

"The loafer is not exclusively, as some suppose him, a ragged step-and-corner lounging, who sleeps in the sun, and "hooks" sugar on the wharf. On the contrary, the propensity to loaf is confined to no rank in life; all conditions are, more or less, troubled with it. Like squinting, the king and the beggar may be equally afflicted with the imperfect-
tion. There be your well-dressed monied *loafer*, as well as your *loafer* who is nightly taken by the watch.

"He is that kind of a man, who, having nothing to do, or being unwilling to do anything, cannot keep his tediousness to himself, and therefore bestows it all upon others, not when they are at leisure for conversational recreation, but when business presses, and they would look black upon the intrusion of a sweetheart or a three-day wife. He is the drag-chain upon industry, and yet so far different from the drag-chain, that he hitches to the wheel when the pull is up hill. Loving the excitement of busy scenes, yet too lazy to be an actor in them, where men are busiest, there, too, is to be found the pure, unadulterated *loafer*, sprawling about as the hound sprawls before the fire in every body's way, and tripping up every body's heels. In the store, he sits upon the counter, swinging his useless legs, and gaping vacantly at the movements around him. In the office, he effectually checks necessary conversation among those who do not wish their business bruited to the world, turns over papers which he has no right to touch, and squints at contents which he has no right to know. In the counting-house, he perches on a stool, interrupts difficult calculations with chat as idle as himself, follows the bustling clerk to the storehouse, pouches the genuine Havana, quaffs nectar from proof-glasses, and makes himself free of the good things which belong to others."

TO LOAF. To lounge; to idle away one's time. The verb is of still more recent origin than the noun.

The Senate has *loafer*ed away the week in very gentlemanly style.—N. Y. Com. Advertiser, Dec. 1845.

One night Mr. Dobbs came home from his *loafer*ing place—for he *loafs* of an evening like the generality of people.—Neal's Charcoal Sketches.

TO LOAN. To lend. This verb is inserted by Todd on the authority of Huloet (1552) and Langley (1664), and noted "*not now in use.*" It is, however, much used in this country, though rarely in England.—Worcester.

LOAN OFFICE. A public office in which loans of money are negotiated for the public, or in which the accounts of loans are kept and the interest paid to the lenders.—Webster.
TO LOBBY. To attempt to exert an influence on the members of a legislative body, by persons not members of such body. These are confined to the lobbies of the house, where they meet the members, and by various means attempt to influence them or secure their votes for some favorite bill. So necessary has this business of lobby-ing now become, that when a petition is sent to a legislature, particularly for an act of incorporation, it is very common for one or more individuals to take it in charge for the purpose of lobbying it through.

There is a quarrel in Philadelphia about Mr. W——’s appointments. Some of the Loco-focos have come out to lobby against him.—N. Y. Trib.

A committee has gone to Albany to lobby for a new bank charter.—N. Y. Courier and Enquirer.

LOBBY-MEMBER. A person who frequents the lobby of a house of legislation.—Worcester.

TO LOCATE. To place; to set in a particular spot or position.—Pickering. Webster. This word is comparatively modern in England, and is not found in any of the dictionaries previous to Todd’s. It is used among us much more frequently and in a greater variety of senses than in England.

Under this roof the biographer of Johnson passed many jovial, joyous hours; here he has located some of the liveliest scenes, and most brilliant passages, in his entertaining anecdotes of his friend Samuel Johnson.—Cumberland, Memoirs of Himself.

The archbishops and bishops of England can neither locate and limit dioceses in America, nor ordain bishops in any part of the dominions of Great Britain, out of the realm, by any law of the kingdom, or any law of the colonies, or by any canon law acknowledged by either.—John Adams, Letter to Dr. Morse.

A number of courts properly located will keep the business of any country in such condition as but few suits will be instituted.—Debates on the Judiciary, p. 51.

So too a town, a village, and even a piece of ground, is said to be located, i. e. placed, situated, in a particular position.

Baber refers to villages formerly located, as at the present day, on the plains, &c.—Masson’s Travels in Afghanistan, Vol. III. p. 193.

When Port Essington was located, all these difficulties had to be suffered over again.—Stokes’s Australia, Vol. I. p. 401.
A lot of earth so singularly located, as marks it out by Providence to be the emporium of plenty and the asylum of peace.—[London] Observer.

And hence arises the following American use of the word:

TO LOCATE. To select, survey, and settle the bounds of a particular tract of land, or to designate a portion of land by limits; as, to locate a tract of a hundred acres in a particular township.—Webster.

Mistakes in locating land were often very serious—the purchaser finding only swamp or gravel, when he had purchased fine farming land.—Mrs. Clavers's Western Clearings.

It is also coming into use in the old country, as will be seen by the following example:

The banks of these rivers [the Macquarrie, &c. in New South Wales] are fast filling with settlements; those of the Hunter, the nearest to the seat of government, being, we understand, entirely located.—Edinburgh Review.

TO LOCATE. Applied to persons, it means:

1. To place in a particular position.

The mate, having located himself opposite to me [at the table], began to expostulate upon the mode of sea travelling.—Gilliam, Travels in Mexico.

2. To place in a permanent residence; to settle.

The Asega-bok, the book of the judge, contains the laws of the Russtringian Friesians located around the gulf of the Jade.—Bosworth, Pref. to Anglo-Sax. Dict. p. 61.

The most unhealthy points are in the vicinity of mill-dams, and of marshes, near both of which the settlers take particular pains to locate.—Hoffman's Winter in the West, Vol. I.

3. As a technical term used by the Methodists, to settle permanently as a preacher. The word is needed by them, because they have many itinerant preachers who are not located.

Mr. Parsons, like most located and permanent pastors of a wooden country, received almost nothing for his services.—Carlton, New Purchase.

LOCATION, n. That which is located; a tract of land designated in place.—Webster. This application of the word is peculiar to the United States.

LOCK, STOCK, AND BARREL. The whole. A figurative expression borrowed from sportsmen, and having reference to a gun.
AMERICANISMS.

Look at [this carriage] all through the piece; take it, by and large, lock, stock, and barrel; and it's the dandy.—Sam Slick in England, ch. 19.

LOCO-FOCO. The name by which the Democratic party is extensively distinguished throughout the United States. This name originated in the year 1835, when a division arose in the party, in consequence of the nomination of Gideon Lee as the Democratic candidate for Congress, by the committee chosen for that purpose. This nomination, as was customary, had to be confirmed at a general meeting of Democrats held at Tammany Hall. His friends anticipated opposition, and assembled in large numbers to support him. "The first question which arose," says Mr. Hammond, "and which would test the strength of the parties, was the selection of Chairman. The friends of Mr. Lee, whom we will call Tammany men, supported Mr. Varian; and the anti-monopolists, Mr. Curtis. The Tammanies entered the hall as soon as the doors were opened, by means of back stairs; while at the same time the Equal Rights party rushed into the long room up the front stairs. Both parties were loud and boisterous; the one declaring that Mr. Varian was chosen Chairman, and the other that Mr. Curtis was duly elected the presiding officer. A very tumultuous and confused scene ensued, during which the gas-lights, with which the hall was illuminated, were extinguished. The Equal Rights party, either having witnessed similar occurrences, or having received some intimations that such would be the course of their opponents, had provided themselves with loco-foco matches and candles, and the room was re-lighted in a moment. The 'Courier and Enquirer' newspaper dubbed the anti-monopolists, who used the matches, with the name of Loco-focos; which was soon after given to the Democratic party, and which they have since retained."—Hammond's Political History of New York, Vol. II. p. 491.

LOG. A bulky piece or stick of timber unhewed. Pine logs are floated down rivers in America, and stopped at sawmills. A piece of timber when hewed and squared, is not called a log, unless perhaps in constructing log huts.—Webster.
TO LOG. To cut down and get out pine logs for sawing into boards, etc.

Once more at work, he employed his leisure time in the heavy and dangerous business of logging.—Mrs. Clavers’s Western Clearings.

LOGGING SWAMP. In Maine, the place where pine timber is cut.

LOG-ROLLING. In the lumber regions of Maine it is customary for men of different logging camps to appoint days for helping each other in rolling the logs to the river, after they are felled and trimmed—this rolling being about the hardest work incident to the business. Thus the men of three or four camps will unite, say on Monday, to roll for camp No. 1—on Tuesday for camp No. 2—on Wednesday for camp No. 3—and so on, through the whole number of camps within convenient distance of each other.

The term has been adopted in legislation to signify a like system of mutual co-operation. For instance, a member from St. Lawrence has a pet bill for a plank road which he wants pushed through; he accordingly makes a bargain with a member from Onondaga who is coaxing along a charter for a bank, by which St. Lawrence agrees to vote for Onondaga’s bank, provided Onondaga will vote in turn for St. Lawrence’s plank road.

This is legislative log-rolling; and there is abundance of it carried on at Albany every winter.

Generally speaking, the subject of the log-rolling is some merely local project; interesting only to the people of a certain district; but sometimes there is party log-rolling, where the Whigs, for instance, will come to an understanding with the Democrats, that the former shall not oppose a certain Democratic measure merely on party grounds, provided the Democrats will be equally tender to some Whig measure in return. [J. Inman.]

We were compelled, for electioneering objects, to attend this summer several log-rollings.—Carlton, The New Purchase, Vol. I. p. 237.

It is to be feared that, through the pitiful system of log-rolling and personal favoritism that has ever cursed this city, there will be plenty of persons appointed as policemen who are utterly unfit for it.—N. Y. Com. Adv.
Another evil of our banking system arises from the very foolish rule, that a single director may reject any paper offered for discount, instead of making the fate of every application depend upon the decision of a majority of the board. This gives a power to individuals at variance with the interests of the community. It produces what is termed log-rolling in legislation, and makes good and liberal-minded men responsible for the conduct of individuals who look solely to self.—N. Y. Cour. and Enq.

Mr. Davis has the best prospect for speaker, without the fetters of a caucus. But with such a system of log-rolling, the one whose prospects are worse, or rather who has no prospects at all, has the best chance to come out successful.—N. Y. Tribune.

Mr. Ballou did not see the object of a postponement. If the delay was for the purpose of obtaining information for the House, he had no objections; if log-rolling was the motive, he opposed the postponement.—Providence Journal.

I doubt very much whether, with all their log-rolling, and caucusing, and whipping in refractory members, they will be able to carry the Annexation Bill.—Boston Paper.

LOGY. (Dutch, *log*, heavy, slow, unwieldy.) We have received this word from the Dutch, and apply it generally to men. He's a *logy* man, i.e. a slow-moving, heavy man. 'He is a *logy* preacher,' i.e. dull. The Dutch say, *Een log verstand*, a dull wit.

LONG AND SHORT. The end; the result; the upshot.

You see I should have bore down on Sol Gills yesterday, but she took it away and kept it. That's the long and short of the subject.—Dombey and Son, ch. 23.

The long and short of all this was, that the white man and Indian girl got married.—Simon Suggs, p. 71.

But the long and short of it is, that if he keeps growing stupid, I'll send him adrift.—J. C. Neal, *P. Ploddy*, p. 15.

Well, uncle, the long and short of the matter is, that whether you advise me or not, I am determined to be no longer a burden to mother.—My Uncle Hobson and I, p. 24.

BY A LONG SHOT. By a long way; by a great deal.

Mr. Divver offered a resolution summarily removing the superintendent, and was quickly told by the Recorder that he was going too fast by a long shot—that he was out of order.—Proceedings in the Case of Dr. Reese.

LONG KNIVES, or BIG KNIVES. A term applied to Europeans and their descendants, by the North American Indians. It signifies wearers of swords.
LOON. (Eolymbus glacialis. Wilson.) The common name for the Northern Diver. *As straight as a loon's leg,* is a common simile.

LOoseness. Freedom. A Western vulgarism, now becoming common at the East; as, 'He spoke with a perfect looseness.'

LOPE. A leap; a long step.—Webster.

A sulky ox refuses to move in the proper direction; off starts a rider, who catching the stubborn animal by the tail, it at once becomes frightened into a lope; advantage is taken of the unwieldy body by the hunter, as it rests on the fore feet, to jerk it to the ground.—Thorpe's Backwoods, p. 15.

The mustang goes rollicking ahead, with the eternal Zo/je, such as an amorous deer assumes when it moves beside its half galloping mate, a mixture of two or three gaits, as easy as the motions of a cradle.—Ibid. p. 13.

TO LOPE. To leap; to move or run with a long step, as a dog.—Webster.

LOT. In the United States, a piece or division of land; perhaps originally assigned by drawing lots, but now any portion, piece, or division.—Webster. This application of the word is peculiar to this country, and is universally used of a parcel of land, whether in town or country. Thus, we have city lots, town lots, house lots, meadow lots, &c. 'I have a fine lot of cleared land, with a wood lot adjoining;' meaning a portion of the forest on which the trees are left for fuel as required. 'In going to town, I left the road, and went across lots, to shorten the distance;' i. e. across the open fields or meadows. "In the first settlement of this country," says Mr. Pickering, "a certain portion or share of land was allotted to each inhabitant of the town; and this was called his lot. Both lot and allotment occur in our early laws.'

LOT or LOTS. A quantity; a large number. A familiar expression common to England and America, but not in the dictionaries. Thus we hear it said, 'There was a lot of people at the mass-meeting to-day;' 'We shall have lots of folks at our house to-night,' etc.

I showed my trunk to Patrick, and then went and got into the omnibus, what took me, with a whole lot of other passengers, to the Charleston Hotel.—Maj. Jones's Travels.
AMERICANISMS.

My wife at home will warm us up
Some broth of well picked bones for sup;
There's lots of welcome in my house, &c.—Reynard the Fox, p. 46.

LOVIER. (A. Sax. lujian, to love.) A lover. A vulgairism, but no corruption, and nearer the Anglo-Saxon than the common word.—Forby's Vocabulary.

LUBBER. A sturdy drone; an idle, fat, bulky fellow.—Johnson. A name given by sailors to landsmen.—Grose, Dictionary.

LUCKS. Small portions of wool twisted on the finger of a spinner at the wheel or distaff. The same word as lock when applied to the hair, &c.—Forby's Norfolk Glossary. In New England this word is still in use.

Miss Gisborne's flannel is promised the last of the week. There is a bunch of lucks down cellar, bring them up.—Margaret, p. 6.

LUDDY MUSSY! Lord have mercy! an exclamation of surprise, common in the interior parts of New England.

LUMBER. Timber sawed or split for use; as beams, joists, boards, planks, staves, hoops, and the like.—Webster. The word in this sense, and the following ones derived from it, are peculiar to America.

LUMBERER. A person employed in cutting timber and in getting out lumber from the forest.

LUMBERMAN. The business or occupation of getting out various kinds of lumber, such as timber, boards, staves, &c. 'To go a lumbering,' is the phrase used by those who embark in it.

LUMBERING. Strolling, lounging, walking leisurely. A vulgairism used in New York.

As I was lumbering down the street, down the street,
A yaller gal I chanc'd to meet, etc.—Negro Melodies. The Buffalo Gal.

LUMBER-WAGGON. A waggon with a plain box upon it, used by farmers for carrying their produce to market. It is sometimes so arranged that a spring seat may be put in it, when it is very comfortable for riding in.

TO LUMP. Used in the vulgar expression, 'If you don't
like it, you may lump it,' i.e. you may help yourself if you can.

"Hoity-toity!" exclaimed Mrs. Pipchin, plucking up all the ogress within her. "If she don't like it, Mr. Dombey, she must be taught to lump it."—Domby and Son, Ch. XI.

LYCEUM. A house or apartment appropriated to instruction by lectures or disquisitions. An association of men for literary purposes.—Webster.

In New England almost every town and village of importance has its lycceum, where a library is formed, natural and artificial curiosities collected, and before which public lectures are given. They have done a vast deal towards the dissemination of knowledge, particularly among those classes which have not had the advantages of a good education.

TO LYNCH. To condemn and execute in obedience to the decree of a multitude or mob, without a legal trial; sometimes practised in the new settlements in the south-west of the United States.—Worcester.

LYNCH LAW. An irregular and revengeful species of justice, administered by the populace or a mob, without any legal authority or trial.—Worcester.

M.

MAD. Inflamed with anger; very angry; vexed. 'I was quite mad at him;' 'he made me mad.' In these instances mad is only a metaphor for angry. This is perhaps an English vulgarism, but it is not found in any accurate writer, nor used by any good speaker, unless when poets or orators use it as a strong figure, and to heighten the expression, say, 'he was mad with rage.'—Witherspoon, Druid. No. 5.

Mad, in the sense of angry, is considered as a low word in this country, and at the present day is never used except in very familiar conversation.—Pickering.

This use of the word is provincial in various parts of England. See Halliwell, Grose, etc.

Indeed, my dear, you make me mad sometimes, you do.—Spectator.

The General began to get in a passion—and says he, "Major, I'm gettin'
"Very well," says I, "General, then I'll keep cool accordin' to agree-

Up stairs I went with them, as mad as thunder, I tell you, at being
thought a humbug. — Field, Western Tales.

Jeeminy, fellows, I was so enormous mad that the new silk handkercher
round my neck lost its color! — Robb, Squatter Life.

LIKE MAD. A common simile, in England and America.

A bear enrag'd at the stinging of a bee, ran like mad into the bee-garden
and overturn'd all the hives. — L'Estrange.

Here's two boys a fishin', and there a little girl a playin' with a dog,
that's a racin', and a yelpin', and barkin' like mad. — S. Slick in England.

MAD AS A MARCH HARE. A common simile, used alike
in England and America.

The whole's to be fourpence a quart —
Odswinge! lad, there will be rare drinkin';
Billy Pitt's mad as ony March hare;
And never was rect, swook are thinkin'. — Westmoreland and
Cumberland Poems, p. 220.

Because I would not let Ike Tapley have the lick of the tap [after
drawing some rum], he was as mad as a March hare. — Margaret, p. 39.

MADAM. In Plymouth, Massachusetts, and in some neigh-
boring places, it has been and still is the practice, to prefix
to the name of a deceased female of some consideration,
as the parson's, the deacon's or the doctor's wife, the title of
Madam. — Kendall's Travels, Vol. II. p. 44. "This practice,"
says Mr. Pickering, "like that of giving magistrates the title
of 'squire, prevails in most of the country towns of New
England; but is scarcely known in the sea-port towns." —
Vocabulary.

TO MAHOGANYIZE. To paint wood in imitation of ma-
hogany.

MAILABLE. That may be mailed or carried in the
mail. — Worcester. In a recent suit brought by the gov-
ernment against Adams & Co.'s Express, for carrying
letters and papers, to the injury of the post office, Judge
Betts stated in his charge to the jury that "any written
communication between one individual and another comes
within the term mailable matter, and no matter in what shape
it is put, it is liable to postage as if carried by mail."
All *mailable* matter intended to reach its destination without delay, must be deposited with the mail agents, on board the Stonington boats, the regular and only line for carrying the Boston, or great Eastern mail.—*Newspaper Advertisement.*

MAIZE. (W. Ind., *maiz.*) Indian corn. The name of the great staple of native American agriculture, adopted from the Carib language by the Spaniards, and thus imported into the languages of Europe. The earliest dictionary in which I find the word, is Florio’s *World of Wordes* (1598); the article there is "*Maiz,* a kind of grain or wheat whereof they make bread in India." Its native country is not fully determined, although it is believed to be America. Bernal Diaz speaks of it in Mexico in 1517; and Acosta in 1570, when treating of the plants "peculiar to the Indies," says that "the most common grain found in the new world is *mays,* which is found in all the kingdoms of the West Indies, Peru, New Spain, Guatemala, and Chili." He adds, that in Castile they call it Indian wheat; and in Italy, Turkey grain; which seems to imply that the plant was also known in those countries.

TO MAKE FISH. To cure and prepare fish for commerce. A New England phrase.

MAKING MEAT, on the great Western prairies, consists in cutting into thin slices the boneless parts of the buffalo, or other meat, and drying them in the wind or sun. Meat thus prepared may be preserved for years without salt.—*Scenes in the Rocky Mountains,* p. 53.

TO MAKE A RAISE. A vulgar expression, meaning to raise; procure; obtain.

I *made a raise* of a horse and saw, after being a wood piler’s prentice for awhile.—*Neal, Sketches.*

TO MAKE TRACKS. To leave; to walk away. A figurative expression of Western origin.

He came plaguy near not seein' of me, says I; for I had just commenced *making tracks* as you came in.—*Sam Slick in England,* ch. 20.

MARM. A corruption of the word *madam* or ma’am, often used in the interior of New England for mother.

Has your *marm* got that done?—*Margaret,* p. 39.
TO MARBLE. To move off; as, 'If you do that again, you must marble,' i.e. be off immediately. Used in Pennsylvania.—Hurd's Gram. Corrector.

MAROONING. To go marooning. An expression used in the Southern States. It means to make up a party and have a picnic. Such is called a marooning party. The difference between a marooning party and a picnic is, that the former is a party made up to pass several days on the shore or in the country; the latter is a party for a day.

MARVEL. A common corrupt pronunciation of marble.

MASKINONGE. (Genus, esox. Cuvier.) An immense fish of the Pike species, caught in the St. Lawrence and the great lakes. I have seen a specimen taken at Kingston upwards of four feet in length. Dr. Richardson, in his "Fauna Borealis Am.,'' says that he found none in the rivers which empty into Hudson's Bay or the Polar Sea.

The masquinonjé is to all appearance a large species of pike, and possesses the ravenous propensities of that fish.—Backwoods of Canada, p. 161.

Mass. The common abbreviation for Massachusetts.

MASS-MEETING. A large or general meeting called for some specific purpose. The word mass is prefixed with a sort of ad captandum intent, as O'Connell called his large meetings of Irishmen, "monster meetings." Mass-meetings were first talked of in the political campaign of 1840, when Harrison was elected President. The term is now applied to any large meeting without distinction of party.

MAY-APPLE. (Genus, podophyllum.) A plant, the root of which is medicinal, answering as a substitute for jalup.—Bigelow's Plants of Boston.

Md. The common abbreviation for Maryland.

MEADOW. In New England this word means exclusively grass land, which is moist or subject to being overflowed; and land which is not so, is called upland. In England, also, the term meadow is used among agriculturists in the limited sense above mentioned.—Pickering.

A tract of low land. In America, the word is applied
particularly to the low ground on the banks of rivers, consisting of a rich mould or alluvial soil, whether grass-land, pasture, tillage, or wood land; as, the meadows on the banks of the Connecticut. The word with us does not imply necessarily wet land. This species of land is called in the Western States, bottoms or bottom-land. The word is also used for other low or flat lands, particularly lands appropriated to the culture of grass.—Webster.

MEAN, for means. Many American writers, following the Scottish models, make use of mean instead of means. But the established practice among English writers, from the time of Addison to the present day, has been to use the plural means.

It was the best mean of bringing the negotiation to a happy issue.—Marshall’s Washington, Vol. V. p. 546.

MEECHIN. A person with a downcast look is said to look meechin. Used on Long Island.

MEETING. A congregation. Among Methodists and others in the United States, it is a universal practice to say, ‘we are going to meeting,’ when going to their church or place of worship.

Me. The common abbreviation for Maine.

MENHADEN. (Alosa menhaden. Storer, Massachusetts Report.) A fish of the herring kind abounding in the waters of New England, and as far south as Chesapeake Bay. It is also known by the names of Bony-fish, White-fish, Hardhead, Mossbonker, and Panhagen. In Massachusetts and Rhode Island, they are called Menhaden; in New York, Mossbonkers and Skippaugs. They are caught in immense quantities and used as manure, chiefly for Indian corn. Dr. DeKay, in his report on the fishes of New York, states that he has known of an instance when “84 waggon-loads, or in other words, 168,000 of these fish were taken at a single haul” of the seine.—Nat. Hist. of New York.

One day last week, Messrs. Davidson and Russel drew in at a single haul, on Mr. Hallock’s shore, west side of New Haven harbor, two millions of white fish, as nearly as could be estimated, weighing on an average about three quarters of a pound each. The total weight of the haul, therefore, was about 1,500,000 lbs. or 750 tons! It was the greatest haul of fish ever made in that harbor, and we suspect it will not
be easy to match it anywhere. The farmers from the neighboring coun-
ty were engaged three or four days in carrying them off in immense cart-
loads. They sell at 50 to 75 cents the 1000. The fishermen are much
indebted to a bevy of porpoises, who drove the white fish into the harbor,
helping themselves meanwhile, no doubt, to a very large number.—Journal
of Commerce, May 16, 1848.

MET UP WITH, for overtook.—Sherwood’s Georgia.

MICH. The common abbreviation for Michigan.

MIDDINGS. The coarser part of flour.—Webster.

MIDGET. The sand-fly; so called in Canada.

MIGHTILY. In a great degree; very much. A sense scarcely
to be admitted but in low language.—Todd’s Johnson.

An ass and an ape conferring grievances; the ass complained mightily
for want of horns, and the ape for want of a tail.—L’Estrange.

MIGHTY. 1. Great; excellent; fine.

The old maid bridled and tossed her head, as much as to say that, in her
opinion, the like of him was not so mighty a catch for ladies beyond their
girlhood.—Chambers’s Journal (Grandmother Hook).

2. In a great degree; very; as, ‘mighty wise;’ ‘mighty
thoughtful.’—Webster.

She untied her hair, then began to twirl the ringlets round her fingers
and play with them in a coquetish manner, which she seemed to think
mighty killing, for she smiled in evident self-conceit.—London Zoist.

The Doctor’s was a mighty fine house, fronting the sea.—Dickens,
Dombey and Son, ch. XI.

His face is mighty little for his body.—Georgia Scenes, p. 184.

What mighty hard land it is on this road. The whole face of the earth
is covered with stones, as thick as Kentucky land titles.—Crockett, Tour
down East, p. 57.

You’ll be mighty apt to get wet, said a thorough-bred Texan, who stood
watching our movements.—Kendall’s Santa Fé Expedition, Vol. I. p. 32.

But, sir, I were mighty weak, and couldn’t tell a stump from an old be.
—Porter’s Tales of the South-west, p. 124.

A girl belonging to the hotel was shouting to the boys, who had been
dispatched to the barn for eggs, to “quit sneakin’ them thar eggs, or the
candidates would stand a mighty small chance for thar dinner.”—Robb,
Squatter Life, p. 80.

MILE. Often in the singular with a numeral, instead of the
plural miles. Mr. Hartshorne, in his Glossary, says its use is
universal in England, where the vulgar never give it a plural.
"The custom," he adds, "seems to receive countenance from some of our early English poets."—Salopia Antiqua.

Start the horses together for a hundred and fifty mile.—Georgia Scenes.

MILEAGE is a very large and even extravagant allowance made to members of Congress, and some others of the favored, for travelling expenses—eight dollars for every twenty miles. [J. Inman.]

CONSTRUCTIVE MILEAGE is the same allowance for journeys supposed to be made, but not actually made, from and to the seat of Government. The allowance enures to members of the United States Senate once in every four years. When a new President comes into office, Congress adjourns, of course, on the 3d of March, the new President being inaugurated on the 4th. But the Senate is immediately called again into session, to act on the nominations of the new President; and though not a man of them leaves Washington, each is supposed to go home and come back again, in the course of the ten or twelve hours intervening between the adjournment and the re-assembling. For this supposed journey the Senators are allowed their mileage, just as though the journey was actually made; the sum being, in the case of Senators from distant States, from $1000 to $1500.

Many of the Senators, in 1845, when Mr. Polk was inaugurated, refused to pocket their constructive mileage, holding it to be an imposition on the public.

Constructive mileage is allowed when an extra session of Congress is called, whether the Senators and Members have actually gone to their homes or not, after the regular session. [J. Inman.]

The mileage is a still less excusable abomination. Texas sends hither two Senators and two Representatives, who receive, in addition to their pay, some $2,500 each every session for merely coming here and going away again (I would sooner pay them twice the money to stay away)—$10,000 in all for travelling expenses which are not actually $1000. Arkansas will take $6000 out of the Treasury this year merely for the travel of her Senators. When we come to have Senators and Representatives from Oregon and California, we shall have to negotiate a loan expressly to pay the mileage of their members.—Letter from H. Greeley, N. Y. Tribune, May 2, 1848.
AMERICANISMS.

MILK-SICKNESS. A fatal spasmodic disease, peculiar to the Western States. It first attacks the cattle, and then those who eat beef or drink milk.

A few miles below Alton, on the Mississippi, I passed a deserted village, the whole population of which had been destroyed by the milk-sickness.—Hoffman, Winter in the West, Let. 2.

MILLERITES. The name of a religious sect from its founder, William Miller.

The distinguishing doctrines of this sect are, a belief in the re-appearance of Jesus Christ on earth, "with all his saints and angels; that he will raise the dead bodies of all his saints, and change the bodies of all that are alive on the earth that are his; and that both these living and raised saints will be caught up to meet the Lord in the air. There the saints will be judged. While this is being done in the air, the earth will be cleansed by fire; the bodies of the wicked will be burned; the devil and evil spirits will be banished from the earth, shut up in a pit, and will not be permitted to visit the earth again until a thousand years. This is the first resurrection and first judgment. Then Christ and his people will come down from the heavens, and live with his saints on the new earth." After a thousand years, a second death, resurrection, and judgment take place; when the righteous will possess the earth forever. "The judgment-day will be a thousand years in duration. The righteous will be raised and judged in the commencement, the wicked at the end of that day. The millennium is between the two resurrections and the two judgments."—Evans's Hist. Religions, American Ed.

Believing in the literal fulfilment of the prophecies, the Millerites first asserted that, according to their calculations, the first judgment would take place about the year 1843. Subsequently other periods were named; and so firm was the faith of many that the Saviour would descend from the heavens and take his followers up into the air, that they disposed of all their worldly treasures, provided themselves with 'ascension robes,' and waited with great anxiety for the sounding of the last trumpet, the signal for their aerial voyage. Many persons became insane in consequence of the
excitement and fear attending this delusion. Others have come to their senses, owing to their repeated disappointments in not being elevated according to Father Miller's promise; and at the present time the sect has happily dwindled down to an insignificant number.

MILLION. A vulgar corruption of the word melon; as, 'water-millions,' water-melons; 'mush-millions,' musk-melons.

TO MINCE. To diminish in speaking; to retrench, to cut off, or omit a part for the purpose of suppressing the truth; to extenuate in representation.—Webster.

And love doth mince this matter.—Shakespeare, Othello.

There was no mincing matters; it seemed as if Mr. Calhoun's presence had mesmerized the stoutest democrats into perfect agreement with himself. —N. Y. Tribune, Nov. 26, 1845.

TO MIND. To recollect; remember.

I was invited to dine out in Boston; but if I can mind the gentleman's name, I wish I may be shot.—Crockett, Tour, p. 82.

TO MIND. To take care of.

Yes, said Margaret, I will keep Obed. I'll mind the beds when the birds are about.—Margaret, p. 20.

MISERY. Pain; as, misery in my head.—Sherwood's Georgia.

Miss. The common abbreviation for Mississippi.

TO MISSIONATE. To act as a missionary. Not well authorized.—Webster.

Mr. Pickering notices this absurd word, which he found in the Missionary Herald.

TO MISSTATE. To state wrong; to make an erroneous representation of facts; as, 'to misstate a question in debate.'—Webster.

MISSTATEMENT. A wrong statement; an erroneous representation, verbal or written; as, a misstatement of facts in testimony, or of accounts in a report.—Webster.

MITTEN. When a gentleman is jilted by a lady, or is discarded by one to whom he has been paying his addresses, he is said to have got the mitten.
AMERICANISMS.

Young gentlemen that have got the mitten, or young gentlemen who think they are going to get the mitten, always sigh. It makes them feel bad.—Neal's Sketches.

MITTS. A cover for the hand in which the fingers are unprotected.

TO MIZZLE. To run away; to abscond. A low word.

Mr. Buchanan was in the Senate Chamber when the Tariff was under discussion; but as soon as Mr. Bagby commenced speaking of the "odious law of 1842," the Secretary of State mizzled.—Cor. of N. Y. Herald.

A broker, named H. H. D. operated, in a financial way, day before yesterday, to the amount of $3000, and then mizzled.—N. Y. Tribune.

The Southern men will spend their last cent here; while the Northern men, if they had won, would have buttoned up their pockets and mizzled.—N. Y. Herald, May 14, 1845.

Mo. The common abbreviation for Missouri.

MOBEE. A fermented liquor made by the negroes in the West Indies, prepared with sugar, ginger, and snake-root. It is sold by them in the markets.—Carmichael's West Indies.

MONETARY. Pertaining to money, or consisting in money.

—Webster. A word of recent origin, not in Johnson or Todd, but inserted by Richardson in his dictionary.

MONSTROUS is much used by the vulgar for very, exceedingly.

Augustus is a monstrous pretty city; but it ain't the place it used to was, by a great sight. It seems like it was rotting off at both ends, and ain't growing much in the middle.—Maj. Jones's Sketches of Travel.

It's monstrous inconvenient and ridiculous.—Sam Slick in England.

He'll cut the same capers there he does here. He's a monstrous mean horse.—Georgia Scenes, p. 27.

MOONSHINE. A trifle; nothing.—Grose.

The story of the Queen of Spain's secret marriage to her cousin, appears to have been all moonshine.—N. Y. Com. Adv., Nov. 22, 1845.

MOOSE. An Indian name (Knistenaux, mooswah) of an animal of the genus Cervus, and the largest of the deer kind,
growing sometimes to the height of seventeen hands, and weighing 1200 pounds. This animal inhabits cold northern climates, being found in the forests of Canada and New England.—Encyclopedia.

MORMONS. The Mormonites, or Latter-day Saints, are a religious sect which derive their name from the 'Book of Mormon.'

This book was first published in the year 1830. Since that period its believers and advocates have zealously propagated its doctrines through every State in the Union, and in Canada. In England they have made some thousands of converts.

The Book of Mormon purports to be the record or history of a certain people, who inhabited America previous to its discovery by Columbus. This history, containing prophecies and revelations, was engraved (according to it), by the command of God, on small brass plates, and deposited in the hill Comora, in Western New York. These plates were discovered (the Mormons say) by Joseph Smith, in the year 1825; they contain certain hieroglyphics, in the Egyptian character, which Smith, guided by inspiration, translated. It purported to give the history of America from its first settlement by a colony from the tower of Babel to the 5th century of our era. It stated that the Saviour made his appearance upon this continent after his resurrection; that he planted the gospel here—had his apostles, prophets, teachers, etc.; that the people were cut off in consequence of their transgressions; and that the last of their prophets wrote the Book of Mormon on the brass plates above named, "which he hid in the earth, until it should come forth and be united with the Bible, for the accomplishment of the purposes of God in the last days."

Smith readily found many to believe his statements, and in 1830 organized his first church of Mormons in Manchester, Ontario county, New York. Other preachers sprang up, who "saw visions and prophesied, cast out devils and healed the sick, by the laying on of hands," and performed other miracles. New churches or societies were formed in other States,

until in a few years their number amounted to many thousands. They removed in a body to Missouri, where a most cruel and relentless persecution sprang up against them, which forced them to quit their homes and the State. They then sought a refuge in Illinois, where they founded a city called Nauvoo, in which they erected an immense edifice or Temple, which is thus described in an Illinois paper:

"This temple stands in a prominent position, and is visible from a distance of twenty-five or thirty miles. Viewed from the bank, it is grand and imposing. It is built of white limestone, which has been worked and faced down to a perfect surface. Its length is 128 feet, width 88 feet, height to the roof 77 feet. The walls are two feet thick; and on every side are rows of pilasters, crowned with elaborately carved capitals, showing a man's face and two hands grasping trumpets. The structure is lighted with four rows of windows, two of which are quadrilateral, and two circular. All the entrances are from the West, and the immense doorways are gained by flights of steps. The interior contains a basement, in the centre of which stands the celebrated baptismal font," an immense stone reservoir, resting upon the backs of twelve oxen, also cut out of stone, and as "large as life."

Persecution followed these poor people in Illinois. They were attacked by armed bodies of men by order of the State authorities, driven out by force, and compelled to abandon or sacrifice their property. Such as survived the persecution, after traversing the boundless prairies, the deserts of the far West, and the Rocky Mountains, finally found a resting place near the Great Salt Lake in Oregon, where some 20,000 of them are now forming a settlement.

MORTAL. Used in vulgar parlance adverbially for mortally; i.e. excessively.

It was a mortal hot day, and people actually sweated to that degree, it laid the dust.—Sam Slick, 3d ser. p. 102.

MOSQUITO NET. }

MOSSBUNKER. (Alosa menhaden, Storer.) See Menhaden.

TO MOTION. To move; to make a motion; as, 'I motion that the resolution pass.' An old English word rarely used, because unnecessary.

I want friends to motion such a matter.—Burton, Anat. Melancholy.

MOUGHT, for might. This old preterite is still heard among the illiterate, especially in country places.

TO MOUSE. 'To go mousing about,' is to go poking about into holes and corners.

TO MOVE, for remove. To change one's residence.

These are great moving times. The sovereigns of Europe are being moved, much against their will—and the sovereign people of New York are on the eve of moving, according to custom, which has made the May-day sports of this city a very peculiar feature. Could the sovereigns of Europe only move as easily as the sovereigns of New York do, from house to house, palace to palace, &c., they would be well content, and not complain—as many movers to-morrow will.—N. Y. Sunday Atlas, April 30, '48.

MUD-HEN. The common name of the Virginia Rail of ornithologists. It inhabits small streams and marshes.

MUD-TURTLE. The popular name of a reptile common in all parts of the United States. Marsh Tortoise and Mud Terrapin are other names for the same. It is the sternotherus odorata of naturalists.—Holbrook, Am. Herpetology.

TO MULL. To soften and dispirit.—Johnson. The only authority cited by Johnson is from Shakspeare:

Peace is a very apoplexy, lethargy,

Mull'd, deaf, sleepy, insensible.—Coriolanus.

Used in New England.

There has been a pretty considerable mullin going on among the doctors ever sen the quack medicine came out.—Margaret, p. 170.

MULLEY COW. A name used for a cow chiefly among children, or by parents when speaking to children; as, 'the old mulley cow.' Provincial in England.

In travelling homeward, buy forty good crones,

And fat up the bodies of those seely bones:

In travelling homeward, buy forty good crones,

And fat up the bodies of those seely bones:
Leave milking, and dry up old milky thy cow;
The crooked and aged to fatting put now.—Tusser, Husbandry.

MUMMACHOG. (Genus, Fundulus. Lacépède.) The popular name of the Barred Killifish of naturalists. It is a small fish from two to four inches in length, and frequents the salt water creeks and the vicinity of the wharves. This Indian name is retained in Rhode Island.

MUSH. Indian meal boiled with water, and eaten with milk or molasses. It is often called hasty pudding, and is a favorite dish throughout the United States. In Hallamshire, England, to mush, means to crush, or pound very small. From this our word may have originated.

E'en in thy native regions, how I blush
To hear the Pennsylvanians call thee mush!
On Hudson's banks, while men of Belgic spawn
Insult and eat thee by the name suppawn.—Barlow, Hasty Pudding.

MUSQUASH. The musk-rat among the traders in the Northern States is called the musquash.

TO MUSS. A corruption of to mess. To disarrange; disorder; put in confusion. Ex. 'I hate to ride in an omnibus, because it musses my clothes;' 'I'm all mussed up.' The word is much used in New York.

MUSS. A corruption of mess, a state of confusion; a squabble; a row. This vulgarism is also common in New York.

"My head aches," said he; "they have put my mind and body both in a confounded muss."—Mrs. Child, Letters from New York, p. 129.

I saw the British flag a flyin' from the top of the mast, and my first notion was to haul it down, and up with the stars and stripes; but I concluded I hadn't better say nothin' about it, for it might get the two nations into a muss, and then there would have to be a war.—Hiram Bigelow's Letter in Fam. Companion.

There is also an old English word muss, meaning a scramble; but it has evidently no connection with the above.

MUSTANG. The wild horse of the prairies, and the invariable companion of their inhabitants. Sparing in diet, a stranger to grain, easily satisfied whether on growing or dead grass, inured to all weather, capable of great labor, the mustang poney seems as peculiarly adapted to the prairies as the camel is to the desert.—Thorpe's Backwoods, p. 12.
TO MUZZLE. To loiter. In Yorkshire, England, they use the word *muzlin*, loitering, which seems to be the same; also, *to muddle*, to walk in a careless manner with the head down.—Craven Glossary.

The child mopes, she *muzzles* about in the grass and chips.—Margaret.

N.

TO NAIL. To fasten; to bind a person to a bargain. Ex. 'He offered me a dollar for this book, and I *nailed* him;' i. e. I accepted the offer.—Grose.

MISS NANCY. A name given to an effeminate man.—Craven Glossary.

NANKEEN. (A Chinese word.) A species of light yellow or fawn-colored cloth, made from cotton of the same color (*gossypium* *religiosum*), which color is permanent. This article was formerly imported in large quantities from China; but since the cultivation of the raw material in the United States, *nankeens* have been manufactured here, in every respect equal to, and at a less cost than those from China.

NARY-ONE, for neither. A common vulgarism.

NATION. Very; extremely; as, *nation* good, very good. 'A *nation* long way.' This word is provincial in this sense in various parts of England.—Junius. Brocket.

There were a *nation* set o' folk at kirk.—Carr's Craven Gloss.

But no sense of a place, some think,
Is this here hill so high;
Cos there, full oft, 'tis *nation* cold,
But that don't argufy.—Essex Dialect, Noahes and Styles.

You colony chaps are a *nation* sight too well off; so you be.—Sam Slick.

NATIVE AMERICANS. The name assumed by a political party which sprang up a few years ago, to advocate the rights and privileges of persons born in the United States, in opposition to those of foreigners. The principal measure advocated by them, was the extension of the time of residence required by law previous to naturalization, from seven to twenty-one years. The extreme lengths to which this party went, and the excesses produced in consequence of its
inflammatory appeals to vulgar prejudice, ensured its speedy defeat; and it may now be considered as, to all intents and purposes, extinct.

NEAR, for to or at; in these expressions—'The minister plenipotentiary near the Court of St. James's—near the United States,' &c. This Gallicism was first used here in translations of the diplomatic correspondence between the French and American governments; and from the language of translations it has been adopted in many of our original compositions.—Pickering.

NETOP. "This Indian word," says Mr. Pickering, "is still used, colloquially, in some towns in the interior of Massachusetts, to signify a friend, or (to use a cant word) a crony." Roger Williams, in his Key to the Indian Language, says, "What cheer, netop? is the general salutation of all English towards the Indians."

NIGH UNTO. Nearly; almost. A vulgarism.

I nigh unto burst with madness!—I could feel every hair on my head kindlin' at the eend.—Robb, Squatter Life.

NIGHTCAP. A glass of hot toddy or gin-sling taken before going to bed at night. When a second glass is taken, it is called 'a string to tie it with.'

Come, now, Squire, before we turn in, let us tie the nightcap.—Sam Slick in England, ch. 3.

NIMSHI. A foolish fellow, or one who habitually acts in a foolish manner. Local in Connecticut.

NINE-KILLER. The popular name of the Northern Butcher-bird (Lanius) of ornithologists. In Canada and the Eastern States, it is sometimes called Mocking-bird. "The name of nine-killer," says Dr. DeKay, "is derived from the popular belief that it catches and impales nine grasshoppers in a day."—Nat. Hist. of New York.

TO NIP. To pinch close in domestic management.—Forby's Norfolk Glossary.

Mrs. H—carded, spun, colored, and wove, for herself and others, nipped and beaked her husband, drank, and smoked.—Margaret, p. 14.

NIPPENT. Impudent; impertinent.—Hurd's Gram. Corrector.
TO NOMINATE. To name for an election, choice, or appointment; to propose by name, or offer the name of a person as a candidate for an office or place. This is the principal use of the word in the United States; as in a public assembly, where men are to be selected and chosen to office, any member of the assembly or meeting nominates, that is, proposes to the chairman the name of a person whom he desires to have elected.—Webster.

NOCAKE. An Indian word still used in some parts of New England.

If their imperious occasions cause the Indians to travel, the best of their victuals for their journey is nocake (as they call it), which is nothing but Indian corn parched in the hot ashes; the ashes being sifted from it, it is afterwards beaten to powder, and put into a long leathern bag, trussed at their back like a knapsack; out of which they take thrice three spoonfuls a day.—Wood’s New England’s Prospect, 1634.

NON-COMMITTAL. That does not commit or pledge himself to any particular measure. A political term in frequent use.

They call him [Mr. Van B—–] non-committal too, and this is because he always looks before he leaps. They say he never gives the measure of his foot. Now how can this be, when it is shown that he speaks against the tariff at home, and votes for it in Congress; goes for internal improvement by the General Government in New York, but against it out of it; goes against the Bank at Philadelphia, but in favor of it at Utica; goes for all the candidates for President in turn, Jackson last, notwithstanding which they say he is in higher favor there now than those who began before him. Went for the war, but went against Madison; wanted to turn out Madison and put in Clinton, and then turn Clinton out from the little office he held in New York. Goes for gold and hard money, and has more rag money in his State than all the other States put together. Call you this non-committal? As well may you call the fingers of a watch non-committal, that go regularly around to every figure on its face.—Crockett, Tour, p. 211.

Extensive preparations were made [for a sketch of the Life and Times of Channing]. But experiment at length satisfied me that it was far more difficult than I supposed to shun the dishonesty of making my honored relative the exponent of my prejudices, without sinking into a tone of non-committal, yet more at variance with his character and with the truth.—Preface to the Life of Dr. Channing.

NON-COMMITTALISM. The practice or doctrine of not committing oneself.
Much of what Governor W.— says in his message is made feeble by diffuseness; and on many points he either avoids the expression of opinion, or expresses his opinion with so many qualifications as to subject himself to the charge of non-committalism.—N. Y. Commercial Adv.

He, being somewhat of a wag, handed me “Fearne on Contingent Remainders,” which he remarked, with admirable non-committalism, was as interesting as a novel, after one got interested in it.—My Uncle Hobson and I, p. 20.

NON-ELECTION. Failure of election.—Webster.

NON-MANUFACTURING. Not carrying on manufactures; as, ‘non-manufacturing States.’—Webster.

NON-PAYMENT. Neglect of payment.—Webster.

NO ODDS. No difference; no consequence; no matter. A common expression in low language.

There is no great odds nor difference between these two sermons.—Bp. Latimer’s Sermon before Edward VI.

I don’t ax no odds of nobody, shouted Boss, smacking his fists together.—Chron. of Pineville, p. 52.

“Now, Major,” says the General, “which eend shall we begin at first?”

“It makes no odds,” says I.—Maj. Downing’s Letters, p. 44.

Oh! never mind it, Mister; it aint no odds no how, and I guess we can soon fix it.—Carlton, The New Purchase, Vol. I. p. 9.

NOODLEJEES. (Dutch.) Wheat dough rolled thin and cut into strings like maccaroni. It is used for the same purpose.

NOODLE-SOUP. Soup made of the above.

NOTCH. An opening or narrow passage through a mountain or hill.—Webster.

NOTICEABLE. That may be observed; worthy of observation.—Webster. Not in any English dictionary. Mr. Pickering gives the following example of its use:

The moon’s limb exhibited very little of that rough or serrated appearance, which was so noticeable in 1806.—Mem. of the Amer. Acad. Vol. III.

TO NOTIFY. 1. To make known; to declare; to publish. ‘The laws of God notify to man his will and our duty.’

2. To give information of. ‘The allied sovereigns have notified the Spanish court of their purpose of maintaining legitimate government.’

3. To give notice to. ‘The constable has notified the
citizens to meet at the City Hall.' 'The bell notifies us of the time of meeting.'

The first of these senses, as Dr. Witherspoon long ago observed (Druid, No. 5), is the only one in which this word is employed by English writers. They use it simply in the sense of the Latin notificare, i. e. 'to make known,' as in the following examples from Richardson:

His [Duke Robert's] worthie acts valientlie and fortunately atchieved against the infidels, are notified to the world by many and sundrie writers.—Holins hed.

Such protest must also be notified, within fourteen days after, to the drawer.—Blackstone, Com.

The two significations, Nos. 2 and 3, in which the direct object of the verb is the person instead of the thing, is in accordance with the French use of the verb notifier. It is not improbable that they will yet be adopted in England; for the same transfer of the idea from the thing to the person took place in the Latin language itself, in which the word notus, known, was also used in the sense of informed of, knowing.

NOTHING TO NOBODY. Nobody's business. This singular expression is common in the language of the illiterate in some parts of the South.

But surely no lady drank punch? Yes, three of them did, ... and the way these women love punch is nothing to nobody.—Georgia Scenes.

NOTION. Inclination; in vulgar use; as, 'I have a notion to do that.'—Webster.

NOTIONS. Small wares or trifles.—Worcester. A word much used by the ingenious New Englanders.

"Can I suit you to-day, ma'am?" said a pedlar from New England, when offering his wares for sale in Michigan. "I've all sorts of notions. Here's fashionable calicoes; French work collars and capes; elegant milk pans, and Harrison skimmers, and ne plus ultra dippers! patent pills—cure anything you like; ague bitters; Shaker yarbs; essences, wintergreen, lobely; tapes, pins, needles, hooks and eyes; broaches and bracelets; smelling bottles; castor ile; corn-plaster; mustard; garding seeds; silver spoons; pocket combs; tea-pots; green tea; saleratus; tracts; song-books; thimbles; baby's whistles; slates; playin' cards; puddin' sticks; baskets; wooden bowls; powder and shot. I shan't offer you lucifers, for ladies with such eyes never buys matches—but you can't ask me for anything I haven't got, I guess."—Mrs. Claver's Forest Life, Vol. II. p. 113.
NUBBINS. Imperfectly formed ears of corn.

NURLY. A corrupt pronunciation of *gnarly*, i. e. gnarled.

Times are mopish and nurly.—Margaret, p. 314.

TO NULLIFY. (Lat. *nullus*) To annul; to make void.—Todd's Johnson.

You will say, that this nullifies all exhortations to piety; since a man, in this case, cannot totally come up to the thing he is exorted to.—South's Sermons.

NULLIFICATION. The act of nullifying; a. rendering void and of no effect, or of no legal effect.—Webster. The political meaning of nullification is limited and special—at least in American politics. Some years ago, when the system of high protective duties on foreign imports was predominant in the national councils, the politicians of South Carolina—whose main article of export is cotton—were strongly desirous of free trade with England and France, the principal consumers of that article, believing that the consumption of it in those countries would be augmented by an augmentation of the import of their fabrics. Those politicians thought themselves aggrieved therefore by the protection given in the United States to the manufacture of fabrics coming into competition with those of England and France. But finding Congress resolute in adhering to the protective tariff, the South Carolina politicians became so exasperated that at last they proclaimed their intention to nullify the tariff—that is, to admit British and French goods into their ports free of duty, and not to permit the exercise of Custom House functions in their State. In other words, *nullification*, in the case of South Carolina, was simply an act, or at least a threat, of open rebellion. [John Inman.]

Somebody must go ahead, and look after these matters to keep down *nullification* and take care of the General [Jackson] when he gits into his tantrums, and keep the great democratic party from splitting in two.—Crockett, Tour, p. 218.

NULLIFIER. One who believes in or maintains the right of a State to refuse compliance with a law enacted by the legislature of the whole Union. [John Inman.]
OATS. To feel one's oats, is to feel one's importance.

You know you feel your oats as well as any one. So don't be so infernal mealy-mouthed, with your mock-modesty face.—S. Stiek in England.

OBLIGEMENT. This antiquated word is still used by old people in New England.—Pickering.

OCELOT. The French popular name of a digitigrade carnivorous mammal of the cat kind.—Webster.

ODD FISH. A person who is eccentric or odd in his manners. The Knickerbocker Magazine, in a sketch of a learned professor of Tinnecum, says:

He was styled unanimously an odd fish, by those who knew him; nor did his appearance belie him, as he started forth on a geological excursion, making poems and tuning pianos by the way. On another occasion he won a foot race on the Union course for a hundred dollars, to enable him to pursue his studies for the ministry.—Vol. VI. p. 551.

ODD STICK. An eccentric person; as, 'John Randolph was an odd stick.'

OF. An action of the organs of sense may be either involuntary or voluntary. Accordingly we say to hear, to see, to denote an involuntary act; and to look at, to hearken or to listen to, to denote a voluntary one. With regard to the other senses we are not so well provided with words; but some people, prompted apparently by a feeling of this deficiency, endeavor to supply it by construing the verbs to feel, to taste, to smell, with the preposition of, to signify a voluntary act. Hence, to feel, taste, smell of a thing, is to do so intentionally. This corruption is rarely met with in writing.

In the course of the forenoon, a few women came around our tent—felt of it—and peeped through the cracks, to see Mrs. Perkins.—Perkins's Residence in Persia, p. 103.

OFF AND ON. Vacillating, changeable, undecided; in which sense it is much used with us. In England it is also used.—Carr's Craven Dialect.

Be it so, that the Corinthians had no such contentions among them, as
Paul wrote of; be it so, that they had not mis-ordered themselves, it was neither off-nor-on, to that that Paul said.—Latimer, Sermons, Vol. I. p. 176.

**OFFISH.** A word applied to a person who is distant or unapproachable in his manners.

**OFFSET.** In accounts, a sum, account, or value set off against another sum or account, as an equivalent.—Webster.

This word is generally used in place of the English term set-off. Mr. Pickering says, "it is also very common in popular language, in the sense of an equivalent." None of the English dictionaries have the word in any sense except that of "shoot from a plant."

The expense of the frigates had been strongly urged; but the saving in insurance, in ships and cargoes, and the ransom of seamen, was more than an offset against this item.—Marshall’s Washington.

Thanksgiving was an anti-Christmas festival, established as a kind of off-set to that.—Margaret, p. 61.

**TO OFFSET.** To set one account against another; to make the account of one party pay the demand of another.—Webster.

**OLD.** Crafty; cunning. Used in vulgar language.—Webster.

When a person attempts to get the advantage of another, and is frustrated in the attempt by the sagacity or shrewdness of the other, the latter will say, 'I'm a little too *old* for you,' meaning that he is too cunning to be deceived by him.

**OLD, for *stale*; in this expression, 'old bread.'** New England.—Pickering’s Vocab.

Mr. P. infers from the following extract, that this is also a Scotticism:

The Scotticism old bread, seems no way inferior to the Anglicism stale bread.—Lond. Monthly Mag., April, 1800.

**OLD COUNTRY.** A term applied to Great Britain, originally by natives from that country, but now understood and used generally in the United States.

**OLD COUNTRYMAN.** A native of England, Scotland, Ireland, or Wales. The term is never applied to persons from the Continent of Europe.
DICTIONARY OF

OLD-WIFE, or OLD-SQUAW. The popular name of a brown duck, one of the most common throughout North America, the long-tailed Duck of Pennant.—*Nat. Hist. of New York.*

OLD-MAN. (*Artemisia abrotanum.*) A popular name for the Southern-wood plant.

OLDERMOST. Oldest. Used at the West.

Ain't that oldermost stranger a kinder sort a preacher?—*Carlton, The New Purchase,* Vol. II. p. 70.

ÖLYCOKE. (Dutch, *öliköök,* oil-cake.) A cake fried in lard. A favorite delicacy with the Dutch, and also with their descendants, in New York. There are various kinds, as dough-nuts, crullers, etc.

ONCE-IN-A-WHILE. Occasionally; sometimes.

Scarcely a day passes in which from two to half a dozen of our paragraphs are not "appropriated" by others of the city papers, without any allusion to their origin, or any complaint from us. But *once in a while,* when the "appropriation" is of a column or more, we bear the act in mind and take the first convenient occasion to retaliate.—*N. Y. Com. Adv.*

ON HAND. At hand; present. A colloquial expression in frequent use.

The Anti-Sabbath meeting, so long talked of, has at length taken place in Boston. About 300 females were *on hand.*—*N. Y. Express.*

If our numerous subscribers and the public will be *on hand* about 5 o'clock this evening, we can give them the European papers by the America, containing doubtless the most critical intelligence ever transmitted to this country. So be ready.—*Burgess, Stringer & Co.,* 222 Broadway.

ONPLUSH, for nonplus. The expression is used in the Southern States.

You know I tuck dinner at the Planters. Well, I was put a leetle to the onplush by that old nigger feller what waits on the table there. I did not know what to make of him.—*Maj. Jones's Courtship,* p. 63.

ONTO. A preposition used in some of the Northern States, but not peculiar to America.

When the stack rises two feet high to be conveniently forked *onto* from the ground.—*Marshall, Rural Econ., Yorkshire,* Vol. II. p. 144.

Mr. Pickering quotes the following as the only example he has seen in an American book:

Take all your cigars and tobacco, and in some calm evening carry them *onto* the common.—*Dr. B. Waterhouse, Lecture on Tobacco.*
OPINUATED. Conceited.—*Sherwood's Georgia*.

OSWEGO TEA. (Lat. *monarda didyma.*) A medicinal plant prepared by the Shakers for its aromatic and stomachic properties.

OUGHT. As this verb is defective, and has no inflection to distinguish past from present time, illiterate persons often attempt to supply the deficiency by the use of auxiliaries. Hence the expressions, *don't ought, had ought, hadn't ought.* Mr. Pegge notices the two last among the vulgarisms of London.

Now, you *hadn't ought* to be so stingy with such charming daughters as you've got.—*Maj. Jones's Courtship,* p. 67.

Peter Cram is an impostor and ignoramus, and you *hadn't ought* to have recommended him.—*Knickerbocker Mag.,* Vol. XVII.

"The luggage must be brought in," said the elderly gentleman. "Yes! I should think it *had oughter,*" observed the young man in reply. "I should bring it in, if it was mine."—*Mrs. Claxer's Forest Life,* Vol. I. p. 96.

OURN, for ours. A vulgarism frequently heard, which is also common in the local dialect of London.

OUT AND OUT. Wholly; completely; without reservation. A common colloquial expression here as in England.

Duff Green has issued proposals for a new free-trade paper in the city of New York. It will be conducted with energy, and will fail. An *out-and-out* anti-tariff free-trade paper, without commercial support, cannot obtain that support in any commercial city in the world.—*N. Y. Com. Adv.*

Although an *out-and-out* democrat, by virtue of my subscription, and your well-known liberality, I claim to be heard through your columns.—*Cor. of N. Y. Tribune,* Oct. 28, 1845.

Pliny Hopper expected to make a thousand per cent. the first year [on his morus multicaulis trees], and the second to be able to retire from business, and buy the whole State of Connecticut *out-and-out.*—*Knick. Mag.*

OUT OF FIX. Disarranged; in a state of disorder.

The week was the longest one ever was. It seemed to me that the axletree of the world wanted greasin', or somethin' or other was *out of fix,* for it didn't seem to turn round half so fast as it used to do.—*Maj. Jones's Courtship,* p. 80.

OUT OF SORTS. Out of order; disordered. Dr. Millingen, in his remarks on persons of phlegmatic temperament, says:

They are in general good, easy persons, susceptible of kindly feelings, but, to use a common expression, easily put *out of sorts.*—*Mind and Matter,* p. 84.
OUTFIT. Money advanced to a public minister, going to a foreign country, beyond his salary.—Webster.

TO OUTFIT. To overbear by storming.—Webster.

Insults the tempests, and outstorms the skies.—J. Barlow.

OVER, for under. In these expressions, 'He wrote over the signature of Junius; ' 'He published some papers over his own signature.' A few of our writers still countenance this unwarrantable innovation; but the principle, on which it is defended, would unsettle the whole language. The use of the word under, in phrases like those above mentioned, is as well established as any English idiom.—Pickering. Mr. Hoffman, in reply to a correspondent, says:

Had our friend U., of Philadelphia, duly meditated this matter, he never would have sent us a letter with such an unpoetical expression in it as the very common blunder of "over the signature"—for the metaphorical phrase originally derived from the ensign of the soldier, the device of the knight, the armorial bearing of the baron, the totem, if you please, of the Indian sachem, under which he presents himself to the world. U., as a lawyer, must at least be more or less familiar with the phrase, "given under my hand and seal," as a true English idiom, albeit the hand and seal (which in this instance constitute "the signature") are placed at the bottom of the document. We do not talk of a vessel sailing "over" the flag of the United States, when her ensigns are sent below at sunset!—N. Y. Lit. World.

OVER-CAREFUL. Careful to excess.—Webster.

TO OVERHAUL. To gain upon in a chase; to overtake.—Webster. A seaman's phrase, sometimes used in common parlance.

OVERSLAUGH. (Dutch, overslag.) A bar, in the marine language of the Dutch. The overslaugh in the Hudson river near Albany, is, I believe, the only locality to which this term is now applied among us.

TO OVERSLAUGH. (Dutch, overslaan.) To skip over; pass over; omit. A word used by New York politicians.

Mr. Polk intended making Gen. Butler commander-in-chief, and to drop Gen. Scott. But it was found that public opinion would not be reconciled to overslaughing Taylor, and he [Gen. Taylor] was nominated.—Washington Correspondent, N. Y. Com. Adv., Oct. 21, 1846.

Van Buren is no longer feared as a candidate for the Presidency. He was overslaughed in May, when he was a candidate of some promise.—Letter from Washington, N. Y. Com. Adv., Nov. 28, 1846.
AMERICANISMS.

OWDACIOUS, for audacious. Southern and Western.

He had a daughter Molly, that was the most enticin', heart-distressin' creature that ever made a feller get owdacious.—Robb, Squatter Life.

Why, Major, you wouldn't take such a likely gall as that to New York? —the abolitionists would have her out of your hands quicker than you could say Jack Robinson. I was never so owdaciously put out with the abominable abolitionists before. It was enough to make a man what wasn't principled agin swearin', cus like a trooper.—Maj. Jones's Travels.

P.

PAAS. (Dutch, Paasch.) This Dutch name is still commonly applied to the festival of Easter, in the State of New York.

PACKAGE. A general term, comprehending bales, boxes, &c. of merchandise.—Pickering. Dr. Johnson and the early lexicographers do not notice the word. Recent authors, however, Knowles and Reid, give it a place in their dictionaries.

PAINT. In some of the Southern States, a horse or other animal which is spotted, is called a paint.

PAINTER. In the country the popular name of the cougar or panther (felis concolor). Vanderdonck, in his "History of the New Netherlands," called it a lion; and Mr. Emmons, in his "Massachusetts Report," speaks of it as the Puma or American Lion.

"You don't know the way," said Obed; "snakes'll bite ye; there's painters in the woods, and wild cats and owls."—Margaret, p. 27.

PAIR OF STAIRS. An expression often used for a flight of stairs.

PALMETTO. (Genus, chamaerops.) A species of American dwarf palm; cabbage tree.—Worcester.

PALMETTO STATE or CAPITAL. The State or capital of South Carolina; so called from the arms of the State, which contain a palmetto.

In the delightful temperature of to-day, with the rich foliage of the trees in green luxuriance, and the perfumes of a thousand beds of flowers burdening the air, the Palmetto Capital is exceedingly pleasant.—Letter from Charleston, N. Y. Tribune.
PAPPOOS. (Algonkin.) Among the native Indians of New England, a babe or young child.—Webster. It is also applied to Indian infants by the whites.

PARK. A public square or enclosure is so termed in New York. The Park, formerly called the Commons, and in which stands the City Hall, contains nearly eleven acres of ground; St. John’s Park, called the Hudson Square, has above four acres.

PARTLY. Mr. Pickering notices the use of this word in the sense of nearly, almost, in some towns of the Middle States. Ex. ‘His house is partly opposite,’ i. e. nearly opposite to mine. ‘It is partly all gone;’ i. e. nearly all gone.

PASSAGE. Enactment; the act of carrying through all the regular forms necessary to give validity; as the passage of a law, or of a bill into a law, by a legislative body.—Webster. Mr. Pickering says this word “is criticised by the English reviewers as an American innovation.” It is not in the English dictionaries in this sense.

His agency in procuring the passage of the stamp act was more than suspected.—Hosack.

PATROON. (Dutch, patron, a patron.) A grantee of land to be settled under the old Dutch governments of New York and New Jersey.

The following articles from the “Freedoms and Exemptions” granted to the Dutch West India Company, will show what were some of the privileges of the Patroons:

Art. 3. All such shall be acknowledged Patroons of New Netherland who shall, within the space of four years next after they have given notice to any of the Chambers of the Company here, or to the Commander of the Council there, undertake to plant a colonie there of fifty souls, upwards of fifteen years of age; one-fourth part within one year, and within three years of the sending of the first, the remainder, to the full number of fifty persons, to be shipped from hence, on pain, in case of wilful neglect, of being deprived of the privileges obtained, etc.

Art. 5. The Patroons, by virtue of their power, shall and may be permitted, at such places as they shall settle their colonies, to extend their limits four miles along the shore, that is, on one side of a navigable river, or two miles on each side of a river, and so far into the country as the situation of the occupiers will permit, etc.

Art. 8 The Patroons may, if they think proper, make use of all lands,
rivers, and woods lying contiguous to them, for and during so long a time as this Company shall grant them to other Patroons or particulars.

For a further account of the privileges of the Patroons, see O‘Callaghan’s History of New Netherland, Vol. I. p. 112.

PAWPAW. (Lat. annona triloba, ficus Indicus.) A wild fruit-bearing shrub, remarkable for its beauty. The fruit is nutritious, and a great resource to the Indians. “So many whimsical and compounded tastes are contained in it,” says Mr. Flint, “that a person of the most hypochondriac temperament relaxes to a smile when he tastes the pawpaw for the first time.”—Geog. of the Mississippi Valley.

PAYEE. The person to whom money is to be paid; the person named in a bill or note to whom the amount is promised or directed to be paid.—Webster. This useful word is not in the English dictionaries.

TO PEAK. To peep; to pry into. It is quite common in the popular language of New England to hear this word, which Dr. Webster supposes to be the same as peep. If it is a corruption, which is doubtful, the examples will show that its use is not modern.

Now whereof he speketh;
He eryeth and he creketh,
He pryeth and he peketh.—Shelton, Colin Cloutie, Vol. I. 312.

That other pries and pekes in everie place.—Gascoigne, p. 301.

He’s a lazy, good-for-nothin’ fellow. He’s no better than a peaking mudsucker.—Margaret, p. 20.

PEAKED. Sickly looking.—Todd. Applied to a person who is sickly, and whose face presents sharp angles. Holloway says, that in England they say of a sickly person, ‘he looks pale and peaked.’ The same expression is often heard in the Northern States.

But there was a lawyer, a standing up by the grove, lookin’ as peaked and as forlorn as an unmated coon.—Sam Slick in England, ch. 11.

PEA-NUT. The common name for the fruit of the arachis hypogea. It is also called the ground nut and earth nut. (French, pistache de terre.)

PEARIFORM. Pear-shaped. A hybrid expression.
The Western mounds are usually simple cones in form; but they are sometimes truncated, and occasionally terraced, with graded or winding ascents to their summits. Some are elliptical, others peariform, and others square or parallelogram, with flanking terraces.—Squier on the Aboriginal Monuments of the Mississippi Valley.

PECCAN NUT. The nut of the peccan tree, the carys oli-viformia of the Southern States.

PECK OF TROUBLES. Great trouble.

Neptune at that his speed redoubles,
To ease them of their peck of troubles.—Cotton, Virgil Travestie, B. I.

When I wrote my last letter to you, I was in a peck of troubles, and it did seem to me like heaven and earth was inspired agin me.—Maj. Jones's Courtship, p. 106.

PECKISH. Hungry.—Grose.

PEEKY. A term applied to timber and trees, in which the first symptoms of decay are shown.

The species of decay to which the cypress tree is liable, shows itself in detached spots in close proximity to each other. Timber affected in this way is denominated by raftsmen, peeky.—Dickeson on Cypress Timber.

PEEL. A broad thin board with a long handle, used by bakers to put their bread in and out of the oven.—Johnson. The term is by many applied to a common shovel.

PEERT. This word has the same signification as perk, but is much more frequently employed. It is either an altered form of the word perk, or a corrupt pronunciation of pert. The phrase, 'as peert as a lizard,' is sometimes heard. It is used in a good as well as a bad sense, and especially of one who is recovering, or 'looking up,' after a fit of sickness.

I gave her the best bend I had in me, and raised my bran-new hat as peert and perlite as a minister.—Robb, Squatter Life.

Speaking of the recovery of his wife from sickness, Major Jones says:

Mary's rite piert, and her child is making a monstrous good beginnin' in the world.—Courtship, p. 200.

That fellow must think we were all raised in a saw mill, he looks so peert whenever he comes in.—Hoffman, Winter in the West.

Well, I starts off pretty considerable peert and brisk, considering I was weak.—Carlton, The New Purchase, Vol. I. p. 178.

PEE-WEE. The name given by boys to a little marble.
PEET-WEET. (Genus, totanus.) The spotted Sandpiper or Sand-lark of ornithologists, but better known among the people by the name of peet-weet, in allusion to its notes; or of teeter and tilt-up from its often repeated grotesque jerking motions.—Dr. DeKay in Nat. Hist. of New York.

PEMICAN. A far-famed provender of man, in the wilds of North America, formed by pounding the choice parts of the meat very small, dried over a slow fire or in the frost, and put into bags made of the skin of the slain animal, into which a portion of melted fat is then poured. The whole being then strongly pressed and sewed up, constitutes the best and most portable food for the “voyageurs,” and one which, with proper care, will keep a long time. Fifty pounds of meat and forty pounds of grease make a bag of pemican. Sweet pemican is another kind, made chiefly of bones.—Dunn’s Oregon, p. 59.

PENN. The common abbreviation for Pennsylvania.

PERFECTIONIST. One pretending to perfection; an enthusiast in religion.—Webster.

Among the highest puritan perfectionists, you shall find people of fifty, threescore, and fourscore years old, not able to give that account of their faith which you might have had heretofore from a boy of nine or ten.—South’s Sermons, Vol. IV.

There he met a perfectionist, ready for heaven,
Only waiting till Heaven was willing;
And he found him one-half a perfect fool,
The other half a perfect villain.—Devil’s New Walk, Boston, 1848.

PERIAUGER. (Spanish, piragua.) A small schooner without a bowsprit, and with a lee board, used in the waters of New York and New Jersey.

Steamboats, lighters, periaugers, scows, clam-boats, and nondescript water-witches of every sort, have arrived hourly from quarantine, loaded with almost entire villages of men, women, and children [German and Irish emigrants].—N. Y. Commercial Advertiser.

PERIODICAL. A magazine or other publication, that is published at stated or regular periods.—Webster.

PERK. Lively; brisk; holding up the head.—Webster. This old word, still provincial in England, is used in the interior
of New England, and is commonly pronounced peark (the ea as in pear).—Pickering.

My ragged ronts
They wont in the wind wag their wriggle tails,
'Perk as a peacock; but now it avails.—Shepherd's Calendar.

PERSIMMON. (Diospyros Virginiana.) This tree is unknown in the North-eastern parts of our country; but south of latitude 42° it is found throughout the United States. It varies exceedingly in size, being sometimes sixty feet in height, with a trunk twenty inches in diameter, but more frequently does not attain half these dimensions. The fruit is about an inch in diameter, and is powerfully astringent. The wood is very hard, and is used for large screws, mallets, shoe lasts, wedges, &c. In clearing the forests, the persimmon is usually preserved; and it is probable that the quality of the fruit might be improved by cultivation.—Encyc. Amer.

PERTEND UP. Better; more cheerful.—Sherwood's Georgia.

PESKILY. Very; extremely; confoundedly. I know not the origin of this New England word.

Skeered, says he, serves him right; he might have known how to feel for other folks, and not funkify them so peskily.—Sam Slick in England.

I'm peskily sorry about that mare.—Ibid. ch. 28.

The Post Office accounts were the next bother; and they puzzled all on us peskily.—Maj. Downing's Letters, p. 139.

PESKY. Great; very; exceedingly.

I found [looking for houses] a pesky sight worse job than I expected.—Downing, May-day in New York, p. 36.

I wonder how he's on't for face-cards; ha! ha! So pesky slow, we shan't get through to-night.—Margaret, p. 305.

The thing of it is, people has got to be so pesky proud and perlite.—Ibid. p. 141.

PETER FUNK. At the petty auctions a person is employed to bid on articles put up for sale, in order to raise their price. Such a person is called a Peter Funk; probably from such a name having frequently been given when articles were bought in. At the mock auctions, as they are called in New York, this practice of having by-bidders is carried to a great extent; and strangers, unacquainted with their tricks, are often cheated
by them. Grose describes a person similarly employed in England, under the name of *puffer*.

**PHEESE.** A fit of fretfulness. A colloquial, vulgar word in the United States.—*Worcester*. The adjective *pheesy*, fretful, querulous, irritable, sore, is provincial in England.—*Forby*. Also written *feeze*, which see.

**PICAYUNE.** The name for the Spanish half real in Florida, Louisiana, etc. See *Federal Currency*.

**PICAYUNE.** Sixpenny. Sometimes used metaphorically for small.

There is nothing *picayune* about the members of St. George's [Cricket] Club; for the love of sport, they will almost invariably enter upon matches that other clubs would not accept.—*N. Y. Herald*.

**PICKANINNY.** A negro or mulatto infant. Used in the Southern States. Mr. Boucher, in his Glossary, suggests that this word is from the Spanish *picade niño*, *pequeno niño*. It is more probably of African origin.

I jest sauntered in as he was puttin' up the *pickaninny* yaller gal, about five years old.—*Robb, Squatter Life*.

**PICK-BACK.** On the back.—*Johnson*. We often use the word with children. To ride *pick-back*, is for a child to ride across one's back, with its arms around the neck.

For as our modern wits behold,
Mounted a *pick-back* on the old,
Much farther off; much farther he,
Rais'd on his aged beast, could see.—*Hudibras*.

**TO PICK.** To eat like a bird; that is, slowly and by small morsels. Ex. 'I have little appetite, but think I can *pick* a bit;' 'You will find some good *picking* on that fowl.'

**PICKLE.** To have a *rod in pickle*, or in *soak*, is to have a flogging prepared for one. The phrase is often used in jest, here as in England.

**PICK-UP.** A *pick-up*, or a *pick-up* dinner, is a dinner made up of such fragments of cold meats as remain from former meals. The word is common in the Northern States.

**PIECE.** A little while. 'Stay a *piece.*' Provincial in the north of England.—*Johnson*. The common expression is, 'Wait a bit.'

PIG-YOKE. Among seamen, the name for a quadrant, from its resemblance to a pig-yoke.

PILE. (Dutch, *pyl.*) An arrow. This word is still retained by the boys of New York.

PIMPING. Little; petty; as, 'a pimping thing.'—Skinner. Used in the interior of New England.

Was I little? asked Margaret. Yes, and pimpin' enough. And I fed your marm with rue and comfrey-root, or ye never'd come to this.—Margaret, p. 19.

ON A PINCH. On an emergency.

At a fight in Albany, New York, on the 12th instant, one man was stabbed desperately with a dirk. Upon a pinch, they can stab a little at the North.—New Orleans Paper.

They can't go ahead of us in England in racin'. We have colts that can whip chain-lightnin' on a pinch.—Sam Slick in England, ch. 19.

I have the best accommodations in the city, said the landlord. I can lodge 200 persons with all the ease in the world, and 300 upon a pinch.—Perils of Pearl Street, p. 142.

PINE BARRENS. A term applied to level, sandy tracts, covered with pine-trees, in the Southern States.—Worcester.

The road which I had to travel, lay through a dreary and extensive forest of pine trees, or, as it is termed by the Carolinians, a pine-barren, where a habitation is seldom seen, except at intervals of ten or twelve miles.—Lambert's Travels, Vol. II. p. 226.

PINK. Used here as in England, like the word flower, to denote the finest part, the essence; as, 'She is the pink of perfection.'

I am the very pink of courtesy.—Shakspeare, *Romeo and Juliet.*
Then let Crispino, who was ne'er refused
The justice yet of being well abused,
With patience wait; and be content to reign
The pink of puppies in some future strain.—Young.

Mr. Smoothly was the mirror of fashion, and the pink of politeness.—Perils of Pearl Street, p. 25.

AMERICANISMS.

PINXTER. (Dutch, pingster.) Whitsunday. On Pinxter Monday, the Dutch negroes of New York and New Jersey consider themselves especially privileged to get as drunk as they can.

Pinkster fields, and pinkster frolics, are no novelties to us, sir, as they occur at every season; and I am just old enough not to have missed one of them all, for the last twelve years.—Cooper, Satanstoe, Vol. I. p. 90.

PINXTER BLUMACHY. (Dutch.) A familiar name in the State of New York for the Azalea nudiflora. May-apple is another name for the same plant.

PIPE-LAYING. This term, in political parlance, means any arrangement by which a party makes sure of a certain addition to its legitimate strength in the hour of trial—that is, the election. In other words, to lay pipe means to bring up voters not legally qualified.

It were too long a story to tell the origin of the term at length. In brief, it arose from an accusation brought against the Whig party of this city (New York) some years ago, of a gigantic scheme to bring on voters from Philadelphia. The accusation was made by a notorious Democrat, of not very pure political character, who professed to have derived his information from the agent employed by the Whigs for the service. This agent had actually been employed by certain leaders of the Whig party, but on a service deemed legitimate and proper in the art of electioneering. He, however, turned traitor, and, as was alleged by the Whigs, concocted a plot with the notorious Democrat to throw odium upon the Whigs. A mass of correspondence was brought forward in proof, consisting mainly of letters written by the agent to various parties in New York, apparently describing the progress and success of his operations. In these letters, as if for the purpose of concealment, the form of a mere business
correspondence was adopted—the number of men hired to visit New York and vote, being spoken of as so many yards of pipe—the work of laying down pipe for the Croton water being at that time in full activity.

The Whig leaders were indicted, on the strength of these pseudo revelations, and the letters were read in court; but the jury believed neither in them nor in the writer of them, and the accused were acquitted.

The term "pipe-laying," however, was at once adopted as a synonym for negotiations to procure fraudulent votes. [J. Inman.]

**PIRATE.** A sea-robber; any robber; particularly a bookseller who seizes the copies of other men.—Johnson.

Some of our large publishing houses may not be aware that there is such good authority for applying the term *pirate* to them, as is found in the following quotation:

This poem was written for his own diversion, without any design of publication. It was communicated but to me; but soon spread, and fell into the hands of *pirates*. It was put out, vilely mangled, and impudently said to be corrected by the author.—Johnson, *Life of J. Philips*.

**PISTAREEN.** The Spanish *peseta* Sevillana, or one-fifth of a dollar. A silver coin, formerly common in the United States, of the value of twenty cents. They have now become so much worn that they pass but for seventeen cents.

**TO PIT.** A pit is the area in which cocks fight; hence, 'to *pit* one against another,' to place them in the same *pit*, one against the other, for a contest; to put or place as a match.—Richardson.

A gentleman came into our office, from Colton, and deliberately *pitted* that town against the county for tall grass.—Ogdensburgh Sentinel.

**PIT.** (Dutch, *pit*, a kernel.) The kernel or nut of fruit; as, a cherry-*pit*. Peculiar to New York.

You put an apple-seed or a peach-*pit* into the ground, and it springs up into the form of a miniature tree.—Prof. Bush on the Resurrection.

**ITPAN.** In the West Indies, a very long, narrow, flat-bottomed, trough-like canoe, with thin and flat projecting ends.

**PLAGUILY.** Vexatiously; horribly. A low word.—Johnson.
You look'd scornful, and snift at the dean;
But he durst not so much as once open his lips,
And the doctor was plaguy down in the hips.—Swift.

I am puzzled most plaguy to get words to tell you what I think.—Maj. Downing's Letters, p. 3.

PLAGUY. In the United States used adverbially, in the same sense as plaguily.

The circumstances of the case should make the committee less "avidus gloria," for all praise of them would look plaguy suspicious.—Lord Byron to Lord Holland, Let. 107.

The Prince de Joinville is a plaguy handsome man, and as full of fun as a kitten.—Sam Slick in England, ch. 22.

PLAGUY SIGHT. This is a very common expression in the colloquial language of New England, and means, a great deal.

Squire, said Slick, I'd a plaguy sight sooner see Ascot than anything else in England.—Sam Slick in England, ch. 19.

TO PLANK. To lay; to put; generally applied to money; as, 'He planked down the cash.'

I've had to plank down handsome, and do the thing genteel, but Mr. Landlord found he had no fool to deal with, neither.—S. Slick in England.

Why, says he, shell out, and plank down a pile of dollars.—Ibid.

During the last war he planked up more gold and silver to lend the government than Benton ever counted.—Crockett, Tour, p. 59.

PLANTER. In Newfoundland, a person engaged in the fishery.

PLANTER. A term applied to a piece of timber or the naked trunk of a tree, one end of which is firmly planted in the bed of a river, while the other rises near the surface of the water. This is the most dangerous among the "snag and sawyer" family, to which vessels, navigating the Western rivers, are exposed. See Snag and Sawyer.

PLATFORM. In some of the New England States an ecclesiastical constitution, or a plan for the government of churches; as, the Cambridge or Saybrook platform.—Webster. The same use of this word is made by English divines.

Their minds and affections were universally bent even against all the orders and laws wherein the church is founded, conformable to the platform of Geneva.—Hooker.
A platform of church discipline, gathered out of the word of God, and agreed upon by the elders and messengers of the churches assembled at the synod in Cambridge in New England.—Title of book printed, London, 1653.

PLAY-ACTOR. A pleonastic expression for the English term player or actor. It is used only in the United States.

PLEAD or PLED, for pleaded. It has been correctly remarked, that there is no such word as pled in the English language. It is true that the preterite and past part. of the verb to read is pronounced red; but there is no analogy between the two verbs, except their accidental similarity of sound. The former is the Anglo-Saxon verb rēdan, and is conjugated accordingly; whereas the latter is the old French plaider, and therefore cannot admit what philologists call the "strong inflexion." This vulgar mistake is often met with in our reports of legal proceedings and elsewhere. But it is not of recent origin, nor is it exclusively American; as is shown by the following example from Spenser, furnished by Richardson:

With him . . . . came
Many grave persons that against her pled.—Spenser, Fairy Queen.

An old offender was caught last night in a warehouse, with a dark lantern and all the other implements of his profession, and next morning innocently plead "somnambulism" when brought before the magistrate—having no recollection of the doings of the night since he went to bed, early in the evening, and found himself in the watch-house in the morning.—New York Paper.

PLENTY. Plentiful; in abundance.—Webster. Opinions differ as to this use of the word. Johnson regards it as "barbarous;" while Webster thinks it "too well authorized to be rejected." Dr. Johnson seems clearly in the right, notwithstanding; the word being the old French abstract noun plenté, which we are not entitled to turn into an adjective because it happens to end in y.

To grass with thy calves
Where water is plenty.—Tussor's Husbandry.

If reasons were as plenty as blackberries, I would give no man a reason on compulsion.—Shakespeare, Henry IV.

They were formed for those countries where shrubs are plenty and water scarce.—Goldsmith.

When laborers are plenty, their wages will be low.—Franklin.
PLUMPER. At an election, a full vote, to one candidate, not shared with another.—Richardson. We use the word in the same sense; for example, 'Let the Whig voters turn out in a body, and give Harry Clay a plumper.'

PLUNDER. Personal luggage, baggage of travellers, goods, effects. A very common word throughout the Southern and Western States. It is never heard in this sense in New England.

When we got loaded up, I was afraid old Bosen was going to have more'n his match to pull us, they'd put in so much plunder. Two trunks, band-boxes, &c.—Maj. Jones's Courtship, p. 165.

Help yourself, stranger, added the landlord, while I tote your plunder into the other room.—Hoffman, Winter in the West, Let. 33.

POHAGEN. A fish of the herring species. The Menhaden of Rhode Island. Maine.

POKE. A bag. I have heard this old word used by some persons here in the compound term cream-poke; that is, a small bag through which cream is strained.—Pickering.

POKE. A lazy person; a dawdle. 'What a slow poke you are!' A woman's word.

POKE, or POKE-WEEED. (Lat. phytolacca.) A common plant, known also by the names of Garget, Cocum, Jalap, &c. It is a violent emetic.—Bigelow's Plants of Boston.

POKE. In New England, a machine to prevent unruly beasts from leaping fences, consisting of a yoke with a pole inserted, pointing forward.—Webster.

TO POKE. To put a poke on; as, to poke an ox.—Webster.

TO POKE FUN. To joke; to make fun. To poke fun at, is to ridicule, make a butt of one.

The widow admonished Nimrod, and said, "You had better not be pokin your fun about."—Margaret, p. 49.

Jeames, if you dont be quit poking fun at me, I'll break your mouth, as sure as you sit there.—Neal's Charcoal Sketches.

POKE-BONNET. A long, straight bonnet, much worn by Quakers and Methodists.

POKE-LOKEN. An Indian word, used by hunters and lum-
bermen in Maine, to denote a marshy place or stagnant pool, extending into the land from a stream or lake.

POKER. A favorite game of cards among Southern gamblers.

POKER. (Dan. *pokker*, Welsh *puca*, a hobgoblin.) Any frightful object, especially in the dark; a bugbear; a word in common use in America.—*Webster*.

POKERISH. Frightful; causing fear, especially to children. A childish or colloquial word.—*Worcester*.

POLLYWOG, or POLLYWIG. A tadpole. Mr. Forby has the word *puriwiggy*, a tadpole, of which *pollywig* is a corruption. He derives it from *periwig*, from the resemblance the tadpole bears to that antiquated article of finery, the wig with a long queue, as well as to a *pot-ladle*, by which name it is also called.—*Norfolk Glossary*.

POMME BLANCHE. (Fr.) White apple. A native of the prairies and mountains, oval-shaped and about three and a half inches in circumference. It is encased in a thin fibrous tegument, which, when removed, exposes a white pulpy substance, and in taste resembles a turnip.—*Scenes in the Rocky Mountains*, p. 107.

POND. We give this name to collections of water in the interior country, which are fed by springs, and from which issues a small stream. These *ponds* are often a mile or two or even more in length, and the current issuing from them is used to drive the wheels of mills and furnaces.—*Webster*.

There were streams meandering among hills and valleys; little lakes or *ponds*, as they were erroneously called in the language of the country, dotted the surface.—*Cooper, Satanstoe*, Vol. 1. p. 144.

TO PONY UP. A vulgar phrase, meaning to pay over money. Ex. *Come, Mr. B—*, *pony up that account,* that is, pay over the money. Grose gives a phrase similar to it: *Post the pony,* i. e. lay down the money.

It was my job to pay all the bills. *"Salix, pony up at the bar, and lend us a levy."*—*J. C. Neal, Sketches*.

POOR AS JOB'S TURKEY. A common simile.
The professor is as poor as Job's turkey, if it wasn't for that powerful salary the trustees give him.—Carlton, The New Purchase, Vol. II. p. 85.

POP. Papa. A term used in the country.

POPPED CORN. Parched Indian corn, so called from the noise it makes on bursting open. The variety usually prepared in this way is of a dark color, with a small grain.

PORGY, or PAUGIE. Pron. with the g hard. (Indian, scuppaug.) A fish of the sparus family, common in the waters of New England and New York. Roger Williams mentions it in his Key to the Indian Language (1643). It is singular that one half the aboriginal name, scup, should be retained in Rhode Island for this fish, and the other half, paug, changed into paugie, or porgy, in New York. The entire Indian name, however, is still common in many parts of New England.

PORTAGE. A carrying place over land between navigable waters, or along the banks of rivers, round water-falls or rapids, &c.—Pickering. This word has been adopted by geographers, and is universal throughout North America.

POSITION. 'Defining one's position' is a political practice of modern days, generally resorted to either by gentlemen who have no other good chance or prospect of bringing themselves to the special notice of the public, as a sort of advertisement that they are in the market, or by other gentlemen who contemplate making a dodge from one side in politics to the other. It is done either orally or in writing; by a speech in Congress or at some public meeting; or by a long letter, published in some newspaper, the editor of which is always glad of something to fill his columns. The highest art in 'defining one's position' is to leave it more indefinite than it was before, so that any future contingency may be taken advantage of. [J. Inman.]

The Barnburners' Mass Meeting, to non-respond to the nominations of Cass and Butler, will take place in the Park at 5 this afternoon, and be addressed by John Van Buren, B. F. Butler, Sedgwick, Field, Gen. Nye. &c. &c. We regret that unavoidable absence at Philadelphia will deprive us of the pleasure of hearing these gentlemen "define their position," especially Prince John, who has the reputation of being the most straight-
DICTIONARY OF

forward, plain-spoken, flat-footed 'Burner in the country. It is a rare treat to hear a man speak who actually means something, and isn't afraid to say it. Let us hear what the Barnburner platform is; and when Gen. Cass comes along (probably to-morrow or next day), the Hunkers will have a chance to set forth their notions. We shall endeavor to report both.—N. Y. Tribune, June 6, 1848.

PORTAAL. (Dutch.) A portal, lobby. Used by people of Dutch descent, in New Jersey and New York, for a small passage or entry of a house, and pronounced pit-all. The principal entrance they call the gang; also Dutch.

PORTMANTLE. Portmanteau; a valise.

What do you say to a lad with a portmante on his shoulders, like Ishmael Small?—Mathews, Puffer Hopkins.

POST-NOTE. In commerce, a bank-note intended to be transmitted to a distant place by mail, and made payable to order. In this it differs from a common bank-note, which is payable to bearer.—Webster.

Post-notes differ in other respects from bank-notes. The latter are payable on demand; the former are often drawn on time, with or without interest, sometimes six or twelve months after date. This species of currency was resorted to by many banks during the great commercial revulsions in 1836-7, and thereby contributed greatly to the expansion of credits which proved so disastrous to the country.

TO GO TO POT. To be destroyed, wasted, or ruined.—Johnson. Webster. Though much used, it is considered a low phrase both in England and America.

The sheep went first to pot, the goats next, and after them the oxen, and all little enough to keep life together.—L'Estrange.

John's ready money went into the lawyer's pockets; then John began to borrow money upon the bank-stock; now and then a farm went to pot.—Arbuthnot, J. Bull.

POTTY-BAKER. (Dutch, potte-bakker.) A potter. This Dutch word is still common in New York. Potter's clay is here called potty-baker's clay.

POWER. A large quantity; a great number. In low language; as, 'a power of good things.'—Johnson.

He, to work him the more mischief, sent over his brother Edward, with a
power of Scots and Redshanks, into Ireland, where they got footing.—Spenser on Ireland.

I think the Post Office Committees will do a power of good, if they can stir up the old contracts and extras.—Crockett, Tour, p. 118.

He made a power of money.—Ibid. p. 59.

POWERFUL. Great; very; exceedingly. A vulgar use of the word in some parts of the country.

This piano was sort o' fiddle like—only bigger,—and with a powerful heap of wire strings. It is called a forty piano, because it plays forty tunes.—Carlton's New Purchase, Vol. II. p. 8.

Yes, Mr. Speaker, I'd a powerful sight sooner go into retiracy among the red, wild aborigines of our wooden country, nor consent to that bill.—Carlton, The New Purchase, Vol. I. p. 74.

Mrs. S. Hoarhound and sugar's amazin' good.
Mrs. B. Mighty good, mighty good.
Mrs. R. Powerful good. I take mightily to a sweat of sugar tea in desperate bad colds.—Georgia Scenes, p. 193.

It may be said generally of husbands, as the old woman said of hers, who had abused her, to an old maid, who reproached her for being such a fool as to marry him: "To be sure, he's not so good a husband as he should be, but he's a powerful sight better than none."—N. Y. Sunday Dispatch.

POW-WOW. (Indian.) This is the name given by the early chroniclers to the feasts, dances, and other public doings of the red men, preliminary to a grand hunt, a council, a war expedition, or the like. It has been adopted, in political talk, to signify any uproarious meeting for a political purpose, at which there is more noise than deliberation, more clamor than counsel. [J. Inman.]

A murder was recently committed upon a Sioux by two Chippewas. The body of the murdered Indian was taken to the fort, where a most terrific powwow was held over it by the friends of the deceased, 300 in number.—Western Newspaper.

PRAIRIE. (French.) An extensive tract of land, mostly level, destitute of trees, and covered with tall, coarse grass. These prairies are numerous in the United States west of the Alleghany Mountains, especially between the Ohio, Mississippi, and the great lakes.—Webster.

PRAIRILLON. A small prairie.

Interspersed among the hills, are frequent openings and prairillons of rich soil and luxuriant vegetation.—Scenes in the Rocky Mountains, p. 172.
PRAIRIE-BITTERS. A beverage common among the hunters and mountaineers. It is made with a pint of water and a quarter of a gill of buffalo-gall, and is considered an excellent medicine.—Scenes in the Rocky Mountains, p. 133.

PRAIRIE-DOG. (Aretomys ludovicianus.) Called by the Indians Wistonwish. A variety of the marmot. It has received the name of Prairie-dog from a supposed similarity between its warning cry and the barking of a small dog. They live in large communities; their villages, as they are termed by the hunters, sometimes being many miles in extent. The entrance to each burrow is at the summit of the mound of earth thrown up during the progress of the excavation below. This marmot, like the rest of the species, becomes torpid during the winter, and, to protect itself against the rigor of the season, stops the mouth of its hole, and constructs a cell at the bottom of it, where it remains without injury.—Encyclopedia Americana. Also called Gopher.

The good people of Porter, Wisconsin, resolved to exterminate the gophers in that locality, and determined to have a hunt; to see if they could not annihilate them. Twenty men were chosen on a side, and the party that was beaten was to pay for a supper for the whole party. The result was that they killed 3,196 gophers.—Wisconsin Paper.

PRAIRIE-HEN. The pinnated grouse of ornithologists. It is also called Heath-hen and Grouse in some parts of the country.—Audubon's Ornithology.

PRAYERFUL. Using prayer; praying; devout.—Worcester.

PRAYERFULLY. Devoutly. Ex. 'We may be prayerfully disposed.' Used by some of the clergy.—Webster. Pickering.

PRAYERLESS. Not praying or using prayer; indelout.

This word, as also prayerful and prayerfully, though modern, are now much used.—Worcester.

Mr. Pickering says this word is used by Whitfield.

PRAYERFULNESS. The use of much prayer.—Webster.

PRAYERLESSNESS. Total or habitual neglect of prayer.—Webster.

PREDICATE. To predicate on or upon, is to found a proposi-
tion, argument, etc. on some basis or data. This sense of the word, said to be purely American, is not noticed by Dr. Webster or the English lexicographers. "Its use," as Mr. Pickering observes, "is very common with American writers, and in the debates of our legislative assemblies."

It ought surely to be predicated upon a full and impartial consideration of the whole subject.—Letter of John Quincy Adams.

The great state papers of American liberty were all predicated on the abuse of chartered, not of absolute rights.—Gibbs, Adminis. of Washington and J. Adams, Vol. I. p. 3.

PREHAPS, for perhaps, is much used at the West in familiar language when additional force is to be given to the word. It originated in a jocose mispronunciation, which appears to be becoming a fixed corruption.

Prehaps Parson Hyme didn't put it into Pokerville for two mortal hours; and prehaps Pokerville didn't mizzle, wince, and finally flummix right beneath him!—Field, Drama in Pokerville.

PRESENT. Put on the back of letters to persons residing in the place where the letter is written. Peculiar to the United States. The Spanish equivalent presente is also used in Central America.

PRESIDENCY. 1. The office of president. ‘Washington was elected to the presidency of the United States by a unanimous vote of the electors.’

2. The term during which a president holds his office. ‘President John Adams died during the presidency of his son.’—Webster.

PRESIDENTIAL. Pertaining to a president.—Webster. In this sense the word is an Americanism. It is of course very common and indispensable with us, and is sometimes used by English writers in treating of American affairs.

The friends of Washington had determined to support Mr. Adams as candidate for the presidential chair.—Quarterly Rev., Vol. X. p. 497.

PRETTY CONSIDERABLE. Tolerable, pretty well; tolerably, pretty. A New England vulgarism.

I went to the theatre in Boston, where the acting was pretty considerable, considering.—Crockett, Tour, p. 87.

Dear Col. Crockett—I have heard of you a great deal lately, and read
considerable of your writings; and I feel pretty considerable well acquainted with you.—Maj Downing, Letter to Crockett, Tour, p. 217.

There are some folks who think a good deal, and say but little, and they are wise folks; and there are others again, who blurt out whatever comes uppermost, and I guess they are pretty considerable superfine fools.—Sam Slick.

PREVENTATIVE. A corruption sometimes met with for preventive both in England and America.

A cry was raised for the establishment of a preventative armed police; but the madness of such a proposal could not long escape observation.—Edinb. Annual Reg., Vol. V. p. 99.

PRIME. Primely; in a first rate manner. This is one of the many English adjectives which, in our vulgar language, are transformed into adverbs.

After a little practice with my gun, she came up to the eye prime, and I determined to try her at the first shooting match.—Crockett, Tour, p. 175.

PRIMINARY. Predicament; difficulty. Used in the Southern States.—Sherwood's Georgia. I am told that this word is also used by old people living on Long Island. It is provincial in the North of England.

PRINTERY. Bakery, bindery, have long been in use amongst us, and in New York even paintery and printery. In process of time a church may be called a preachery.

PROFANITY. This word is in common use here, more particularly with our clergy. It is not in the dictionaries, and I do not recollect ever meeting with it in English authors. The Scottish writers employ it; but English writers use the word profaneness.—Pickering. It appears, however, that English authors are beginning to use it; see Worcester on the word.

PROFESSOR. One visibly or professedly religious.—Worcester. A very odd use of the word to those not accustomed to it.

PROG. Victuals; provisions of any kind. A low word.—Johnson. This word is often heard in New York and New England in familiar language.

O nephew! your grief is but folly;
In town you may find better prog.—Swift, Miscellanies.
AMERICANISMS.

Spouse tuckt up doth in pattens trudge it
With handkerchief of prog, like truth with budget;
And eat by turns plumcake, and judge it.—Congreve.

TO PROGRESS. To move forward; to pass.—Johnson. This
is not a pure Americanism, as some suppose, but an old
English word which had been suffered to become obsolete.
It was revived here after the Revolution (see Pickering), and
has lately been taken into favor again in England.
The Penny Cyclopedia (art. Americanism) says, "The old
verb progress, which the Americans use very often and pro-
nounce progrès, is now beginning to be again adopted in its
native country, though we think we could do very well
without it."

Let me wipe off this honorable dew,
That silverly doth progress on thy cheeks.—Shakespeare.
—Although the popular blast
Hath reared thy name up to bestride a cloud,
Or progress in the chariot of the sun.—Ford, Broken Heart.

Such are the inconsistencies of a flatterer, progressing from his butterfly
state into the vermicular slime of a libeller.—London Quarterly Review.

"Her first teacher was but himself, at that time, a pupil; but she pro-
gressed under his tuition."—Mary Howitt, People's Journal.

They progress in that style in proportion as their plans are treated with
contempt.—Washington's Writings.

After the war had progressed for some time.—Marshall's Washington.

PROPER. Very. Colloquial in England and the United
States.
The day was gone afore I got out of the woods, and I got proper fright-
ened.—Sam Slick in England, ch. 18.

Father jest up with the flat of his hand, and gave me a wipe with it on
the side of my face, that knocked me over, and hurt me properly.—Sam

PRO-SLAVERY. In favor of slavery. An expression much
used by political speakers and writers, although not yet
inserted in the dictionaries.

We have devoted every inch we could spare to this debate; and though
two-thirds of what we publish was intended to favor slavery, we are
confident that the whole will signal ly promote the cause of universal
freedom. At all events, we shall see the pro-slavery journals through the Free States very carefully refraining from giving it publicity.—N. Y. Tribune, April, 1848.

It takes a despot, a craven, and a slave, compounded together, to make a pro-slavery legislator in a free State. The last legislature of Ohio had a majority of just such creatures. Noses of wax! stay pinched, just as the slaveholder's thumb and finger left you. Dough-faces! wear the prints of your master's knuckles, and the traces of their spittle. They are your coats of arms, and they fit ye—your titles of nobility, and they'll stick to ye. Snow water and soap won't wash them off, nor your hot tears either—nor fire burn them out, nor paint hide them, nor plasters cover them. You have worked hard for infamy, and you have got it.—Anti-Slavery Almanac.

PROTRACTED MEETING. A name given in New England to a religious meeting, protracted or continued for several days, chiefly among the Presbyterians, Congregationalists, Methodists, and Baptists. Notice is sometimes given that a protracted meeting will be held at a certain time and place, where large numbers of people assemble.

PROUD. Glad; as, 'I should be proud to see you.'

PROX, or PROXY. The use of these words is confined to the States of Connecticut and Rhode Island. Prox, in Rhode Island, means the ticket or list of candidates at elections presented to the people for their votes. By a law of the colony of Providence Plantations passed in the year 1647, the General Assembly was appointed to be holden annually, "if wind and weather hinder not, at which the general officers of the colony were to be chosen." This clause made it convenient for many to remain at home, particularly as they had the right to send their votes for the officers by some other persons; hence the origin of these terms prox and proxy votes, as applied to the present mode of voting for State officers in Rhode Island.—Staples's Annals of Providence, p. 64.

Mr. Pickering observes that this word is also used in Connecticut, as equivalent to election, or election-day. He quotes the following instances from a Connecticut newspaper:

Republicans of Connecticut; previous to every proxies you have been assaulted on every side.

On the approaching proxies we ask you to attend universally.

Dr. Webster, with whom New England, or rather Con-
necticut, seems to have been a synonym for "all creation," says, the word means, "in popular use, an election or day of voting for officers of government."

PRY. A large lever employed to raise or move heavy substances. Used also in some parts of England.—Worcester.

TO PRY. To move or raise by means of a large lever.—Worcester.

PUBLICIST. A writer on the laws of nature and nations; one who treats of the rights of nations.—Webster. It is seldom used by English writers. In this country Kent, Duponceau, Gallatin, and others have employed it.

In this particular the two German courts seem to have as little consulted the publicists of Germany, as their own true interests.—Edmund Burke.

There is no impartial publicist that will not acknowledge the indubitable truth of these positions.—Gallatin, Peace with Mexico, p. 8.

At Copenhagen he rendered distinguished services, and laid the foundation of that reputation as a publicist which has extended to both hemispheres.—Mem. of the Hon. Henry Wheaton, Providence Journal.

PUBLISHMENT. A publishing of the banns of marriage, which is required by law in New England. In popular usage this is a publishment, as, 'Mr. Doe and Miss Roe's publishment took place to-day.'

Any persons desiring to be joined in marriage, shall have such their intentions published . . . . or posted up by the clerk of each town; and a certificate of such publishment . . . . shall be produced as aforesaid previous to their marriage.—Statutes of Massachusetts, 1786.

PUCKER. A fright; a state of perplexity or trouble; agitation. Provincial in England.

TO PULL FOOT. To walk fast; to run.

I look'd up; it was another shower, by Gosh. I pulls foot for dear life.—Sam Slick in England, ch. 2.

I thought I'd run round two or three streets. So I pulled foot, and hunted and sweat till I got so tired I couldn't but just stand.—Maj. Downing's May-day in New York.

TO PULL UP STAKES. To pack up one's furniture or baggage preparatory to a removal; to remove.

If this stranger is to receive countenance, then I'll pull up stakes and depart from Tinneum for ever.—Knickerbocker Magazine.

**PUMPKIN.** The common name for the pompion throughout the United States.

**PUNCHEONS.** A term which, in Georgia, means split logs, with their faces a little smoothed with an axe or hatchet.

The Squire's dwelling consisted of but one room. The house was constructed of logs, and the floor was of puncheons.—*Georgia Scenes*, p. 12.

**PUNG.** A rude sort of sleigh, or oblong box made of boards and placed on runners, used for drawing loads on snow by horses.—*Worcester*.

These were sledges or pungs, coarsely framed of split saplings, and surmounted with a large crockery-crate.—*Margaret*, p. 174.

**PUNK.** Rotten wood; touchwood; spunk. A word in common use in New England, as well as in the other Northern States and Canada. Ash defines it "a kind of fungus, often used for tinder."—*Pickering*.

**PUPELO.** A name for cider-brandy, formerly manufactured in New England to a great extent.

Hain’t they got any of the religion at your house? No, marm, they drink pupelo and rum.—*Margaret*, p. 52.

**TO STAY PUT.** To remain in order; not to be disturbed. A vulgar expression.

The levees and wharves of the First Municipality won’t "stay put;" last evening that part of the levee opposite Customs House street, which had caved in and was since filled, sunk suddenly ten feet.—*N. O. Picayune*.

**PUT OFF.** An excuse, an illusory pretext for delay.—*Carr's Craven Dialect*.

If a man tells them of the king’s proceedings, then they have their shifts and their put offs.—*Latimer’s Sermons*.

The fox’s put off is instructive towards the government of our lives, provided his foiling be made our earnest.—*L’Estrange*.

**TO PUT ON AIRS.** To assume airs of importance.

You don’t see no folks putting on airs in election time; every fellow is then as good as another, and some a darn’d sight better.—*N. O. Delta*.

**TO PUT OUT.** To start; to set out.

Well, I put out for the Planter’s as fast as I could, where you know I found you at last.—*Major Jones’s Courtship*, p. 63.
TO PUT OUT. To offend.
There is no affectation in passion; for that "putteth a man out of his precept, and in a new case their custom leaveth him.—Bacon.
The Captain's wife was at the office yesterday, and seemed a little "put out" about it.—Dombey and Son, ch. 23.

QUILLING. A piece of reed, on which weavers wind the thread which forms the woof of cloth, is called a quill; an old English word. In New England a certain process of winding thread is called quilling.
The child, Margaret, sits in the door of her house, on a low stool, with a small wheel, winding spools, in our vernacular quilling.—Margaret, p. 6.

R.
RACE. A strong or rapid current of water, or the channel or passage for such current; as a mill-race.—Webster.

RADDLE. In New England, an instrument consisting of a wooden bar, with a row of upright pegs set in it, which is employed by domestic weavers to keep the warp of a proper width, and prevent it from becoming entangled, when it is wound upon the beam of a loom.—Webster.

RAFT. A frame or float, made by laying pieces of timber
across each other.—Johnson. In North America rafts are constructed of immense size, and comprise timber, boards, staves, &c. They are floated down from the interior to the tide waters, being propelled by the force of the current, assisted by large oars and sails, to their place of destination. The men employed on these rafts construct rude huts upon them, in which they often dwell for several weeks before arriving at the places where they are taken to pieces for shipping to foreign parts.

RAFT. This term is also given to a large collection of timber and fallen trees, which, floating down the great rivers of the West, are arrested in their downward course by flats or shallow places. Here they accumulate, and sometimes block up the river for miles. The great raft on Red river extended twenty miles, and required an immense outlay of money to remove it in order to make the river navigable.

Gigantic wrecks of the primitive forests, tossed about by the invisible power of the current, as if they were straws, until, finding no rest, they are thrown upon some projecting point of land [on the Mississippi and other great western rivers]. Here they lie rotting for miles, their dark forms frequently shooting into the air like writhing serpents, presenting one of the most desolate pictures the mind can conceive.—Thorpe, Backwoods.

RAFT. A large quantity. Used only in low language.

We have killed Calhoun and Biddle; but there is a raft of fellows to put down yet.—Maj. Downing’s Letters, p. 93.

We’ve shoals of shad, whole rafts of canvass-back ducks, and no end of terrapins.—Burton, Waggeries.

Among its notices to correspondents, an exchange paper says: “A raft of original articles are on file for next week.” We hope none of them will prove mere lumber.—N. Y. Tribune.

TO RAFT. To transport on a raft.—Webster.

RAFTING. The business of [constructing and] floating rafts.—Webster.

RAFTSMAN. A man who follows the business of rafting.

RAIL. A piece of timber, cleft, hewed, or sawed, inserted in upright posts for fencing. The common rails among farmers are rough, being used as they are split from the chestnut or other trees.—Webster.
TO RAIL IT. To travel by rail-road.

From Petersburg I railed it through the North Carolina pitch, tar, turpentine, and lumber country, to the great American pitch, tar, turpentine, and lumber depot—Wilmington. The prospect is, from the car windows, continuously an immensity of pine, pine, nothing but pine trees, broken here and there with openings of pine under-brush.—Letter in N. Y. Tribune, May 22, 1848.

RAIL-CAR. A car for transporting passengers on rail-roads.

RAISE. To make a raise. A vulgar American phrase, meaning to make a haul, to raise the wind.

The chances were altogether favorable for making a raise, without fear of detection.—Simon Suggs, p. 48.

RAISING. In New England and the Northern States, the operation or work of setting up the frame of a building.—Webster.

On such occasions the neighboring farmers are accustomed to assemble and lend their assistance. In this way the framework of the largest house or barn is set up in a few hours.

The spectacle of a raising, though so common-place an affair elsewhere, is something worth seeing in the woods.—Mrs. Claver's Forest Life.

TO RAISE. To cause to grow; to procure to be produced, bred, or propagated; as to raise wheat, barley, hops, &c.; to raise horses, oxen, or sheep.—Webster.

In England they use grow when speaking of the crops. Raise is applied in the Southern States to the breeding of negroes. It is sometimes heard at the North among the illiterate; as, 'I was raised in Connecticut,' meaning brought up there. See more in Pickering's Vocabulary.

You know I was raised, as they say in Virginia, among the mountains of the North.—Paulding, Letters from the South, Vol. I. p. 85.

TO RAISE A BEAD. This expression is used at the West, and means to bring to a head, to make succeed. The figure is taken from brandy, rum, or other liquors, which will not raise a bead, unless of the proper strength.

The result was, if the convention had been then held, the party wouldn't have been able to raise a bead.—Letter from Ohio, N. Y. Tribune, 1846.

TO RAISE ONE'S BRISTLES. To excite one's anger.

I came to Congress in 1827, as honestly the friend of Gen. Jackson as
any man in the world; but when I found that his whole object was to serve party, and wreak his vengeance upon those who had voted against him, my bristles begin to get up.—Crockett, Tour, p. 136.

TO RAKE AND SCRAPE. To collect.

Where under the sun, says I to myself, did he rake and scrape together such super-superior galls as these?—Sam Slick in England, ch. 23.

RANCHO. (Span.) A rude hut of posts, covered with branches or thatch, where herdsmen or farm-laborers live or only lodge at night.

RANCHERO. (Span.) A person who lives in a rancho, and by extension to any peasant or countryman. This word and the preceding, like the word chaporal, have lately become familiar to us, in consequence of the present unhappy war with Mexico.

RANCHERIA. The place, site, or house in the country where a number of rancheros collect together. The collection of few or many huts or ranchos into a small village.

These three words must necessarily have a place in our vocabularies, since the acquisition of so many ranchos in our territory, and rancheros in our population.

RANTANKEROUS. Contentious; a variation of cantankerous.

She had better not come a cavortin' 'bout me, with any of her rantankeros carryings on.—Chron. of Pinerile, p. 178.

RAPIDS. (Used in the plural.) The part of a river where the current moves with more celerity than the common current. Rapids imply a considerable descent of the earth, but not sufficient to occasion a fall of the water, or what is called a cascade or cataract.—Webster.

RAPPEE. An inferior quality of snuff.

RAT. A contemptuous term used by printers, to denote a man who works under price.

TO RAT. Among printers, to work under price. Among politicians, to desert one's party and go over to the opposite one. The term is used both in England and America. The London Athenæum, in a review of Campbell's Lives of the Lord Chancellors, in speaking of Wedderburn, afterwards Lord Loughborough, says:

He panegyrized the liberty of the press; sided with America; clamored
for the rights of juries; acted the part of liberal and demagogue to admiration; all the while having his eye on the Solicitor-Generalship—for which, in the fulness of time, he ratified to Lord North in the most shameless manner.—Dec. 18, 1817.

Great was the indignation when the result was known; and this must be confessed to be one of the most flagrant cases of ratting recorded in our party annals.—Campbell, Lord Chancellors.

RAVE. The upper side piece of the body of a cart.—Webster.

RAVING DISTRACTED. Stark mad.

RAW. Not worked up, manufactured, or prepared for use; as, 'raw materials.'—Worcester.

Mr. Webster presented a petition in reference to the duty proposed to be laid on raw copper. . . . It will be seen that nearly all the pig or raw copper is obtained from Chili.—N. Y. Com. Advertiser, July 16, 1816.

REAL. Really; truly; very; as, 'real nice.'

TO REALIZE. To bring home to one's own case or experience; to consider as one's own; to feel in all its force.—Webster.

This allusion must have enhanced strength and beauty to the eye of a nation extensively devoted to a pastoral life, and therefore realizing all its fine scenes, and the tender emotions to which they gave birth.—Dwight.

This sense of the word is not in the English dictionaries, though Mr. Pickering says it is used in Scotland.

TO RE-CHARTER. To charter again; to grant a second or another charter to.—Webster.

TO RECKON. To think; to imagine; to believe; to conjecture; to conclude; to guess. Used in some parts of the United States, as guess is in the Northern. It is provincial in England in the same sense, and is noticed in the glossaries of Pegge and Brockett. Mr. Hamilton, in his remarks on the Yorkshire dialect, says: "'I reckon? comes out on every occasion, as perhaps aliens would expect from this country of 'ready reckoners.' "—Nugæ Literæ, p. 317.

General, I guess we best say nothin' more about bribin', says I. "Well," says he, "Major, I reckon you're right."—Maj. Downing's Letters, p. 208.

I say! what do you guess about lending me your axe for a spell? Do you reckon you can spare it?—Mrs. Claver's Forest Life, Vol. I. p. 84.

I reckon you hardly ever was at a shooting-match, stranger, from the cut of your coat.—Georgia Scenes, p. 198.
RED DOG MONEY. A term applied, in the State of New York, to certain bank notes which have on their back a large red stamp.

The late General Banking law of the State of New York, which was applied to all new banks, as well as to those the charters of which were renewed, obliged the parties or individuals associated to deposit securities with the Comptroller, and receive from him blank notes of various denominations, signed or bearing the certificate of the Comptroller or officer authorized by him. These notes bore a red stamp on their backs.

So free a system of banking induced many persons, both individually and collectively, to organize banks of issue; and, as a natural consequence, a considerable portion of the circulating medium soon consisted of the notes of the free banks, bearing the red stamp. The community, generally, did not consider these notes as safe as those issued by the old banks, and stigmatized them as red dogs, and the currency as red dog money. Since the passage of the act, however, the charters of most of the banks in the State having expired, they have been renewed under the "General Banking Law;" and, of course, the odium which existed against the first banks no longer exists. In Michigan, they apply the term blue pup money to bank notes having a blue stamp on their backs.

REDEMPTIONER. One who redeems himself or purchases his release from debt or obligation to the master of a ship by his services; or one whose services are sold to pay the expenses of his passage to America.—Webster.

RED LANE. A vulgar name for the throat, chiefly used by tipplers.

I was ridin' in my shirt sleeves, and a thinkin' how slick a mint julep would travel down red lane, if I had it.—Sam Slick in England, ch. 22.

RED-ROOT. A shrub found upon the prairies near the Rocky Mountains, highly esteemed as a substitute for tea. It resembles the tea of commerce, and affords an excellent beverage.—Scenes in the Rocky Mountains, p. 26.

REGENT. In the State of New York, the member of a cor-
porate body which is invested with the superintendence of all the colleges, academies, and schools in the State. This board consists of twenty-one members, who are called "the regents of the University of the State of New York." They are appointed and removable by the legislature. They have power to grant acts of incorporation for colleges; to visit and inspect all colleges, academies, and schools; and to make regulations for governing the same.—Statutes of New York.

TO RE-INSURE. To insure the same property a second time by other underwriters.—Webster.

It is common with underwriters or insurance companies, when they find they have too large a sum insured on one ship, or in a particular district, to re-insure a part elsewhere.

The insurer may cause the property insured to be re-insured by other persons.—Walsh, French Com. Code.

TO RE-LOAN. To loan again; to lend what has been lent and repaid.—Webster.

TO RE-INVESTIGATE. To investigate again.—Webster.

TO RE-LAND. To go on shore after having embarked.—Webster.

REMOVABILITY. The capacity of being removed from an office or station; capacity of being displaced.—Webster.

RENCH. A vulgar pronunciation of the word rinse.

RENEWEDLY. Again; once more.—Webster.

This adverb is often heard from our pulpits.—Pickering.

TO RE-OPEN. To open again.—Webster. This word is much used. The theatre re-opens for the season. The schools re-open after their vacations.

REORGANIZATION. The act of organizing anew; as, repeated organization of the troops.—Webster.

REPETITIOUS. Repeating; containing repetition.—Webster.

Mr. Pickering notices this word, which he thinks is peculiar to the writer from whom the following extract is taken:

The observation which you have quoted from the Abbé Raynal, which has been written off in a succession not much less repetitious, or protracted, than that in which school-boys of former times wrote.—Remarks on the Review of Inchiquin's Letters, Boston, 1815.
TO RE-SHIP. To ship again; to ship what has been conveyed by water or imported.—Webster.

Much used in all our commercial cities.

RESOLVE. Legal or official determination; legislative act concerning a private person or corporation, or concerning some private business. Public acts of a legislature respect the State; and to give them validity, the bills for such acts must pass through all the legislative forms. Resolves are usually private acts, and are often passed with less formality.—Webster.

TO RESULT. To decide or decree, as an ecclesiastical council.—Pickering.

According to Dr. Milner, the Council of Nice resulted, in opposition to the views of Arius, that the Son was peculiarly of the Father, &c.—Bible News, Rev. N. Worcester.

RESULT. The decision or determination of a council or deliberative assembly; as, 'the result of an ecclesiastical council.' Peculiar to New England.—Webster.

RETIRACY. Sufficiency; competency. It is said, in New England, of a person who has retired from business with a fortune, that he has a retiracy; i.e. a sufficient fortune to retire with.

TO RETIRE. To withdraw; to take away; to make to retire.—Johnson. This transitive use of the verb, which had become obsolete, is now reviving in this country. Of the many examples from good old writers given by Johnson, we will quote only one from Shakspeare:

He, our hope, might have retired his power,
And driven into despair an enemy's hate.—Richard II.

With us it is used by military men of withdrawing troops.

General Rosas insisted on the blockade being removed before he retired his troops from the Banda Oriental.—Newspaper.

And by merchants of paying their notes.

The French houses are retiring their notes due next month, in advance, anticipating commercial difficulties.—Newspaper.

RETORTIVE. Containing retort.—Webster.
AMERICANISMS.

TO RETROSPECT. To look back; to affect what is passed.
—Webster.

Mr. Pickering has the following illustration:

To give a correct idea of the circumstances which have gradually produced this conviction, it may be useful to retrospect to an early period.—Letter from Alex. Hamilton to John Adams.

This word cannot be said to be much used. The writings of Gen. Hamilton abound in peculiar expressions.

REVERENT. Strong; as, reverent whisky, i. e. not diluted.
—Sherwood's Georgia.

RICH. Luscious, i. e. entertaining; amusing in the highest degree.

Mr. Richardson is rich on rabbits; and divides them into four races.—London Athenæum, Dec. 1847.

Thar we was settin' on our horses, rollin' with laughin' and liquor, and thought the thing was rich [alluding to a dog-fight].—Porter's South-western Tales, p. 57.

About as rich an instance of official idleness, self-conceit, and incivility, as we have seen, fell under our notice yesterday.—N. Y. Com. Adv.

The New York Tribune, in speaking of General Cass's book, "France; its King, Court, and Government," says:

Mark how smoothly he glosses over the despotism of Louis Philippe—how adroitly he insinuates that all the agitation and plotting for his overthrow were impelled by atheism, thirst of blood, and an appetite for destroying and plundering. It would be rich indeed if the parasite should vault to the heights of power just one year after the despot he served was cast down to contempt and exile.—N. Y. Tribune, June 2, 1848.

TO RIDE. The use of the word ride, both as a verb and a noun, in the sense of being conveyed in a carriage, has been regarded as an Americanism. Nevertheless, it was formerly so used in England, as appears from the following example:

He made him to ride in the chariot.—Gen. xlii. 43.

English writers of the present day, however, consider it as correct to use it only of conveyance on horseback, or some other motive power; but of conveyance in a carriage, they use the verb to drive, as in the following extract from Cowper:

Sometimes I get into a neighbor's chaise, but generally ride [i. e. on horseback].

TO RIDE. To carry. In the city of New York this word is
used by carmen as well as merchants, when speaking of carting or carrying merchandise on a cart. Thus, 'to ride a box or bale of goods,' is to carry it. I heard a witness in a court-room testify that he had "rode some hogs from the wharf to the store," by which he meant that he carried a load of dead hogs on his cart.

RIFLE. A whetstone for sharpening scythes.—Todd. Worcester. This old English word is retained by the farmers of New England.

All our sports and recreations, if we use them well, must be to our body. or mind, as the mower's whetstone, or rifle, is to his scythe, to sharpen it when it grows dull.—Whately, Redemption of Time (1634), p. 11.

TO RIGHTS. Directly; soon. Peculiar to America.—Webster.

If folks will do what I tell 'em, things will go strait enough to rights.—Maj. Downing's Letters, p. 5.

So to rights the express got back, and brought a letter.—Ibid. p. 129.

RIGHT AWAY, or RIGHT OFF. Directly; immediately.

RILE. See Roil.

RISING, or RISING OF. More than; upwards of; as, 'There were rising of a thousand men killed at the battle of Buena Vista.'

RISKY. Dangerous; hazardous.

RIVER. Mr. Pickering observes that the Americans, in speaking of rivers, commonly put the name before the word river, thus, Connecticut river, Charles river, Merrimack river, Hudson river, Susquehanna river; whereas the English would place the name after it, and say, the river Hudson, the river Merrimack, &c. There are some exceptions, however, when speaking of the largest rivers; for we usually say, the river Mississippi, the river St. Lawrence.

RIVER DRIVER. A term used by lumbermen in Maine, for a man whose business it is to conduct logs down running streams, to prevent them from lodging upon shoals or remaining in eddies.

ROARER. One who roars; a noisy man.—Worcester.

Ben was an old Mississippi roarer—none of your half and half, but just
ROBE. A dressed skin; only applied to that of the buffalo. A pack of robes, is ten skins, tied in a pack, which is the manner in which they are brought from the far West to market. For the skins of other wild animals, we always use the term skin, as deer-skin, beaver-skin, muskrat-skin, etc., but never buffalo-skin.

ROCK. A piece of money. A slang term peculiar to the South.

Spare my feelings, Squire, and don't ask me to tell any more. Here I am in town without a rock in my pocket, without a skirt to my coat, or crown to my hat.—Pickings from the New Orleans Picayune.

ROCK. A stone. In the Southern and Western States, stones of any size are absurdly called rocks.

Brother S—— came home in a mighty bad way, with a cold and cough; so I put a hot rock to his feet and gave him a bowl of catmint tea, which put him in a mighty fine sweat, &c.—Georgia Scenes, p. 193.

Mr. M—— was almost dead with the consumption, and had to carry rocks in his pocket to keep the wind from blowin' him away.—Maj. Jones's Travels.

TO ROCK. To throw stones at; to stone. This supremely ridiculous expression is derived from the preceding.

They commenced rocking the Clay Club House in June, on more occasions than one, and on one occasion, threw a rock in at the window, hitting Mr. Clem on the shoulder; and afterwards, on the Whigs leaving the Club House, the heads of Messrs. Clem and Brown were badly cut with rocks! A few nights before the recent election, Mr. Brown was struck with a rock, as the Whig procession was returning from the west end of town, the rock coming either from Chester's tavern, or the Office of the Sentinel.—Jonesborough, Tennessee, Whig.

TO ROIL. 1. To render turbid by stirring up the sediment; 2. To make angry. Provincial in England and colloquial in the United States.—Worcester. In both countries it is now commonly pronounced and written rile.

John was a-dry, and soon cried out—
Goon git some beer we 'ool!
He'd so to wait, it made him riled,
The booths were all shock full.—J. Noakes and Mary Styles.

I won't say your country or my country, and then it won't rile nobody.—Sam Slick in England.

I hope you won't be riled at what I say.—Maj. Jones's Courtship, p. 63.
I tell you what, I was monstrous riled t'other day when I got a letter from Crockett, calling me hard names and abusin' me.—Ibid. p. 90.

No doubt existed in the minds of Mr. Dobbs's fellow-boarders, that the well of his good spirits had been riled.—Neal's Charcoal Sketches.

ROILY, or RILY. 1. Turbid; 2. Excited to resentment; vexed.

The boys and gals were laughin' at my scrape and the pickle I was in, that I gin to get riley.—Robb, Squatter Life, p. 64.

ROKEAGE, or YOKEAGE. Indian corn parched, pulverized, and mixed with sugar.

ROLLICKING. A peculiar gait of a horse.

Mounted by a rider that is as much a part of him as his hide, he [the mustang pony] goes rollicking ahead.—Thorpe's Backwoods, p. 13.

ROLLING. Undulating; varied by small hills and valleys, as land; so used in the Western States.—Worcester.

TO ROOM. To occupy a room; to lodge.—Worcester.

ROOSTER. The male of the domestic fowl; the cock.

As if the flourish of the quill were the crowing of a rooster.—Neal's Charcoal Sketches.

A huge turkey gobbling in the road, a rooster crowing on the fence, and ducks quacking in the ditches.—Margaret, p. 187.

TO ROPE IN. To take or sweep in collectively; an expression much used in colloquial language at the West. It originated in a common practice of drawing in hay with a rope. The hay is at first heaped in wind-rows. A rope, with a horse attached to each end, is swept like a net around the end of the row, which is thus brought together and dragged to any part of the field.

HIGH ROPES. 'Upon the high ropes,' i. e. elated; in high spirits.—Grose, Prov. Dict.

ROPING IN. Cheating. A very common expression in the South-western States.

ROSS. The rough scaly matter on the surface of the bark of certain trees. A term much used in New England.—Webster.

ROUND. 'To come or get round one,' in popular language, is to gain advantage over one by flattery or deception.—Webster.
AMERICANISMS.  

ROUSING. Very great; commonly applied to a fire.—Craven Glossary.

Haply, blest to my desire,
I may find a rousing fire.—Clare's Poems.

ROUND-RIMMERS. Hats with a round rim; hence, those who wear them. In the city of New York, a name applied to a large class of dissipated young men, by others called Bowery boys and Soap-locks.

All over the region of East Bowery is spread—holding it in close subjection—the powerful class of round-rimmers; a fraternity of gentlemen, who, in round crape-bound hats, metal-mounted blue coats, tallow-smoothed locks, &c., carry dismay and terror wherever they move.—C. Matheus, Puffer Hopkins, p. 261.

ROWDY. A riotous, turbulent fellow.

TO ROW UP. To punish with words; to rebuke. It is an essential Westernism, and derived from the practice of making refractory slaves or servants row up the heavy keel-boats of early navigation on the Western rivers, against the current, without being frequently relieved. It was thus regarded as a punishment.

We should really like, of all things, to row up the majority of Congress as it deserves in regard to the practice.—N. Y. Tribune, Dec. 10, 1845.

The most spicy part of the proceedings in the Senate was the rowing up which Mr. Hannegan gave Mr. Ritchie of the Union newspaper.—N. Y. Tribune, Jan. 30, 1846.

TO ROW UP SALT RIVER, is a common phrase, used generally to signify political defeat. The distance to which a party is rowed up Salt river depends entirely upon the magnitude of the majority against its candidates. If the defeat is particularly overwhelming, the unsuccessful party is rowed up to the very head waters of Salt river.

It is occasionally used as nearly synonymous with to row up, as in the following example, but this application is rare:

Judge Clayton made a speech that fairly made the tumblers hop. He rowed the Tories up and over Salt river.—Crockett, Tour Down East, p. 46.

To row up Salt river has its origin in the fact that there is a small stream of that name in Kentucky, the passage of which is made difficult and laborious as well by its tortuous course as by the abundance of shallows and bars. The real
application of the phrase is to the unhappy wight who has the task of propelling the boat up the stream; but in political or slang usage it is to those who are rowed up—the passengers, not the oarsman. [J. Inman.]

ROWEN. In New England, the second growth of grass in a season. We never apply the word to a field, as in England, nor to the growth of corn after harvest.—Webster.

RUM-BUD. A grog blossom; the popular name of a redness occasioned by the detestable practice of excessive drinking. Rum-buds usually appear first on the nose, and gradually extend over the face. For other dishes made of corn, see Hominy, Mush, Suppawn, Suckatash.

TO SAW. To hoax; to play a joke upon one. A western term. In the State of Maine, to saw means to scold.

SAWYER. This may truly be called an American word; for no country without a Mississippi and Missouri could produce a sawyer.

Sawyers are formed by trees, which, growing on the banks of the river, become undermined by the current, and fall into the stream. They are then swept away by the current, with the branches partly above water, rising and falling with the waves; whence the name of sawyer. They are extremely dangerous to steamboats, which sometimes run foul of them, and are either disabled or sunk to the bottom.

SCHOONER. Both Webster and Todd derive this word from the German schoener, which means the same; but on examining the German dictionaries we find the word written schooner, schoner, and schuner, and characterized as English! The following story has a circumstantiality about it that gives it an air of truth:

"The first vessel of the kind is said to have been built at Gloucester, Mass., by Capt. Andrew Robinson, about the year 1714. The name was given to it from the following circumstance: Capt. R. had constructed a vessel, which he masted and rigged in the manner that schooners now are, and on her going off the stocks into the water, a bystander cried out, 'Oh how she schoons!' R. instantly replied, 'A schooner let her be;' and from that time, this class of vessels has gone by that name. **TO SEE THE ELEPHANT,** is a South-western phrase, and means, generally, to undergo any disappointment of high-raised expectations. It is in fact nearly or quite synonymous with the ancient "go out for wool and come back shorn." For instance, men who have volunteered for the Mexican war, expecting to reap lots of glory and enjoyment, but instead have found only sickness, fatigue, privations, and suffering, are currently said to have 'seen the elephant.' I do not remember having ever fallen in with a good origin for the term in this employment of it. [*J. Inman.*]

A man, being brought before the Recorder in New Orleans, charged with being found drunk the previous night, after appealing to the court, closed with the following remarks:

"Spare my feelings, Squire, and don't ask me to tell any more. Here I am in town without a rock in my pocket, without a skirt to my coat or crown to my hat; but, Squire, I'll say no more, I've seen the elephant." The Recorder let him off on condition that he would leave town, as he confessed he had seen the elephant.—*Pickings from the Picayune.*

Although the merchants from the South and West may buy goods in Philadelphia, all find their way to New York to spend their pocket-money, buy brass watches at the mock auctions, and see the elephant generally.—*Phila. Cor. of the N. Y. Tribune.*

SET. Fixed in opinion; firm.—Webster. 'He is very *set* in his ways.'

A DEAD SET. A concerted scheme to defraud a person by gaming.—Grose, Slang Dict. This phrase seems to be taken from the lifeless attitude of a pointer in marking his game. SHAGBARKS. A common name in New England for a sort of Walnuts.

SHAKER. One of a religious denomination, styled the 'United Society,' which first rose in Lancashire, England, in the year 1747. In the account which the Shakers give of themselves, they mention the Quakers in the time of Oliver Cromwell, and the French prophets of a later date, as being the first who had a peculiar testimony from the Lord to deliver to the Christian world. But they complain that the former degenerated, losing that desire of love and power with which they first set out; and the latter being of short continuance, their extraordinary communications have long ago ceased. This testimony was revived in the persons of James Wardley, a tailor by trade, and Jane his wife, who wrought at the same occupation! They had belonged to the society of Shakers, but receiving the spirit of the French prophets, and a further degree of light and power, by which they were separated from that community, they continued for several years disconnected from every denomination. During this time their testimony, according to what they saw by vision and revelation from God, was, "That the second appearing of Christ was at hand, and that the church was rising in her full and transcendant glory, which would effect the final downfall of Anti-Christ."

From the shaking of their bodies in religious exercises, they were called Shakers, and some gave them the name of Shaking Quarkers.

In 1757, Ann Lee joined the Society by confessing her sins to Jane Wardley. In 1772 she professed to have received a revelation from God to repair to America. Accordingly, as many as firmly believed in her testimony, and could settle their temporal concerns, and could furnish necessaries for the voyage, concluded to follow her. They arrived in New York in 1774, and in 1776 removed to Watervliet, eight miles from Albany, where a society was established, which still exists, and where they now possess 2000 acres of good land. From this society have grown several communities; one at New Lebanon, N. Y., which consists of 600 members. Others
have been founded in Wayne county, N. Y., at Enfield, Connecticut, two in Ohio (one of the latter of which contains 600 members), two in Kentucky having about 500 members each, and one in Indiana. In 1828, the number of societies was sixteen; the number of preachers about forty-five; members gathered into their societies, about 4500; those not received, 900; making in all about 5400.—Evans’s Hist. of Religions, Am. Yit, if they their inquirations make,
In winter time some will
Condemn that place as *no great shakes*
Where folks ha’ the cold chill.—Noakes and Styles, Essex Dialect.

Cousin Pete allowed he knowed he wasn’t *no great shakes* all the time, and was makin’ more noise than anybody else.—Maj. Jones’s Courtship.

I have forgot what little Latin I learnt to night-school; and, in fact, I never was *any great shakes* at it.—Sam Stick, 3d Ser. ch. VII.

TO SHAKE A STICK AT. A ridiculous phrase very often heard in low language. When a man is puzzled to give one an idea of a very great number, he calls it ‘more than you can shake a stick at.’

New York is an everlastin’ great concern, and, as you may well suppose, there’s about as many people in it as you could shake a stick at.—Maj. Downing, May-day in New York.

I’ve been licked fifty times, and got more black eyes and bloody noses than you could shake a stick at, for the purity of our illegal rights.—J. C. Neal, Peter Brush.

**SHARP STICK.** 'He's after him with a sharp stick;' i.e. he's determined to have satisfaction, or revenge. Western.

**SHAVER.** One that is close in bargains, or a sharp dealer.—Webster.

To shave, is to cut off a portion of the outside; hence to strip, deprive, take away unjustly, as a robber or hard dealer; one who does this is a shaver. This word, in the United States, is applied to money brokers, who purchase notes at more than legal interest. Banks, when they resort to any means to obtain a large discount, are also called shavers, or shaving banks. Many such are known, but they evade the penalty of the usury laws by discounting at legal interest, and giving the proceeds of the note so discounted, in a draft on some distant place, or in uncurent money; which are again purchased by the bank or its agents at a discount.

They fell into the hands of the cruel mountain-people, living for the most part by theft, and waiting for wrecks, as hawks for their prey; by these shavers the Turks were stripp'd of all they had.—Knolles's History of the Turks.

To sell our notes, at a great loss, to brokers, or, in other words, to get them unmercifully shaved, was what we wished to avoid.—Perils of Pearl Street, p. 123.

**SHAVER.** A shaver is a boy, a lad, one just beginning to shave; or else, on the lucus a non lucendo principle, one who does not shave, but would if he could! Comp. Skin-flint. The term is often humorously applied here, as in England, to boys who ape the behavior of men.
DICTIONARY OF SHECOONERY. A whimsical corruption of the word chicane-r-y, used at the South.

This town's got a monstrous bad name for meanery and shecoonery of all sorts.—Chronicles of Pineville, p. 47.

Among other topics, he dwelt upon the verdancy of his neighbors, and the shecoonery which had been practised upon them.—Ibid. p. 48.

TO SHELL OUT, means to hand over money.

Witness the testimony of Major Noah and others in New York, who prove that the office-holders had to shell out a part of their salary, to support Jacksonism.—Crockett, Tour, p. 163.

The rich folks have pretty much all the money; but as we can out-vote them, they ought to shell out.—Maj. Downing’s Letters, p. 98.

SHERRYVALLIES. (Fr. chevalier.) Pantaloons made of thick velvet or leather, buttoned on the outside of each leg, and generally worn over other pantaloons. They are now chiefly worn by teamsters. Many years ago, when the facilities for travelling were not as great as now, and when journeys were made on horseback, sherryvallies were indispensable to the traveller.

SHET. A vulgar pronunciation of shut; also used in England.

Here slouthe brouyte it so aboute,

Hey, mister! said a shop-boy at last, I want to get shut of you, cause we’re goin’ to shet up.—Neal’s Sketches.

SHEEPSKIN. The parchment diploma received by students for taking their degree at college. In the back settlements are many clergymen who have not had the advantages of a liberal education, and who consequently have no diplomas. Some of these look upon their more favored brethren with a little envy. A clergyman is said to have a sheepskin, or to be a sheepskin, when educated at college.

This apostle of ourn never rubbed his back agin a college, nor toted about no sheepskins—no, never! . . . . How you’d a perished in your sins, if the first preachers had stayed till they got sheepskins.—Carlton’s New Purchase.

I can say as well as the best on them sheepskins, if you don’t get religion
and be saved, you'll be lost, totally and forever. [Sermon of an itinerant preacher at a camp-meeting].—Ibid. Vol. I. p. 203.

SHEER. Applied in the United States to fabrics of cotton or silk; as, sheer muslin; meaning very thin, clear, or transparent.

SHEW, (pron. like shoe,) for showed. Ex. 'I shew him the difference between black and white.' This corruption is so common among all classes in the "American Athens," as to form a sort of shibboleth for distinguishing a Bostonian.

Several years ago this corrupt preterite was very common in New England; but it is now much less used than formerly. Mr. Pegge, in his ironical defence of know'd for knew, mentions the following singular instances of irregular preterite verbs ending in ew or ow: "The modern past tense, I knew, seems to have been imported from the north of England, where the expressions are, 'I sew (instead of I sow'd), my corn;' 'I mew (that is, I mow'd) my hay;' and, 'it snow,' for it snowed."—Pickering.

TO SHIN. To borrow money. A word well understood in New York in times when money is scarce. The author of the amusing work, entitled "Perils of Pearl Street," page 123, thus describes it:

"By shining, in mercantile phrase, is meant running about to one's acquaintance, to borrow money to meet the emergency of a note at bank. It is doubtless so called, because in the great hurry of picking up cash to meet the hour of three, which perchance is just at hand, the borrower, not having the fear of wheelbarrows, boxes, barrels, piles of brick, &c. before his eyes, is very apt to run furiously against them with his shins, the bark whereof is apt to be grievously battered off by the contact. . . . So fares it with the poor merchant, while he is looking out for an acquaintance of whom he may ask, Anything over? This is an expression used by shinners, on applying to their acquaintances for the needful; and means, Have you any money over and above the sum requisite for discharging your own notes? If so, it is of course expected, that, in the way of mercantile courtesy, or of a friendly reciprocity, you will
oblige the skinner so far as to hand it over to him. It is a common way, amongst those who have business in banks, of obliging one another. If they have anything over, they do not withhold it from their neighbor, lest in turn he should do the same towards them.

"Skinners may be divided into two classes: those who shin from necessity, and those who shin from profit. The latter may be called professional skinners; and they consist of merchants of some standing, who make it their business to find out, and get into the good graces of those who are just starting in trade. Correctly judging that these last will have no notes to pay under six months, and that they will take in considerable money in that time, they borrow their surplus cash, promising in their turn to lend whenever the other shall stand in need. But when the time comes, these cunning old skinners take especial care to have nothing over; then coldly turn their back upon the young merchant, and commence a new shining account with some fresh dupe, who, in like manner, is to be abandoned whenever he requires an interchange of the favor."

The Senator was shinning around, to get gold for the rascally bank-rags, which he was obliged to take.—N. Y. Com. Adv., Dec. 13, 1845.

TO SHINE. In the Southern States the deer is often hunted by torch-light. The custom is thus described in the 'cracker' dialect of Georgia: "You see the way we does to shine the deer's eyes is this—we holds the pan of fire so, on the left shoulder, and carries the gun at a trail in the right hand. Well, when I wants to look for eyes, I turns round slow, and looks right at the edge of my shadder, what's made by the light behind me in the pan, and if there's a deer in gun-shot of me, his eyes'll shine 'zactly like two balls of fire."—Chronicles of Pineville, p. 169.

He often urged me to accompany him to see how slick he could shine a buck's eyes.—Ibid. p. 162.

All the boys and gals were going to camp-meetin' ; so, to make a shine with Sally, I took her a new parasol.—Robb, Squatter Life.

SHINER. (Genus, Leuciscus.) The popular name of the fish known to naturalists as the Dace. In different parts of the country, however, other small fish are called shiners, from their glittering or shining appearance. In New York a small fish of the genus 'stilbe, is known to naturalists as the New York Shiner. It is also found in the adjoining States.—Nat. Hist. of New York.

SHOEMAKE. A common name for the sumach-tree.

SHOO! A word commonly used to drive away fowls.—Brockett.

SHOOT, or SHUTE. A passage-way on the side of a steep hill or mountain down which wood and timber are thrown or slid. There are many such on the Hudson and Mohawk rivers. In the West the term is applied to places where a river is artificially contracted in order to increase the depth of water. In Lower Canada a shoot is a place where the stream, being confined by rocks which appear above water, is shot through the aperture with great force.—Cartwright's Labrador, p. 14. In the West, 'to take a shoot after,' is to take a fancy to.

That gal was the prettiest creature I ever took a shute after; her eyes jest floated about in her head like a star's shadow on a Mississippi wave.—Robb, Squatter Life.

TO SHOOT ONE'S GRANDMOTHER, is a common though vulgar phrase in New England, and means to be mistaken, or to be disappointed; to imagine oneself the discoverer of something in which he is deceived. The common phrase is, 'You've shot your granny.' It is, in fact, synonymous with 'You've found a mare's nest.'

SHOOTING IRON. A common Western term for a rifle, or fowling piece.

SHOPPING. The act of frequenting shops.—Jodrell's Philology. This very useful word is not noticed by Dr. Johnson; and Mr. Todd calls it a cant word of modern origin.

For those the hour of retirement is three, which gives, till noon the next day, nine hours for rest; and after that sufficient time for a ride, auctions, or shopping, before the dinner-hour.—Hawkins, Life of Johnson, p. 262.

What between shopping, and morning visits with mamma, &c., I contrive to amuse myself tolerably.—Calebs, Vol. I. p. 356.

Mr. Smoothly was the very prince of retailers. His store was the great shopping mart—or perhaps the great shopping theatre; for the goods were rather exhibited than sold. The ladies, too, while examining the merchandise, had a chance of exhibiting themselves to the lounging beaux, and thus under pretence of shopping, might possibly make a market for themselves.—Perils of Pearl Street, p. 26.
SHOPPER. One who frequents shops.

It is a most provoking thing to have anything to do with professed shoppers. They require more attention, without offering an equivalent, than any other class of people in the world.—Ibid. p. 27.

Bailey, Martin, and Johnson, spell it shoot; Ainsworth, shote; Lemon, shot; Moor and Forby, shot and shoat; Holloway, shoot and sheat; Ray, sheat, shote, and shoot; and Ray remarks, that "In Essex they call it a shote." SHUCK. The outer husk or shell of the walnut, chestnut, &c.; or the husk of Indian corn. In England, the word is

We also say, as sick as a dog.

SLIP. 1. The opening between wharves or in a dock.—*Webster.*

This word is peculiar to New York, where we have Peck Slip, Burling Slip, Old Slip, Coenties Slip, etc.

2. In New England, a long seat or narrow pew in a church.—*Webster.* When there is a door, they are called pews; when without doors and free to all, *slips.* This, I believe, is the difference between them.

SLIP. An escape; a desertion.—*Johnson.* 'To give one the *slip,*' means to escape, or run away.

The more shame for her goody-ship,
To give so near a friend the *slip.*—*Hudibras.*

the woods.—*L’Estrange*.

Well, I've got a long slipe off from my steamboat, the Hunter; and I
had better look up the Captain.—*Crockett, Tour*, p. 145.

SLIPPER-DOWN. A vulgar name in some parts of Connecticut for hasty pudding. The etymology is obvious.

SLIPPERY. Uncertain; changeable.—*Johnson*. That man's a slippery fellow; i.e. no dependence can be placed in him. One who is disposed to cheat or obtain undue advantage, is called a slippery fellow. It is used alike in England and America.—See *Grose, Prov. Dict*.

Merchants who resort to drumming as a means for selling their goods are apt to be considered as very slippery fellows.—*Perils of Pearl Street*.

SLIVER. A piece of any substance; as wood torn or split off. This word is, in this country, commonly pronounced sliver; but the English orthoëpists all pronounce it sliver.—*Worcester*.

When frost will not suffer to dike and to hedge,
Then get thee a heat, with thy beetle and wedge;
Once Hallowmas come, and a fire in the hall,
Such slivers do well for to lie by the wall.—*Tusser, Husbandry*.
Alas! that he all hole or of him some slivers
Should have his refute in so digne a place,

In New England this word is used as a verb as well as a noun.

As there was nothin' else to get hold of, I just slivered a great big bit off the leg of the chair, and made a tooth-pick of it.—*Sam Slick in England*.

TO LET SLIVER. To let slip, let fly, i.e. to fire.

Old Yelp smelled the bar; and as soon as I clapped peeper on him, I let sliver, when the varmint dropped.—*Robb, Squatter Life*.

SLOMMACK. A slattern.

TO SLOPE. To run away. A new but very common vulgarism.

As the officers approached, some hid themselves in their ovens, some under their beds; but a majority sloped without hats, shoes, or coats.—*X. Y. Com. Adv., Nov. 3, 1845*. 
AMERICANISMS.

The instant an English mob sees two dragoons coming, they jist run like a flock of sheep afore a couple of bull-dogs, and slope off, properly skeered.
—Sam Slick in England, ch. 27.

The edif.or of the Eagle cannot pay his board bill, and fears are entertained that he will slope without liquidating the debt.—Robb, Squatter Life.

The constables appeared with attachments; each person interested seized his own goods, while the master and clerk sloped to parts unknown.—Baltimore Patriot, July 10, 1846.

SLOPS. Large and loose trowsers, from which loose clothing is called slops. The word, says Todd, was formerly used in the singular; as in Chaucer:

His overest slop is not worth a mite.

Slop-clothing is the term now universally applied to ready made clothing for seamen. It was so used in 1691.

The slop-seller is a person crept into the navy, I mean to monopolize the vending of clothing only, but since the restoration of King Charles the Second.—Maydman, Naval Speculat. (1691).

SLOP-SHOP. A place where slop-clothing is sold.

SLUMP. A favorite dish in New England, called an apple slump, is made by placing raised bread or dough around the sides of an iron pot, which is then filled with apples and sweetened with molasses. Called in other parts of the country an apple pot-pie.

TO SLUMP. To slip or fall into a wet or dirty place.—Brockett’s North County Words. Provincial in various parts of England, and also used in New England. Mr. O. Wendell Holmes, in describing the school-boy, in a short poem read at the late festival in Berkshire, Massachusetts, says:

By the side of yon river, he weeps and he slumps,
His boots filled with water, as if they were pumps,
Till, sated with rapture, he steals to his bed
With a glow in his heart and a cold in his head.

SLUMPY. Marshy; easily broken through.—Jamieson. Worcester.

We came back by another path that’s slumpier than t’other [in consequence of the rain.]—Sam Slick in England, ch. 23.

SLUNG (the pret. of sling), is often heard instead of swung.

We swung round the wharf; and when the captain told the people who I was, they slung their hats, and gave three cheers.—Crockett, Tour down East, p. 37.
SLUNG-SHOT. An offensive weapon formed of two leaden or iron bullets fastened together by a piece of rope five or six inches long. One bullet is held in the hand, while the other hangs outside by the rope which passes between the second and third fingers. A blow from it on the head will fell the strongest man.

SLUSH. Grease or fat from salt meat.—Worcester. The refuse grease from cooking on board ship, which is one of the perquisites of the cook.

SLUSH, or SLOSH. This term is often used by the people of New England, in speaking of the state of the roads, when they are covered with snow, and a thaw takes place. It is very common to hear people say, 'the roads are sloshy; it is very sloshy going,' &c. None of the English dictionaries have this word; but all of them, I believe, except Bailey's, have the term sludge, and define it as Dr. Johnson does—'Mire, dirt mixed with water.' Grose has sludge in the same sense, as a provincial term, peculiar to the North of England. Marshall also has sludge among his provincialisms of the Midland counties, sluss among those of Norfolk, and slush among those of Yorkshire; and he defines them all nearly in the same words.—Pickering.

It sometimes happens that a fall of snow in the night time will cover the deep water where the feiths are, with snow and slush.—State, Leslie of Powis, 1803.

SLUSHY. Consisting of soft mud, or of snow and water.—Webster.

SMALL FRY. Young children; persons of little importance.

Let there be any question to be decided, which Gen. Jackson has set his heart on, and you will see all the small fry as busy as pismires, and the big bugs drumming up the drones, &c.—Crockett, Tour down East, p. 20.

SMALL POTATOES. An epithet applied to persons, and signifying mean, contemptible; as, 'He is very small potatoes.' Small potatoes are not fit for eating, and except for the feeding of hogs and cattle, are worthless; hence the expression as applied to men. It is sometimes put into the more emphatic form of small potatoes and few in a hill; see Sam Slick in England for an explanation of the latter, ch. 6.
Give me an honest old soldier for the Presidency—whether a Whig or Democrat—and I will leave your small potato politicians and petty-fogging lawyers to those who are willing to submit the destiny of this great nation to such hands.—N. Y. Herald, Dec. 13, 1846.

The very incidents of the meeting, and the names of the speakers [noticed by the Washington Union], induce a strong suspicion that it was rather small potatoes.—N. Y. Com. Adv., April 15, 1848.

SMART. Quick; active; intelligent. 'He is a smart business man.' The word appears to be not now used in this sense in England, although Johnson gives several meanings very nearly allied to it. The corresponding English term is clever.

SMART CHANCE. A good opportunity; a fair chance. A vulgar expression.

He has a smart chance of getting a better character.—S. Slick in England, ch. 9.

Says I, "Friend Wolfe," for I seed there was a smart chance of a row, "play I won't."—S. Slick, 3d Ser. p. 117.

SMART CHANCE. A good deal; a large quantity; large company; a great number. A singular expression used in the Southern and Western States, but never heard in the Eastern.—Sherwood's Georgia.

I don't pretend to say, stranger, what sort of cattle you have in your country, but I reckon there's a right smart chance of self-conceit among you Yankees.—Letter from the South, N. Y. Journ. of Com.

There's a smart chance of cigars there in the bar, stranger, if you'll try some of them, said one of the hooshiers.—Hoffman, Winter in the West.

We had a "smart chance" of snow on Thursday; it fell during the day to the depth of two inches, which makes a considerable snow-storm in this part of the world.—Wilmington, N. C. Commercial, Dec. 10.

SMART SPRINKLE. A good deal; a good many. Used in the interior of the Western States.

In answer to some query about snakes, our landlord said there was a smart sprinkle of rattlesnake on Red Run; and a powerful nice day to sun themselves.—Carlton, The New Purchase, Vol. I. p. 85.

SMASHER. A low word denoting anything very large, or larger than another of the same kind. It is used in the same sense in the North of England.—Brockett's Glossary.

Put up your benefit for that night; and if you don't have a smasher, with
at least six wreaths, say I don't understand managing the theatres.—Field, 

Drama at Pokerville.

SMEAR-CASE. (Dutch, Smeer-kaas.) A preparation of milk made to be spread on bread, whence its name; otherwise called Cottage-cheese.

TO SMOKE. To find any one out; to discover anything meant to be kept secret.—Halliwell.

The two free-booters, seeing themselves smoaked, told their third brother he seemed to be a gentleman and a boone companion; they prayed him, therefore, to sit down with silence, and sethence dinner was not yet ready, he should heare all.—Dekker’s Lanthorne, 1629.

The fellow takes me for a country dealer. Good! I'll smoke him. Ahem! sir, how do you sell iron feather beds by the gross?—Perils of Pearl Street, p. 77.

SMOOTH. A meadow, or grass field.

Get some plantain and dandelion on the smooth for greens.—Margaret.

TO SMOUTCHE. To gouge; to take unfair advantage. Colloquial in New York.

TO SMOUZE. To demolish, as with a blow. Used in Ohio.

SMUDGE. A heap of damp combustibles placed on the windward side of the house and partially ignited, that the inky steam may smother or drive away mosquitoes.—Mrs. Clavers.

I have had a smudge made in a chafing dish at my bedside, after a serious deliberation between choking and being devoured at small mouthfuls; and I conscientiously recommend choking.—Mrs. Clavers’s Forest Life.

TO SMUTCHE. To blacken with smoke, soot, or coal.—Webster. ‘I have smutched my fingers.’ The word is provincial in England, and is found in the old writers. In the United States, as in Scotland, it is pronounced smootch, and is never heard except colloquially.

Thou hast smutched thy nose.—Shakspeare, Winter Evening Tale, I. 2.

Have you mark’d but the fall of snow,
Before the soil hath smutched it.—Ben Jonson, Wanderer.

SNAG. A tree having its roots fastened in the bottom of a river; or a branch of a tree thus fastened. These are common in the Mississippi and Missouri rivers, and frequently destroy steamboats which come in contact with them by piercing their bows, or sides. This word is not a new one, and is defined by Johnson as “a jag or sharp protuberance.”
SNAGGED. Run against a snag, or projecting branch of a sunken tree.

SNAKE-HEAD. An object of dread to travellers on railways. The end of an iron rail, which sometimes is thrown up in front of the car wheels, and passes through the cars. Serious accidents have been caused by them. They occur, however, only with flat rails.

The road to Petersburg consists of an iron strap laid upon pine timber, and is beautifully diversified with that peculiar half horizontal, vibrating rail, known as "snake's head." Frequently, during our short ride, an iron snake would strike his heavy head against the iron fenders of our car; and then, as we rolled on unharmed, he would shake himself as if in wrath awaiting another opportunity for vengeance.—N. Y. Tribune.

TO SNAKE. To crawl like a snake. A common expression at the West. A fine example of the use of this term is given in the N. Y. Tribune, from one of the Western newspapers:

In Iowa, as in other new countries, the duties of a judge often begin before a court-house or place of shelter has been provided. Not long since, Judge Williams was obliged to hold his first court beneath the shade of a large tree, where logs were rolled up for seats, a larger one being provided for the Judge. The clerk used a shingle on his knee for a desk; and the jury, after being charged by the judge, were sent in care of a sheriff to a hollow, or ravine, where they could sit in conclave beyond the view of the court or spectators.

The grass grew very tall in the neighborhood, and the jurymen lay down in a ring in the grass, where they could more perfectly exclude themselves from observation. The jury had not been long in their quarters, when a tall, raw-boned fellow, rose up and addressed the judge as follows:

"May it please your honor, I wish to speak to you." "Order, sir; what is it?" "Judge," continued he, with the utmost gravity, "is it right for fellows to snake in the grass?" "How? what is that, sir?" "Why, you see," said the Yankee, "there's some fellows who's tarnation fraid the Grand Jury will find something agin 'em, which they desarve, and they are snaking up to the Grand Jury, on their bellies in the grass, kind of trying to hear what the Jury are talking about." "No," responded the Judge, with as much gravity as he could command, "I do not allow of snaking. Here, Mr. Sheriff, go station a guard around each Jury's hollow, and if a man is found 'snaking' have him brought before me, and I will cause him to be punished. Indeed, if this snaking is persisted in, I shall recommend a special act to be passed, making it a misdemeanor.""
barefooted, vagrant rascals, who were, probably, justly suspected of horse-stealing, and had "snaked it" on the Grand Jury, in order to find out whether the Jury intended to present them; and, if so, to gain time by this clandestine warning, and flee the jurisdiction of the Court by escaping into Missouri.

TO SNAKE OUT. To drag out; to haul out, as a snake from its hole. A farmer in clearing land, attaches a chain to a stump or log, whereby to draw it out; this he calls, snaking it out. Maj. Downing says, in speaking of a person who fell into the river:

We snaked him out of that scrape as slick as a whistle.—*Letters*, p. 14.

I went down again and found the cow as dead as a herrin'. We skinned her and snaked her out of the barn upon the snow.—*Evidence before a Court in Boston, Daily Adv.*, March, 1848.

**SNATHE.** The crooked handle of a mowing scythe. An agricultural term common with the farmers both of England and of this country.

This is fixed on a long *snead*, or strait handle.—*Evelyn, B. II.* ch. 6.

When stormy days constrain to quit the field,
The house or barn may useful business yield;
There crooked *snathe* of flexile sallow make,
Or of tough ash, the fork-stall and the rake.—*Scott, American Eel*.

**SNEAKING NOTION.** To have a *sneaking notion* for a lady, is to have a timid or concealed affection for her.

When I git hum—I'll git some grand promotion.—*D. Humphreys, The Yankee in England*, p. 102.

**TO SNICKER, or SNIGGER.** To laugh slily, wantonly, or contemptuously; to laugh in one's sleeve.—*Johnson*.

Then I heard the gals *snicking* and laughing in the next room, and I began to see how it was.—*Maj. Jones's Courtship*, p. 18.

Ha, ha, ha! *snickered* out the woman, more afraid of paper money than the doctor's knife.—*Margaret*, p. 273.

Never mind, says the General, if you can't get them 'are pantaloons mended, the State'll give you a new pair. And then we all snorted and *snickered*.—*Maj. Downing's Letters*, p. 15.

A hyst is bad enough, without being *snickered* at.—*Neal's Sketches*.

**TO SNIGGLE.** A method of fishing for eels in small streams and ponds.

*Sniggling* is thus performed. In a warm day, take a small strong hook, tied to a string about a yard long; and then into one of the holes, where an eel may hide herself, with the help of a short stick, put in your bait leisurely, and as far as you may, conveniently; if within the sight of it, the eel will bite instantly, and as certainly gorge it; pull him out by degrees.—*Izaak Walton, Angler*.

In the darkest nights we rowed across the pond and *sniggled* for eels.—*Margaret*, p. 234.

And snipsnap short, and interruption smart.—Pope, Dunciad.

Plucks snipsnaps with his wife, cracks on Hash, shows his white teeth to Margaret.—Margaret, p. 161.

TO SNOOP. (Dutch, snoepen.) Applied to children, servants, and others, who clandestinely eat dainties or other victuals which have been put aside, not for their use. A servant who goes slyly into a dairy-room and drinks milk from a pan, would be said to be snooping. The term is peculiar to New York.

SNOOZE. Sleep; as 'he lay in a drunken snooze.'

SNOOZER. A thief who follows the business of robbing the boarders at hotels. He takes board and lodgings, and endeavors to share a room and become familiar with some country merchant; after which, by various tricks, he succeeds in robbing him. The police reports of New York exhibit frequent cases of this system of depredation.

SNORE. I snore! An exclamation used in New England.

SNOWBALL. A jeering appellation for a negro.
TO SNUGGLE. To lie close for convenience or warmth.—Johnson. Seldom used except in familiar language.

SO is often improperly used for such, as in the phrase:

TO SOAK. To bake thoroughly. It is particularly applied to bread, which, to be good, must be macerated, as it were, in the caloric of the oven. If it be dough-baked, the complaint is, that it has not been sufficiently soaked.—Holloway, Forby’s Vocabulary. This word is used in the same sense in New England.

TO SOAK. To drink intemperately.—Johnson.

Let a drunkard see that his health decays, his estate wastes, yet the habitual thirst after his cups drives him to the tavern, though he has in his view the loss of health and plenty; the least of which he confesses is far greater than the tickling of his palate with a glass of wine, or the idle chat of a soaking-club.—Locke.

SOAKER. A great drinker. In low language.—Johnson. ‘An old soaker,’ is a common name for a drunkard. Grose’s definition is, ‘one that moistens his clay to make it stick together.’

SOAP-LOCK. A lock of hair made to lie smooth by soaping it. Hence also a name given to a low set of fellows who lounge about the markets, engine-houses, and wharves of New York, and are always ready to engage in midnight rows or broils. It is, in fact, but another name for a Rowdy or Loafer. The name comes from their wearing long side locks, which they are said to smear with soap, in order to give them a sleek appearance; whence the name.

The way my last letter has cradled off the soaplocks, and imperials, and goat-knots, and musty shows, is truly alarming.—Maj. Jones’s Courtship.

SOCIETY. In Connecticut, a number of families united and incorporated for the purpose of supporting public worship, is called an ecclesiastical society. This is a parish, except that it has not territorial limits. In Massachusetts such an incorporated society is usually called a parish, though consisting of persons only, without regard to society.—Webster.

SOCDOLAGER. A patent fish-hook, having two hooks which
close upon each other by means of a spring as soon as the fish bites.

TO SOCK. To press by a hard blow a man's hat over his head and face. Used in Rhode Island. I have never heard it elsewhere. The New York term is, to crown.

SOFT SOAP. Flattery; blarney. A vulgar phrase, though much used.

TO SOFT SOAP. To flatter; to blarney.

I am tired of this system of placemen soft-soaping the people,—telling them just before an election what fine, honest, noble, generous fellows they are, and then, just after election, turning their backs on them.—*Mike Walsh, Speech, Sept. 1843.*

SOFT SAWDER. Flattery; blarney.

Then he did a leadin' article on slavery and non-intervention, and spoke a little soft-sawder about America.—*Sam Slick in England,* ch. 20.

The Washington Union cracks the whip gently about the ears of the Democracy, and winds up with a counter-application of soft-sawder, in the shape of appeals to patriotism.—*N. Y. Com. Adv.,* Jan. 6, 1847.

TO SOFT SAWDER. To flatter.

I don't like to be left alone with a gall; it's plaguy apt to set me a soft-sawderin' and a courtin'.—*Sam Slick in England,* p. 19.

SOME. Somewhat; something. Ex. 'He is some better than he was;' 'it rains some,' &c. Used chiefly by the illiterate.—*Pickering's Vocabulary.*

SOPHOMORE. This word has generally been considered an American barbarism, but was probably introduced into our country at a very early period from the University of Cambridge, England. Among the cant terms at that University, as given in the Gradus ad Cantabrigiam, we find Soph-Mor as the next distinctive appellation to Freshman. It is added, that a writer in the Gentleman's Magazine thinks Mor an abbreviation of the Greek μωρίνα, introduced at a time when the Encomium Morce, the Praise of Fool yby Erasmus, was so generally used. The ordinary derivation of the word, from σωφός and μωρίς would seem, therefore, to be incorrect. The young Sops at Cambridge appear, formerly, to have received the adjunct mor, μωρίς, to their names, either as one they courted for the reason mentioned above, or as one given them
in sport for the supposed exhibition of inflated feeling in entering upon their new honors. The term thus applied, seems to have passed at a very early period from Cambridge in England to Cambridge in America, as the next distinctive appellation to Freshmen, and thus to have been attached to the second of the four classes in our American Colleges, while it has now almost ceased to be known, even as a cant word, at the parent institution in England, from whence it came. This derivation of the word is rendered more probable by the fact that the early spelling was, to a great extent at least, Sophomore, as appears from the manuscripts of President Stiles of Yale College, and the records of the Harvard College, down to the period of the American Revolution. This word would be perfectly natural if Soph or Sophistu was considered as the basis of the word, but can hardly be explained if the ordinary derivation had then been regarded as the true one.—Prof. Goodrich, new ed. Webster's Dic.

SOSSLÉ, or SOZZLE. A lazy or sluttish woman. Provincial in Connecticut.

Mr. Todd gives this word, which he defines as a lazy fellow, on the authority of Cotgrave and Sherwood. In the south of England, a soss-brangle is a slatternly, lazy wench. This is precisely the sense in which sosslé is used with us.

TO SOZZLE. To loll; to lounge; to go lazily or sluttishly about the house. A term used by housekeepers in certain parts of Connecticut. 'This woman sozzles up her work.' To sozzle is provincial in England, and means the same as to soss; i. e. to lounge, to loll.

A sandpiper glided along the shore; she ran after it, but could not catch it; she sat down and sozzled her feet in the foam.—Margaret, p. 8.

SPACK AND APPLEJEES. (Dutch.) Pork and apples, cooked together. An ancient Dutch dish made in New York.

SPAKE. (Preterite of speak.) This antiquated word is still heard occasionally from the pulpit, as well as in conversation.—Pickering's Vocab.

SPAN. A span of horses consists of two of nearly the same color, and otherwise nearly alike, which are usually harnessed
side by side. The word signifies properly the same as yoke, when applied to horned cattle, for buckling or fastening together. But in America, span always implies resemblance in color at least; it being an object of ambition with gentlemen, and with teamsters, to unite two horses abreast that are alike. —Webster. This use of the word is not mentioned in any of the English dictionaries or glossaries.

TO SPAN. To agree in color, or in color and size; as, 'The horses span well.' New England.—Webster.

SPAN-CLEAN.
SPANDY-CLEAN. Very clean; perfectly clean.

TO SPARK IT. To court. Used chiefly in New England.

You were a nation sight wiser than brother Jonathan, sister Keziah, poor little Aminadab, and all the rest; and above all, my owny, towny Lydia, the Deacon's darlin darter; with whom I've sparked it, pretty often-times, so late.—D. Humphreys, The Yankee in England.

SPARKING. 'To go a sparking,' is to go a courting; a common expression in the Northern States.

Mr. Justice Crow was soon overtaken; Lieut. Col. Simcoe accosted him roughly, called him "Tory," nor seemed to believe his excuses; when, in the American idiom for courtship, he said, "he had only been sparking."—Simcoe, Military Journal, p. 73.

He rolled his eyes horribly, and said that that was the way the young men cast sheep's eyes when they went a sparking.—Mrs. Clavers's Western Clearings, p. 16.

SPARROW GRASS. A vulgar pronunciation of asparagus both in England and America. Hence the celebrated charade by a certain alderman:

"My first is a little thing vot hops,—(sparrow)
My second brings us good hay crops,—(grass)
My whole I eats with mutton chops,"—(sparrow grass.)—Pegge, Anecdotes of the Eng. Lang., p. 54.

SPAT. A petty combat; a little quarrel or dissension. A vulgar use of the word in New England—Webster.

The National Bank and the Mechanic's Banking Association have had a standing spat for some time.—N. Y. Com. Adv.

We do not believe that Messrs. Buchanan and Walker have resigned their seats in the cabinet. There has been a spat of course; but there may be many more before either of the Secretaries will resign $6000 a year.—N. Y. Tribune.
AMERICANISMS.

TO SPAT. To dispute; to quarrel. A low word. New England.

TO SPAT THE HANDS. To slap the hands.

The little Isabel leaped up and down spatting her hands.—Margaret.

SPEC. A bit; in the least.

I doubled up my fist, for I did not like the treatment a spec.—S. Slick in England, ch. 2.

SPEC, for speculation; as, 'He made a good spec in flour.'

TO SPEECHIFY. To make a speech; to harangue.—Webster. A rather low word, and seldom heard except among bar-room politicians. It is not peculiar to America, though not in any English dictionary.

The treaties continually going on in the bazaar for buying and selling, are carried on by speechifying, rather than by mere colloquies.—Eöthen.

We'll forth in posse comitatus,
And take the Fox, ere he escape us;
Without a moment's pause he dies;
We'll hang him ere he speechifies!—Reynard the Fox, p. 143.

The Dyaks of Borneo are very fond of speechifying.—Keppel's Borneo.

SPELL. (From Ang. Sax. spelian, to supply another's room; to act or be proxy for.—Bosworth.) A turn of work; a vicissitude of labor.—Todd's Johnson. It is often used in a secondary sense, to denote a short turn; a little time; a bout; a fit; and is applied particularly to work, to sickness, or to the weather. Provincial in England and colloquial in the United States.

Their toil is so extreme as they cannot endure it above four hours in a day, but are succeeded by spells; the residue of their time they wear out at coytes and kayles.—Carew.

Come, thou's had thy spell, it's now my time to put in a word.—Carr's Craven Glossary.

Josiah Norton said he had come home from the South, where he had been pedling a spell.—Crockett, Tour, p. 90.

Spain has obtained a breathing spell of some duration from the internal convulsions which have, through so many years, marred her prosperity.—President Tyler's Message to Congress, 1844.

I and the General have got things now pretty considerable snug; public affairs go on easier than they did a spell ago, when Mr. Adams was President.—Maj. Downing's Letters, p. 35.

An itinerant gospeller was holding forth to a Kentuckian audience, on the kingdom of Heaven:

"Heaven, my beloved hearers," said he, "is a glorious, a beautiful, a splendid, an angeliferous place. Eye hath not seen, ear hath not heard, it has not entered into the imagination of any cracker in these here diggings what carryings on the just made perfect have up thar."

SPLIT. A division.

The fiery spirit which has occasioned a split among the British Archaeologists, would appear not yet to have burnt itself out, &c.—London Athenæum, p. 840.

There was a split in the Democratic Convention in Baltimore, caused by the Old Hunkers and Barnburners of New York.—Newspaper.

The split in the Whig organization, if it come to anything serious, will extend beyond the Presidential election.—Letter from Boston, New York Herald, June 21, 1848.

SPLIT. A rapid pace or rate of going. 'He went full split,' i. e. as hard as he could drive. 'To go like split,' is a common expression in New England.

There was no ox-teams [in New York] such as we have in Downingville; but there was no end to the one-hoss teams, goin' like split all over the city.—Maj. Downing, May-day in New York, p. 64.

TO SPLIT. To go at a rapid pace; to drive along. Used in the phrase, 'As hard as he could split.'

The thing tak first rate, and I set the niggers a drummin' and fifin' as hard as they could split right afore the cabin door.—Maj. Jones's Courtship.

**SPOOK.** (Dutch.) A ghost; hobgoblin.

**SPOONEY.** A man who has been drinking till he becomes disgusting. A stupid or silly fellow.—*Grose*. We use the word only in the latter sense. The Hon. Mr. Preston, in his remarks on the Mexican war, thus quotes from Tom Crib's remonstrance against the meanness of a transaction, similar to our cries for more vigorous blows on Mexico when she is prostrate:

> Look down upon Ben—see him, dunghill all o'er,  
> Insult the fallen foe that can harm him no more.  
> Out, cowardly spooney! Again and again,  
> By the fist of my father, I blush for thee, Ben.

Ay, you will see all the spooneys, that ran, like so many dunghill champions, from 54 40, stand by the President for the vigorous prosecution of the war upon the body of a prostrate foe.—*N. Y. Tribune*, 1847.

I shall escape from this beautiful critter, for I'm gettin' spooney, and shall talk silly presently.—*Sam Slick*.

"What! would you not have the child exhilarate and spruce up a little?" cried the father.—Margaret, p. 28.

SPRY. Having great power of leaping or running; nimble; active; vigorous.—Webster.

This word is much used in familiar language in New England. It is not in the English dictionaries, but Jennings notices it among the provincialisms of Somersetshire.

In a Fable by R. W. Emerson, "The Mountain and the Squirrel," Squirrel says:

If I'm not so large as you, 
You are not so small as I, 
And not half so spry.

She is as spry as a cricket.—Margaret, p. 58.

"How are you, Jeremiah?" "Why, I'm kinder sorter midlin', Mr. Slick, what you call considerable nimble and spry."—Sam Slick.

SPUNK. Mettle; spirit; vivacity.—Brockett's Glossary. A colloquial word, considered in England extremely vulgar.

I admire your independent spirit, Doolittle. I like to have people think well of themselves. You have convinced me of your spunk. I am your friend.—D. Humphreys, The Yankee in England.

SPUNKY. Sparkling; fresh; spirited.—Brockett's Glossary. Forby also mentions the word as provincial in Norfolk.

SPUR. A mountain that shoots from any other mountain or range of mountains, and extends to some distance in a lateral direction, or at right angles.—Webster.

SQUADDY. Short and fat. A vulgar word formed from squat.
I had hardly got seated, when in come a great, stout, fat, squally woman.
—Maj. Downing, May-day.

SQUALLY. Windy; gusty. A sailor’s word.—Johnson. It is often used by us in a figurative sense; so that to look squally, means to bode a quarrel; and especially as applied to political meetings and debates.

TO SQUALE. To throw a stick or other thing with violence, and in such a manner that it skims along near the ground. New England.—Pickering’s Vocabulary.

According to Grose, it is provincial in the west of England, and means, “to throw a stick, as at a cock.”

TO SQUARE UP. To put oneself in an attitude fit for boxing. Provincial in various parts of England.—Halliwell.

You will remember that Mr. Polk asserted that our title to Oregon was “clear and unquestionable.” Well, how was that settled? There were Polk and Cass fidgeting and squaring up to Queen Victoria, one declaring that unless England or the United States backed out, war was “inevitable.”—Speech at a Whig Meeting in Baltimore, June, 1848.

TO SQUAT. To squeeze; to press. Ex. The boy has squat his finger. Used by the vulgar in New England.—Pickering’s Vocabulary.

TO SQUAT. In the United States, to settle on another’s lands, or on public lands, without having a title.—Worcester.

On either side of the bank the colonists had been allowed to squat on allotted portions until the survey of the town should be completed.—Wakefield’s Adventures in New Zealand in 1844.

SQUATTER. In the United States, one that settles on new land without a title.—Webster.

When I was at Prairie du Chien, there were several of the officers who had been cited to appear in court, for having, pursuant to order, removed squatters from the Indian lands on the Mississippi.—Hoffman, Winter in the West, Let. 29.

The Western squatter is a free and jovial character, inclined to mirth rather than evil; and when he encounters his fellow-man at a barbecue, election, log-rolling, or frolic, he is more disposed to join in a feeling of hilarity, than to participate in wrong or outrage.—Robb, Squatter Life.
The London Spectator has the following remarks on this word, occasioned by the removal of a number of the occupants of Glenculvie, in Scotland, who had *squatted* there as under-tenants:

The term "*squatter*" is very ambiguous. In America it denotes a ragged rascal without a cent in his pockets, and with a rifle or woodman’s axe in his hand. In Australia, it designates a young Oxonian or retired officer of the army or navy, possessed of stock to the value of some thousands. In Scotland it seems to designate a person very differently circumstanced from either of the preceding. . . . The Scotchmen who “squat under tenants,” are men who have followed their fathers and grandfathers for unknown generations in the occupancy of their huts and kail-yards. Their families are of older standing in the district than those of the tacks-men or the lairds. The Scotch *squatter* is no clandestine intruder upon the soil; he stands in the place of his forefathers, and the act which ejects him is a violent innovation on the customs of the country—a forcible change in a mode of tenancy, sanctioned by the “use and wont” of all ages.—June 7, 1845.

**SQUAW.** (Narragansett Indian.) An Indian woman. Mr. Duponceau, after giving a list of the languages and forms in which this word occurs, observes: “On voit que la famille de ce mot s’étend depuis les Knisténaux en Canada, et les Skoffies et Montagnards d’Acadie, jusqu’aux Nanticokes sur les confins de la Virginie.”—*Mém. sur les Langues d’Amérique du Nord*, p. 333.

**SQUAW-ROOT.** (Lat. *macrotys racemosa.*) A medicinal plant put up by the Shakers. It is recommended for correcting the secretions, and possesses narcotic properties.

**SQUAW-WEED.** (Lat. *senecio obovatus.*) A medicinal plant used for diseases of the skin.

**SQUETEAGUE, or SQUETEE.** (Labrus *Squeteague.*) A very common fish in the waters of Long Island Sound and adjacent bays. It never visits rivers, and is similar in habits to the tautog. In New York it is called *Weak-fish*, owing to the feeble resistance it makes when caught with a hook.

**TO SQUIB.** To throw squibs; to utter sarcastic or severe reflections; to contend in petty dispute; as, "two members of a society *squib* a little in debate." Colloquial.—*Webster.* This word is not in the English dictionaries.

At the edge of the woods a rude structure had been thrown up, of staddles interlaced with boughs.—*Margaret*, p. 274.

STAG-DANCE. A dance performed by males only, in bar-rooms, &c. Also called a bull-dance.

STAGE. A carriage for conveying passengers; a stage-coach. —Worcester. We sometimes use mail-stage for mail-coach, which is hardly allowable.

A place was taken in the Stamford stage.

Our coachman, Dick, the shades of night to shun,
Had yok'd his horses long before the sun.—Hawkes, The Stage Coach.

STAGE DRIVER. A stage-coachman.

STAGING. Scaffolding. Used in New England, and I believe in other parts of the United States.—Pickering.

STAMPEDE, or STAMPADO. (Span. estampado, footsteps, noise of stamping feet.) A general scamper of animals on the Western prairies, generally caused by a fright. Mr. Kendall gives the following interesting account of them:

"A stampede!" shouted some of the old campaigners, jumping from the ground and running towards their frightened animals; "a stampede! look out for your horses, or you'll never see them again!"] was heard on every side.

It is singular, the effect that sudden fright has, not only upon horses, but oxen, on the prairies. The latter will, perhaps, run longer and farther than the former; and although not as difficult to 'head,' because they cannot run so fast, their onward course it is impossible to stay. Oxen have been known to run forty miles without once stopping to look back. Not one in fifty of them has seen the least cause of fear, but each simply ran because his neighbor did. Frequent instances have occurred where some worthless but skittish horse has caused the loss of hundreds of valuable animals.

Nothing can exceed the grandeur of the scene when a large cavallada, or drove of horses, take a 'scare.' Old, weather-beaten, time-worn, and broken-down steeds—horses that have nearly given out from hard work, or old age—will at once be transformed into wild and prancing colts. When first seized with that indescribable terror which induces them to fly, they seem to have been suddenly endowed with all the attributes of their original wild nature. With heads erect, tails and manes streaming in the air, eyes lit up, and darting beams of fright, old and jaded hacks will be seen prancing and career ing about with all the buoyancy of action which character-
izes the antics of young colts. The throng will sweep along the plain with a noise which may be likened to something between a tornado and an earthquake, and as well might feeble man attempt to arrest either of the latter.

Were the earth rending and cleaving beneath their feet, horses, when under the terrifying influence of a stampede, could not bound away with greater velocity, or more majestic beauty of movement.—Santa Fe Expedition, Vol. I. p. 96.

The boys leaped and whooped, flung their hats in the air, chased one another in a sort of stampede, &c.—Margaret, p. 120.

After him I went, and after me they came, and perhaps there wasn’t the awfulest stampede down three pair of stairs that ever occurred in Michigan!—Field, Western Tales.

TO STAMPEDE. To cause to scamper off in a fright.

Col. Snively was on the point of marching in pursuit of the Mexicans, when an incident occurred which frustrated the purposes of the expedition. This was effected by a war party of Indians, who succeeded in stampeding a large band of the army horses.—Scenes in the Rocky Mountains, p. 268.

STAND-POINT. (Germ. stand-punkt.) Place of standing; point of view. An expression lately introduced from the German.

TO STAND UP TO THE RACK. A metaphorical expression of the same meaning as the like choice phrases, ‘to come to the scratch;’ ‘to toe the mark.’

I begun a new campaign at Washington. I had hard work, but I stood up to the rack, fodder or no fodder.—Crockett, Tour, p. 137.

By making a great rush upon these free-thinkers, we can whip them back into the party, and make them stand up to the rack, fodder or no fodder.—Ibid., p. 212.

It was the hottest night’s work ever old Wolf undertook; and it tuck a mighty chance of hollerin’ to make him stand up to his rack as well as he did.—Maj. Jones’s Courtship, p. 64.
DICTIONARY OF STARS. A Southern pronunciation of the word *stairs*, like *bar* for *bear*; also heard in New England.

STATE-ROOM. A small room in a ship or steam-vessel for one or two passengers.—Worcester.

TO STAVE. To break a hole in; to break; to burst; as, 'to stave a cask.'—Webster. This is the legitimate use of the verb; but sometimes we make it govern the instrument directly, as in the following example:

I'll *stave* my fist right through you, and carry you on my elbow, as easily as if you were an empty market-basket.—Neal’s Charcoal Sketches.

TO STAVE. To hurry; to press forward.

A president of one of our colleges once said to a graduate at parting, "My son, I want to advise you. Never oppose public opinion. The great world will *stave* right on!"—Am. Review, June, 1848.

In the mean time, this new episode [Mr. Webster’s speech on the Ashburton treaty] will *stave* off the Oregon question.—N. Y. Com. Adv.

STEAL (pronounced *stail*). The handle of various implements; as a *rake-steal*, a *fork-steal*. Used by the farmers in some parts of New England. Provincial in various parts of England.—Pickering.

STEVEDORE. A man employed in loading and unloading vessels.—Worcester.
AMERICANISMS. 333

STEW. To be in a stew, is to be in a heat, a confusion of mind. According to Grose, however, who is followed by Todd and Webster, a stew is "confusion, as when the air is full of dust, smoke, or steam."

Incensed were Isengrim and Bruin, To see the couple such a stew in.—Reynard the Fox, p. 189.

It aint such an easy thing to feel mad at a rite pretty gall; and the more he feels mad, the more he's apt to feel sorry too. I tell you what, I was in a stew. I didn't know what to do.—Maj. Jones's Courtship, p. 77.

Clay, Calhoun, Van Buren, Benton, Cass, Webster, and all the intriguing politicians, who have kept the country in a stew for years past, may be considered as effectually laid on the shelf.—Newspaper.

TO STICH. To form land into ridges. Common in New England.—Webster. The word is not new, though it does not seem to be used now in England.

Many men at plough he made, and drave earth here and there
And turn'd up stitches orderly.—Chapman, Iliad.

TO STICK. To take in; to impose upon; to cheat in trade. I'm stuck with a counterfeit note;' 'He went to a horse sale, and got stuck with a spavined horse.'

As soon as the whole class of small speculators perceived they had been stuck, they all shut their mouths; no one confessing the ownership of a share.—A Week in Wall Street, p. 47.

Very often is a client stuck for a heavy bill of costs, which he would have saved but for the ignorance of his attorney.—Newspaper.

STICK-CHIMNEY. In newly settled parts of the country, where log-houses form the first habitations of the settlers, the chimneys are made with sticks from one to two inches square, and about two feet in length, which are laid crosswise and cemented with clay or mud. The fire-places are built of rough stone, and the stick-chimneys are merely the conductors of the smoke.

The stick-chimney [of this house] was like its owner's hat, open at the top, and jammed in at the sides.—Mrs. Clavers's Western Clearings, p. 7.

STICKER. An article of merchandise which sticks by the dealer and does not meet with a ready sale, is technically called a sticker.

STICKLING. Hesitating; delaying.—Dr. Humphreys.
STILL-HOUSE. A common term in the United States for a distillery.

Despise it not, ye Bards to terror steel'd,
Who hurl'd your thunders round the epic field;
Nor ye who strain your midnight throats to sing
Joys that the vineyard and the still-house bring.—Joel Barlow,
Poem on Hasty Pudding.

STIMULUS. This very common word is not mentioned by any English lexicographer, though it is used by good English writers. Our American lexicographers, Pickering, Webster, and Worcester, have noticed it.

1. Literally, a goad; hence something that rouses the mind or spirits; as, 'the hope of gain is a powerful stimulus to labor and action.'

2. In medicine that which produces a quickly diffused or transient increase of vital energy and strength of action in the circulating system.—Webster.

3. In vulgar use, intoxicating drink.

Those young academicians will receive, from the perusal of his book, a powerful stimulus to their ambition.—British Critic, Vol. III. p. 518.

TO STIVE UP. To stuff up close.—Johnson.

Things are a good deal stived up. People's minds are sour, and I don't know what we can do.—Margaret, p. 329.

You would admire, if you saw them stive it into their ships.—Sandy's Travels.

"Oh, marcy on us," said a fat lady who was looking for a house, "this'll never do for my family at all. There's no convenience about it, only one little stived up closet. . . . And the bed-rooms,—she would as soon sleep in a pig-pen and done with it, as to get into such little mean stived up places as them."—Downing, May-day in New York.

TO STIVER. To run; to move off. A low word used in the Northern States.

STIVER. A Dutch coin about the value of a cent. A common expression in New York is, 'He's not worth a stiver,' i. e. he's very poor.

STOCK. Cattle in general; the cattle belonging to a farm. Provincial in the North of England.—Pegge's Glossary.
AMERICANISMS.

STOCKHOLDER. One who is proprietor of stock in the public funds, or in the funds of a bank or other company.—Webster. This is not in the English dictionaries. In England when speaking of the same, they say shareholders, members, or proprietors, generally the former. Mr. Pickering, however, cites the Edinburgh Review for the use of the word:

The stockholders who allow inferior capitalists to derive a profit from commission, will diminish that allowance.—Vol. III. p. 475.

STOOL-PIGEONING. One of the old standing and oft-repeated charges urged with great pertinacity against the police of this city in olden times, was that of "stool-pigeoning." As this term may not be familiar to our readers, we will briefly explain it. "Stool-pigeoning" is for an officer to arrest a party of doubtful or perhaps decidedly bad reputation on suspicion, and making him or her give up money or valuables to obtain liberty, when the officer would set the party free, and nothing would be heard by the public or any one else of the arrest, or anything else connected with it.—N. Y. Courier and Enquirer.

STONE-ROOT. (Lat. Collinsonia Canadensis.) A plant used in medicine. Its properties are diuretic and stomachic.

STOOP. (Dutch, stoep.) The steps at the entrance of a house; door-steps. It is also applied to a porch with seats, a piazza, or balustrade. This, unlike most of the words received from the Dutch, has extended, in consequence of the uniform style of building that prevails throughout the country, beyond the bounds of New York State, as far as the backwoods of Canada.

About nine o'clock all three of us passed up Wall street, on the stoops of which no small portion of its tenants were already seated.—Cooper, Satanshoe, Vol. I. p. 69.

Nearly all the houses [in Albany] were built with their gables to the streets, and each had heavy wooden Dutch stoops, with seats at the door.—Ibid. p. 161.

There was a large two story house, having a long stoop in front.—Margaret, p. 63.

I shall step back to my party within the stoop.—Backwoods of Canada.

The stoop is up, and I have just planted hops at the base of the pillars.—Ibid. p. 309.
TO STOP. To visit; to stay; as, 'When you come to New York, stop with me instead of going to a hotel.'

Those who remain at home know little of the newer portions of our country, and of the primeval style of living. I recently stopped with a friend on court-day. The court-house was of logs, without a floor, etc.—Corresp. of Newark Daily Adv.

STORE. In the United States and Canada, shops of every kind for the sale of goods whether at wholesale or retail, are commonly called stores. Thus we have dry goods stores, shoe stores, book stores, hardware stores, etc. etc. This use of the word, whose proper meaning is a magazine or storehouse, where merchandise or movable property is kept, seems to arise from that tendency to the magniloquent with which Americans have been charged.

TO SET STORE BY. To value; esteem; regard. This sense of the word store is not noticed by the English or American lexicographers, though it comes to us from a good source. It is much used in New England in familiar conversation, and is also provincial in England, according to Halliwell.

STOREKEEPER. In America, a man who has the care of a store or warehouse; a shopkeeper. The officer who has charge of the government warehouse, where property to the value of millions is deposited for inspection, or for safe keeping, is a storekeeper; so too is the man who stands behind the counter of a shop, and sells his yard of tape, or paper of pins.

STORM. A violent wind; a tempest. Thus, 'a storm of wind' is correct language, as the proper sense of the word is rushing, violence. It has primarily no reference to a fall of rain or snow; but, as a violent wind is often attended with rain or snow, the word storm has come to be used, most improperly, for a fall of rain or snow without wind.—Webster.

TO STORM. To blow with violence; impersonally, as, it storms.—Webster. We use it improperly in the sense of to rain or to snow.

STORY. A floor; a flight of rooms.—Johnson. In the United
States, the floor next the ground is the first story. In France and England, the first floor or story is the second from the ground.—Webster.

STRAIGHT AS A LOON’S LEG, is a common simile in New England.

They were puzzled with the accounts; but I saw through it in a minit, and made it all as straight as a loon's leg.—Maj. Downing's Letters, p. 42.

STRANGER. It is the common practice in the Western States to accost a person whose name is not known by this title. In England, for example, a person would say, 'Can you tell me, sir, if this is the road to B?' At the West he would say, 'Stranger, is this the road?' &c.

STRAPPER. A woman of a bulky form. A large, tall person.—Carr's Craven Dialect. Jodrell's Philology. This vulgar word is used in the same sense with us.

Your mother! by St. Anthony, she's a strapper; why, you are a dwarf to her.—Mrs. Centlivre, The Wonder, Act IV.

STRAPPING. Huge, lusty, bouncing; as, 'a strapping lass.'—Philips, New World of Words.

Then that t'other great strapping lady.—Congreve, The Double Dealer.

Wi' kindly welcome Jenny brings him ben, A strappin youth; he takes the mother's eye.—Burns.

STREAKED, or STREAKY. 'To feel streaked,' is to feel confused, alarmed.

I begun to feel streaked enough for our folks, when I see what was done on Boston Common.—Maj. Downing's Letters, p. 18.

Polly begun to look a little streaked.—May-day in New York, p. 49.

People felt considerable streaked [about the executions in Canada], in consequence of the rebellion in 1837.—Sam Slick, 3d Series.

Oh what a beautiful sight the ocean is when there aint no land in sight! There we was in a little shell at the mercy of them big waves, higher than father's barn. I never did feel so streaky and mean afore—talk of a grain of sand; why I felt like a starved speck of dust cut up into homoeopathic doses for a child two minits old.—Hiram Bigelow, Letter in Family Companion.

Gen. Tell the truth—keep back nothing—I promised no harm shall happen you.

Doolittle. Oh, I'll tell all now—I won't stay to be hanged first. Oh,—
the good, gracious suzz! how streaked I feel all over!—D. Humphreys, The Yankee in England.

TO STREAK, or TO STREAK IT, is to run as fast as possible.

O'er hill and dale with fury she did dree,
A' roads to her were good and bad alike;
None o't she wyl'd, but forward on did streak.—Ross's Helenore.

I was certain it wasn't no fox or wolf, but a dog; and if I didn't streak off like greased lightnin'—Carlton, The New Purchase, Yo. I. p. 78.

I streaked it for Washington, and it was well nigh upon midnight when I reached the White House.—Maj. Downing's Letters, p. 91.

... as if he'd never seen a man afore, and then streak it off as if I had been an Indian.—Porter's Tales of the South-west, p. 165.

STRETCHER. A notorious lie.—Carr's Craven. Brockett.

Whenever Mrs. Oscar Dust told a stretcher, old Waters was expected to swear to it.—Field, Drama at Pokerville.

STRICKEN. "This ancient participle," says Mr. Pickering, "is much used in Congress and our other legislative assemblies. A member moves that certain parts of a bill should be stricken out," &c.—Vocabulary.

The use of the word referred to by Mr. Pickering is peculiar to us, though there are examples of its occasional use in England applied in other ways.

Many of the foreigners were much stricken with the splendor of the scene.—London Statesman, June 10, 1814.

TO STRIKE, among workmen in manufactories, in England and America, is to quit work in a body or by combination, in order to compel their employers to give them higher wages.—Webster.

STRIKE. A combination among workmen to obtain an advance in wages. This, as well as the verb to strike, is new, and has not yet found its way into the English dictionaries. Its use is now common both in England and America.

STRING. A common name among teamsters for a whip.

With some judicious touches of the string, the horses are induced to struggle as for their lives.—Mrs. Clavers, A New Home, p. 9.

STRING-BEANS. The common name for French beans; so
called from the string-like substance stripped from the side of
the pod in preparing it for the table.

**STRIPPINGS.** The last and consequently the richest milk
drawn from a cow in milking. It is provincial in England.

When they were about breaking up the meeting, Deacon Ramsdell said,
"Shan't we have a collection? We have had nice times, but strippins
arter all is the best milk." — *Margaret*, p. 159.

**GOOD STROKE.** Used in the sense of considerable; as, 'a
good stroke of business.' — *Brockett's North County Words.*

**STRONG.** To *go it strong*, means to do a thing with energy
or perseverance.

The pilot on duty above; another was calling out the Captain, who
*went it strong* at cards. — *Porter's Tales of the South-west*, p. 107.

You should *go it*, remarked Spifflenkins, *go it strong*—that’s the way to
scatter the blue devils, *go it strong*; and as the poet judiciously remarks,
*go it* while you’re young. — *Neal's Peter Ploddy*, p. 46.

**TO STUB, or STUMP.** 'To *stub one’s toe,*' is to strike it
against anything in walking or running; an expression often
used by boys and others who go barefoot.

**STUBBY.** { Short and thick; truncated.— *Todd. Webster.*

**STUBBED.**} This word is now provincial in England. In the United
States it is colloquial and not much used. It is found in well
known authors.

A pain he in his head-piece feels,
Against a stubbed tree he reels,
And up went poor Hobgoblin’s heels. — *Drayton.*

It is also used to signify hardy; not delicate.— *Todd’s Johnson.*
In this sense it is heard with us. Ex. That is a *stubbed child;* meaning hardy, plump, or strong.

The hardness of *stubbed* vulgar constitutions renders them insensible of
a thousand things. — *Bishop Berkeley.*

If he thinks I’ll put that treatment to my wife, he’s mistaken. He may
be *stubbred* than I be, Uncle, that’s a fact; but if he was twice as *stubbred*
I’d walk into him like a thousand of brick. — *Sam Slick in England*, ch. 29.

However, I can always help a gentleman, if he asks me like a gentle-
man; and, upon the whole, I guess I’m rather *stubbred* than you be.—

**STUD.** A collection of breeding horses and mares.— *Johnson.*
In the United States we use the term *stud-horse*, or simply *stud*, to signify a breeding horse; a stallion.

**STUFFY.** In Scotland, stout, mettlesome, resolute.—*Jamieson*.
In the United States, angry or sulky; obstinate. Colloquial.
—*Worcester*.

**STUFFENING.** Stuffing; seasoning for meat or poultry, usually made of bread and herbs to give it a higher relish.
Western.

By way of amends [for the dried up turkey] quarts of gravy were judiciously emptied on our plates from the wash-basin bowls. That also moistened the *stuffinin*, composed of Indian meal and sausages.—*Carlton, The New Purchase*, Vol. I. p. 182.

**TO STUMP.** To challenge; to defy.—*Webster*. *Worcester*.
The more usual meaning, however, is to puzzle; to confound.

Dabbs turns up his nose at betting. Instead of *stumping* his antagonist by launching out his cash, he shakes a portentous fist under his nose, and the affair is settled.—*Neal's Charcoal Sketches*.

When you see Lord Sydenham, *stump* him; and ask him, when a log is hewed and squared, if he can tell the tenth side of it.—*Sam Slick*.

Heavens and earth! thinks I, what does all this mean? I knowed I hadn't done anything to be put in prison for, and I never was so *stumped*.

At this the parson appeared as if he was *stump't*.—*Crockett, Tour*, p. 16.

I put a conundrum to them. They were all *stump't* and gave it up.—*Ibid*.

**TO STUMP.** 'To *stump it*', or 'take the stump.' A cant phrase signifying to make electioneering speeches.—*Worcester*.
This is a term borrowed from the backwoods, where the stump of a tree often supplies the place of the English hustings.

**STUMPER.** A puzzler.

My note was a *stumper* to Sally; so she got Jess to explain it, and the way he did it was enormous.—*Robb, Squatter Life*.

**STUMP ORATOR.** A man who harangues the people from the stump of a tree, or other elevation.

**STUMP ORATORY.** The sort of popular speaking used by stump orators.

**STUMP SPEECH.** A speech made from a stump or other
elevation; i. e. an electioneering speech in favor of one's self, or some other political candidate.

We had of course a passion for stump speaking. But recollect, we often mount the stump only figuratively; and very good stump speeches are delivered from a table, a chair, a whiskey-barrel, and the like. Sometimes we make the best stump speeches on horseback.—Carlton, The New Purchase, Vol. I. p. 211.

STUMP SPEAKER. A popular political speaker.

The Hon. W. R. Thompson, of Indiana, one of the most popular stump speakers of the day, addressed a large meeting of Whigs from the stoop of Barnum's Hotel, Baltimore, in support of the nominations of the late Whig Convention.—Letter from Washington, N. Y. Herald, June 21, 1848.

The New York Commercial Advertiser, in giving the requisites of a good stump speaker, says:

A less objectionable pre-requisite is self-reliance. A man may be pardoned for faltering in delivering a lecture; or for showing sweet confusion and charming hesitation in addressing a fashionable audience on manners and taste; a man may even be agitated by the conflict of natural bashfulness and a desire to advocate a good cause; but woe, confusion and utter rejection as an instrument of power await him who breaks down in a political stump speech. Right or wrong, well-informed or ignorant, he must be bold in speech and dogmatical in his assertions, and the weaker he feels his cause to be, the more vehemently and confidently he must advocate it. His self-reliance had better rise into impudence than sink into modesty, if he desires to make an impression; at least we have heard speakers who seemed to act on this principle. Seriously, however, nerve, and energy, and self-reliance of a high order, are pre-requisites for those who enter upon the work of itinerant speech-makers among either party.

But we cannot longer dwell on this view of the matter. Other pre-requisites there are, as experience has shown, but they must be summarily dismissed: a good, meaning thereby a convenient, memory, that will retain the slightest incident or the most apocryphal anecdote that will tell in favor of the speaker's candidate and against his opponent, but will prove a very open sieve in the matter of a favorite's follies or an opponent's virtues. Then the campaigner should have the last edition of the political jest book; a vocabulary of hard names; a dictionary of offensive epithets; a text book of political phrases and clap-trap expressions; with a general assortment of "principles," "issues," "consequences," and a package of "patriotism," "devotion," "free republics," "enlightened people," &c. &c., and thus armed he may go forth to political war.—June 23, 1848.

STUMPPAGE. The sum paid to owners of land for the privilege of cutting the timber growing thereon. State of Maine.
STUN, for stone, so pronounced in the back parts of New England.

Captain Stone, I've been clean away amongst the Yankees, where they call your name Stunn.—Crockett, Tour, p. 145.

STURTION. A common pronunciation for nasturtion.

TO STUTTER. To saunter lazily, with a slip-shod movement. This is not a common word. I have never met with it except in the example quoted.

I stuttered up to No. 4 yesterday after the funeral; but they are so grown over with rum there, you can hardly tell what is nater and what is not.—Margaret, p. 327.

SUABILITY. Liability to be sued; the state of being subject by law to a civil process.—Webster.

SUABLE. That may be sued; subject by law to be called to answer in court.—Webster.

SUANT. Even; uniform; spread equally over the surface. Provincial in England.—Holloway’s Prov. Dict. Used by farmers in some parts of New England, and applied thus: 'The grain is sowed suant,' i. e. evenly; regularly.—Pickering.

TO SUBSIST. To feed; to maintain.—Todd. This and the following verb are sometimes, though rarely, used transitively.

Instructions have been given by the Department, to cause the officers and men of the California regiment, left on shore, to be quartered on Governor's Island, where they will be subsisted and provided for until a transport can take them to their place of destination.—Washington Union.

TO SUCCEED. To prosper; to make successful.

Sincerely praying and desiring for your Excellency's highest personal happiness, and the smiles of Heaven to succeed your present and very important embassy, I have the honor to remain, &c., &c.—J. Perkins, Residence in Persia, p. 219.

SUCKATASH, or SUCCOTASH. (Narragansett Ind., msiek-quatast, corn boiled whole.) Green Indian corn and beans boiled together. It is a favorite dish wherever these plants are cultivated.

Joel Barlow, in his admirable poem on Hasty-pudding, thus compares succotash with it:
AMERICANISMS.

Let the green succotash with thee contend,
Let beans and corn their sweetest juices lend;
Not all the plate, how fam'd soe'er it be,
Can please my palate like a bowl of thee.—Canto I. p. 6.

SUCKER. A nickname applied throughout the West to a native of Illinois. The origin of this term is as follows:

The Western prairies are, in many places, full of the holes made by the "crawfish," (a fresh, water shell-fish similar in form to the lobster,) which descends to the water beneath. In early times, when travellers wended their way over these immense plains, they very prudently provided themselves with a long hollow weed, and when thirsty, thrust it into these natural artesians, and thus easily supplied their longings. The crawfish-well generally contains pure water, and the manner in which the traveller drew forth the refreshing element gave him the name of "Sucker."—Let. from Illinois, in Providence Journal.

A correspondent of the New York Tribune, writing from Illinois, says:

We say to all friends of association, come West; to the land of suckers and liberal opinions.

SUCKER. A greenhorn; an awkward country fellow. Western.

SUCKER. A hard drinker; a drunkard.

SUCKER. A tube used for sucking sherry-cobblers. They are made of silver, glass, straw, or sticks of maccaroni.

SUCKER. A very common fish of the genus labeo, and of which there are many varieties, including the Chub, Mullet, Barbel, Horned Dace, etc. They are found in most of the lakes and rivers of North America.

TO SUCK IN. To take in; to cheat; to deceive. A figurative expression, probably drawn from a sponge, which sucks up water. To be sucked in, is to be 'sponged' out of one's money, or to be cheated in a bargain. It is a low expression, though often heard, and is understood by all.

"I ain't bound to drive nobody in the middle of the night," said the driver; "so you don't try to suck me in there."—Mrs. Clavers's Forest Life, Vol. I. p. 109.
Who was the first unfortunate speculator? Jonah. Ah! why? Because he got sucked in!—Newspaper.

SUGAR MAPLE. (Acer saccharinum.) A handsome forest tree from 50 to 80 feet high, from the sap of which is made the well known maple sugar. The wood is valuable for fuel; and accidental varieties of it are the birds-eye maple and curled maple of cabinet makers.—Dr. Torrey, in Nat. Hist. of New York.

SUGAR ORCHARD. A collection of maple trees selected and preserved in the forest for the purpose of making sugar therefrom.

SUNDOWN. Sunset. Peculiar to the United States.

SUPAWN. An Indian name, in universal use in New England, New York, and other Northern States, for boiled Indian meal.

The common food of the Indians is pap, or mush, which in the New Netherlands is named supaen. This is so common among them, that they seldom pass a day without it, unless they are on a journey or hunting. We seldom visit an Indian lodge at any time of day, without seeing their supaen preparing, or seeing them eating the same. It is the common food of all; and so fond of it are they, that when they visit our people, or each other, they consider themselves neglected unless they are treated with supaen.—Van der Donck's New Netherlands, (1656,) N. Y. Hist. Soc. Collections.

The flour [of maize] makes a substantial sort of porridge, called by the Americans supporne; this is made with water, and eaten with milk.—Backwoods of Canada, p. 189.

holding up pantaloons; also called galloues in many parts of the country.

SURE AS A GUN. Absolutely certain. A common colloquial expression.—Brockett.

There's luck, says auld Lizzy, in facin' the sun; Thou's young, lish, and clever, may wed a feyne leady, And come home a nabob—aye, as sure as a gun.—Westm. and Cumb. Dialect, p. 256.

SUZZ! A common pronunciation of sirs! An exclamation much used in New England, as sirs is in Scotland.

SWACKING. Huge; robust.—Forby's Vocabulary.

SWAD. In New England, a lump, mass, or bunch; also, a crowd.—Webster. This is a vulgar word. In the North of England it is the common name for the pod or shell of peas. May not our word be derived from this? A pod is a quantity, a bunch of peas. A quantity or large pile of potatoes, would be called 'a swad of potatoes'—so, 'a swad of people.' (See Dreadful.)

There was a swad of fine folks, and the house was well nigh upon chuck full.—Maj. Downing's Letters, p. 35.

How is a colonist able to pay for this almighty swad of everlasting plunder, seein' he has no gold or silver.—Sam Slick, 3d Ser. ch. 6.

SWAG. A term used in speaking of booty lately obtained. I have never seen the word used except by Mr. Greeley, who has good authority for its use in Grose's Slang Dictionary.

Between Gen. Storms and the late Comptroller, there have been at least $20,000 lost to the State; and though Mr. Flagg seems to have been exceedingly remiss and blameworthy in the premises, it will not be easy to make the people of New York believe that any of the swag has found its way into his pocket.—N. Y. Tribune, April 21, 1848.

SWALE. A local word in New England, signifying an interval or vale; a tract of low land.—Webster. This word is provincial in Norfolk, England, and means a low place; and shade, in opposition to sunshine.—Forby's Vocabulary.

TO SWALE. To melt and run down, as the tallow of a candle; to waste away without feeding the flame; to blaze away.—Pickering. Webster. This word is provincial in England, and is mentioned by Ray, Grose, and other writers. —Craven Glossary.
TO SWAMP. To plunge into inextricable difficulties.—Webster. To whelm or sink as in a swamp.—Todd. The former use of the word is not in Todd’s Johnson, or other English dictionaries. Dr. Webster quotes the Quarterly Review as authority. It is common in the United States, though not elegant. Ex. ‘He invested a large sum of money in land speculations, which swamped him’; i.e. ruined him.

I SWAMP IT! An interjection of the same meaning as I swan! which see.

If had that darn’d old vessel—that frigate there—bin a stone’s throw farther off from land, I should never have swummed to shore, dead or alive, to all eternity, I swam it.—D. Humphreys, The Yankee in England.

SWAMP-PINK. (Lat. Azalea Viscosa.) A popular name for the Wild Honeysuckle.—Bigelow’s Plants of Boston.

SWAN! A euphemistic pronunciation of the word swear; as, I swan! Used chiefly in New England.

“Well! I swan!” exclaimed the mamma, giving a round box on the ear to a dirty little urchin, “what made you let the little huzzy have your specs?”—Mrs. Claver’s Forest Life, Vol. I. p. 29.

I took a turn round Halifax, and I swan if it aint the thunderiest, drearierest place I ever seen, and the people they call blue-noses.—Hiram Bigelow’s Lett. in Family Companion.

SWANGA. A word used among the negroes in some parts of the South in connection with buckra, as swanga buckra; meaning a dandy white man, or literally, a dandy devil. Swanga is an African word, and belongs to the language spoken near the Gaboon river, where anything gay or elegant is swanga. The Rev. J. L. Wilson, long a resident in Africa, and acquainted with the language, recognises this word among the Southern negroes.

TO SWAP. To exchange; to barter.—Johnson.

This word has often been noticed by English travellers in this country, and may, perhaps, be more common here than in England; but it is also used by the vulgar in that country.

—Pickering.

When I drove a thrust home, he put it by,
And cried as in derision, “Spare the stripling.”
Oh, that insulting word! I would have swoop’d

**To Swate,** pron. *swot.* (Dutch, perf. of *suizen*, to make the ears tingle.) To give a violent slap or blow in the face with the open hand. A low word.

**Swot.** A violent slap or blow with the open hand.
I SWOW! An exclamation.

TO SYSTEMIZE. To systematize. A word rarely used by good writers.—*Worcester*. Dr. Webster, however, gives it the preference over *systematize*, which he denounces as "ill formed." What would he have thought of *dogmize* and *stigmize*, by way of 'improving' the language?

T.

TO SUIT TO A T. To suit or fit exactly. This old English phrase is often used by ourselves in colloquial language.

TO TACKLE. To attack. Provincial in England.—*Halliwell*.

TO TAKE TO DO. To take to task; to reprove.

TO TAKE THE SHINE OFF. To surpass; excel.

Dublin is worth seein'; it takes the shine off of most cities.—Sam Slick, 3d Series.

TALENTED. Furnished with talents; possessing skill or talents.—Webster. This word is not noticed by any English lexicographer except Knowles.

The London Monthly Magazine (Sept. 1831) blames Mr. Stanley for using this word. "Sir Robert Peel referred it to his American associations, and prayed him never to employ it again, with all the strenuousness of Oxonian adjuration." The Philadelphia Nat. Gaz., in speaking of the above, adds, "Sir Robert was right in protesting against the word, but wrong in his reference. It is of London cockney derivation, and still more employed in Great Britain than in America."

Mr. Bulwer is not yet 'talented,' a pseudo-participle, which no one will use who is not ripe for any atrocity; but he 'progresses' at a fearful rate.—Edinburgh Rev., Vol. LXV. p. 240.

TALKING-IRON. A comical name for a gun or rifle; called also a shooting-iron.

Spoke like a tall fellow, that respects his reputation.—Richard III.

They, leaping overboard amidst the billows,

We pluck'd her up, unsunke, like stout tall fellows.—*Taylor's Works,* 1630.

In the United States, and especially at the South, the word is often used in the analogous sense of great; excellent; fine.

Stump straightened up and started at a pace that would have staggered Capt. Barclay, Ellsworth, or the greatest pedestrian mentioned in the annals of 'tall walking.'—Kendall's *Santa Fé Expedition,* Vol. I. p. 398.

A pretty tall excitement came off at Coney Island on Saturday.—*N. Y. Tribune.*
TALL, as an *adv.* Finely; exceedingly; highly; very much. Western.

**TO TAP.** To add a new sole or heel to a shoe. Hertfordshire, England.—*Worcester*.

**TAPIOCA.** A substance much used in the United States for puddings and other culinary purposes. It is extracted from the *manioc* (*gatropha manihot*), a shrub indigenous to tropical America, and now cultivated from Florida to Magellan. It is said that an acre of manioc will nourish more persons than six acres of wheat. Its roots attain the size of the thigh. Every part of the plant is filled with a milky juice, which is a very violent and dangerous poison, producing death in a few minutes, when swallowed; yet human ingenuity has converted its roots into an article of food. This is done by grinding them in wooden mills, after which the paste is put into sacks, and exposed to the action of a powerful press. The poisonous juice is thereby extracted, and the residue is the substance known as *cassava*, or *mandioca*, a nutritious flour, preferred by the natives to that from wheat. When kept from moisture, this flour will keep good for fifteen or twenty years. The *tapioca* is made by separating from the fibrous part of the roots a small quantity of the pulp, after the juice is extracted, and working it by hand till a thick white cream appears on the surface. This, being scraped off and washed in water, gradually subsides to the bottom. After the water is poured off, the remaining moisture is dissipated by a slow fire, and the substance being constantly stirred,
gradually forms into grains about as large as those of sago. This is the purest and most wholesome part of the manioc.—Encyc. Americana.

TO BE ON ONE’S TAPS, is to be always ready on one’s feet, literally on one’s shoes; a metaphor borrowed from the shoemaker, taps being a cant word for shoes among the fraternity.

Your editor, when times are dull, must be ‘on his taps;’ as the saying is. When the mail comes through and brings news enough to make things look lively, why then he must work, and cut, and paste, as though the world depended on him.—N. Y. Tribune.

TARBOGGIN. In Canada, a light sleigh.

Poor honest John! ’tis plain he know’d

Or he’d a know’d, gals oft, at fust,
Have ways tarnation strange.—Essex Dialect, p. 11.

TARRING AND FEATHERING. A punishment sometimes inflicted by, indignantly virtuous mobs in Southern and Western States, on persons who have committed an offence of which they fear the law will not take cognizance, by daubing them all over with tar, and afterwards covering them with feathers. ‘A practice,’ says Grose, ‘lately inflicted by the good people of Boston, in America, on any person convicted or suspected of loyalty.”

TAUTAUG. The name of the Blackfish caught in the waters of Rhode Island. It is an Indian word, and may be found in Roger Williams’s Key to the Indian Language, where, however, he calls it the Sheepshead, an entirely different fish. In New York it is called Black Fish. Dr. Mitchell gave the generic name of Tautoga to it, which name it retains among naturalists; see Storer, Cuvier, and De Kay.

TO TAX. To charge; as, ‘What will you tax me a yard for this cloth?’ i. e. what will you charge for it, or what is the price of it?

TEETER. To see-saw on a balanced plank, as children for amusement.—Worcester. The English pronunciation is titter.
TEETER-TAWTER. The act of see-sawing. In England pronounced *titter-totter*.—Halliwell.

TEE-TOTAL. Entire; total. A modern cant word, formed by reduplication, the syllable *tee* being used for the letter *t*.—Worcester.

Reading books is enough to ruin anybody. There ought to be *tee-total* societies against it.—J. C. Neal, *Peter Ploddy*, p. 15.

He lodged at a strictly *teetotal* house,
That he might not be shocked with hilarity,
And found among other *teetotalisms*,
A total exclusion of charity.—*The Devil’s New Walk*.

The Preston (Eng.) Chronicle gives an account of the funeral of Richard Turner, who, it says, was the originator of the term *tee-totaller*, as applied to those who abstain from intoxicating drinks.

The deceased had been upwards of fourteen years a member of the Temperance Society, having signed the pledge in October, 1832, while in a state of intoxication. It may not be generally known (says the Chronicle) how the term "*teetotallers*" became first adopted by the members of the Total Abstinence Society, but we may inform our readers that Dickey, (that being the name by which Mr. Turner was familiarly called,) in one of his speeches, which were generally characterized by an equal mixture of wit and blunders, being at a loss for a word which would convey to the audience that he was an out-and-out total abstinence man, said, "I have signed the *tee, tee-total* pledge."

This speech was delivered in the Cockpit, at the latter end of the year 1833. The word, being short and expressive, was immediately adopted by the abstainers of Lancashire, and ultimately throughout England—nay, we may say throughout the world, for both in America and India the term is adopted by those who are pledged to abstain from all intoxicating liquors.

TEE-TOTALLER. A thorough temperance man, who avoids every kind of ardent spirits, wine, and beer.

A stump orator in Michigan, in his appeal to the electors, uses the following language:

I'm a man that will never refuse to take a glass of grog with a fellow-
citizen because he wears a ragged coat. Liberty and equality, I say. Three cheers for liberty and equality, and down with the tee-totallers!—Mrs. Claver's *Forest Life*, Vol. II. p. 39.

Candidates for office ain't never near-sighted; they sees every body; there ain't no tee-totallers among them neither, for they treat every body.—N. O. Delta.

**TO TELL.** To have effect.—*Worcester*.

President Everett's letter read at the Tabernacle, at the meeting in favor of Pope Pius IX., contained good counsels of a telling character.—*N. Y. Express*, Dec. 1, 1847.

The admirable pamphlet of Mr. Gallatin on the Mexican War, has told in every part of the country.—*Newspaper*.

In this vicinity we are all perfectly satisfied with the nominations of Taylor and Fillmore. I think that we can beat the free trade party with ease, having old Rough and Ready as a leader. With the Germans he is a great favorite, and their votes tell in Pennsylvania.—*N. Y. Com. Adv*.

**TO TELL APART.** To distinguish; as, ‘Their resemblance was so striking, that I could not tell them apart.’ We also use the phrase, ‘To know apart,’ in the same sense.—*Hurd's Corrector*.

23

**TERRAPIN.** A name given to a species of tide-water tortoise.—Webster.

**TERAWCHY.** This word is evidently of Dutch origin, though I cannot discover its derivation. It is a very common word in the nursery, and is always accompanied by a peculiar motion of the fingers, with the palm of the hand presented to the child. It is as well known among the old English families of New York as among those of Dutch descent.

**THICK.** Intimate; familiar. 'They are very thick just now.' Provincial in the North of England, and in Yorkshire.—Craven Glossary and Brockett.

It was lucky I leet of a man that went to school wi' me when I was a lad; we were devlish thick.—Westm. and Camb. Dialect, p. 127.

If a chap only comes from the North, and has got a crop of hair and whiskers, and a coat different from everybody else, and a thunderin' great big gold chain about his neck, he's the poplerest man among the ladies.—Maj. Jones's Courtship, p. 82.

TICK. A ticket; score; debt; trust; credit.—Worcester. This word, says Dr. Johnson, seems contracted from ticket, a tally on which debts are scored. Mr. Halliwell says it signifies a tradesman's bill, formerly written on a card or ticket.

You may swim in twente of their boates over the water upon ticket.—Decker's Gull's Horn Book.

Taking up arms and ammunition from the States united, with whom they went on ticket, and long days of payment, for want of ready money for their satisfaction.—Heylin, Hist. of the Presbyterians (1670), p. 437.

To buy on tick, to go on tick, are the common phrases wherein this now vulgar word is heard. Like many other words once used in good society and by learned men, 'tick' has almost had its day, and is fast sinking into obscurity.

When the money is got into hands that have bought all that they have need of, whoever needs anything else must go on tick or barter for it.—Locke.

Wild. Play on tick and lose the Indies, I'll discharge it all to-morrow.—Dryden, An Evening's Love, Act 3.

TIGHT. Close; parsimonious; saving; as, 'a man tight in his dealings.' Close; hard; as, 'a tight bargain.'—Webster. To these American uses of the word is to be added another similar to the last. When money is difficult to be procured by discounting, &c., business men say, 'the money-market is tight,' or 'money is tight.' In this sense it is the opposite of easy, which see.

He is a *tip-top* half-horse, half-alligator, from Kentucky, and I recommend him to your keeping.—*Report in N. Y. Herald*, June 13, 1848.

**TIT FOR TAT.** The phrase “*tit for tat*, if you kill my dog I’ll kill your cat,” is among the provincialisms of Hants, and means, that I shall treat you as you treat me.—*Holloway*. In the United States this phrase is very common.
"Ah, me! your reverence’s sister,  
Ten times I carnally have—kissed her."

"All's fair," returns the reverend brother;

I have forgot what little I learnt to night school; and, in fact, I never was any great shakes at it.—Sam Slick.

TOBACCO. (Span. tabaco.) An American plant; the dried leaves of the plant used for smoking, chewing, and for making snuff. The name is supposed to be derived from Tabaco, a province of Yucatan, where it was first found by the Spaniards.—Worcester. It was and is the custom of the Indians to go through the ceremony of burying the tomahawk when they made peace; when they went to war, they dug it up again. Hence the phrases ‘to bury the tomahawk,’ and ‘to dig up the tomahawk,’ are sometimes used by political speakers and writers with reference to the healing up of past disputes or the breaking out of new ones. See Hatchet.

TOMCOD. (Genus, Morrhua. Cuvier.) A small fish common to our coast, but which become very abundant after the first frost; hence the name of Frost Fish by which it is also known. —Storer, Fishes of Massachusetts.

Dr. J. V. C. Smith believes the tomcod to be the same as a fish known in Europe as the tacaud of Cuvier, and that tomcod is a corruption of the Indian name, taceud, i. e. plenty fish, as this little fish was well known to our aborigines.

TONGS. A name for pantaloons and roundabouts formerly in use in New England.

Children were playing on the green, the boys dressed in tongs; some in skirt-coats, &c.—Margaret, p. 34.

Such dark expressive eyes, such curls of jet,
Arched brows, straight nose, round chin, and lips a prince
Might sue to kiss—in brief, so many beauties,
Such hands, such waist, such ankles—O such tooties!
He really has not been his own man since:
Rum-punch will not restore his appetite,
Nor rarebits even make him sleep at night!—Am. Rev., July, 1848.

TRAIL. Scent left by a track; track followed by the hunter; an Indian footpath.—Worcester.

It was the policy of the President of Texas to open a direct road to Santa Fé by a route much nearer than the great Missouri trail.—Kendall's Santa Fé Expedition, Vol. I. p. 14.

TO TRAIL. 'Not worth shucks to trail,' is a Southern phrase, meaning that anything is of little value, not fit to draw home shucks; and probably equivalent to the classical expression, 'not fit to carry guts to a bear.'

In lofty madness meditating song,
With tresses staring from poetic dreams,
And never wash'd, but in Castalia's streams.—Pope, Dunciad.

TO TRAMPOUS. To walk; to lounge or wander about; to tramp. The origin of this word is doubtful; there is nothing analogous to it in the English provincial glossaries.

TO TRASH. To trash the cane, is to strip off the dry leaves.

TO TROLL. A method of fishing, by a long line attached to the stern of a boat, which is set in motion by sails or muffled oars. A piece of tin, or a strip of red and white cloth, is attached to the hook, which, passing rapidly along the sur-

A common use of this word in the United States, and the only one connected with purifying, is in connection with tallow: 'To try out tallow or lard,' is to melt it down, for the purpose of purifying. It is provincial in England in the same sense.—Forby. Halliwell.

TUK, for took. A vulgar pronunciation, common to the North and South.

TO TUCK. To gather into a narrow compass; to crush together; to hinder from spreading.—Johnson.
In the United States we use the phrase, *to tuck on*, in two different senses or applications. It means in the first place to lay on; as, ‘having caught the thief, he tucked it on to him without mercy.’ ‘How you tuck the price on these goods,’ i.e. how dear they are. It also means, to force a bad article on a person in buying or exchanging; as, ‘We swapped horses, and I got this miserable old animal tucked on to me.’

**TUCKAHOE.** (*Lucoperdon solidu*. Clayton, *Flora Virginica.*)

The Virginia truffle. A curious vegetable, sometimes called by the name of Indian Bread, or Indian Loaf, found in the Southern States, bordering on the Atlantic. It is a natural production, the origin of which has greatly perplexed naturalists, as it is commonly found several feet under the surface, and, like the truffle of Europe, has apparently no stem or leafy appendage connecting it with the external atmosphere. They are generally found through the instrumentality of hogs, whose acute sense of smelling enables them to fix upon the spot where they lie buried. They are usually of a globular or flattened oval shape, and rather regular surface, the large ones resembling somewhat a brown loaf of coarse bread. The size varies from an acorn to the bigness of a man’s head. Its name *tuckahoe* is Indian, and is said to designate bread. When examined with a microscope, it exhibits no fibres or pores, or any other indications of organization, so easily detected in roots and other vegetable productions of ordinary growth. The Southern botanists regard the *tuckahoe* as a fungus.—*Farmer’s Encyclopedia*.

The term *tuckahoe* is often applied to an inhabitant of Lower Virginia, and to the poor land in that section of the State.

**TUCKERED OUT.** Tired out; fatigued. Used in New York and New England.

I guess the Queen don’t do her eating very airly; for we sat and sot, and waited for her, till we got eenamost tuckered out.—*N. Y. Family Comp*.

To turn in. To go to bed. Originally a seaman’s phrase, but now common on land.

Tussle. The verb *to touse* is given by both Johnson and Webster, to pull; to tear; to haul. Both have also the word *tussle*, a struggle; a conflict, which they call a vulgar word.

Thus Envy, the vile hag, attacks my rhymes,
Swearing they shall not peep on distant times;
But violent indeed shall be the *tussel*.—*P. Pindar, Royal Tour, Proem*.

In New York the *tussle* is all about the price of rents; the landlords want to get them up higher, and the tenants want to get them down lower.

I'll give the old dog a *tussel* when it comes to my turn.—Simon Suggs.

'Twa'n't, for it was not. New England.

To twig. To observe. A flash word common to England and the United States.

Your responsibility men want no endorsers, do you *twig*?—*Sam Slick*.

I'm a regular patriot—look at my coat. I'm all for the public good—
*twig* the holes in my trousers.—*Neal's Sketches*.

Twistical. Tortuous; unfair; not quite moral. Used in New England.

He may be straight going, farzino, manwards; but in his dealings with t'other sex, he is a leetle *twistical*, according to their tell. I wouldn't make a town talk of it.—*D. Humphreys, The Yankee in England*.

To twitch. To draw timber along the ground by a chain. Used by lumbermen in Maine.

Tyke. In Scotland and the North of England, a dog; and hence a contemptible person.

UMBRELLA TREE. (Lat. magnolia tripetala.) The popular name of this tree in the Southern States.

UNBEKNOWN. Unknown. Various dialects of England. — Halliwell. This is a very common word in familiar language in New England. It is regularly formed from the Ang. Sax. be-known, to know; to recognise; to acknowledge; pret. bi-knewe; past part. bi-known; all of which are used by Piers Ploughman.

And though it hadde costned me catel
Bi-known it I wolde. — Piers Ploughman, Vision, l. 407.

UNCLE SAM. The cant or vulgar name of the United States Government; sometimes called Brother Jonathan. It is used as John Bull is in England. Mr. Frost, in his Naval History of the United States, gives the following account of the origin of the name:
"Immediately after the last declaration of war with England, Elbert Anderson of New York, then a contractor, visited Troy, on the Hudson; where was concentrated, and where he purchased, a large quantity of provisions, beef, pork, &c. The inspectors of these articles at that place were Messrs. Ebenezer and Samuel Wilson. The latter gentleman (invariably known as 'Uncle Sam') generally superintended in person a large number of workmen, who, on this occasion, were employed in overhauling the provisions purchased by the contractor for the army. The casks were marked 'E.A.—U.S.' This work fell to the lot of a facetious fellow in the employ of the Messrs. Wilson, who, on being asked by some of his fellow-workmen the meaning of the mark (for the letters U. S. for United States, were then almost entirely new to them), said, 'he did not know, unless it meant Elbert Anderson and Uncle Sam'—alluding exclusively, then, to the said 'Uncle Sam' Wilson. The joke took among the workmen, and passed currently; and 'Uncle Sam' himself, being present, was occasionally rallied by them on the increasing extent of his possessions." P. 297.

"Many of these workmen, being of a character denominated 'food for powder,' were found, shortly after, following the recruiting drum, and pushing toward the frontier lines, for the double purpose of meeting the enemy, and of eating the provisions they had lately labored to put in good order. Their old jokes accompanied them, and before the first campaign ended, this identical one first appeared in print; it gained favor rapidly, till it penetrated and was recognised in every part of the country; and will, no doubt, continue so while the United States remain a nation." Ibid.

UNCOMMON. Exceedingly; very.

It struck me with astonishment to hear people huzzaing for me; and took me so uncommon unexpected, as I had no idea of attracting attention.—Crockett, Tour down East, p. 17.

UNCONSCIONABLE. Enormous; vast. A low word.—Johnson. Used adverbially at the West, as in the following example:

"That's an unconscionable slick gal of your'n," says I; and it did tickle
his fancy to have her cracked up, 'cause he thought her creation's finish-
in' touch—so did I!—Robb's Squatter Life.

UNDERDONE. Cooked rare. A very common word with us. Used in the London Quarterly Review, but not noticed by Johnson or Todd.

Supposing, which requires some confidence, the reader to be able to col-
lect and unify these discursive remarks, we will refer to the previous

UP-A-DAY. A fondling expression of a nurse to a child, when
she takes it up in her arms, or lifts it over some obstacle.
The author is informed by a friend, that he heard it used on
the same occasions, by nurse-maids in Normandy. It may
come from the Anglo-Saxon up-adon, to lift up; but is more
probably a mere contraction for the equally common phrase
up-a-daisy.

UPPISH. Proud; insolent.—Halliwell. Colloquial in Eng-
land and the United States.

You pretend to think everybody alike; but when it comes to the pint,
you're a sight more uppish than the ra'al quality at home.—Mrs. Clavers's
Western Clearings.

UPPER CRUST. The aristocracy; the higher circles.

I want you to see Peel, Stanley, Graham, Shiel, Russell, Macauley, old
Joe, and so on. They are all upper crust here.—Sam Slick in England.

THE UPPER TEN THOUSAND, and contracted, THE UP-
PER TEN. The aristocracy; the upper circles of our large
cities. A phrase invented by N. P. Willis.

The Biscaccianti troupe commence their season of Italian Opera at the
Chestnut to-morrow night. The seats for the first night are already many
of them engaged; and engaged, too, by the very cream of our "upper ten;"
while the moderate democratic prices of admission which have been wisely
adopted, will invite large slices of the honest and hearty masses.—Letter
from Philad. N. Y. Herald.

UPPER STORY. The brain; as, 'He's not right in his
upper story.'—Carr’s Craven Dialect. This same expression is sometimes heard in the United States, to denote a person who is deranged. I have never heard it applied in any other way.

UP TO. ‘To be up to a thing,’ is to understand it. A common English and American vulgarism.

Have you ever tried faro? whispered Spifflekins; there’s considerable fun at faro, when you are up to it.—J. C. Neal, P. Ploddy, p. 50.

UP TO THE HUB. To the extreme point. The figure is that of a vehicle sunk in the mud up to the hub of the wheels, which is as far as it can go.

Newman. I am sorry not to have your good opinion. I don’t doubt your courage.

Doolittle. No, you ought not. I've been up to the hub, and didn’t flinch. No, nor won’t back out now. I'll tell you what, Mister! if we Yankees come to loggerheads, we’ll show whose heads are hardest.—D. Humphreys, The Yankee in England, p. 33.

“You’ve hearnt tell of the bank and tarriff questions?”
“Yes,” replied the new editor of the Eagle newspaper.
“We'll, hoss, we expect you to be right co-chuck up to the hub on them thar questions, and pour it into the enemy in slashergaff style.”—Robb, Squatter Life, p. 31.

UP TO SNUFF. To be flash; to be shrewd. Up to snuff and a pinch above it, is a common cant phrase.—Grose. Both these expressions are familiar in the United States.

“Oh, you remember me, I suppose?” said Mr. Pickwick. “I should think so,” replied Sam. “Queer start that ‘ere, but he was one too many for you, wasn’t he? Up to snuff and a pinch or two over—eh?”—Pickwick Papers.
A Blue Nose or a John Bull, are a primitive, unsuspectin’ sort of folks not exactly up to snuff.—Sam Slick, 3d Ser., p. 121.

Then putting his fingers to his nose, says he, “Mr. Slick, I see you are up to snuff.”—Ibid., ch. 7.

I'm up to snuff, I can tell ye. The master 'll have to kiss the cook this time; he han't enough left for the cat to lick.—Margaret, p. 305.

The editor of the Herald has commenced several libel suits against Major Noah. We learn that the Major is up to snuff, and announces his intention of bringing thirty or forty suits against Bennett.—N. Y. Tribune.

UP TO TRAP. Knowing; shrewd. English and American.

Phrenology is a little bit dangerous. It is only fit for an old hand like me, that’s up to trap.—Sam Slick.
Mr. Richardson is evidently a man who has lived among foxes and rabbits—who has seen warrens, knows weasles, associates with terriers, and is perfectly "up to trap."—London Athenæum, Dec. 4, 1848.

TO UPSET. To overturn; to overthrow; to overset.—Todd. Webster. This word is now so universal both in England and America, that it may appear unnecessary to give it a place. Its use, however, is quite modern, as it is not in any of the English dictionaries before Todd, who calls it a low word.

UPSET PRICE. At public auctions an article is sometimes 'set up,' or 'started,' by the auctioneer at the lowest price at which it can be sold. This is called the upset price.

TO USE. To frequent a place. This word is employed in the following sense among the hunters of the West: 'I can see where the deer used,' i. e. where the deer have been, or where they have fed. The sense intended to be conveyed, is that the deer has left tracks and other marks on the ground used by him. This term is also noticed by Mr. Sherwood as provincial in Georgia; as, 'The sheep used in that field.'

TO USE UP. To discomfit; destroy. Grose has this word, which he calls a military one, meaning killed.

I have promised to write the life of the magician of the North [Mr. Van Buren], and I'll do it; and if, when you read it, you don't say I've used him up, I'm mistaken, that's all.—Crockett, Tour, p. 234.

Moving on the first day of May in New York, has used me up worse than building forty acres of stone wall.—Maj. Downing, May-day in New York.

In 1836, New York went Loco-foco by 26,000 majority, and the Whig party was thought, by its adversaries, to be used up for some years.—N. Y. Tribune, Nov. 1, 1845.

USED TO COULD. A vulgarism used in the Southern States for could formerly; as, 'I cannot do it now, but I used to could.'—Sherwood's Georgia. We had set this down as a native vulgarism, until we discovered it in the poem called John Noakes and Mary Styles, illustrating the Essex dialect of England.

I don’t think I cud clime it now,
Altho’ I uster could;
I shouldn’t warsey loike to try,
For guelch cum down I should.

TO VAMOS. A Spanish word signifying let us go. Fr. allons! This and other Spanish expressions have lately become familiar to us through the letters of soldiers and officers from Mexico in the public prints.

I couldn't stand more than this stanza, coming from a street voice compared with which the notes of a hand-saw are positively dulcet, and I accordingly vamosed.—N. Y. Mirror, May, 1848.

Yankee Sullivan's house, corner of Frankfort and Chatham streets, is in a dangerous condition; its foundation walls having been partially undermined for the purpose of excavating a cellar. Its occupants received some very ominous premonitions of a downfall, early yesterday morning, and forthwith vamosed with their baggage.—Journ. of Com., June, 1848.

Madame Anna Bishop gave, on Monday evening last, a spirited exhibition, and not exactly of the vocal powers, for which she is celebrated, but of the woman's temper of which she has undoubtedly her due portion. The saloon was duly lighted up, and very soon after the doors were opened a respectable number of ladies and gentlemen took their seats. But the Madame appears to have been dissatisfied at the number, and before waiting to see if others would assemble, the audience was unceremoniously dismissed, the lights blown out in a huff, and Madame and Monsieur, fiddles, harps, rosin, catgut and all, vamosed.—Vicksburgh Sentinel, May, 1848.

On Sunday our city was thrown into a state of intense excitement. Between seventy and eighty slaves had disappeared. Several negroes who had made arrangements to vamose, were left behind, and, to be revenged, they gave the alarm.—Washington Paper.

And flinging down a dollar on the table, he seized his white bell-top from the hand of the trembling waiter, and vamosed. Down Washington and State streets, he streaked it like a comet, and never slackened his pace till he pulled up on board the Kennebec.

"Cap'n," said he to the commander, "cast off your lines jest as quick as you're a mind to—and ef you catch me wanting to see Boston again, jest take me by the slack and throw me right into that ere biler, boots and all. by gravy!"—Sunday Atlas.

**VENDUE.** (French vendre, to sell, vendu, sold.) Auction; a public sale of anything by outcry to the highest bidder.—Webster. This word is in use in the United States and the West Indies; but it is not common in England, though it is found in the recent English dictionaries of Knowles, Oswald, and Smart.

WABBLING. Moving from side to side; vacillation; oscillation.

Leverrier's calculations gave the mass of the unknown planet, by which the "*wabblings*" of Herschell were to be set right, at so much; but the mass of the known planet proves to be less than a quarter of what Leverrier figured out; and the result is, in short, that yet another and much larger planet must be found to make Leverrier's theory good. Here's a pretty kettle of fish!—*N. Y. Com. Adv.*

*To walk into* a down-east land-jobber, requires great skill, and a very considerable knowledge of human nature.—*Sam Slick*, 3d series, p. 122.

Senator Benton's speech at St. Louis will amply reward a perusal. The way it *walks into* Tyler and Calhoun for the Texas iniquity fully atones for all its nonsense about the surrender of Texas in 1819.—*New York Tribune*, May 24, 1847.

I went into the dining room, and sat down afore a plate that had my name writ on a card onto it, and I did *walk into* the beef, and taters, and things, about east.—*Hiram Bigelow's Lett. in Family Comp.*

WALKING TICKET. Orders to leave; a dismissal. When a person is appointed to a public office, or receives a commission, he receives papers or documents investing him with authority; so when he is discharged it is said in familiar language that 'he has received his *walking papers*, or his *walking ticket*.'

It is probable, that "*walking papers*" will be forwarded to a large proportion of the *corps diplomatique* during the session of Congress. B— and B— are already admonished to return, and the invitation will be pretty general.—*N. Y. Herald, Letter from Washington.*

We can announce with certainty that the Hon. Mr. D— has received.
his walking ticket, accompanied with some correspondence with his Excellency that has given him offence.—Kingston, Canada, Whig, Dec. 1843.

Mr. Duane was ordered to remove the deposits. He answered that his duty did not require it. In a few hours he got his walking ticket that his services were no longer wanted.—Crockett, Tour down East, p. 30.

WALT. Crank. A ship is said to be walt, when she has not her due ballast, that is, not enough to enable her to bear her sails, and keep her stiff. Hubbard in his History of New England, speaking of Lamberton's ill-fated ship, says, that "she was ill-built, very walt-sided."—Rev. Alex. Young, note, Chron. of Massachusetts.

The next year brought a Flemish fly-boat of about 140 tons, which being unfit for a fishing voyage, and wanting lodging for the men, they added unto her another deck, by which means she was carried so high that she proved walt and unable to bear sail.—White, The Planter's Plea, 1630, p. 1.

In the North of England walt means to totter; to overthrow.—Halliwell.

WAMBLE-CROPPED. Sick at the stomach; and figuratively, wretched; humiliated. New England.

There stood Capt. Jumper, shaking General Taylor's hand when he came
on board the "Two Pollys," trying to get a start in the address, but could not; and then I tried it. I never saw Capt. Jumper so melted down before—and that made me feel so wamblecrapt I could not say a word.—Maj. Downing, Letter from Baton Rouge, June 15, 1848.

WAMPUM. (A term in the Massachusetts Indian language signifying white, the color of the shells most frequent in wampum belts.) Shells, or strings of shells, used by the American Indians as money. WANGAN. (Indian.) In Maine, a boat for carrying provisions.

THERE'S NO TWO WAYS ABOUT IT, i. e. the fact is just so, and not otherwise. A vulgarism of recent origin, equivalent to the common phrase, 'there's no mistake about it,' or 'the fact is so and so, and no mistake.'
Jist so, jist so, stranger; you are just about half right and there's no two ways about it.—Sam Slick, 3d ser. ch. 7.

Each sectary, well-to-do, in Persia or India, leaves a portion of his wealth to the mosques of Kerbela, that his body may be received there.—London Athenæum, 1845, p. 1246.

This word is provincial in various parts of England, and is a common one here. In his paper on the ancient words in Yorkshire, Dr. Wil- lan observes that, “in many other instances, our forefathers seem to have estimated weights and magnitudes by the force of their blows. Thus, they employed in gradation, the terms slapper, smacker, banger, thumper, twacker, swinger, and rattler. The word bumper, concerning which much has been said and surmised, is not of a more exalted origin than that which is here stated.”—Archæologia, Vol. XVII. p. 162.

English say *wharfs*. In the Colony and Province Laws of Massachusetts, Mr. Pickering says he has observed the plural *wharfs* (or *wharfes*) as late as the year 1735; but after that period the form *wharves* is used.

**WHAT NOT.** In New York a piece of furniture usually placed in a parlor, consisting of several shelves, upon which are placed articles of vertu, porcelain, small bronzes, etc.

**WHAT'S WHAT.** 'To know what's what,' is to know the nature of things, or as we classically express it, 'to be up to a thing or two.'

**WHELK.** An old name for a pustule, a pimple. The word is not much used in America.

We have authority for this word from Shakspere, Henry V.:

His face is all bubuckles and *whelks*, and knobs, and flames of fire.

**WHELKY.** Protruberant; rounded. — *Todd*. Still heard sometimes in New England.

Ne ought the *whelky* pearls esteemeth he,
Which are from Indian seas brought far away. — *Spenser, Virg. Gnat.*

Pluck, unchilled by the coolness of the drench, stood, sunk to his chin in the snow, his shining bald pate and *whelky* red face streaming with moisture. — *Margaret*, p. 167.

**WHIG AND TORY.** Names of political parties. The history
of the origin of these names is thus given by Cooke: "According to Roger North, the country party were the first to brand their opponents with the name by which they were afterwards to be designated. The Duke of York naturally affected the society of those whose religion was the same as his own, and the Catholic Irish were, therefore, in great favor with him. This circumstance occasioned the popular party to call all the opponents of the Exclusion Bill, Irishmen. The hatred the majority of the English bore to popery, rendered this an opprobrious term; but it required to be strengthened before it could express the animosity of a hostile party. The epithet became successively "Wild Irish," and "Bog-trotter;" but it was yet imperfect until some zealous member of the opposition found invective and euphony united in the word *Tory*, a name applied to a set of ruffians in the disturbed districts of Ireland—according to North, to the most despicable savages among the wild Irish. The word *Whig* is of Scotch origin. It was, say some writers, used in that country for the curd into which milk was reduced previous to being converted into cheese; it was thence deemed applicable to the sour and curdled tempers of the persecuted Covenanters. The rebellion of that ill-used sect, of course, rendered them an object of the greatest abhorrence to the high church and high monarchical *Tories*, and they bestowed this name upon their opponents in England as the most reproachful they could discover.

"Bishop Burnet, however, gives another derivation of this word. He dates it from the year 1648, when the Scotch people, excited by their ministers, rose and marched to Edinburgh to oppose the prosecution of Duke Hamilton's attempt in favor of the captive king. The south-west counties of Scotland, producing little corn, were obliged to send to Leith for stores of that article, which were supplied by the superior facilities of the northern counties. The carriers who repaired to Leith for this purpose were then called *Whig-gamors*, from the word *wiggam*, which they used in driving their cattle. The inhabitants of Leith and Edinburgh very naturally extended this epithet to the whole of the inhabi-
tants of the counties whence these men came; and as the insurgents who occupied Edinburgh sprang chiefly from the West, that circumstance was called the Whiggamors' inroad. The name was afterwards applied to the whole body of Covenanters, gradually shortened into Whig, and thence, as already mentioned, the word was introduced into England."

Let such men quit all pretences to civility and breeding,—they are ruder than Tories, and wild Americans; and were they treated according to their deserts from mankind, they would meet everywhere with chains and strappadoes.—Glanville, Sermons, 4.

During the war of the American Revolution, the terms Whig and Tory were applied—the former to those who supported the revolutionary movement; the latter to the royalists, or those who adhered to the British government. Tory was then a stigma of the most reproachful kind.

WHIGS AND DEMOCRATS. It is very difficult to give a precise, accurate, and satisfactory definition of the principles distinctively held by the two great political parties into which the population of the American Union is divided—one popularly styling itself the Democratic, the other the Whig party. In point of fact, the satirical definition of the outs and the ins would not be very far out of the way; for the doctrines of government and legislation theoretically advanced by the Democratic party, when out of power, are not so radically diverse from those of the Whigs, in the same condition, as are the practices of either, when in power, from their professions. As times change and circumstances, the demands or wishes of these parties change also; so that what was Whig doctrine in 1830, may be Democratic doctrine in 1850, and vice versa.

The nominal distinctions, some years ago, were, on the Whig side, a Protective Tariff, a National Bank, Division of the Proceeds of the Public Lands among all the States, and the duty of the General Government to carry on works of Public Improvement, such as Canals, Roads, &c. &c.

The Democrats were for Free Trade, no connection of the Government with Banking, Distribution of the Proceeds of
the Public Lands among the States in which the lands lie, and Non-interference by the Government with Internal Improvements.

But all these questions have rarely been brought to the practical test. Absolute free trade has ever been impracticable, because it would deprive the Government of the revenue derived from imposts. The Government has always been obliged to carry on some kind of financial operations, differing more in name than in reality from a system of banking considered as a means of supplying a currency. The public lands have rarely yielded any proceeds beyond the wants of the Government. And the only real question, fairly at issue, has been that of improvement in public works.

The Democrats popularly charge upon the Whigs a desire to strengthen and centralize the National Government—declaring themselves to be in favor rather of strengthening the local Governments of the several States, and of limiting, as far as constitutionally possible, the agency of the National Government, or Government of the Union; but in practice the Democratic party is ready enough to assume power for the General Government, when anything is to be gained by so doing; and in this, as in most other instances, the difference between the two parties lies rather in words than in deeds.

The Whigs, on the other hand, popularly charge upon the Democrats an undue degree of subserviency to the Executive, especially since the elevation of General Jackson to the Presidency, in 1829; and this charge seems to have more foundation in truth. It is certain, at all events, that the three Democratic Presidents, Jackson, Van Buren, and Polk, have found a more zealous and unscrupulous support in questionable measures than was ever given to a Whig President, or indeed to any of their predecessors.

Perhaps, on the whole, it may be truly said, that the main practical difference between the Whigs and Democrats lies in the fact that the latter give a more unhesitating and thorough-going support to all measures which involve the question of party-measures, which become, by any means,
party tests, whether emanating from the Executive or adopted by him under impulse from his adherents. [J. Inman.]

WHIGGISM. } Whig principles; the doctrines of the Whig party. These words have, in the United States, lost their original opprobious meaning, and are now frequently used by the Whigs themselves in speaking of their doctrines.

The Whigs in Boston see by the movement in New York, and by accounts from Ohio, that there is a chance, at least, of General Taylor being vigorously opposed by some men of undoubted Whiggery in influential States.—Let. from Boston, in N. Y. Herald, June 21, 1848.

Professor Amasa Walker here came forward, and said they all stood together upon the same platform, and he had heard too much of Whiggery about their proceedings already; and as they stood upon a broad platform, he as a Democrat protested against their throwing in so much Whiggery, and entertaining them about Gen. Taylor's white horse.—Rep. of a Free-soil Convention at Worcester, Mass., June 28, 1848.

WHILE, for till. ‘Stay while I come,' instead of stay till I come. Used in the Southern States.—Sherwood’s Georgia.

WHIM-WHAM. A toy; a freak; a strange fancy.—Jodrell’s Philology.

Another gentleman declares that if we make them and their whim-whams the subject of any more essays, he shall be under the necessity of applying for satisfaction.—Paulding, Salmagundi, Vol. I. p. 283.

WHIFFLE-TREE. } The bar to which the traces of a carriage are fastened for draught.—Webster. Whipple-tree is the form used in England.—Halliwell.

WHISTLE. The throat. It is never used in this sense except in the phrase to ‘wet one’s whistle,' to take a draught of liquor. It is a corruption of weesle; an old term for the wind-sand, or windpipe.—Carr’s Craven Dialect.

So was hire joly whistle wel yvette.—Chaucer, Reeve’s Tale.

Let’s turn to the fire, drink the other cup to wet our whistles.—Izaak Walton.

Youn' John seem’d nut at all to be
A chip ov the old block;
To see some wet their whistles so,
It oft gave him a shock.—John Noakes, Essex Dialect, p. 7.
I can talk all day, and most of the night, only stopping to wet my whistle.—J. C. Neal, Peter Brush.

TO WHISTLE. To whistle before you are out of the woods, is to exult before you are out of danger.

But let not the Pennsylvanians rejoice—let them not whistle before they are out of the woods. The duties on iron will have to come down too.—N. Y. Tribune.

WHOLE. Made out of whole cloth, i. e. altogether an invention.

Isn't this entire story about your Jersey grandmother made out of whole cloth—spun on your own wheel, with your tongue for the spindle?—C. Mathews, The Motley Book, p. 68.

WHOLE HEAP. Many; several; much; a large congregation. An expression peculiar to certain parts of the South and West.—Sherwood's Georgia.

WICKET. A place of shelter, or camp made of the boughs of trees, used by lumbermen in Maine.

WIDE AWAKE. On the alert; ready; prepared.

The Captain was wide awake, but said nothing.—Simon Suggs, p. 37.

WIGWAM. An Indian cabin or hut, usually made of skins. The word is Algonkin, and occurs in variously modified forms in the languages of that family. See Gallatin's Synopsis, p. 322.

WILD CAT BANK. One of the various terms applied at the West to some of the irresponsible banks of the country. A bank in Michigan had a large vignette on its notes representing a panther, which animal is familiarly called there a Wild cat. This bank failed, having a large amount of its notes in circulation, which notes were afterwards denominated Wild cat money, and the banks issuing them, Wild cat Banks. Other banks were compelled to stop payment soon after, in consequence of the want of confidence in them; and the term became general in Michigan, to denote banking institutions of an unsound character. The term Blue-pup money had a similar origin, as distinguished from Red Dog, which see.

We had to sell some of our land to pay taxes on the rest—and then took our pay in Wild-cat money, that turned to waste paper before we could get it off our hands.—Mrs. Clavers's Forest Life, Vol. I. p. 91.
TO WILT. To droop; to wither, as plants or flowers cut or plucked off.—Holloway. A word common in the United States, and provincial in England, where well and wilt are used in the same sense.—Worcester.

Miss Amy pinned a flower to her breast; and when she died, she held the wilted fragments close in her hand.—Margaret, p. 213.

Some cotton fellar here bid sixty dollars [for the slave], and she wilted right down.—Robb, Squatter Life.

TO WIND UP. To close up; to give the quietus to an antagonist in a debate; to effectually demolish.

John Bell, of Tennessee, that unmistakable Whig, has rung out a clear and far-sounding note of alarm concerning this Mexican war. He is as serious as a preacher, and as downright as a sailor in the delivery of his sentiments. A lively dialogue, constituting a kind of interlude to his speech, sprang up between him and Mr. Cass, in which he pretty effectually "wound up" the Senator from Michigan.—N. Y. Com. Adv.

WINKLE-HAWK. (Dutch winkel-haak.) A rent in the shape of the letter L, frequently made in cloth. It is also called a winkel-hole. A New York term.

WINSOME. (Ang. Sax. winsum.) Lively; cheerful; gay. Provincial in the North of England.—Brockett.

The curls that overhang her face
In clusters rich and winsome grace.—American Anthology.

WIRE-PULLERS. A term denoting those who, by their secret plots and intrigues, control the movements of the puppets on the political stage.

Baltimore is now the great Babel of Loco-Focoism. All the office-holders, office-seekers, hangers-on, and wire-pullers of that craft are here. What a happy country this would be if Baltimore should sink, or swim off somewhere! I have no doubt that some righteous would perish, but there would be so much demagoguery swamped with them, that the political atmosphere would be renovated for half a century! —N. Y. Tribune.

The coming contest is to decide whether the people have the privilege of electing a chief magistrate of their own selection, or only the privilege of electing one of two candidates whom self-elected cliques of nominators choose to designate. The Philadelphia Convention will assemble on Wednesday; already that city is filled with wire-pullers, public opinion manufacturers, embryo cabinet officers, future ambassadors, and the whole brood of political make-shifts, who contrive to live out of the public purse, by abusing public credulity.—N. Y. Mirror, June 5, 1848.
AMERICANISMS.

WITCH-HAZEL. The popular name of the Hamamelis, so called from its reputed power of bending towards water, when a forked branch is held in the hands.

WITNESS-TREES. In newly settled countries at the West, every mile square is marked by "blazed" trees, and the corners especially distinguished by stakes whose place is pointed out by trees called witness-trees.—Mrs. Claver's Western Clearings, p. 3.

WOLFISH. Savage; savagely hungry. A Western word.

You must fight or play; so take your choice, for I feel most wolfish and savagerous.—Sam Slick, 3d ser. p. 117.

They'd been fightin' the barrel of whiskey mightily comin' up, and were perfectly wolfish arter some har of the dog.—Porter's Tales of the Southwest, p. 121.

WONDERMENT. Astonishment; amazement. Wonderful appearance. Not in use except in low or sarcastic language. —Johnson. Examples of the use of this word may be found in many of the old authors.

When my pen would write her titles true,
It ravish'd is with fancy's wonderment.—Spenser.

Those things which I here set down, do naturally take the sense, and not respect petty wonderments.—Bacon.

The neighbors made a wonderment of it, and asked him what he meant.—L'Esrange.

All was wonderment and curiosity, and Jim for once experienced the inadequacy of the human capacity for such extraordinary occasions.—Chronicles of Pinevelle, p. 12.

WONT. A common contraction for will not. In New England, generally pronounced wunt.

TO WOOD. To supply or get supplies of wood.—Webster. The boats on the Ohio and Mississippi rivers, in their long voyages, are obliged to make frequent stops for supplies of wood. The common phrase is to wood up.

The process of wooding-up is one of the first the passenger is made acquainted with. The steamer approaches a dreary shore, without any thing to indicate that civilized man has ever set his foot upon it for many miles above or below, save the wood-pile and a small cabin of the rudest description. The terms are usually agreed upon before the boat touches the bank; and when it does, fifteen or twenty hands throw on board from
twenty to fifty cords, at a price varying from $2 to $3, for which the woodman pockets his money and seems a happy man, although cut off from the world.—*N. Y. Tribune*, 1848.

**WOODING-PLACE.** A station on the banks of a river where the steamboats stop to take in supplies of wood.

**WOODCHUCK.** In New England, the popular name of a rodent mammal, a species of the marmot tribe of animals, the *Arctomys monax*. The ground hog. It burrows and is dormant in winter.—*Webster*.

Yea, verily, this is like a *woodchuck* in clover.—*Margaret*, p. 48.

**WORM-FENCE.** A rail fence laid up in a zig-zag manner.

Mr. Haskell, one of the delegates from Tennessee, told a story about a man in his "diggins," who was once struck by "Joe Larkins," by which he was knocked at least forty rods. He fell against a *worm-fence*, and carried away about forty panels, rail-riders and all.—*N. Y. Mirror*.

**WORRY.** Perplexity; trouble. In familiar language, this word is often used with us; and, although it does not appear in any of the English glossaries, it is also employed colloquially in England. We say, 'the worry of business;' 'the worry of politics;' &c.

I am in the midst of the bustle attending the opening of the session [of Parliament]. . . . But the excitement and worry are more than I can stand in the present state of my health.—*Lord Sydenham, Memoirs*.

**WORSER,** instead of *worse*, is often heard among the vulgar. It is common in the dialect of London, and like other words enlarged from the comparative degree, is supported by eminent writers.—*Pegge, Anecdotes of the English Lang.*

Let the worser spirit tempt me again.—*Shakspeare, King Lear*.

Changed to a worser shape thou canst not be.—*Ibid. King Henry VI*.

**WRATH.** *Like all wrath*, i. e. violently; vehemently; angrily.

A Southern simile.

There ain't much to interest the traveller on the railroad from Hamburg to Charleston. Most of the passengers in the car were preachers what had been up to Augusta to attend the convention. They was the dryest set of old codgers I ever met with, till the joking of the cars shook up their ideas a little, and then they fell to disputin' *like all wrath*.—*Maj. Jones's Travels*.

**WRATHY.** Very angry. A colloquial word.—*Webster*.

Oh! you're *wrathy*, ain't ye? Why, I didn't mean nothin' but what was civil!—*Mrs. Clavers's Forest Life*, Vol. I. p. 103.
The General was as wrathful as thunder; and when he gets his dander up, it's no joke.—Maj. Downing's Letters, p. 34.

WRINKLE. An idea; notion; fancy. Colloquial in England and America.

Such was, after a little experience, the wrinkle adopted by Mr. Lear. —Quarterly Rev., Vol. LXXXI. p. 462.

WRAPPER. A loose dress or gown.

Her dress was a blue-striped linen short-gown, wrapper, or long-short, a coarse petticoat, checked apron, &c.—Margaret, p. 14.

Y.

TO YANK. To twitch or jerk powerfully; a term used in New England.

YARN. A story. A word chiefly used by seamen. To spin a long yarn, is to tell a long or tedious story.

YEATH, for earth. A vulgar pronunciation among the illiterate at the South.

"Why you don't look like the same man. I never should have know'd you. What upon yeath has brung you out so?"—Maj. Jones's Sketches.

YEATHQUAKE, for earthquake. A Southern vulgarism like the previous word.

The Girard College is all solid brick and marble. Fire can't get hold of wood enough to raise a blaze, and the walls are so thick and strong that nothin' short of Florida lightnin' or a South American yeathquake couldn't knock it down.—Maj. Jones's Sketches.

YELLOW-HAMMER. (Picus auratus. Wilson, Ornith.)

The popular name of the Golden-winged Woodpecker, the most beautiful of the genus. It is known by other names in different parts of the country, as High-hole, Yacker, Clape, &c.

YELLows, often pronounced yallers. A disease of horses and cattle, which is indicated by a yellow appearance of the eyes, inside of the lips, &c.—Farrier's Dict. This word is old and is used by Shakspere:

His horse sped with spavins and raised with the yellows.—Taming of the Shrew.
Ask the widder if she can cure the yallers in Bright [the ox].—Margaret, p. 17.

YOU DON’T! for you don’t say so; really! indeed! as, ‘Mr. A threw a back somerset out of a three-story window. Ans. Now, you don’t!’

YOUNG DEMOCRACY. See Barnburners.

YOURN. This is a contraction of your own, or a change in the termination of the pronoun yours, in conformity with mine, and which is much used by the illiterate and vulgar. It is also used in London, and in the West of England. “The cockney,” says Mr. Pegge, “considers such words as our own and your own as pronouns possessive, a little too much expanded; and, therefore, thinks it proper to curtail them, and to compress them into the words ourn and yourn, for common daily use.”—Anecdotes of the English Lang., p. 193.

He might have added hisn, as in the famous distich:

Him as prigs vot isn’t hisn,
Ven he’s cotch’d ’ll go to pris’n.
APPENDIX.

A.

AMBIA. Used in Virginia and the Carolinas for tobacco juice. It is a euphemism for the spittle produced by this voluntary ptyalism.

AVAILABILITY. Quality of being available.—Worcester.

That qualification in a candidate which implies or supposes a strong probability of his success, apart from substantial merit—a probability resulting from mere personal or accidental popularity. The thing has long existed in the Papal Government, where the advanced age of a candidate for the triple crown has often been the motive of his election; the idea being that he would soon die out of the way and leave the chair vacant for a new trial of strength under more favorable auspices, perhaps, for some of the electing cardinals.

Inoffensiveness—exemption from strong hostility in any quarter—is a frequent element of availability. [J. Inman.]

As this word is not noticed by any lexicographer except Dr. Worcester, and is now much used, it is thought advisable to give several examples of its use.

For some months past, a regular system of crying down Mr. Clay as unavailable, has been prosecuted with indefatigable energy and adroitness throughout the Union. . . . . Mr. Clay is a great man—able statesman—all of us prefer him to anybody else if he could be elected, but I'm afraid he isn't available.—Letter in N. Y. Tribune, May, 1848.

The only possible motive for the choice of Mr. Cass that we can imagine, is his presumed "availability," the elements of this being his known predilection, real or assumed, for territorial acquisition in all quarters, by
warlike means as well as others, and his avowed devotion to the Southern or slave-holding interest.—N. Y. Com. Adv., May 26, 1848.

These political Conventions are certainly becoming more odious and objectionable from year to year, and availability, not merit or qualifications, is the only requisite to secure a nomination.—Baltimore Cor. of the N. Y. Herald, May, 1848.

At a Democratic meeting held in New York to ratify the nomination of Gen. Cass, Mr. McAllister, of Georgia, said that—

Henry Clay, about whom the Whig party had professed such ardent attachment, had been carried upon the altar of availability, and there sacrificed by the hands of his pretended friends, and inquired what kind of a spectacle it presented to the young men of our country with ardent spirits—young men who have attached themselves for a time to the car of Whigism.—N. Y. Herald, June, 1848.

At the same meeting the Hon. James Bowlin, of Missouri, thus expressed himself, in relation to General Taylor:

The Whigs within the last few days have presented candidates for the highest office in the gift of the people, who are without any principles. . . . What do they mean by this in thus presenting candidates who have no principles? They proceed on the principle of mere availability, and nothing else. They are again going to insult your judgments, and tarnish the character of the nation by their exhibitions of coon-skins and hard cider, and their midnight debaucheries, as they did in 1840.—Report in N. Y. Herald, June 12, 1848.

B.

BAY STATE. The State of Massachusetts. The original name of the Colony was Massachusetts Bay. Hence, among the New England people it was usually called the Bay State.

BEAR STATE. A name by which the State of Arkansas is known at the West. I once asked a Western man if Arkansas abounded in bears, that it should be designated as the 'Bear State?' "Yes," said he, "it does; for I never knew a man from that State but he was a bar, and in fact the people are all barish to a degree."

BELIKED. Liked; beloved. A Western term.

I do believe me and Nancy was beliked by the Indians, and many's the venison and turkey they fotch'd us as a sort of present, and may be a kind
of pay for bread-stuffs and salt Nancy used to give them.—*Carlton, The New Purchase*.

**BOLIVAR HAT.** A Leghorn bonnet, with a broad brim, worn a few years since.

**BUCK.** A frame or stand of peculiar construction on which wood is sawn for fuel. In New England it is called a *saw-horse*.

**BULLION STATE.** The State of Missouri; so called in consequence of the exertions made by its Senator, Mr. Benton, in favor of a gold and silver currency, in opposition to banks and a paper currency. The honorable Senator was often nicknamed *old Bullion*, and the State he represented, the *Bullion State*.

At the Democratic meeting in New York, June 12, 1848, to ratify the nomination of Gen. Cass, the Hon. James Bowlin, of Missouri, in denouncing the Whig party, said:

I deny that the election of 1840 was carried by the people. It was carried by duplicity. It was carried by the unfortunate state of the times, which was not the result of Democratic rule, and by false charges against the American Democracy; and, thank God, in my own State, in the *Bullion State*, they did not succeed in depreciating our majority.—*N. Y. Herald*, June 13, 1848.

**BUNGO.** A kind of boat used at the South.

The most urgent steps were being taken to press every *bungo* and canoe to the immediate relief of the people along the coast, in order to embark them without delay.—*N. O. Picayune*.

**BURGALL.** (*Ctenolabrus ceruleus.*) A small fish very common in New York; also found on the coast of New England, and as far South as Delaware Bay. The usual length is about six inches, though they are sometimes found twelve inches. Other names for the same fish are Nibbler, from its nibbling off the bait when thrown for other fishes, Chogset, the Indian name, and in New England, those of Blue Perch and Conner.

**C.**

**CABOODLE.** *The whole caboodle* is a common expression, meaning the whole. I know not the origin of the word. It
is used in all the Northern States and New England. The word *boodle* is used in the same manner.

They may recommend, to the electors of Hamilton county, to disregard so much of the law as constitutes two election districts of Hamilton county. Having done this, Medary will be looking out for a job—Olds will be often in Fairfield, cozening for a nomination to Congress—and the *whole caboodle* will act upon the recommendation of the Ohio Sun, and endeavor to secure a triumph in the old-fashion way.—*Ohio State Journal*.

**CARLACUE.** A caper; a boyish trick. *To cut up carlacues,* is a common expression, equivalent to *cutting up di-does.* Used in New York.

**CASTOR.** (Latin.) A beaver; hence, a hat.

"I trembled, I own, where the bravest would shrink,
Each moment expecting some horrid disaster;
Then my head gave a spin, and I lost—what d'ye think?"

Said St. Peter, "Most likely your *castor.*"—*New York Sunday Courier*.

**CATCH.** A term used among fishermen to denote a quantity of fish taken at one time.

It is said that the *catch* of blue fish in the inlet and river is greater than ever known so early in the season, and that they are served up *secundem artem* at Mr. Williston's.—*N. Y. Courier and Enquirer*, June 24.

**CHAISE.** A light two-wheeled pleasure carriage drawn by one horse. In New England it is called a *chaise*, in New York, a *gig*.

**CHOGSET.** The Indian name of a small fish known in New York as the *Burgall*, which see.

**CHUNK or CHUNKEE YARD.** A name given by the white traders to the oblong four-square yards adjoining the high mounts and rotundas of the modern Indians of Florida. In the centre of these stands the obelisk, and at each corner of the farther end stands a slave post, or strong stake, where the captives that are burnt alive are bound.—*Bartram*.

The pyramidal hills or artificial mounts, and highways or avenues, leading from them to artificial lakes or ponds, vast tetragon terraces, *chunkyards*, and obelisks or pillars of wood, are the only monuments of labor, ingenuity, and magnificence, that I have seen worthy of notice.—*Bartram, Travels in Florida* (1773), p. 518.

This is doubtless an Indian term, and the enclosure a place
where the natives played a game called *chunkee*, as will appear by the following extract from Du Pratz:

"The warriors practise a diversion which they call the *game of the pole*, at which only two play at a time. Each pole is about eight feet long, resembling a Roman f, and the game consists in rolling a flat round stone, about three inches in diameter and one inch thick, and throwing the pole in such a manner, that when the stone rests the pole may be at or near it. Both the antagonists throw their poles at the same time, and he whose pole is nearest the stone counts one, and has the right of rolling the stone."—*Hist. of Louisiana*, 1720.

Adair speaks of the same game, which is by the Indians called *chungke*.—*History American Indians*, p. 402. Catlin notices the same among the Mandans and Creeks, called by them *Tchungkee*.—*Catlin’s Indians*, Vol. I. p. 132.

**TO CIRCULATE.** To travel. Used in this sense many times in a pamphlet on the "Frauds, Extortions, and Oppressions of the Railroad Monopoly in New Jersey." In comparing the rates of travel in various States, by which it is shown that the rates in New Jersey are the highest in the world, the author says:

Arriving in Maryland, a slave State, he *circulates* at a cost of from three to five cents per mile.

**COME-OUTERS.** This name has been applied to a considerable number of persons in various parts of the Northern States, principally in New England, who have recently *come out* of the various religious denominations with which they have been connected; hence the name. They have not themselves assumed any distinctive organization. They have no creed, believing that every one should be left free to hold such opinions on religious subjects as he pleases, without being held accountable for the same to any human authority.

They hold a diversity of opinions on many points—some believing in the divine inspiration of the Scriptures, and others that they are but human compositions. They believe Jesus Christ to have been a divinely inspired teacher, and his religion, a revelation of eternal truth; that according to his teachings, true religion consists in purity of heart, holiness
of life, and not in opinions; that Christianity, as it existed in Christ, is a life rather than a belief.—*Evans’s History of Religions, with Additions by an American Editor.*

**CONIACKER.** A counterfeiter of coin.

**CONNIPTION FIT.** This term is exclusively used by the fair sex, who can best explain its meaning. As near as I can judge, *conniption fits* are tantrums.

**TO COUNT.** To reckon; suppose; think.

> Newman. You’ll pass muster! a proper fine fellow.
> Doolittle. I calculate I be.
> Newman. Ready to enter on duty?
> Doolittle. I should be glad to know what kind of way you count to improve me.—*D. Humphreys, The Yankee in England.*

**Count St. Luc.** Read the superscription. You can read?

> Doolittle. I count I can—and spell, too.—*Ibid.*

**D.**

**DARN.** An expletive in very general use among the vulgar, instead of *damn.*

Now let me see, that isn’t all; I used ‘fore leaving Jaalam, To count things on my finger-ends, but something seems to ail ’em. Where’s my left hand? O, *darn it,* yes, I recollect what’s come on ’t, I haint no left arm but my right, and that’s got jest a thumb on ’t.—*Poetical Epistle from a Volunteer.*

**DASSENT,** for *dares not.* It is vulgarly used in all persons and numbers.

**DEAD HEADS.** Persons who drink at a bar, ride in an omnibus, or railroad car, travel in steamboats, or visit the theatre without charge, are called *dead heads.* These consist of the engineers, conductors, and laborers on railroads; the keepers of hotels; the editors of newspapers, &c.

**DEAD HORSE.** Work for which one has been paid before it is performed. When a workman, on Saturday night, includes in his bill work not yet finished, he is said the following week to ‘work off a *dead horse.*’

**DIPSY.** A term applied in some parts of Pennsylvania to the float of a fishing-line.

**DOBBER.** A float to a fishing-line. So called in New York.
DOUGH-FACES. This term may be regarded as nearly or quite synonymous with another not very much unlike it in form—the English "nose of wax." Generally it means a pliable politician—one who is accessible to personal influences and considerations. It was first applied, however, by John Randolph, of Roanoke, to such Northern members of Congress as manifested especial willingness to fall in with the views and demands of the South on questions involving the "peculiar institution," alias slavery. "These Northern dough-faces," he said, with an intensity of contempt, which may be imagined only by those who have seen and heard him in his sarcastic mood. [J. Inman.]

Thanks to a kind Providence, and the mainly straight-forwardness of John C. Calhoun, the great question of extension or non-extension of human slavery under the flag of this Republic is to be pressed to a decision now. Desperate, idolatrous, and blind as is his devotion to slavery, we would sooner see him President to-morrow than any dough-face in the Union. He is no smooth-tongued parasite—no oily wriggler between resorts which he pronounces more and most detestable. He always strikes directly for what he wants, and boldly for all he wants, and in this boldness finds the elements of success.—N. Y. Tribune, June 29, 1848.

This term has very recently been taken up by the Southerners themselves, to denote men who are false to the principles of slavery, as Northern dough-faces are to the principles of freedom.

There was a disposition in the Senate to evade the question—to slip a bill for the establishment of the Oregon territory through the Senate, without calling attention to the Slavery question, and under the immediate pressure of the demand made for the military defence of the territory from the Indians. The Whigs of the North and of the South were silent. The Democratic Cass men of the North and of the South were mum. Two-thirds of the Senate were dough-faced. There are Southern as well as Northern dough-faces; men looking to the spoils care not for principles,—whether they be of the North or of the South.—Washington Cor. N. Y Com. Adv., June 4, 1848.

I say to our Southern friends, deliver to us the dough-faces; deliver them to our tender mercies. We Democrats of the West and of the North-west will take care of our interests and of yours also. We keep our eyes on the old land-marks—on the letter of the Constitution. You have rights guaranteed to you in the South, and we in the West. You have one species of property, and we another. We have been charged with being dough-faces; and gentlemen who make this charge not only go
the dough-face, but the dough-head. What is the meaning of dough-face? I believe it is, that the dough, being soft, can be pinched and made to exhibit any aspect you please. I believe that animal magnetism has been almost reduced to a science. The principle is, that, by touching a certain part of the cranium, certain effects are produced. If you touch one of the bumps of the dough-head, benevolence turns out for the negro; there is no sympathy for any other kind of person. Touch another bump of the dough-head, and the dough-face will go against every slaveholder for President; but when you touch another, the dough-face will hurrah for old Zack Taylor, although he is a large slaveholder.—Mr. Foote of Mississippi, Debate in Senate, June 22, 1848.

E.

EAST. About east, is about right; in the proper manner. A common slang expression in New England. See walk into, for an example.

EMPIRE STATE. The State of New York; so called from the enterprise of its people, its wealth, population, extent of canals, railroads, etc. In fact everything done by New York is on a grand scale. Hence the name.

F.

FARZINO. As far as I know. See Farziner.

Gen. And what kind of characters are the Count and Countess?

Doolittle. Why, I ha'nt been here such a despud while, as to have larnt myself much about the matter. But by hearsay, they are a topping sort of people, and pretty much like the Boston folks, full of notions. At times, he is obstropulous. He may be a straight-going critter, farzino, manwards; but in his dealings with t'other sex, he is a little twistical.—D. Humphreys, Yankee in England.

FENCE-RIDING. Sitting on the fence, i. e. keeping neutral in politics.

The South will not vote for a Northern candidate, who is nominated as such, nor the North for a Southern man, who is nominated on exclusive Southern principles. In this matter there can be no neutral ground. The dividing line is narrow, but distinct; it admits of no fence-riding; the candidate must be on one side or the other; and when the time shall come, that either the North or the South adopts a candidate on sectional grounds, it will not be difficult to foretell the issue.—N. Y. Mirror.
FRESH. Forward; as, 'don't make yourself too fresh here;' that is to say, not quite so much at home.

Considering that this man is so new a recruit in the party, it is not exactly modest for him to make himself quite so fresh in its counsels.—Newspaper.

G.

GAL. A vulgar pronunciation of girl, common alike in England and America.

GALLS. A kind of low lands in Florida. They consist of a matted soil of vegetable fibres, spongy and treacherous to the foot, unpleasant as well as dangerous to cross.—Vignoles, Florida, p. 91.

TO GOOSE BOOTS. To repair them by putting on a new front half way up, and a new bottom.

GOPHER. In Georgia a species of land turtle, burrowing in the ground in the low country. It is able to walk with a heavy man on its back.—Sherwood's Georgia.

GOPHER. A little animal found in the valleys of the Mississippi and Missouri rivers. See Prairie Dog.

GRANITE STATE. The State of New Hampshire, so called from the abundance of this material found in it.

GREEN MOUNTAIN STATE. The State of Vermont.

H.

HAMMOCK. In Florida, a term given to a particular kind of land. The low hammocks are the richest in the country, and are capable of producing, for many successive years, rich crops of sugar, corn, hemp, or other equally exhausting productions. In their primitive state they are clothed with so heavy a growth of timber and underwood, that the task of clearing them is appalling. The low hammocks are, if possible, more dense in their growth than the others, but the coat of vegetable matter is thin, and the white sand lies within
a foot or eighteen inches of the surface. They are also very productive.—Vignoles, Florida, p. 87.

"Head Quarters, Army of the South,  
Fort Brooke, July 29th, 1838."

"Sir:—I have the honor to inclose you a communication this moment received, on the subject of procuring bloodhounds from the Island of Cuba, to aid the army in its operations against the hostiles in Florida. 

"I am decidedly in favor of the measure, and beg leave to urge it as the only means of ridding the country of the Indians who are now broken up into small parties, and take shelter in swamps and hammocks as the army approaches, making it impossible for us to follow or overtake them without the aid of such auxiliaries.

"I wish it distinctly understood that my object in employing dogs, is only to ascertain where the Indians can be found, not to worry them."

"I have the honor to be, Sir, &c.,

"U. S. A. Commanding."

HAT. Our American women have almost discarded the word bonnet, except in "sun-bonnet," and use the term hat instead. A like fate has befallen the word gown, for which they commonly use frock or dress.

HAW-BUCK. A term used by the farmers in driving their oxen; and hence often applied to a rough and unpolished man from the country.

"Mr. Jones," says a sleek, cunning, demure expectant of something nice in case of a Whig triumph, to a bluff, haw-buck sort of a fellow whom he drops in upon on one of his circuits, "who do you think we ought to run for President this time?" "Run who?" retorts Mr. Jones, "Harry Clay, to be sure—I haven't heard anybody else talked of up our way."—N. Y. Mirror.

HELP. The common term in New England for a domestic servant—also for the operatives in a cotton or woolen factory.

Newman. I speak; I command; all budge; all jump. I don't often stand to hear servants argue.

Doolittle. Servants argue! ! Do you mean me, Mister?

Newman. I say, all that wear the Countess's livery, serve her. You are a footman; you have not the honor of being her body servant.

Doolittle. Body servant! Hah! no; I hope I ben't her body servant, nor anybody's servant, nor your servant. I don't choose to be a servant of servants, and a slave to the devil. (High words follow, Doolittle gets into a passion—Newman becomes alarmed, and thus explains himself:)
Newman. You are our principal help. That is all. I told you at first I wanted you to help the Countess. You know that is a descriptive term in New England. Help is not a discreditable name—not at all derogatory. There is nothing degrading in helping, is there?

Doolittle. Why—no—I believe there an't. You now begin to seem rational, and I'll make up with you.—D. Humphreys, The Yankee in England, Act I.

HOUSE-HUNTING. In the city of New York all houses are let from the 1st day of May, and the landlords have assumed to themselves the right of requiring from their tenants a decision, as to whether they will keep their houses or not, three months before the period for which they hired them expires. On those houses which are not hired for another term (usually a year) "bills" are put up by the landlords, signifying that they are to let. Persons who intend to "move," traverse that section of the city in which they desire to establish themselves, in search of a suitable house, in which search they are guided by the landlord's "bills." This is called house-hunting, and is practised by thousands every year in the city of New York.

Polly began to grow uneasy now, because we hadn't got no house, and said I ought to go a house-hunting as everybody else did, or else we should be turn'd out of doors.—Maj. Downing, May-day in New York.

HOW FARE YOU? This is a common expression in those parts of New England for 'How do you do?' It is pronounced short, as, 'How fa' ye?'

Newman. What, come back so soon? How fare you, Doolittle?

Doolittle. Cleverly. Steady, pretty steady, and quite chirk again; I thank you.—D. Humphreys, The Yankee in England.

HUM, for home, common in New England.

Well, well, I know it now—'hum is hum, be it ever so humbly.' I am desped sick of being in strange parts. I wish I was at hum agin, under mother's own ruff, I guess—I know I do.—D. Humphreys, The Yankee in England.

HURRYMENT. Hurry; confusion.

I always hate to kiss old women what hain't got no teeth, and I was monstrous glad old Miss Stallins had her handkerchief to her face, for in the hurryment I kissed it.—Maj. Jones's Travels.
I.

IN, for into. Mr. Coleman, in remarking upon the prevalence of this inaccuracy in New York, says: "We get in the stage, and have the rheumatism into our knees."—N. Y. Evening Post, Jan. 6, 1814. An observing English friend at Philadelphia also speaks of its frequent use there in the following terms: "The preposition into is almost unknown here. They say, 'When did you come in town? 'I met him riding in town.'"—Pickering.

INDIAN SUMMER. A period of warm weather late in autumn, when, it is said, the Indians go hunting to supply themselves with the flesh of wild animals for provisions in the winter.—Webster.

J.

JOHNNY-CAKE. A cake made of Indian meal mixed with milk or water. A New England Johnny-cake is invariably spread upon the stave of a barrel-top, and baked before the fire. Sometimes stewed pumpkin is mixed with it.

Some talk of hoe-cake, fair Virginia's pride,
Rich Johnny-cake this mouth has often tried.
Both please me well, their virtues much the same;
Alike their fabric, as allied their fame,
Except in dear New England, where the last
Receives a dash of pumpkin in the paste.—Joel Barlow, Poem on Hasty Pudding.

K.

KEYSTONE STATE. The State of Pennsylvania. So called from its being the central State of the Union at the time of the formation of the Constitution.

KILL. (Dutch kil.) A channel, or arm of the sea; a stream; river. This Dutch appellation is still preserved in several instances; thus the channel that separates Staten Island from
Bergen Neck, is called the *Kills*; to which we may add the names *Schuylkill* and *Catskill*, applied to streams.

**KILLIFISH.** (*Genus fundulus.*) A small fish found in the salt water creeks and bays, from one to five inches in length. It is only used for bait for larger fish. The name is Dutch from *kill*, a channel or creek (which see), where the fish is only found. They are often called *killies*.

**KISS-ME-QUICK.** A homemade quilted bonnet which does not extend beyond the face. They are chiefly used to cover the head by ladies when going to parties, or the theatre.

**KIT.** *The whole kit.* An expression common in various parts of the country.

The *clymit* seems to me jest like a teapot made o' pewter
Our Prudence had, that wouldn't pour (all she could do) to suit her;
Fust place the leaves would choke the spout, so's not a drop would dreen out,
Then Prude would tip, and tip, and tip till the whole *kit* bust clean out,
The *kiver-hinge-pin* bein lost, tea leaves, and tea, and kiver
Would all come down *kersvosh!* as though the dam broke in a river.—_

*Poetical Epistle from a Volunteer.*

**L.**

**TO LINE.** To fish with a line. *So, to seine, i.e. to fish with a seine.* I have never seen these words used except by Dr. J. V. C. Smith, in his History of the Fishes of Massachusetts; and for so interesting a book the Doctor is well entitled to the privilege of coining a phrase or two.

The *squateague* is taken both by *lining* and *seining*, and because it makes such feeble exertion and resistance, in being drawn in by a hook, it has received the appellation of *weak fish.*—*Fishes of Massachusetts.*

**LINES.** The reins, or that part of the bridle which extends from the horse's head to the hands of the driver or coachman.

**LITTLE END OF THE HORN.** 'To come out at the *little end of the horn,*' is said when a ridiculously small effect has been produced after great effort and much boasting.

**LOAFER.** The origin of this word is altogether uncertain. Two etymologies have been suggested for it, viz. the German
lanfer, a runner; and the Spanish gallopo (whence the Ital. gaglöffo,) a wandering mendicant; a vagabond.

TO LOGICIZE. To reason.

And I give the preliminary view of the reason; because, since this is the faculty which reasons or logicizes, &c.—Tappan's Elements of Logic, Preface, p. 5.

M.

TO MAKE ONESELF SCARCE, is to leave; to go away.
ME, for I. The objective case of pronouns is often used for the nominative by the illiterate. In New York it is very common to hear such choice expressions as 'Me and him went to the play last night.'

METAPHENOMENA. The primordial facts of our being, which, although known by necessity of reason to exist, are not the immediate objects of consciousness.—Tappan.

METAPHENOMENAL. Relating to metaphenomena.

The immediate objects of our consciousness are phenomena, and these only are phenomenal; while those objects which, by supposition, lie beyond immediate consciousness, are metaphenominal.—Tappan's Elements of Logic, p. 12.

MOOSE-YARD. In the State of Maine, an area in which moose tread down the deep snow in winter.

N.

NIGH UPON. Nearly; almost.

I got your letter and razor-strap. It's a complete strap as you ever see; and as soon as it was known about here that I had received it, nigh upon all our folks have been sendin' to borrow it.—Maj. Downing, Letter 27.

NOMOLOGY. That branch of philosophy which treats of law in general.

This at once introduces us to the Doctrine of Law or Nomology, which is the second grand division of philosophy.—Tappan's Elements of Logic.

NOMOLOGICAL. Relating to nomology.

The observations of the senses yield us only limited successions and recurrences of phenomena. These have antecedence in the order of time. But Law, eternal, absolute, and universal, has antecedence in the order of necessary existence, and is an idea of the Reason. It is the Idea of Ideas under the nomological conception.—Ibid.
OLD DOMINION. The State of Virginia.

OUTSIDER. A term of recent origin among politicians, applied to persons belonging to parties unconnected with the two great leading political divisions of the country, Loco-focos and Whigs. The term was first used in the Baltimore Convention in May, 1848, when a leading politician stigmatized that portion of the Democratic party known as the Barnburners, as outsiders, classing them among the Abolitionists, Agrarians, Native Americans, etc.

With the outsiders of all descriptions, Barnburners, and everybody else with a spark of independent patriotism, the nomination of General Taylor is equally a cause of delight. All the Whig papers give in readily, manfully, and sincerely.—N. Y. Mirror, June 10, 1848.

Why do we find the outsiders of all creation—Tylerites, nullifiers, Loco-focos, and no-party men—going in with such a rush for General Taylor? It looks odd that the Journal of Commerce, Herald, Sun, etc., should become so enamored all at once of a straight-forward Whig, as to urge his election to the Presidency!—N. Y. Tribune.

OUT AND OUT. Thorough.

Henry Clay is such a statesman as the country wanted. We want a long tried, well known, universally understood, undeniable, straight-forward, out and out Whig.—Mr. Fowler's Speech at the Clay meeting in New York, June 2, 1848.

TO PARMATEER. To electioneer; evidently a corruption of parliamenteer, to electioneer for a seat in parliament. This term is very common in the State of Rhode Island, beyond which I think it does not extend.

TO PETTIFOG. To play the pettifogger.—Johnson. This old verb has just been revived by political writers.

On Saturday evening Gen. Cass reached this city from New York. Persons were sent about to drum up a crowd; but free white men could not be found or hired, to welcome the embodiment of slavery-propagandism. The thing was a dead failure. When Mr. Peckham, who has pettifogged
many a desperate case with unwavering assurance, undertook to welcome the conservative leader in the name of the Democracy of Albany, he broke down.—*Albany Atlas*, June 13, 1848.

Senators Allen, Houston, and Bright *pettifog* for Cass to-night in Albany, this being the tenth or twelfth day since they did anything for the eight dollars per day that they are steadily drawing from the Nation's consumptive Treasury—or rather adding to its plethoric debt.—*N. Y. Tribune*.

**PICK.** In mercantile usage, and among manufacturers, a *pick* is a thread. The relative quality of cotton cloth is denoted by the number of *picks* it has to the inch.

**PINKY.** (Dutch, *pink*) The little finger. A very common term in New York, especially among small children, who, when making a bargain with each other, are accustomed to confirm it by interlocking the little finger of each other's right hands and repeating the following doggerel:

*Pinky, pinky, bow-bell,*  
*Whoever tells a lie,*  
*Will sink down to the bad place,*  
*And never rise up again.*

**TO PLAY POSSUM.** 'He's *playing possum* with you,' is a common expression at the South and West, and means that he is deceiving you. The *opossum*, it is said, when attacked by a dog, will pretend to be dead, and often deceives his pursuers; hence the expression.—*Sherwood's Georgia*.

**POLT.** A blow. 'He gave him a *polt* on the head.' Used in New England and New York.

**PLAY-ACTOR.** A theatrical performer. The expression is objectionable, because the term *actor* is itself a technical word, which expresses the full meaning conveyed by the compound. In England they always say simply *actor* or *player*.

**POT-PIE.** A pie made by spreading the crust over the bottom and sides of a pot, and filling up the inside with meat, i.e. beef, veal, mutton, or fowls.

An enormous *pot-pie*, and piping hot, graced our centre, overpowering, with its fragrance and steam, the odors and vapors of all other meats; and *pot-pie* was the wedding dish of the country, par excellence! The pie to-day was the doughy sepulchre of at least six hens, two chanticleers, and four pullets! What pot could have contained the pie is inconceivable. Why, among other unknown contributions, it must have received one half...
peck of onions! And yet it is to be feared that many would be pot-pieless.

PROSPECTING. Hunting or searching for lead. The process is thus described in a sketch of Life on the Upper Mississippi:

"The chief mart of the lead trade is in the town of Galena, built upon a small, sluggish stream. In travelling through the upland prairie of this neighborhood, you will see many hillocks of earth, as far as the eye can reach, as if some huge animal had been burrowing beneath, and had thrown up the dirt in that manner; but you may, by chance, meet two or three men with a bucket, a rope, a pick-axe, and a portable windlass, and the difficulty is explained. This, in the language of the country, is a prospecting party; which, being interpreted, means that they are on the look-out for ore, if it is to be found within ten or fifteen feet of the ground; having come to the end of the rope at about that depth, and found nothing, they remove elsewhere, the prospect not being good. When ore is found, they either sell out their discovery, or mine the vein on a small scale themselves."—N. Y. Literary World, June 3, 1848.

TO PUT OUT. To remove; to be off. A Western expression. To put is used in the same sense.

As my wife's father had considerable land on Blue Fox river, and as we wanted a little more elbow-room, I says one day to Nancy, "Nancy," says I, "Idad, 'spose we put out and live there."—Carlton, The New Purchase, Vol. I. p. 172.

ROLLING PRAIRIE. The following excellent definition of this term is from the pen of Judge Hall:

"The vast plains or prairies of the West, although preserving a general level in respect to the whole country, are yet in themselves not flat, but exhibit a gracefully waving surface, swelling and sinking with an easy slope, and a full rounded outline, equally avoiding the unmeaning horizontal surface, and the interruption of abrupt or angular elevations. It is that surface which, in the expressive language of the country, is called rolling, and which has been said to resemble the long, heavy swell of the ocean, when its waves are sub-
siding to rest after the agitation of a storm. Such are *rolling prairies.*"—Judge Hall, *Notes on the Western States.*

S.

**SABBADAY.** Sabbath day, Sunday; so called in the interior of New England.

*Newman.* You look better; I hope you feel better, and are better?

*Doolittle.* Why, I expect I do, and I guess I be, all three. I know I be, as to the first particular, changing my old shabby duds, for these new *Sabbaday* clothes, for a go-to-meeting day, anywheres.—*D. Humphreys, The Yankee in England,* p. 29.

**SARVES,** for *preserves.* So pronounced in some parts of the West.

We had also [for dinner] custard pies, and maple molasses, (usually called 'em 'are molasses,) and preserved apples, preserved water-melon-rinds, and preserved red peppers and tomatoes—all termed, for brevity's sake, (like words in Webster's Dictionary,) *sarves.*—*Carlton, The New Purchase,* Vol. I. p. 183.

**SALAD.** In the Northern States often used specifically for lettuce, of which salad is frequently made.

**SAULT.** (French.) The rapids of the St. Lawrence, and those connecting the Upper Lakes, retain the French name; as, Sault St. Mary, etc. Pronounced soo.

**TO SEE HOME.** 'To see a lady home,' is to wait upon or attend her home from a party or elsewhere.

The eventful day was closing, and some had already taken French leave. But at the request of some young fellows, who offered to see the galls home, we left our helps to have some fun after the graver people should be gone away.—*Carlton, The New Purchase.*

**SHANTY.** A mean cabin or shed.—*Worcester.*

The best residences in the slave States are made disagreeable by the proximity of huts and *shanties* for negroes, which, in Charleston, offend the eye everywhere except in the streets devoted to trade.—*Letter from Charleston, N. Y. Tribune,* April, 1848.

**SHINGLES.** The name of an eruptive disease which takes the form of a belt (cingulum) around the body.

**SHORT GOWN.** A short gown with hardly any skirt, worn by women when doing household work, as washing; &c.
TO SIMILATE. To put on the appearance of that which does not really belong to the subject.

And this holds true both of actions which similate the intellect, and those which similate the moral sense, such as gratitude and shame in a dog.—Tappan's Psychology (not published).

SIMON PURE. Genuine; real.

A merchant in Boston paid $500 for a portrait of Washington by Winslow, believing it to be by Stuart, which he presented to the town. It was put up in Faneuil Hall. . . . The connoisseur was laughed at. He had been deceived; he thought it a real Simon Pure.—Dunlap, Arts of Design.

SISTERN, for sisters. A vulgar pronunciation sometimes heard from uneducated preachers at the West.

"Brethurn and sisturn, it's a powerful great work, this here preaching of the gospel, as the great apostle hisself allows in them words of hisin what's jest come into my mind; for I never knewed what to preach till I ris up."

TO SKUNK. To utterly defeat. In games of chance, if one of the players fails to make a point, he is said to be skunked. A presidential candidate who fails to secure one electoral vote is also skunked.

SMACK SMOOTH. At the West, a term applied to land which is thoroughly cleared; i. e. smoothly cleared; level. It is also used in England in the sense of level.—Craven Glossary.

SOCIALISM. A social state in which there is a community of property among all the citizens—a new term for Agrarianism.—Webster.

SOCIALIST. An advocate of socialism.—Worcester.

SOCIALISTIC. Appertaining to the principles of socialism.

And now let us briefly assure the Courier that it is greatly, grievously wrong in supposing that we shrink, or falter, or despond with regard to the future of France, in view of the proumence and imminence given to social theories and ideas by the new Revolution. On the contrary, our columns will bear witness that we have, from the hour that the fall of Louis Philippe was known here, to this moment, profoundly rejoiced in the Revolution itself, and more especially in its socialistic aspects and tendencies.—N. Y. Tribune, April 25, 1848.
SOME PUMPKINS. A term in use at the South and West in opposition to "small potatoes." The former is applied to anything large or noble; the latter to anything small or mean.

Although the Mexican women are not distinguished for beauty, I never remember once to have seen an ugly woman. Their brilliant eyes make up for any deficiency of feature, and their figures are full and voluptuous. Now and then, moreover, one does meet with a perfectly beautiful creature; and when a Mexican woman does combine such perfection, she is "some pumpkins," as the Missourians say when they wish to express something superlative in the female line.—Ruxton's Adventures in Mexico, p. 57.

Cass is some pumpkins, and will do the needful in the office line if he is elected, which I hope and trust will be his fate. I am no Democrat, as embraced on their whole platform, but I am, what I conceive to be, a least evil man.—Letter from New Orleans, N. Y. Herald, June 21, 1848.

SOUTHRON. A term borrowed from Scotland, and often applied to natives of the South; a Southerner.

Walker is a dexterous, busy intriguer, and may shuffle the cards so as finally to turn himself up for President; but we think he sees that the skies are squally, and will insist on running a Northern man now, so that he may cut in for himself in 1852. If so, he will prevent the nomination of Gen. Butler, or any other Southron.—N. Y. Tribune, May 22, 1848.

SPLIT TICKET. When two or more important offices are to be filled at the same time, the wire-pullers of each party select the men they wish their party to support, and print their names on a ticket to be deposited in the ballot-box. It sometimes happens, however, that individuals choose to think for themselves, and consequently erase one or more of the names and substitute others more to their liking. This is called a split ticket.

Well, Jonathan, you intend voting for Gen. Cass and the regular Democratic nomination, don't you?

Jonathan. Not by a jug full, I can tell you. I am an out-and-out Democrat—dyed in the wool, and have stood up to the party through thick and thin. But I'll vote for no Northern men with Southern principles—no dough-faces for me. Vote for Cass?—why, he's the very boss of dough-faces. No, I'll vote a split ticket. I'll scratch out the dough-face and put in a Free Soil name. I'll go the regular nomination, only substituting the name of Van Buren for Cass.—Newspaper, June, 1848.

SPOILS, i.e. the spoils of office. The pay and emoluments of official station—specifically referred to as the leading induce-
ments to partisan activity, and as distinct from political zeal generally. [J. Inman.]

It has been asserted that to the victors belong the spoils. Let us determine that we will be the victors, and that if we must have the spoils they shall be appropriated to the good of the country.—Speech of the Hon. Mr. Morehead to the Whig National Convention in Philadelphia, June, 1848.

There is a slight misgiving in the minds of the Loco-focos, that Gen. Cass will not have it in his power to reward many partisans; and by filling the important offices just on the eve of departure from office, they hope to perpetuate their possession of the spoils for four years after they shall have sunk to that profound depth to which Senator Hannegan consigned them, in spite of the impotency of the arm of political resurrection!—Cor. of N. Y. Tribune.

Men looking to the spoils care not for principles,—whether they be of the North or of the South.—Washington Cor. of N. Y. Com. Adv.

It is estimated that there are at least sixty thousand office-holders under the general administration, and that the amount of plunder annually distributed by government, is equal to forty millions of dollars, which is expended in a thousand and one ways. The party which has the command of these office-holders, and the scattering of this vast amount of spoils, is possessed of a potent weapon.—N. Y. Herald, June, 1848.

SQUASH. A culinary vegetable. (Genus, cucurbita.) It is not necessary to resort to the Greek σκορβυς, as certain lexicographers do, for the etymology of this word. It is Indian, and is often mentioned by the early writers.

In summer, when their [the Indians'] corn is spent, squonter squashes is their best bread, a fruit like a young pumion.—Wood's New England, 1634, p. 67.

STORE PAY. Payment made for produce or other articles purchased, by goods from a store, instead of cash. This is a common way of buying produce in the country. Sometimes a merchant agrees to pay half in cash and half out of his store, i. e. store pay.

SWASH. To shake water about from side to side, as in a tub or barrel.

T.

TAG. A slight touch. A boy touched by one who is in the first instance fixed upon to commence the game, is in his turn obliged to overtake and touch another of the party, when he
cries *tag*, and so the game proceeds. According to Mr. Halliwell the same game is played in Warwickshire, where it is called *tick*.

**W.**

WHAT, for *that* or *who*. A vulgarism often heard amongst us, but probably still more common in England.
